Campus Community Comes To Victims Aid

While the college is assessing the damage, picking up after last week’s fire, it was also thinking about those who were victims of the fire. Several programs have been initiated to aid those who lost their homes in the fire storms.

The first program to get off the ground was the Fire Victims Relief Fund set up through the Foundation. The fund will make cash grants to students, faculty and staff who were fire victims.

The Fire Victims Relief Fund was established with a $400 donation from the President’s Club Fund. Individual donations quickly increased the fund to $500 by last Wednesday. The Foundation is planning to make the first distribution of funds on Friday, December 5.

Contributions to the fund are tax deductible. Contributions should be sent to Beverly Dyer in the Foundation Office (AD-108).

In addition to direct contributions, the proceeds from this Thursday’s dance will be contributed to the fund. The dance, which is sponsored by the Associated Students, will be Thursday night, December 4, in the Student Union.

Admission to the dance will consist of a one dollar contribution to the fund. Tickets are now on sale at the Student Union Reception Desk and will be sold at the door.

The Associated Students have set up a loan fund to provide interest free loans to students who are fire victims. Students interested in receiving a loan under this program should contact the Financial Aid office (SS-7741) for further information.

The Associated Students is also collecting household items for distribution to fire victims. They are particularly interested in collecting tableware, small appliances and kitchen items.

Persons who have items that they would like to donate should take them to the Student Union Reception Desk as soon as possible.

The Activities Committee of the Associated Students has begun exploring the possibility of putting on some sort of community concert where the proceeds could go to some relief organization such as Lend-a-Hand or the Red Cross. No details or decisions were available at press time.

Dear Child,

You were not mine to watch you fling off toys, nor yet are you the lady and dreamed of love not knowing lust. Launching ships with earthly beauty all the while caught up in the hell. You are not the brat, nor yet are you the lady.

You may be a Curie', receiving fires from the God and speak the truth you know, doomed to see as Cassandra and seeing it do its deadly work while crying for God to take it back your eyes as I, and you too shall.

It is not our lot More of everything to lay upon the edge all these things that you can be. and in this place you will learn of the old one piece, single school—by the pencil break, sticking up with hot and cold walking penquins in somber gowns and formal, white starched shirt. I thought in Algebra not knowing why, and many things to many folks, my sinful head in over the thoughts puzzled at her watched pleasures mingled with a want to stick them out some more.

Advice to a Suicide

Crush higher, so the leap will be longer, and the time will stretch to infinity before you stay on the pavement. For you do not want to die, only to be missed enough to be kissed instead of kicked.

She sat across the aisle from me, in a training bra, which did more to beckon, than protect. More to emphasize, than guard. More of everything to lay upon the edge of the old one piece, single school—room desks on runners, to be gouged by the pencil break, sticking up to that which strove to stick out in the old room, high-ceilinged, with hot and cold walking penquins in somber gowns and formal, white starched shirt fronts and wimpled down hair, people married to Christ, who would knock my sinful head in over the thoughts I thought in Algebra not knowing why, of the girl across, and down the aisle, who looks back now and then, puzzled at her watched pleasures mingled with a want to stick them out some more, without knowing why.

I am Death, covered in pleasure riding the highlands of sense, seeking dreams to still yearnings and a sea that will not quit in orgasmic outpourings, assuming the fondest tie of all.

Prattle on my dear My little metal men Dance to my tune

They all belong to me, As I to you. And one day I shall learn From them that I too. Can tell me what to do

A gentle kiss can turn a pervert's tide into a noxious Shakespearean Drama of sugary silk, clinging coyly to beliefs dominating reality.

What lies beneath, in the shape of beckoning tits and ass before you stay only a cosmetic, illogical pillow.

Kill me too, once more and again so I can join the few, once-valued souls, in the inflationary spiral ending in nothing but the end to what never was, nor could be.

In a world void of amens, where we want to be and nothing ends, this price of souls has dropped because he made so many of them.

