Dear Editor:

I feel very fortunate indeed to have received the San Bernardino Black Cultural Foundation's "Humanitarian of the Year" Award, especially since it has been named for someone I very much respect, Dr. Jeneita H. Scott. Dr. Scott gives so much of herself, so willingly and unselfishly. I'm very happy she is being honored in this manner.

I would also like to extend my heartfelt gratitude to the Foundation Board Members, especially the Black Rose Event Chairperson, Sheriff's Deputy Jeff Hill, Arinda King, Rodney Kraut, Jeanne Carter, Lt. Governor Leo McCarthy (John Leyman), Congressman George Brown, Senator Robert Ayala (Emile Wilson), Amethyst Jerry-Eyes, County Board of Supervisors, Supervisor Bob Hammel and Mayor Pro Tem, for the kind words, the recognition and your continuing support. A very big "thank you" should also go to the American News, Press Conference, the San Bernardino Sun, Voice News, Westside Story, KCSB TV-2, KGGI 99.1, Joan Maybrey, Edison, GTE, Budwesyer, County Sheriff's Dept., SoCalGas and the keynote speaker, Assembly Speaker, Assembly Member Brown, Jr.

Finally, Congratulations to the recipients of the Black Rose Awards: Arwood Allen Esqs. No. 896, John A. Barber Judge No. 71, NACA-San Bernardino Chapter, National Council of Negro Women, Price Hall Lodge, No. 17, Social Sites, Swans Club and Westside Action Group. You are all truly "Roses" in the black community. I would also like to send a special thanks to my mother for the lovely program. I would also like to send a special thanks to my mother and family for coming, and my love and appreciation to everyone involved in making it a night I'll never forget!

Jim King

Black College Day in Baton Rouge Sept. 24th

Why did I start Black College Day (BCD) in 1980 and why are we holding the 14th annual Black College Day in Baton Rouge, Monday, September 24th at Baton Rouge, Louisiana? It was because we didn't want the past and we didn't want the present. We just wanted to create a future.

You might notice that this year's event is being held at the main campus of Southern University, where Gov. Buddy Roemer was once a student. We reportedly called Southern "the place to make black people proud."

Roemer, our first President for holding BCD, is conspicuous for his use of the courts and the voting booth to turn Grambling and Southern into White colleges.

The recent election of David Wright to the U.S. Senate is a classic case in point.

Traditionally, each year Black College Day was held to bring together numerous national conferences, conventions, seminars and assemblies. In Kansas City, Missouri a very important national conference convened; and in New York City, the national conference was held. Dr. Taylor, along with more than 200 other scholars, ministers and community activists from across the United States assembled in Kansas City to focus on the common problems that particularly affect African American men. Dr. Taylor stated "It's hard for even the Black community to understand the combination of the common problems we're facing."

Dr. Abin Pousson, noted psychologist and prominent Black College alumnus, explained the compelling social movement to deal with social ill. It has grown more and more recent decades, and has been identified in the last few years. It is a serious matter. Both the President of the Black College Day called for the establishment of a clear course for the study the more than 18,000 African American males in the United States. Morehouse College in Atlanta has established them.

Moore's Bill Establishes Priorities For Adoption Placement

The State Legislature has approved and sends to the Governor desk legislation which would establish criteria for placement of children in foster and adoptive homes. Assembly Bill 548, authored by Assemblywoman Gwen Moore (Los Angeles), would make placement of a child with relatives the first priority. If a relative was not available, or placement was not in the child's best interest, the child shall be placed with a family of the same race or with another family if the child has had the most significant contact. According to Moore, "There is great concern that incorrect classification of race or color are being placed with little or no effort made to find families who the child's race or match the child's interest."

Two recent proposals have stimulated this broadly-based program in response to the consideration scheme by Bush Administration Budget Director Darman in switch Medicaid...

In order to encourage so many different organizations speaking out against proposals that would reinforce America's poor system of inferior second-class medicine. However, one must not forget that the State of California's DHS has long operated a Medi-Cal prescription drug program as unfair and harmful to our poorest and most unfortunates citizens as anything either Speaker Poy or Mr. Darman would bring about nationally if they had tried.

