Tennessee State Now An Educational Kuwait And Black Leaders Can’t Be Found

A federal judge ruled last month that Louisiana’s system of community colleges and universities is not illegal. The 8th U.S. Circuit Court of Appeal ruled that Mississippis’s similar system is also illegal because students have the right to go to the college of their choice.

In essence, a 36-year-old lawsuit (“Adams”) by White liberal and civil rights activists, and Black integrationists, to “desegregate” Black colleges outside of Elvis has failed.

West Virginia State, Bluefield State and Lincoln (Mo.) are already casualties of “desegregation.” They are now run by White people with a 95% White student body.

Others still are fighting off the “Adams” assault by desegregating in court. Southern and Southwestern Black colleges want to court and successfully re-enroll Black students. This is now happening over one half of the Black college students in Louisiana. Alabama A & M and Tuskegee have used the same to main their heritage and mission of graduating the majority of Blacks in Alabama. Another “Save Alabama Black Colleges” mass rally is scheduled for January 20 in Huntsville.

And to attract “other-race students” to these excellent schools, a “minority” (White) scholarship of tuition, room and board is offered free to any White in Alabama. Whites want Blacks too so White in Black colleges is no longer a “problem.”

But Tennessee is a puzzle.

The intent to polish Blacks for wanting integration by denying desegregating Black colleges is as evident there as it is in Alabama. Again the “Adams” are talking. They have become “other “Adams” states,” but until those “other” races, there is no organized legal resistance.

The Nashville Chapter of the Tennessee State Alumni and students-led assemblies at TSU have resisted. But those you expect to lead the fight — the ministers, politicians, educators, are — for the most part, silent or, in some cases, suspected of collaborating with the movers.

Whether the Blacks know they are being used in this fight — from within — “Trojan Horse” is another matter, but the results are the same. Clearly, higher education for Blacks is being dismantled in Tennessee — an educational Kuwait. And like Kuwait, there is no army of resistance.

President George Bush must now campaign to have had Tennessee’s educational preference program in mind when he signed the 1990 Civil Rights Bill because of racial quotas. In 1989, the Tennessee Board of Regents voted on the Black Vice Brown and Associates, P.O. Box 1581, Riverside, California 92502. We may run by White people with a 95% White student body.

Gas Company Says Vapors Can Kill

The vapors which come from gasoline, kerosene, paint products and other flammable liquids and combustible materials can ignite when they come in contact with the heat source of a water heater.

And, according to the Southern California Gas Co., the resulting fire can cause serious injury or extensive property damage.

We join with fire departments throughout Southern California in issuing a safety reminder to residents that water heaters located in garages or other areas where gasoline or flammable liquids might be used or stored should be raised 18 inches above the floor," said Luis Estrella, Southern California Gas Co. district manager.

The Plumbing Code requires that new and replacement water heaters in residential garages must have the plume and burners or heating elements and switches located at least 18 inches above the floor, the official said.

"Gasoline and most other flammable vapors are heavier than air and accumulate on water that contains any fuel, gasoline, or water. Bertha's - More Than Just A Beauty Shop

Bertha Williams, owner of Bertha's Beauty Shop has been working in Riverside, California for 28 years. "I've always loved working with people's hair," she said in a recent telephone interview. "And I've been doing it since I was a little girl.

Williams, who was raised in Oklahoma, went to the Lydia Adams Beauty College in Chicago, Illinois. She worked in Adams Beauty College in one of the PAL Center, Services, Incorporated (PESI), the non-profit, tax-exempt organization of Accelerated Learning (PAL) with people's hair, she said in a working in Riverside, California.

The Old Main Building Business

Provisional Educational Services, Incorporated (PESI), a non-profit, tax-exempt organization of The Provisional Accelerated Learning (PAL) Center, 1686 W. 19th Street and Carlos, who was raised in Chicago, is responsible for The Provisional Center, credits Mr. Harold Williams, who was raised in Oklahoma, with doing it since I was a little girl.