CHILD CARE CENTER TO OPEN LATE
Jesus of Nazareth
Claremont Scholar To Teach History

An internationally known Biblical scholar, Dr. James M. Robinson of Claremont, will teach an upper-division history class entitled 'Jesus of Nazareth' at Cal State, San Bernardino during the winter quarter.

Enrollment in the class is available to students under several options, including admission to the college or registration through the Open College program of the Office of Continuing Education. Dr. Robinson is the director of the Institute for Antiquity and Christianity at the Claremont Graduate School. He will teach the class, designated as History 395, from 6-9:50 p.m., Wednesday form Jan. 7-March 1.

Dr. Robinson is a former student of Karl Barth, who is considered to be one of the leading thinkers of 20th century Protestantism. An internationally known Biblical authority in his own right, he will devote the course to what scholars today consider the most authentic sayings of Jesus. He intends to move back from the latest editions of the gospels to the oldest written sources ('Q' and the Miracles Source used by John) and then through oral tradition to the sayings one can ascribe to Jesus.

Dr. Robinson will discuss Jesus' teachings, what historians say about him, and the relevancy today of the precepts. Enrollment in the course for regular college credit is subject to meeting the requirements for admission to the college. Alternatives are enrollment through the Open College program of the Office of Continuing Education or auditing the class.

He has been working for this moment his entire life. This is his last chance. For her, this could be the beginning. And it would be the perfect love story if it weren't for...

Negative Pyramid Featured in Senior Art Show

By Sonya Sweeney

Herald Dexter of San Dimas, an art major here will have his senior art show in the Art Gallery Dec. 1st through the 10th. in conjunction with this show, several Cal State students will display their works in the gallery.

Sculptures and functional items exemplifying the techniques of clay, stone, wood and sand will be shown by Tony Grano, Riverside, Karl Hager, Sunny mead, Tom Ruvolo, Sunny mead, and Gary Conmotto, San Jacinto.

The negative form seen through the cube is green, light blue and yellow hues. The colors are used to create a pattern and serve to enhance each piece.

The glass sculpture is created by stacking squares of plate glass to form a cube. The negative form is achieved by cutting a pyramid shape out of the center of the inner pieces. The glass sculpture is created to enhance each piece.

The CSCSB Imagination Players are a diverse variety of theatre arts majors. This year the players are Julie Wright, Brent James, Ana Chavez, Ivan Glasco, Christopher Michael Brando III, Bill Greely, Debbie Bankler, Mike Heister, and Kimberly Maggio. By playing a number of roles, the players are able to exercise their individual creativity.

Dr. Rudisill is pleased with the group, yet hopes to expand the IMPS by next quarter and even more by next year. By expanding the group, Dr. Rudisill hopes to fulfill the many requests the group has received. This year she has already had to turn down 24 schools for a performance by the group. Dr. Rudisill believes that the group hopes to have another season of growth and continue the program in its present style.

Economic Growth Seen For 1981

If you were thinking of investing in beans, meat, or gold in anticipation of a slump in the U.S. economy — you still might, but for other reasons. According to Dr. Raymond Jallow, chief economist of United California Bank in Los Angeles, the U.S. economy will undergo moderate growth in 1981 and that California's economy for the coming year will virtually boom.

In its 18th annual economic forecast, the bank said that "strengths in the economics will be generated by higher consumer and business spending together with sizable federal outlays for defense. As a result, GNP will be up 2.1 percent in 1981." The report also said that the national unemployment rate would decline during the year, ending 1981 at about 6.5 percent. Dr. Jallow pointed out that "the major problems of high inflation and high interest rates of 1980 will not be solved in 1981."

The need for the Federal Reserve Board to maintain the tight against inflation, combined with sizable federal outlays for defense. As a result, real GNP will be up 2.1 percent in 1981. The report also said that the national unemployment rate would decline during the year, ending 1981 at about 6.5 percent. Dr. Jallow pointed out that "the major problems of high inflation and high interest rates of 1980 will not be solved in 1981."

Cal State Wants To Send You Away

International Programs Open.