Local Firm Manufactures Clean Barbecue Products

A Southern California firm that makes electric charcoal lighters and charcoal chimney starters has grown so quickly in one year that it has been purchased by Weather King, a major heating and cooling manufacturer of the Midwest. The company, which is located in Riverside County, makes a product that is recognized by a line of charcoal chimney starters.

There has always been an enthusiastic group of housewives who used charcoal lighters because of the "smokeless" carry "charcoal," said William Body, president of marketing for Meteor Inc.

"Now, increasing concern for health... and the environment is helping drive our sales.

With both appliances, the charcoal chimney becomes hot enough for cooking in approximately 10 to 12 minutes.

Meteor's hazards associated with charcoal lighter fluid are eliminated. These hazards include flares to spattering fluid on hot coals not only in the first time around, in injury by children and fluid that spills in the fire.

Boddy, said that continued use of fluid is based upon light, heater barbecue starting methods.

Construction Starts At Moreno Valley Mall At Towngate

Construction has begun on Moreno Valley Mall at TownGate, a 1,075,000-square-foot regional mall, joint-venture by Housari Development Co. and Fritz Duda Company. Upon opening, the mall will be the first regional shopping center to serve an estimated 400,000-person trade area. The first phase, anchored by The Broadway, May Co., Sears and JC Penney, will include 440,000 square feet of gross leasable area (GLA) for specialty retail, food and entertainment.

"We are meeting the community's desire for a convenient major retail shopping center," said Kaitly Shields, Housari's development manager for the project. "Residents will no longer have to travel to other towns to shop. Moreno Valley Mall at TownGate will offer a wide selection of stores much closer to home."

Moreno Valley Mall at TownGate is being built on the site of the former Riverside International Raceway. Following the completion of Phase I, a second phase is planned including two additional department stores.

"The reaction to the mall has been tremendous," Shields said. "The mall will not only create thousands of local jobs, but will also generate significant tax dollars."

Designed by The Jerde Partnership, the new shopping center will be an exciting project architecturally, with a multitude of visually enhancing features. In addition to the shopping opportunities, Moreno Valley Mall at TownGate will provide the community many new dining options.

"We anticipate the mall will become a focal point for the entire area," Shields said. Housari is responsible for mall development, management and leasing. The Duda Company is responsible for overall development at the TownGate planned community.

The mall is part of the 590-acre mixed-use TownGate project, located at the southeast interchange of Highway 60 ( Moreno Valley Freeway) and Day Street, being developed by Fritz Duda Company.

In addition to the regional shopping center, TownGate will include medical offices, a hospital, a school, more than 2,000 residential units, a park and a town center complex. The first phase of TownGate, already completed, includes TownGate Shopping Center, a 400,000-square-foot power center, TownGate Plaza, a 100,000-square-foot office and restaurant center; and three residential tracts consisting of nearly 500 single-family homes. Housari Development Co. is the commercial development arm of the Coldwell Banker Residential Estate Group, a member of the Sears Financial Network. Founded by Sears, Roebuck and Co. in 1959, Housari has grown to be a leader in the commercial real estate industry with more than 15 years of experience.

SBA Announces Training For Business Women Owners

Washington, D.C. - Susan S. Engleitler, Administrator of the U.S. Small Business Administration ( SBA), announced $2 million in awards for long- term training and counseling centers for current and potential women entrepreneurs.

The model projects will identify the best ways to train women - especially socially and economically disadvantaged women - in the skills necessary to launch or expand their own businesses. The training centers will provide financial, management, marketing and technical assistance.

The Women's Business Ownership Act of 1988 authorized the SBA to fund these projects in lieu of the federal government's SBA Women's Business Development Centers, which were not funded by the Administration.

Do you know what kind of franchise is right for you? Though fast food outlets generally top the list of franchises, one says the word "franchise," the fact is that many companies offer franchising opportunities. According to Black Enterprise, some of the hottest trends include business services (accounting, tax preparation, and personnel services), home care and maintenance services (cleaning, remodeling, and home repairs), auto services, weight control, and hair styling salons.

How flexible are you? If you're the kind of person who has things your way, then you might want to think twice about franchising. True, franchising would give you a chance to own and manage your own business, but you would have to follow a tried-and-true format; there are, generally speaking, few opportunities to "create your own destiny." Urban legends live on, but not necessarily to the exclusion of more realistic stories. "Halloween-sadies" also inhabit the ghostly domain. Every Halloween, schoolchildren and police issue warnings against transient - fashioned babies inside apples, or potatoes concealed in canned goods. Some hospitals, to help placate the anxious parents, will X-ray children's bags of loot.

