An Investment In Your Freedom Is Risk Free

Many readers of this column have responded in the affirmative to the question of whether you would vote for Bob Hammock. George Brown in 1968 authored the bill to block federal dollars going to schools that deny rights to the masses. The same is true for most public funds.

I urge you to vote for Bob Hammock. George Brown and Republican Bob Hammock. To support the incumbent Republican Hammock, is to support a vote against the 24 Black representatives currently in Congress. You must make up your mind. Where do you think your loyalty will lie?

I now am voting for George Brown in the Congressional race between democratic incumbent Hammock and republican Bob Hammock. To support the incumbent Hammock, is to support a vote against the 24 Black representatives currently in Congress. You must make up your mind. Where do you think your loyalty will lie?

That's why The Black Voice News will participate in the annual Drug Abuse Prevention Education (DAPE) program on October 19, 1990. The concept is simple, we involve the youth of our community in a drug awareness program where they themselves become the educators of other children and adults.

Drugs and gangs are the two most volatile problems that face today's youth. Last year we had the participation of children from all over Riverside and San Bernardino counties.

This year the topic is "Why I don't do Drugs". We want the participation of your child. Have him or her write in 200 words about why they don't do drugs and mail it to us at The Black Voice News, I don't do drugs, P.O. Box 1581, Riverside CA 92514. All entries must be received by October 5, 1990. The entries will be judged by Ernest C. Lestiver, Jr., M.D., F.A.C.P., and share concerns, problems, successes and coping strategies regarding their life with diabetes with other children with diabetes and their families.

The University of Arkansas at Pine Bluff is a state supported institution and was created in 1873 by an act of the legislature as a branch of Arkansas Industrial University (now the University of Arkansas). Originally known as Branch Normal College, the school opened on September 27, 1873 with Professor J.C. Corbin in charge and an enrollment of seven students-three from Jefferson County and four from Drew County.

The first location was a tented frame building on the corner of Sifer and Lindsey Streets in the city of Pine Bluff. In 1873 the school moved to a two story brick structure, erected by state contribution of $3,000. In 1938 another building program of $275,000 for the erection of a new physical plant just outside the city limits. To aid this project, the General Education Board contributed $183,000 and the Rosenwald Fund donated $33,000. In 1929 the school was expanded into a standard four-year degree-granting institution and in 1933 certified as standard four-year college. Two years later, a building program provided eight residences for instructors and a gymnasium, and in 1936 another building program provided two more dormitories and an enrollment of 318 students.

In 1927 the governor appointed an independent board of trustees for the college and the state legislature appropriated $275,000 for the erection of a new physical plant just outside the city limits. To aid this project, the General Education Board contributed $183,000 and the Rosenwald Fund donated $33,000. In 1929 the school was expanded into a standard four-year degree-granting institution and in 1933 certified as standard four-year college. Two years later, a building program provided eight residences for instructors and a gymnasium, and in 1936 another building program provided two more dormitories and a library.

In 1942, as results of the sudden and untimely death of John Brown Watson, of Trustees of the college named Davis president. In April 1943 the Board Davis served as president for twenty-nine years and one year as chancellor. The current chancellor is Dr. Charles A. Walker.

Today, students can choose a degree plan from more than forty majors in the schools of Agriculture, Home Economics, Business and Management, Arts and Sciences, and Education. Additionally an Associate of Arts degree is awarded by the UAPB/AM&N and an Associate of Science degree is awarded by the Southern California University of Education.

Charles Bibbs: To Exhibit Work "The Afro American"

Painting, hand-painted prints & masks by Charles Bibbs will be on exhibit at Brockman Gallery, 4354 Degnan Blvd., Los Angeles, from October 6th thru the 27th, 1990. The artist will be present at the opening reception on October 6th from 2 to 6:00 p.m. His distinctive renderings of African American themes have garnered international attention. Using acrylic & ink, he captures rich understandings of color in a network of flowing lines, which will bend a certain quality to his figures, creates cosmic movement, change & changelessness. New & selected pieces from Bibbs' famous "Windface Series" will be pre-viewed at Brockman.

Local Professor Chosen As Faculty Fellow

Claremont, CA - What economic factors determine how different groups of people vote was the subject of a study conducted this summer at Purdue University by Professor Lorn S. Foster, a political scientist. In the study, Foster looked at state and local policy preferences and whether they were determined by personal economic, national economic, or allegiances to a particular group. The study was made possible by Purdue's Minority Faculty Fellows Program, which brings minority educators from around the country to Purdue for the summer to teach or conduct research in their areas of expertise. Foster was one of 10 minority educators awarded fellowships this year. More than 150 scholars applied.

The program helps to pro- mote cultural diversity," says program director Clara Bell, noting that participants must be African-American, Hispanic or American Indian. Foster is an associate professor of government and black studies at Pomona College. He holds a bachelor's degree from California State University, Los Angeles, and master's and doctoral degrees from the University of Illinois. Foster, who joined the Pomona faculty in 1978, is chair of the Intercollegiate Department of Black Studies for the Claremont Colleges, a consortium of five undergraduate colleges and one graduate school.

 hubbard's cupboard

There seems to be great antici­pation in the air! The electricity of happiness has shocked the minds of people of this nation. There is no doubt that we can all become a future as a united people. Frustration of not having enough of whatever wish you should never be a determinant of our goal. Those who have jobs will now look toward more job security.