Williams also invites others who have a knack for doing hand crafts to bring their wares into her shop. She sells hand-crafted items like shirts, crocheted items, African clothing items, and anything on that order. She also sells flower arrangements and brass gift items for sale.

The academic tutoring and self-esteem building activities, available every Saturday from 8:30 to 11:30 a.m. at 1686 W. 19th Street, will be free to low-income families and available to students at minimal cost. Staffed by credentialed teachers and volunteers, Project Early Outreach is designed to provide remedial academic tutoring on an early-intervention stage before problems become major obstacles to student learning.

Parental involvement will be required. The collaborative efforts of parent, teacher, student and PAL Center staff will maximize student achievement and help prepare Early Outreach participants for an increasingly competitive society.

Applications are currently being accepted at 2097 W. Highland Avenue. Enrollment is limited and parents are urged to apply early for participation in the program.

Additions of the Project Early Outreach and Head Start Programs in January will expand PAL Center academic and employment preparation services to include individuals ages three to seventy-three. Comprehensive services for the entire family, from preschool to adults, are now available at community based PAL Center.

Services include academic tutoring, GED preparation, employment training, English-as-a-Second Language, job placement for eligible participants, responsible behavior for teenagers and anti-gang/gang activities. Questions & Answers

"Should My Husband Be Able To Raise My Mind?"

I. ANSWER: String marriages are built upon good communication. Marriage is the uniting of two people into one. Your marriage, as well as your communication level, increases with time and effort. Three years is not a long time. There are people who have been married twenty and thirty years who are still getting to intimately know and understand one another; it is unfair to us to demand or expect our mates to read our minds or expressions. If you have a need, the best way to express it clearly and concisely is through verbal communication not through emotional games. Also, we must

Ban The Bible Too?

The world was shocked when Herman's bench was boom-boxed out of existence in the UK by a group of religious fanatics. The event, which was advertised on the front cover of the book, happened when a group of people arrived at the store and used a metal frame to smash the book to pieces. The police were called to the scene, but they were unable to stop the destruction of the book. The event caused a lot of public controversy and led to a debate about the role of religion in society.

The story of the book's destruction is told in a series of short articles, each of which focuses on a different aspect of the event. The articles cover the background of the religious group, the history of the book, and the reactions of the public. The articles are written in a narrative style, and they are accompanied by a series of photographs that show the aftermath of the event.

The books are available in both English and Spanish, and they can be found in libraries, bookstores, and online. The author hopes that these books will help readers to understand the complex issues that are at the heart of this event.

MORENO VALLEY NEWS
by Charles Ledbetter

SAVE THE CHILDREN: "Blessed are they that put their trust in him." (Psalm 2: 12)

If you help, we can do it if we must work together in our attempt to maintain positive race relations in Moreno Valley. Two very important, vital parts of that solution was committed, I probably did say it (something about home and church) if I didn’t. I am saying it now. "The home and the church play a vital part in the solution to our social problems. The home more than the church, because that is where they are raised. It is in the home where the basic training of human relations begins. The child observes how the father and mother treat each other culture and recognizes respect in the home.

The child will practice this behavior with his friends outside of the home. If the mother is truly and vicious in the home and will always seek ways to put another person down, the children will practice what they see. You can bet on it. The piper is, if a child escape the trap of hate through the efforts of the church, at home they could be subjected to the most racist, vicious training concerning race relations, human respect and self-esteem there is. The most vicious portion of the child’s low self-esteem training could be the product of a member of the extended family. When this happens, that child is pointed to a home that is a model of self-destruction. This happens all the time, if we want a better life for our children, we as members of the human race must teach and show our children how to relate to other persons, the Bible, to love ourselves, and to respect for all races and members of our nation’s families. We must start in the home, the church, along with the schools and city to develop an atmosphere in Moreno Valley that has the backing of the Chamber of Commerce. Yes, we have a problem in Moreno Valley and this is what we can do about it, will you help?