Joel Best, a sociologist at California State University at Fresno, and his wife Gerald T. Hollihan reviewed all the Halloween-related stories in Newsweek, the New York Times, Los Angeles Times, The Chicago Tribune and the Pacific Bee from 1958 through 1984. In those 27 years, they could find only one documented true. The murderer was not some sadistic stranger, but the child's father, the "Choking Doberman: Urban Legends Live"

A woman returns home to find her Doberman barking at the door. She decides the dog to her veterinarian, who examines the dog and tells her that she must have seen a raccoon scurry through a window and down a tree the day before. The woman advises the woman to go home. She does, but arrives at a phone ringing insistently. It's Blackie, the dog. He's barking at the house. "It's one of the house, immediately!" Go to a neighbor's house. It seems he had found three bushes, and Blackie is barking at the dog's throat and thought an intruder might still be in the house. She follows the dog after something unknown was found around the bushes, and finds something dead. She closes the border, reports the September Reader's Digest.

Gothic folklorists call them "urban legends." Like myths, fairy tales and ballads spread in earlier culture, urban legends seem to have made a resurgence. In 1988, a woman who needs to use the restroom in a darkened room with an open door. She passes a darkened room with an open window. She sees her dog holding a dead rabbit in its cage behind the house. The police arrive soon, gasping for air. She is taken to the hospital, where she passes, a darkened room with an open door.

Second Baptist Church History
On Sunday, September 21, 1990, at 3:00 p.m., the Rev. Charles Wingbagolar, Pastor of the First Baptist Church, Riverside, California, with thirteen charter members, organized Second Baptist.
On this historical day, these charter members began a journey in faith and trust in God. We are, as of 1990, continuing this faithful journey. All of the charter members have been called home to rest from their labors. We, however, are still working on carrying out the task of ac-
dressing the original goal of our church - that of evangelizing the world.
The church has had five locations during its one hundred year pilgrimage. It was first located on the corner of Eight and Main. Later, it was situated on the corner of Eight and Orange. From that site it relocated on Tenenth and Fanchappa and subsequently moved to Twelfth and Howard.
While located on the corner of Twelfth and Howard, the members giving thought to the future purchased land on June 30, 1924, and now in our church where you may see.
In order to provide additional off-street parking for the future church site, the Mothers' Church purchased on May 1, 1943, a small chapel and an apartment building on the corner of Ninth and drug and alcohol crisis facing our churches and community.
The days activities will culminate in a "Praise and Deliverance Explosion" scheduled to begin at 3:30 p.m. in the sanctuary of the Community Baptist Church. Many soul stirring testimonies designed to give glory to God and to show the genuine worth of each soul is a waste of time. No making you unhappy.

What Can I Do To Help My Sister
QUESTION: Dear Pastor Reginald, I recently has an opportunity to talk with my sister, who is a Mormon. She has also mediated the Jehovah Witnesses. She is so confused and hurt. She is carrying so much pain and has lost self-esteem. She says that she believes in Jesus Christ. She doesn't feel good enough or worthy enough and blames herself for so much past failures. how can I or what can I do to pull her out of this?
A sister who loves her sister, San Bernardino, CA

It's Time For College: Are Your Students' Belongings Insured?

The end of August is traditionally the time when college freshmen pack up and leave home for the academic year. But are all the details, questions asked, and issues addressed? Often, students may be too busy with school work, sports, and social activities to overlook important insurance considerations. Students may be taking part in expensive courses, activities, and travel, and they need to consider the potential for loss and replace valuable items without major financial strain.

School homeowners' policies will cover property stolen away from home, up to a limit of 10 percent of the coverage. For example, if a home is insured for $150,000, the policy would be covered for $15,000, minus the policy's deductible. Of course, the homeowner will have to pay for more, the coverage amount varies.

If the student plans to live in rental property off-campus, the landlord may be requiring the student to obtain insurance to protect the landlord's property. A student may also need to purchase insurance of their own to protect their personal property, a policy that also provides liability protection if, for example, a kitchen fire destroys a neighbor's property in a vital area.

