The Anti-Defamation League claimed that the里面有 racial aspects of the Board of Education's plans to move stores in Brooklyn by Black ac­
ivities is stretching the facts beyond the face of facts previously reported by the Committee. He called upon Mayor Dickens to look into the report and order a new investigation. Fadn posed out that the
Committee's own investigation had revealed that the headline had been dominated by picketers until last week. He said although this was no longer taking place, the Committee had received information indicating the racial motive of the picketers.

He was on to say: "The Committee's failure to stop the public from picking up the false idea of the long dispute is more dismaying than a disgra­
vice to the effort to improve inter­

Black College Day in Baton Rouge Sept. 24th

Why did I start Black College Day (BCD) in 1960 and why are we holding the 14th annual Black College Day at the University of Louisiana on Monday, September 24th in Baton Rouge, Louisiana? You might notice that this year's event is being held at the University of Louisiana instead of at the home of Southern University where Gov. Buddy Roemer (R) was formerly reportedly called Southern "a place to make black people..." Roemer, our first president for holding BCD, is conspicuous for his use of the court and the budget to turn Grambling and Southern into White colleges.

We need the help of business, industry, and parents to stop this..." the Pope Catholic?

Don't Forget Nancey Wilson September 30, 1990!

It's easy to say but hard for some of our children to do. That's why The Black Voice News will participate in the annual focus on drug use prevention called Red Ribbon Week by publish­ing our "Fifth Annual Anti-Drug Abuse Issue" on October 19, 1990. The concept is to involve the youths of our community in drug prevention and make them aware of the dangers of drug use. We use peer pressure to help conquer the war on drugs.

The issue will also contain vital information that permits parents to recognize and deal with drug problems. Drugs and gangs are two of the most volatile problems that face today's youth. Last year we helped the participating children from all over Riverside and San Bernardino.

This year the topic is "Why I don't do drugs." We want the participation of your child. Have him or her write in 200 words or less why they don't do drugs and mail it to us at The Black Voice News, P.O. Box 1590, Riverside, CA 92510. All entries must be received by October 5, 1990. We will publish the best 25 or more in our Red Ribbon Week Anti­Drug Abuse Issue" on October 19, 1990.

We would like to you support our efforts with an ad in this edition. The special rate is $200 a full page. Back cover 1 color, $300 inside full page (no colors), $350 for 1/2 page, $30 3 line ad with a full page ad. Feel free to call us at 714-780-0507 to discuss getting your message across.

Assembly Bill 548, authored by Assemblywoman Gwen Moore (D- Los Angeles), would make placement of a child with relatives the first priority. If a relative was not available, it is then placed with a relative in the child's own family. This is similar to the placement that has been the most significant contact, according to Moore.

The child would then be placed with a family of the same race or with a white family. The child's race or the family's race would be the most significant contact, according to Moore.

Franchising opportunities about for minority entrepreneurs who would like to own their own businesses. Potential franchisees should realize that there are not always spelled out by the franchise companies. All the interested purchaser should get the franchisee on the subject of the specific franchise they’re interested in, and ask detailed questions about the franchise company, the magazine reports.

Do you know what kind of franchise is right for you? Though fast food outlets generally lead to think of franchise opportunities, one says the word “franchise,” the fact is that many companies offer franchising opportunities. According to Black Enterprise, most of the hottest trends include business services (accounting, tax preparation, and personnel services), home care and maintenance services (cleaning, remodeling, and home repairs), auto services, weight control, and hair styling salons.

How flexible are you? If you’re the kind of person who has things your way, then you might want to think twice about franchising. True, franchising would give you a chance to own and manage your own business, but you would have to follow a tried-and-true format; there are generally only a few reasons a franchise will fail. According to Jan Harold Brunvand, the author of “The Vanishing Hit,” the culprit by prints from the floor, gasping for air. She anxious parent s, will warn children about taking candy from strangers, a fear of the dark, and a fear of strangers, a fear of the dark.

It seems he had found three threads to his story. The first thread was the dog’s throne and thought as an ir- reason there might be a story about a dog and an orange image with a character of a man, and it was followed by an unexplained phenomenon of a man, a dog, and a new Orangeie. According to the report, the September Separator is a Dog.

All blame and talking about others is a waste of time. No matter how much you find fault with others, and regardless of what they say about you, it will not change you. The only thing that does is to keep focus away from you. You are looking for external reasons to explain your unhappiness or frustration. You may succeed by making another feel guilty of something by blaming him but you will not succeed in changing whatever it is about you that is making you unhappy.

How can you help? The most important thing you can do is show her your love and demonstrate acceptance of her where she does not have to perform to get your group. Jesus was passionate with the Samaritan woman who had failed (John 4:16) and was at that time “shaking up” with a man that was not her husband (John 6). Jesus does not come to condemn but to deliver and set you free (John 3:17).