The senior citizen can look toward the happy days of con­trasts with security of money, health benefits, and moral support of friends or loved ones or government. Children can look forward to a growing life of joy, excitement and peace in a land flowing with milk, honey and blessings.

The poor can look for richer life of cities (over abundance).

You say this is all a dream? Will dreams do come true at times. So dreams completely become a norm. Never lose sight of your dream. Hubbard’s Cupboard Closed...

Dear Mr. Ledbetter:

Thank you for accompanying the Moreno Valley High School ROTC students on the trip to Baltimore and Washington. Having you as the representative from the Board of Education was special for our students and very much appreciated. The students, ROTC instructors, parents and myself all enjoyed your enthusiasm and eagerness to assist with the sound system during the mile and one-half walk through the streets of Baltimore at the Veterans of Foreign Wars parade.

I hope you had as much fun as we did. We had a hard time keeping up with you. Thank you for your support of Moreno Valley High School.

Sincerely,

Letter To The Editor

We must protect our children, and they “all” are our children: At the Gateway Park in Moreno Valley, Friday September 21st, one of our girl students, age thirteen was approached by a man as she was on her way home from school. This young lady is a student at Vista Heights and has been cautioned about suspicious people attempting to stop her.

According to my investigation this man was near the park and appeared to be about 40 years old. He asked her if she would like to “shoot some candy.” He asked her three times. She asked if he meant cocaine, and he replied yes. She told him no and told her mother who in turn called me and told me what happened. This guy called her a “health girl” as she walked hurriedly away from the area. She said he wore a cowboy hat, blue or green shirt, and black jeans. He had on dark glasses and his hair was long.

This park is located in an area where our students pass each day on their way to Vista Heights and Canyon Springs.

We must work together and protect our children and drive these drug dealers out of Moreno Valley.

One Person: One person can make a difference, one person can destroy the heart and mind of a child or many children. One person can open the hearts and minds of children, can instill a feeling of true worth and human dignity that will enable a child to surmount the tragedies of poverty, of prejudice, of futility.

We need to go no further than the nearest classroom to find a child already beaten by life, a child who already thinks he is nobody. Just one person can at least help him or her feel he/she is somebody. That person is you. Let us work together and develop a better world for our children.

Together, we can. Vote November 6th. I am a candidate in Moreno Valley.

Artists Against Apartheid Gathered At Bistro

Some of film and television's hottest names gathered at Lunetta Bistro last week for Jam South Africa, a rally in support of the anti-apartheid movement in South Africa. The spirited evening was hosted by Amos for a Free South Africa, a group of entertainment industry professionals committed to the cause of a free, equal and democratic South Africa.

Artists Alfre Woodard and Darrell Larson were joined by Danny Glover, Oliver Stone, Jamie Guy, Blair Underwood, Shari Belafonte and Sam Behrens, Max Gail, C.C.H. Pounder, Oloyo Tunuam, Daphne Zuniga and representatives of the African National Congress for an evening of festive celebration and cultural awareness, including musical performances by Carl Anderson and Charmaine Neville, a stirring reading by South African actress Aki Busa and arousing traditional dance performance by a group of South African hood dancers. Woodard emphasized that one of the main goals of the organization is "to clarify the news reported from South Africa, such as media reports on tribal violence that imply the Black majority is incapable of governing itself, when what's really going on is partitioning, something that happens everywhere."

BET And Tim Reid Launch New Production Company

Black Entertainment Television (BET) president Robert L. Johnson and actor/producer Tim Reid announce the launching of a new production company,灾区 Michele Clark, formerly director of business affairs for Home Box Office (HBO), as president and chief operating officer. The firm will develop and produce movies, mini-series, specials and documentaries, featuring the diversity of black lifestyles in fact and fiction for basic and pay cable networks, network television and syndication.

The new venture has already had conversations with major programming services, including HBO, Showtime, Turner Broadcasting, USA Network, Arts and Entertainment, The Family Channel, The Disney Channel and ABC Entertainment. Johnson and Reid are confident that the company will do business with these services in the near future. "This company was established to provide new opportunities in all phases of television for black creative artists - actors, writers, producers and directors - whose talents have been previously underutilized," Johnson said. "Tim and I have the expertise and financial clout to make this happen. We feel this can become the most successful black-owned production entity because we have the opportunity to attract black creative talent and we have direct access to the decision makers at the major networks and cable programming services."

 Said Reid, "A new company's success rests on the expertise and commitment of its staff. Mr. Clark's business acumen and production experience matches our needs perfectly."

The nation's first and only cable television network providing a platform for quality programming focused toward the African American audience. BET presents the best in entertainment, music videos, news, public affairs, jazz, sports, off-network sitcoms, gospel and college sports. BET is part-owned by Ted-Communications, Inc., the Great American Broadcasting and HBO. BET is currently available in 30 million cable households.