Ever wonder what it would be like to sit on a sidewalk café in France, watch a bullfight in Spain or even see the pyramids of Mexico? Well, wonder no more!

The International Programs an official statewide academic unit of the California State University and Colleges is offering a variety of programs in a choice of 14 countries with study opportunities at distinguished institutions throughout the world.

The program offers programs in the following countries: Brazil, Denmark, France, Germany, Japan, Mexico, New Zealand, Peru, Poland, Sweden, and Spain.

While overseas students remain officially enrolled at their home campuses in California and thus earn residence credit during their year of study abroad, this program was established by the Trustees of the California State University and Colleges in 1969.

Students who are planning to be enrolled at any CSUC campus are eligible to apply. To meet minimum selection requirements, applicants must: have earned an overall average of 2.25 at the time of application; and have earned an overall average of 2.25 at the time of application.

Applicants are judged on the suitability of the curricula offered in relation to their academic objectives and on their ability to adjust to a foreign environment. Initial selection is made by a faculty committee on each campus with final approval by a statewide selection committee.

Students enroll in the International Programs for an academic year of study and are required to carry a full unit course load equal with their class standing.

Applicability of the units earned abroad toward degree requirements on the home campus will vary, depending upon the student's major and the extent to which he/she has previously fulfilled specific degree requirements.

Academic advising and supervision on the host campus are provided by a Resident Director who is familiar with both the CSUC system and the host university. Coursework, with the exception of beginning level language courses, is at the upper-division level.

The State of California pays for the administrative costs of the International Programs and for the tuition and other instructional expenses of the students overseas. The State pays no more for the International Program students than it does for the student who remains on his/her home campus.

In planning their finances for participation in the program, students must consider all fiscal aspects of their year overseas. Full room and board, round-trip transportation, health and accident insurance, home campus fees, expenses for textbooks and personal items, as well as vacation traveling costs.

Morongo Raided

By Bob Gephart

In the small hours of Monday morning, a small group of students stole into Morongo Residence Hall and methodically proceeded to turn the furniture upside down. Nothing was removed from its original place, but tables, chairs, lamps and the television set were placed on their tops.

The Housing Office took a dim view of the action since it followed many other pranks and boisterous practical jokes, some of which could have had serious consequences.

The PawPrint, through an intermediary, conducted interviews with those responsible. However, in order to grant their request of anonymity, the actual interviews were conducted over the phone.

Students on the scene reported that Campus Police took Polaroid snapshots of the scene at the direction of Associate Dean of Students Doyle Stansel. Both Dean Stansel and Dean of Students Kenton Monroe apparently inspected the scene.

Assistant Housing Director Wayne Hutchins was also on hand and was reportedly quite upset over a picture and then evidence else just got into the act. One other student said that those feeling a little rowdy, was that it was against the establishment and because the student association wasn't a big thing, nothing damaged. The Administrative Assistant made mountains out of molehills.

One of the others involved said 'it was fun! But half the time they say we did-like the prank strike force.' The student says that the students that were feeling a little rowdy, was that it was against the establishment and because the student association wasn't a big thing, nothing damaged. The Administrative Assistant made mountains out of molehills.

An Administration source speculated that the situation might have been resolved because the fact that Morongo had the largest number of monster reports regarding monster abuse in recent weeks.

Another student suggested that the bad feeling was being generated by some people who resided became 'born again Christians' who were apparently trying to force their new values on others.

A few of the students also said that the PawPrint that if any doesn't stop enforcing 'potty rules' that they plan to organize a prank strike force.
Yes Virginia, There Is a Santa Claus

Virginia O’Hanlon, age 8, wrote the following letter to the Editor of the New York Sun, Francis Church. The famous response appeared on September 21, 1897 and was reprinted at Christmas of the next half century.

We take pleasure in answering at once and therefore prominently the communication below, expressing at the same time our great gratification that its faithful author is numbered among the friends of the Sun.

Dear Editor,

I am 8 years old. Some of my little friends say there is no Santa Claus.