It's Time For College: Are Your Student's Belongings Insured?

The end of August is traditionally the time when college freshmen pack up and leave home and the school begins to resemble a ghost town. As the entire exodus occurs, families are often left scrambling to acquire enough coverage for the contents of their students' belongings.

The occasion seemed to be especially significant for two young and older students. The former's 20th birthday was celebrated in July and the latter's 70th Anniversary was celebrated in August. "Investing in our Future - The Child," the year 1990 is the year of his life.

We Endorse George Brown For Congress

These are just some of the reasons we are supporting the re-election of George Brown to Congress. He has consistently voted for legislation that positively impacts our civil liberties.

- Brown co-sponsored the Small Business Act (H.R. 4324) to create a Commission on Federal Assistance to Minority Entre­ preneurs.
- In 1973 Brown co-sponsored a bill to create Martin Luther King, Jr. Day thirteen years before King's birthday became a national holiday. In every session of Congress until the proposal became law in 1986, Brown either supported or cosponsored the legislation.
- In 1963 Brown authored a bill (H.R. 4424) which would prevent educational institutions which discriminate from receiving any federal assistance.
- Brown supported the legislation creating Head Start. Eighty years ago, in 1934, he cosponsored a bill (H.R. 4065) in expanded form to become the Head Start Program.

Hal Williams Campaigns For Ralph Waite

Waite Blasts McCandless

Ralph Waite, actor turned politician blasted Congressman Al McCandless for his insensitivity to his constituency as he voted against the Martin Luther King, Jr. holiday. He voted against the re-authorization of the Civil Rights Bill. He voted against most things minorities would specifically be impacted by.

Hal Williams, actor and friend, said, "Waite is a friend. He is concerned about the need of his constituency." Waite was concerned years before now. When he saw discrepancies in labor practices that existed in Hollywood he spoke up and out about them. Williams told of how he helped minorities specifically Black actors in Hollywood.

Williams said he was happy to stand by the side of a real champion.

Both White and Williams said surveys show that many of the people in the 47th congressional District though George Brown, Jr. (D-36) was their congressman. Waite said, "McCandless is not a good representative for the people in the 37th District and the numbers are there for an upset."

The reception was held at the home of Renaldo and Kathleen Barros in Moreno Valley. He is employed by Rockwell International and she runs their business Access International and teaches part-time at Riverside Community College.

Entertainment was provided by Deliah Williams who brought a cast member of the musical "God's Trying To Tell You Something."

As we move forward for making lofty dreams, and as you dream, so shall you become your vision is the promise of what you shall one day be; your ideal is the prophecy of what you shall at last win.

The greatest achievement was at first and for a time a dream. The oak sleeps in the acorn; the bird waits in the egg; and in the highest vision of the soul a waking angel stirs. Dreams are the seedlings of realities. By James Allen.

Information: The installation of the waterfalls and other fixtures were not the request of the Moreno School board of Education, nor the School of Administration. Sometime ago, a letter to the editor and or article in one of our newspapers mentioned these items in a negative manner I was informed.

The building is located in the east side of Moreno Valley on . Alleandro the facts are that the architect had this building designed before the Moreno Valley School District became involved. It was the best deal around for what we are paying for it. The design of this building brings a lot of attractiveness to the east part of our city.

When I visited this site last month , I thought I was approaching the wrong building. However, when I went back to the help move some desk this weekend, I discovered that the waterfalls and the rock formation were vital parts of the structure which was designed by the architect, a feature that identify most of his company's buildings. It looks very attractive and will make a lasting impression upon our visitors as they come to see the nerve center of our outstanding educational system.

The building was badly needed and I am sure the personnel utilizing this facilities will provide the type of support for our growing school district. We will continue to function as the top educational system in the nation with this type of support.

Something to think about: Pure thoughts and actions can never produce bad results; impure thoughts and actions can never produce good results. This is no more than saying, you get beans from beans, and tomatoes from tomato plants.
Marvin Gaye To Receive Star Posthumously

Hollywood, Marvin Gaye, whose music reflected a sensuality and spirituality enjoyed by generations, will be honored posthumously on a Sunday on the Hollywood Walk of Fame, according to the Rev. Edward Boyd, director of Amnesty USA. The ceremony is scheduled for Thursday, September 27, 1990 at 10 a.m. at 150 Vine Street (20200 Sunset Blvd. Home of Savings America).

Gaye, who was discovered by Berry Gordy, Jr. in 1959 and early 1960's went on to achieve stardom in that decade with a succession of hit albums. His 1971 concept album "What's Going On," was the first Motown album stripped away from his fans and that is the reason why this is an expensive hit logically and personally.
