### STATE EMPLOYEES OFFERED DEFERRED COMPENSATION PLAN TO AID RETIREMENT

A new Deferred Compensation Plan which will allow State employees to defer income taxes while saving to supplement retirement benefits is now in effect.

Employees will be able to take advantage of the program during the enrollment period, which began March 1 and continues through April 30.

Upon retirement from State service the net value of contributions, interest and capital gains from investments will be paid in a manner selected by the employee, with payments subject to income tax at the time of payment, probably at a substantially lower rate than during working years, since most employees are in a lower tax bracket during retirement.

Employees enrolling in the program have three alternative forms of investment: California Western States Life Insurance Company will provide fixed and variable annuities. The T. Rowe Price Growth Fund will accept mutual fund investments. Great Western Savings and Loan Assn. will be used for general savings deposits.

The minimum amount which can be deferred is \$25 a month. The maximum is your entire salary, less amounts needed for social security and retirement deductions. Deferred Compensation does not affect retirement benefits due under social security or Public Employees

Questions concerning the new rates may be directed to the Personnel Office, which expects to have descriptive pamphlets available some time after April 1.