Papa says, “If you see it in the Sun, it’s so.”

Please tell me the truth: is there a Santa Claus?

Virginia, age 8

Virginia, whether they be men’s or children’s, and little. In this great universe of ours, man is a mere insect, an ant, in his intellect, as compared with the boundless world about him, as measured by the intelligence capable of grasping the whole of truth and knowledge.

Yes Virginia, there is a Santa Claus. He exists as certainly as love and generosity and devotion exist, and you know that you abound and give to your life its highest beauty and joy. Alas! How dreary would be the world if there were no Santa Claus. It would be as dreary as if there were no Virginias. There would be no childlike faith then, no poetry, no romance to make tolerable this existence. We would have no child and not what we found it to be.

Not believe in Santa Claus! You might get your papa to hire men to watch in all the chimneys, on Christmas Eve to catch Santa Claus, but that is not so. Santa Claus, but that is not sign of no Santa Claus. The most real things in the world are those that neither children nor men can see. Did you ever see fairies dancing on the lawn? Of course not, but that’s no proof that they are not there. Nobody can conceive or imagine all the wonders there are unseen and unseeable in this world.

You may tear apart the baby’s rattle and see what makes the noise inside, but there is a veil covering the unseen world which not the strongest man, nor even the united strength of all the men that ever lived, could tear apart. Only faith, fancy, poetry, love, romance, can push aside that curtain and view and picture the supernal beauty and glory beyond. Is it real? Virginia, in this world there is nothing else real and abiding.

No Santa Claus! Thank God! he lives and he lives forever. A thousand years from now, Virginia, nay, ten times ten thousand years from now he will continue to make glad the heart of childhood.

Francis Church

Would that it were so and life was what was promised to us as a child and not what we found it to be.

Christmas is a time where we are allowed to be what we would like to be.

Christmas is the time which reminds us of what we could be.

Wally

A Resolution of Parliament

Friday, the twenty-fourth, of December, 1652

Resolved by the Parliament,

That the markets be kept open tomorrow, being the twenty-fifth of December; and that the Lord Mayor, and Sheriffs of London and Middlesex, and the Justices of the Peace for the City of Westminster and suburbs thereof, do take care, that all such persons as shall open their shops on that day, be protected from wrong or violence, and the offenders punished.

Resolved by the Parliament

That no observation shall be had of the twenty-fifth of December commonly called Christmas Day, nor any solemnity used or exercised in churches upon that day in respect thereof.

Ordered by the Parliament

That the Lord Mayor of the City of London, and the Sheriffs of Lond and Middlesex, and the Justices of the Peace of Middlesex respectively, be authorized and required to this order duly observed within the late Lines of Communication, and weekly bills of Mortality.

Henry Scobell, Clerk, Parliament

LOIS J. CARSON, BA 1967, received her M.A. in English from UCR. She was director of the Upward Bound Program at UCR for 4 years and in 78 was named deputy director of the San Bernardino County Community Services Department. In 76 she was appointed by Gov. Brown to a three year term on the state Advisory Health Council. She was elected chairwoman of the San Bernardino Community College Board of Trustees last December. She is the first woman and the first black to head the board.

She is a charter member of the Inland Empire Section of the National Council of Negro Women and served as its president for three years. She is a past president of the county chapter of Inland Counties Comprehensive Health Planning Council. Lois has received many community awards.

ROBERT E. BOTTs, BA 1971, is Regional Vice President of Santa Fe Federal Savings and Loan Association, and has resided in San Bernardino since 1939. Bob majored in Business and did post graduate work in Finance and Public Administration

He is a member of the Board of Directors and was past president of the San Bernardino Chamber of Commerce. He is on the Board of Directors of the County Taxpayers Association and on the board of the Civic Light Opera. He is on the Advisory Board of the San Bernardino County 4-H, the Board of Directors for Goodwill Industries, National Orange Show, and the Board of Directors, School of Administration Board of

GLENn Rymer, BA 1970, vice president for financial services at Morgan and Franz Insurance Agency, San Bernardino, and is the current president of the San Bernardino Symphony Association. Glenn has received numerous sales awards and was selected twice for national leadership conferences.

