On The Money: Auto Makers Add Minority Dealerships

By Tony Brown

The Department of Education's Michael Williams has set up an availability of scholarship money for Black and Hispanic students. President George Bush's policies, we predict, will not recover from Williams' withdrawal.

A firewall was raised against the ruling by such a significant authority as the Chamber of Commerce, conservatives, liberals, educators, and White House officials and, of course, Black Bush told Williams, a Negro right-wing zealot, to clean up the mess he and his White House and Department of Education discrimination.

White cohorts had created the revised copy of this tortured applying for the position of affirmative action coordinator. The civil rights, since he was revised copy of this tortured applying for the position of affirmative action coordinator. The civil rights, since he was uncalled for attack on the Philadelphia area supplied with all Philadelphia Coca-Cola bottles.

Black auto dealers in the country. "Most of us have come to have some success of the business but, for the Black person, it is very unlikley that we become successful in another field, but purchasing a dealership. Blacks have not grown up in the business, so it is the rate of unemployment among Black males. Many of these non have marketable skills that employable citizens can use. Of course, a good deal of the blame for that is because the auto industry is a high-tech industry. According to Schack, who along with partner William Wood, has set a committee to study the small minority-owned dealers, has organized nationally.

The Oepartment of Justice, in the meantime, call President P.M. Please consult listings. A. M. It can be seen that the Black women have set a committee to study the small minority-owned dealers, has organized nationally.

OUR BODIES

by Ernest C. Levison, Jr., M.D., F.A.C.P.

1991 is around the corner, an opportunity to do things in the next year and to make those New Year's Resolutions.

DON'T NEXCITE YOUR BDY

Protect the environment for yourself and your children's health.

Protect the air you breathe, simply by

Protect the water you drink, conserve same and don't allow pollution.

Protect the food chain in terms of toxic chemicals.

Traffic is stressful and polluting. Take your head out of the sand, protect your rights and demand that city, county, state and federal government deal with the situation.

AIDS remains an inevitable human concern. It is a disease of lifestyle, mainly affecting TV Buglers and homosexuals but is spilling over into the heterosexual sexual population. Prevention is highly desirable, a monumental relationship and stop sign.

Spitting of drug use, in particular, heroin, PCP, etc., is running rampant in our community and stimulates robbery and prostitution. If you haven't started, don't. If you are drug free, say help and stop now.

Alcohol is a legal drug but takes a toll on health and death. Counsel your intake.

The Moratorium of De Soto is still targeting those cigarettes for the, the big tobacco company's workers, minorities and females. If you smoke, you are not only self-care about the people who breathe in your smoke and stop selling them.

series.” With discrimination on the increase, the Latino Civil Rights Act of 1995 and many enforced programs designed to help the needy, those words have an uneasy ring of truth to them. A civil rights bill need be passed in the coming Congress, and I urge each of you to communicate your wishes to your elected representatives.

The Bush administration has realized its intention to make the “quota” issue against civil rights a national issue, which will further swell back gates by minorities. Your voice needs to be heard. My top priority has been education of our nation's children, it continues to be as I move on to my new career, leading the Hawkins Foundation.

Merry Christmas

There's danger in the air when metallic balloons come in contact with Edison power lines. Because one balloon can cause a fire or electrocution, keep metallic balloons indoors, and hold onto them with both hands when outdoors. Don't remove the government required string weight. Don't bundle metallic balloons. Never release them outdoors. If a balloon becomes tangled in a power line, do not attempt to retrieve it. And never use metallic string.

Keep these safety precautions in mind. Because the dangers involved with metallic balloons are not just full of a lot of hot air.
