The NAACP Should Tell Blacks To Grow Up

by Tony Brown

Some neo-terrorist loyals look for their most logical target, they think of the NAACP. To the NAACP, the neo-terrorists symbolize the ultimate example of the spread of White racism. From blackuplicated store fronts, these terrorists fired shots into the NAACP office in Baltimore. In August, a black federal judge in Baltimore correctly declared that the terrorists exploded in the NAACP office in Milwaukee. On the following day, a similar bomb exploded in a NAACP office in Jacksonville, Florida. NAACP. She avoided certain deaths. On January 1, 1990, the NAACP headquarters throughout the country was under fire. These attacks are not aimed at Jim Hooks and his staff, but in the heart of their office.

Perhaps your chances of being hurt or killed if you don’t work in a NAACP office you are not a NAACP member and you just think of yourself as a good, if you are lucky and poor being a NAACP member. That’s why the NAACP has signed 49 “fair share” economic agreements with national businesses since 1982 and is currently serving 700,000 members, a 50% increase in the membership.

The fair-share concept, as explained, is simple: if you work for a company that has a NAACP contract, you have to pay a “fair share” of your income for your membership in the NAACP. The “fair share” amount is based on the company’s profits. For example, black managers alone may have paid over $250,000 in the last year. The NAACP therefore avoids taking the risk of going to court to collect these funds.

The National Association for the Advancement of Colored People (NAACP) is the world's oldest and largest civil rights organization. It was founded in 1909.

When the District of Columbia NAACP branch sent off their 2,000 letters in April 1990 asking the black community to support anti-segregation, Timothy Pratt, the head of the organization, was to talk about how to get money to the NAACP offices in DC. He went to talk about how to get money to the NAACP offices in DC. He went to talk about how to get money to the NAACP offices in DC.

As of today, we have not received a single letter from the NAACP offices in DC. We have not received a single letter from the NAACP offices in DC. We have not received a single letter from the NAACP offices in DC. We have not received a single letter from the NAACP offices in DC.

ICAN's "Great Beginnings For Black Babies" Campaign Deemed A Success!

ICAN, Inc. (International Communications & Advertising Network), Los Angeles' oldest Black advertising agency, has successfully implemented "Great Beginnings" campaign back in February by the JWCH Institute, Inc. and the Los Angeles County Department of Health Services.

As Mr. Kim Hunter, Executive Vice President/General Manager of ICAN states, "Great Beginnings For Black Babies" has been one of our most important projects as we attempted to inform the Black community about the importance of prenatal health care.

During the past five months we have been at work diligently in an effort to produce strong, healthy and happy African American children.

Through the efforts of ICAN, Inc., seven radio spots, four television commercials, two newspapers ads, two brochures and two posters have been completed and distributed to various media outlets.

In addition, 400 billboards and 200 bill inserts are currently in circulation in the Black Community. A 30-minute mini-documentary has been completed for airing across a local cable network.

Celebrity representation includes Marla Gibbs and Hal Williams as spokespersons for the campaign while numerous others have donated their time by taping public service announcements, including Anna Maria Horsford, Ice-T, Lynn Hamilton, The Money Twins, and Charnele Brown.

Currently in production and scheduled for completion are a maternity calendar, incentive maternity coupon books, and a community reference guide.

Funded by the State of California Department of Health Services, Maternal and Child Health Branch and the March of Dimes Birth Defects Foundation, Southern California Chapter, the campaign is in need of continued funding.

Corporate backing is being solicited and is desperately needed to insure the long term impact of the campaign. As Hunter notes, "A recent study on public service campaigns indicates that short term public service campaigns have limited effect in changing health habits. Therefore a long term perspective is needed because it takes time to change health habits."

For further information regarding "Great Beginnings For Black Babies" contact ICAN at (213)393-4374.

Our Bodies

Marijuana May Be Rougher On Your Body Than Cigarettes

Dear Dr. Levister,

Does daily smoking of marijuana damage the lungs as badly as daily smoking of tobacco cigarettes?

A marijuana smoker

Dear Smoker,

We know that daily smoking of cigarettes causes symptoms of chronic lung disease such as cough, spum production, and wheezing. The ability to get air out of the lungs is obstructed.

People are now telling their health professionals about their marijuana smoking habits. The data is rolling in.

People who smoke tobacco and marijuana are more likely to have symptoms of chronic bronchitis than people who smoke tobacco only.

People who smoke marijuana only are twice as likely to have symptoms of chronic bronchitis than non-smokers.

Incidentally, non-smoker rarely have chronic bronchitis.

On some lung function tests the smoking of marijuana without cigarettes led to worse results than smoking tobacco alone.

Males who regularly smoke marijuana but not tobacco have significant abnormalities in their airways when tested.

Female who smoke marijuana had no signs of airway obstruction on testing. This may be because they smoke less marijuana than males.

Smoking marijuana appears to put more harmful substances into your lungs than cigarettes.

It will take time and honesty on the part of the patient in revealing their history of marijuana smoking to determine if the lung function tests have significance.

The increased exposure with marijuana is in part because the inhalation is deeper and breath holding is longer than with cigarettes.

Dr. Levister welcomes reader mail concerning their body but regrets that he is unable to answer individual letters. You may direct your letters to Dr. Levister in care of Voice News, P.O. Box 1891, Riverside, CA 92402.

An Education Experience: The year-round education program had a terrific beginning. Someone said a "Traffic Jam" at one of our school sites isn’t wonderful that the only complaint of major proportion the first two days of our first year round school experience was a traffic jam?

Suppose no students showed up at all, or the parents were unwilling to bring the children to school. Imagine what the Press Enterprise would have written if a local gang had decided to make one of our schools their territory.

Suppose we did not have top administrative personnel, along with dedicated teachers and classified workers, to provide the best care and education for the youth attending school in Moreno Valley.

I was at North Ridge the second day, I would like to ensure that "Traffic Jam" an "Terrific Jam," which is composed of grapes and apples. Our first jam last week was composed of a wonderful mixture of caring and sharing parents.

Some came over and talked with me as I walked with the traffic. The citizens of Moreno Valley are happy to see so many future leaders take education to the heart. What a "Terrific Jam.""}

As I visited the Serrano School and Northridge Magnet School, I was shown various rooms by the administration. It was a pleasure to see happy smiling faces learn, and watch a dedicated staff work. Everyone seemed to have one thing in mind, that is to give our young people the very best instruction possible, while helping to develop the type of self-esteem possible, while helping to develop the type of self-esteem...