Active in the arts, he is president of the San Bernardino Symphony Board of Directors and was a member of the Four County Arts Council. He has served on the YMCA Board of Directors, has worked with the Arrowhead United Fund and is a member of the Martin Luther King Memorial Foundation.

PHILIP E. MERCHANT, BA 1971, is a certified financial planner with offices in the Crocker Bank Building in Redlands. He is involved with the Kiwanis Club, and has served on many capacities in the YMCA Drive, Arrowhead United Fund Drives. In 1979 he received the San Bernardino Jaycees Distinguished Service Award. In 1980 he was elected a member of the Kiwanis Club.

He has served on the Board of Directors, School of Administration Board of

JAMES F. PENMAN, BA 1969, earned his JD at Western State University College of Law while carrying out full-time responsibilities as director of the Housing and Neighboring Service, a Cal State Way agency providing social services to San Bernardino City Police Commission and its chairman in 1975.

He has served on the San Bernardino Human Service Commission and currently is a member of the County Joint Systems Advisory Group. His appointment was made by the San Bernardino County Board of Supervisors. He is also active in the Kiwanis Club.

Gerald Newcombe, BA 1976, was appointed San Bernardino's Fire Chief last February. He is a member of the School of Administration Board of Councillors at Cal-State and is Vice-Chairman of the Red Cross Service Center Advisory Board, San Bernardino chapter. He is also a member of the County Fire Chiefs Association. Gerald is a San Bernardino County Fire Chief.

Department of Business Administration

With a primary goal of providing a quality education in the many aspects of Administration to the students, the twenty-two faculty in the Department also provide special opportunities and services to the community.

Courses are available to the students which provide internship services in local businesses. An employer in need of investigation of a special task can coordinate through the Department the placing of a student within his organization to work on the project. The project, the student, the site supervisor and a faculty member meet and provide an analysis of value to everyone. The Department also offers small businesses a student consulting team under the internship concept. Once again, working under the direction of a faculty member, students fill the role of the traditional consultant and provide a final report to the business with specific recommendations.

Faculty are available to the community as consultants within their areas of expertise - and there are many since the faculty includes engineers, lawyers and CPAs as well as faculty with masters and doctorates in the various fields of administration.

The faculty are also active in the College Speaker's Bureau and provide a variety of topical speeches to the public from Mining The Ocean Floor to Managing Your Information.

The student clubs are a focal point for bringing local business people on campus for presentations, and for arranging tours of local industries. Mutually beneficial employment contacts often result.

The School of Administration is committed to a close working relationship with and service to the Inland Empire and the desert and mountain communities.

SCHOOL OF SOCIAL AND BEHAVIORAL SCIENCES

The Sociology department has in the past provided research services for the community in a variety of ways. Sociology faculty members have had other methodological skills in strengthening the surveying needs of groups such as the local Urban League. In other instances, Soc. 305 (Research and Methods) students have taken on community surveying projects as part of the work load of the course.

The Criminal Justice Program is housed with the Sociology Department at Cal State San Bernardino. There are introductory courses in criminal justice and criminal law and more advanced courses in corrections, law enforcement, and law and society, for example. The College awards a baccalaureate degree in Criminal Justice. There are approximately 7 faculty members in the program. Alumni of the program work in areas such as probation, law enforcement, and social service agencies, as well as going on to law and other graduate work.

Community services include public speaking, consulting and extension classes on topics of general interest.

The Geography department maintains a weather station for the edification of the CSCSB community. A recording anemometer sensor, installed on the roof of the Student Services building, signals the changing wind velocity and direction on campus to a recorder located in the entrance area of that building.

Interested students, faculty and staff frequently take note of this service as entering and leaving the building. The information collected by Geography's weather station is available to the wider community. In addition to wind data, the weather station also collects information relating to atmospheric pressure, rainfall, relative humidity and air temperature.

