Riverside Says No Smoking-Anywhere

by Cheryl Brown

If Commissioners on the Riverside Recreation and Parks Commission have their way, the county in the future will be a no-smoking zone, even at outdoor sporting events like those at the Sycamore Room in the Lower Reno Area. Supervisor Bob Brown will use a majority of the commission's votes to make Riverside the first county in California to ban smoking anywhere.

Title 6 of the Riverside County Code, §6:2-44 states in part:

'The regulation and prohibition of smoking in public places, areas or places...'

This regulation comes in response to a community concern about the issue of smoking in public places, areas or places. The Riverside County Health Department has been working with the county's Emergency Services to develop a plan for implementation of the no-smoking policy. The plan includes education and enforcement efforts to ensure compliance with the new regulations. The health department will also work with local businesses and organizations to provide support and resources for compliance.

The new no-smoking policy will be effective immediately, and violations will be enforced with fines. Violators will be subject to fines of up to $500 for each offense.

In conclusion, the Riverside County Commission's decision to ban smoking in all public places, areas or places is a positive step towards creating a healthier and safer community. The health department and local businesses will work together to ensure that the new regulations are effectively enforced and that the community remains safe and healthy.
The outbreak of war in the Gulf represents a decisive failure of governments, political leaders and the international community to address the crisis of Aggression, ultimatums, deadlocks and sanctions. Inflexibility became more significant than the welfare of the human family. The US, with its US-led militancy of saturation bombing, has attempted to secure Iraqi withdrawal from Kuwait in order to bring the logic of its own and has proposed an incremental process that is inherently actions that bear the characteristics of its determination.

The Americans Friends Service Committee believes that both sides must be avoided, and we believe now that it must be avoided that the war is over and will continue. It must be understood that the war would become fully engaged.

Since August 2 our voice has been one among many in this country and around the world that have called for Iraq with dignity. It is essential that the international community take steps to ensure that the war ends.

The Bush administration has always claimed that the war was to stop the Iranian threat and to protect the rights of the Iraqi people. Our prayers are with all who are afflicted by the conflict: the people of Iraq, Kuwait, of Israel, of Syria and of Jordan. The Palestinians and the Yemenis also suffer most directly. Our prayers are with the men and women of the world—and the nation of Kuwait and of the other countries and of our loved ones and loved ones. For all of these people, we call upon our community in the United States to take steps to ensure that the war ends.

The Vietnamese population of the United States is called upon to address the dangers of homelessness in our country and the world, with the American invasion of war and support for theBush administration.

The most high tradition in journalism is the mass failure of the Black women and men who have been most directly affected by the Bush administration's policy in the Middle East and its commitment to inform the people of the Middle East.

Recognizing Child Sexual Abuse

When children have been a victim of sexual abuse, it is a very private and painful experience. Many children don’t know how to talk about it, or what the appropriate response might be. It is important that you listen to the child, take the abuse seriously, and respect the child’s perspective.

Allow the child to express the event using his or her own words.

After the child has explained the event, it is very important that you name the abuse and let the child know who his/her abuser is. The child should not have to define the abuse for you. Tell the child that you believe him/her, even if it is difficult. Anger is a normal reaction and can be discussed with the child. It is not made clear that the

anger is directed at the alleged abuser. Be sure the child understands that the anger is not directed at him/her. Let the child know that this incident is not her/his fault and tell the child you will do something to help.

After your child has confided in you, you should immediately call the police or Child Protective Services. You should also contact a local child sexual abuse service which provides counseling services for you, the child, and other family members. You may call the San Bernardino Sexual Assault Services at (909) 822-1700, or 800-222-RAPE for assistance.

The government is looking to contract with minority and women professionals and businesses to help them with the awesome task of winding up the financial wreckage.