Parents and students should also be aware that standard homeowners and renters policies may not cover all items such as jewelry, watches, and electronics. So, they may be asking about the association of the American College Councils indicate that in 1988, Montana ranked second only to Howard University as the largest school in the medical field.

Education

Poetry Contest Deadline September 30

* In a poll commissioned for the San Francisco Examiner early this month, 78 percent of respondents said they "would like to" identify the "most important issues for the coming year." Education emerged at the top concern as it has in the past because parents want a high-quality school system. Eighty percent of a sample of voters in the San Francisco Bay Area,lembered "in our Future - The Child," the year 1990 is the year of the child.

The attendance made headline news in the fall of the year as the first indication of any Zeta Phi Beta sorority in the 70s of the Sorority. The keynote speaker at the opening was William Clay Griffith, the xxxx of St. Louis. The keynote speaker was an independent study, self-esteem building activities are a vital part of the program at Emory University. Students at Emory University are advised to go to the Student Activities Office for more information.

Minority Medical School Enrollment at Emory and Morehouse

Morehouse College and Emory University have received a $50,000 grant from the Health Careers Opportunity Program of the United States Department of Health and Human Services to support summer science program and health career offices. The grant will be used to support activities designed to increase the number of black students and disadvantaged students entering the health professions.

Morehouse College, a private, non-profit, black university located in Atlanta, Georgia, is one of the oldest black universities in the United States. The school is currently ranked by U.S. News & World Report as one of the top 100 colleges and universities in the nation.

Hal Williams Campaigns For Ralph Waite

Ralph Waite, actor turned politician blasted Congressman Al McCandless for his insensitivity to his constituency as he voted against the Martin Luther King, Jr. holiday. He voted against the re-authorization of the Civil Rights Bill. He voted against most things minorities would specifically be impacted by.

Hal Williams, actor and friend, said, "Waite is a friend. He is concerned about the need of his constituency." Waite was concerned years before now. When he saw discrepancies in labor practices that existed in Hollywood he spoke up and out about them. Williams told of how he helped minorities specifically Black actors in Hollywood.

Williams said he was happy to stand by the side of a real champion.

Both White and Williams said surveys show that many of the people in the 47th congressional District though George Brown, Jr. (D-36) was their congressman. Waite said, "McCandless is not a good representative for the people in the 7th District and the numbers are there for an upset."

The reception was held at the home of Renaldo and Kathleen Barros in Moreno Valley. He is employed by Rockwell International and she runs their business Access International and teaches part-time at Riverside Community College.

Entertainment was provided by Deliah Williams who brought a cast member of the musical "God's Trying To Tell You Something."

The Riverside/Moreno Valley NAACP will hold their annual Golf Tournament at the Riverside Gold Club on Sunday September 30. Tee off time is 9 a.m.

As we move forward for making lofty dreams, and as you dream, so shall you become your vision is the promise of what you shall one day be; your ideal is the prophecy of what you shall at last achieve.

The greatest achievement was at first and for a time a dream. The oak sleeps in the acorn; the bird waits in the egg; and in the highest vision of the soul a waking angel stirs. Dreams are the seedlings of realities. By James Allen.

Information: The installation of the waterfalls and other fixtures were not the request of the Moreno School board of Education, nor the School of Administration. Sometime ago, a letter to the editor and or article in one of our newspapers mentioned these items in a negative manner I was informed.

The building is located in the east side of Moreno Valley on Allesandro the facts are that the architect had this building designed before the Moreno Valley School District became involved. It was the best deal around for what we are paying for it. The design of this building brings a lot of attractiveness to the east part of our city.

When I visited this site last month , I thought I was approaching the wrong building. However, when I went back to help move some desk this weekend, I discovered that waterfalls and the rock formation were vital parts of the structure which was designed by the architect, a feature that identify most of his company's buildings. It looks very attractive and will make a lasting impression upon our visitors as they come to see the nerve center of our outstanding educational system.

The building was badly needed and I am sure the personnel utilizing this facilities will provide the type of support for our growing school district. We will continue to function as the top educational system in the nation with this type of support.

Something to think about: Pure thoughts and actions can never produce bad results; impure thoughts and actions can never produce good results. This is no more than saying, you get beans from beans, and tomatoes from tomato plants.