In addition to these services, Social Sciences faculty give generously of their time in making free lectures to service clubs in the area. Several departments also maintain display cases in which students may receive the general idea of the concerns of those disciplines. A number of Social Sciences faculty are involved in paid consultantries, providing necessary services in the areas of Psychological counseling and economic development. A number of other faculty serve on governmental agencies and as officers of local charities and service organizations without remuneration as part of their service to the wider community.

The Psychology department staffs a Community Counseling Center where people in distress can receive free psychological counseling. This service to the general community has been in operation for seven years and is designed both as a means whereby counseling masters candidates may receive experience under faculty supervision as well as providing a needed service for the community. The Community Counseling Center is designed to handle the kinds of problems that are normally encountered in life. Applicants for counseling services who are judged to be suffering from more serious disorders are referred to appropriate agencies in the community. The Center is headed by Dr. Teyber, Assistant Professor of Psychology at CSCSB.

The Economics department runs a Center for Economic Education designed to promote the teaching of economics in the local elementary and high schools. The Center conducts periodic workshops for teachers to sharpen their skills in the area of economic education as well as maintaining a library where elementary and high school teachers may check out appropriate materials for use in their classrooms. The Center has been partially supported by the Economic Literacy Council of California as well as by several granting agencies. The School of Social and Behavioral Sciences also provides telephone services and stationary supplies to aid the center in its operation. The director of the Center is James Charkins, Associate Professor of Economics, who though currently on loan to Purdue University, makes periodic trips to the area and at Patton Hospital.

The Foreign Language Department (French, German and Spanish) for two quarters offers a Foreign Film Festival which is open to the general public without charge. Significantly, those films are also integrated into a course each quarter on French and German films. The department also is heavily involved in sponsoring Foreign Language Days to encourage the study of foreign languages and cultures. Finally, many business firms in the area who are involved in international markets visit members of the faculty to undertake translations of correspondence and reports.

The Art Department provides members of the community with one of the most active and exciting galleries in Southern California. The show last spring on Symbolism drew strong critical acclaim and a substantial number of visitors. The same kind of high praise greeted the opening show of 'Gaston LaChaise' this fall. In fact, evening and weekend hours had to be expanded to accommodate the increased demand. During the annual college anniversary celebration, the Art Department conducts an open house of its studios.

The English Department offers poetry reading throughout the year which are open to the community without cost. In addition sponsors a series of writing contests which again are not limited to students on campus. Through Continuing Education the English Department offers courses in literature in the Palm Springs area and at Patton Hospital.

The Foreign Language Department (French, German and Spanish) for two quarters offers a Foreign Film Festival which is open to the general public without charge. Significantly, those films are also integrated into a course each quarter on French and German films. The department also is heavily involved in sponsoring Foreign Language Days to encourage the study of foreign languages and cultures. Finally, many business firms in the area who are involved in international markets visit members of the faculty to undertake translations of correspondence and reports.

The Music Department conducts extensive study recitals and ensemble performances which are open to the public throughout the academic year. This year they have mounted a concert series which involves a combination of film events including visiting artist faculty presentations, and an ensemble work. The concert series rivals those being offered at Claremont, Pasadena or Los Angeles.

The Philosophy Department runs a number of meetings each year which are open to the community exploring values and ethical questions of contemporary society. A special series on the Aesthetics and Values of Films is currently being prepared for this year.
The Music Department offers a number of programs open to the college community and the general public. Every Thursday noon during the three academic quarters the department presents a program consisting of either student recitals or visiting artists from local schools. The 1980 Fall quarter noon programs have presented three student recitals, a preview of the San Bernardino Symphony season, a trumpet and organ recital by two faculty from Cal Baptist, the UCR Collegium Musicum, performing on sixteenth-century instruments, and a performance by our own chamber ensembles.

Each quarter our major ensembles, present concerts. During the school year programs will be presented by our chamber orchestra, wind ensemble, jazz ensembles, concert choir chamber singers, opera workshop, and South Indian singers.

A new feature this year, MUSIC AT CAL STATE, will include three series of concerts in one season. A guest artist series of six outstanding performers, including Inna Tselin, violinist, Dew Buchen, soprano, the San Diego State's Balinese Gamelan, Musick's Recreation, and early music ensemble, the Dell Arte trio, and "Solid Brass" a group of performers on brass instruments. The second part of the series consists of three concerts by the Lespie I. Harris String Quartet, in residence here at Cal State, followed by an outstanding faculty, artist series featuring the Inland Brass Quintet, made up of our teaching faculty, Professor Herbert Livers, organist, Professor Kesting Johnson, tuba, Dr. Loren Saylor, baritone, and Professor Albee White, piano.

Every quarter the Theater Arts Department offers a play for both students and members of the community. Performances are held in the Theater of the Creative Arts Building, and curtain time is 8:15, unless otherwise stated.

Arms and the Man, by George Bernard Shaw, will be the featured play during the Winter. Performances are scheduled for February 26, 27, 28 and March 4, 5, 6, 7, 1981.

During the Spring, William L. Swol will be directing 5th of July. It will run May 14, 15, 16, 19, 20, 21, 22, 23, 1981.

Tickets are available to the public at $3.50 each and $1.75 for Senior Citizens. Inquiries can be addressed to the Department of Theater Arts, 5500 State College Parkway, San Bernardino, CA 92407, or by phoning 887-7452.

The School of Humanities is committed to community service and involvement and annually presents a number of activities which hopefully enrich the lives of those on campus and also the citizens of the Inland Empire.

What should be stressed about all the above departments is the unique contribution to the School of Humanities and the community. The poetry and literature would not ordinarily be made available to the public. The same can be said about the exhibitions at the gallery, the foreign films shown, the music selected to be performed, the plays chosen to be presented, etc. Culturally, the departments of the School of Humanities thus offer the community a level and sophistication of culture not available from any other public or private organization in the Inland Empire area.

WINTER MUSIC
at
CAL STATE

If you always wanted to learn more about music but haven't, take heart. Here are some Winter quarter courses that may interest you.

M220 Piano
Ms. Walter
M205 English
Mr. Stanford
M206 Music
Dr. Filbeck
M382 South Indian Singing
Dr. Saylor

PLUS

M350 Music of Other Cultures, a course that investigates music of India, China, Japan, and Indonesia. Discussions and reading will explore the relationship between the other arts, religion, and music. One must have a desire to listen to exotic music and to learn about other societies.

M406 Opera, a listening course that deals with opera as drama; the way words and music interact to create a dramatic art form. A survey course in the sense that the selected operas will span several centuries.

M531 Music in the Classroom is helpful to the student who simply wants to learn more about making music. For the teacher faced with a classroom full of restless youngsters, making music can save the day.

ALSO

Try our performance ensembles, chamber orchestra, wind ensemble, jazz ensemble, or choir. You need not be a Music Major to join; just have a desire to make music!
Air Force ROTC

Do you have two years of school remaining? Graduate or undergrad­uate or a combination of the two. All Academic Majors are eligible to apply now for the two year Air Force ROTC program.

You will earn $100 a month during your last two years of school.

Guaranteed job upon graduation.

Air Force ROTC
Gateway to a great way of life.

Christmas Food Drive

Ends December 5

Leave food at the Student Union Desk

Sponsored by The Business Clubs

Typesetting

Revenue Commissions Set

The Publications Board has authorized the payment of a 20% Commission to any person bringing in typesetting revenue to the PawPrint from personal and off campus sources.

Current rates are $15 per hour

Contact the PawPrint for more details and samples of typefaces available.

Commissions paid upon receipt of payment and completion of paperwork.

THE OFFICE OF THE VICE PRESIDENT FOR ADMINISTRATION

The Office of the Vice President for Administration provides several services that benefit the general public. This office schedules all activities which involve visitors from off campus. We reserve the room that is to be used, arrange for furniture to be placed, which will be suitable for the event, and arrange for direction signs, audio visual equipment as well as notify the campus police that special parking allowances will be needed.

A second function of the office is in the handling of the Speakers Bureau. The Speakers Bureau Bulletin is prepared in this office, distributed to numerous schools and community groups in the area. When a speaker is requested, our office makes all appropriate arrangements. We obtain a speaker, send his confirmation to the requesting organization as well as directions to the speaker.

The office is also responsible for coordinating the annual Arrowhead United Fund drive.

ACADEMIC ADMINISTRATION

The Dean of Academic Administration is the Director of the Computer Center and the Affirmative Action Officer for the College as well as handling other administrative duties under the direction of Vice President Scherba.

The Associate Dean of Academic Administration assists the Dean in providing for the space, equipment, and facility needs of the various disciplines. He prepares the academic and deadline calendars and writes policy and procedure proposals on a variety of subjects related to the academic area of the college.

The Assistant Dean of Academic Administration is the Grants Coordinator for the college, providing timely information and advice concerning the availability of grants and assisting faculty and administrators in obtaining grants.

SERVICES TO STUDENTS WITH DISABILITIES

The Services to Students with Disabilities Office invites questions from the community regarding services, equipment loan, and general information about the College. The telephone number is 887-7797.

Assisting students who have temporary or permanent disabilities is the primary responsibility of this office. There are three goals for each student:

(1) academic success
(2) participation in campus events
(3) career planning

Staff members are available to meet prospective students on an individual basis to determine appropriate accommodations and related details.

Many services are available such as campus tours, registration assistance, interpreters, notetaking and tape service, typing and library research assistance. Also, there are numerous equipment items available to assist students with vision, hearing or mobility problems.

All services and programs are designed to offer students with disabilities the opportunity to compete on an equal basis with other students.

THEATRE ARTS

Winter and Spring Schedule:

ARMS AND THE MAN

By George Bernard Shaw

February 26, 27, 28, March 3, 4, 5, 6, 7, 1981
8:15 p.m.

5TH OF JULY

Directed by William L. Slout
May 14, 15, 16, 19, 20, 22, 23, 1981
8:15 p.m.

General Admission: $3.50

Students and Senior Citizens: $1.75
EXPERDITIONS

RECRUIT STUDENTS

Now you ever wanted to see the South American rainforests in Brazil, study the culture of the Inuit in Canada, or even visit the ancient Mayan ruins in Mexico? The opportunity is yours through the University’s Expedition Services.

Expedition Services, under the direction of Professor John Smith, offers a variety of expeditions to students and faculty members. Students are encouraged to apply for positions, taking advantage of the chance to gain valuable research experience.

Dr. Buchen Resumes with Limited Schedule

Dr. Buchen has returned to his position as dean of the School of Humanities, now with limited schedule, according to his latest letter. Dr. Buchen will continue his research on ancient civilizations and will also be available for consultation on programming problems.

Computer Crime

A new report by the Computer Science Department has revealed that a number of computer crimes have been committed on campus. The report suggests that more strict measures be taken to prevent such incidents in the future.

EXPLORATION

A new publication—EXPLORATION—has been launched to provide information on expeditions and opportunities for students and faculty. The publication will be available at the Information Desk and in the student union.

Student Art Sale Set for December

The annual student art sale will be held on December 3, from 9 a.m. to 4 p.m. in the Front of the Creative Arts building. All art items will be sold at a reduction of 50% of the regular price. The proceeds will be used to support the arts department and to provide scholarships to deserving students.

Dorm Residents

Dorm residents must move out by noon on December 12. Dorm residents must also complete their room inspection before they can move out.

CLASSIFIED

Services

The PawPrint is published weekly on a Wednesday.
I've changed my major 17 times, but I'll never change my beer!

Isn't that a country western song?

Oooooohhh! The great taste of Bud. Never changes!

Why do you think they call us TasteBuds, anyway?
