Riverside Says No-Smoking-Anywhere
by Cheryl Brown
If Commissioners on the Riverside County Board of Supervisors, who will vote on the issue, are satisfied they have heard from the public, they will pass a regulation on public smoking that will ban smoking in any public place in the county.

Title 6 of the Riverside Municipal Code, Section 6.24 relating to protection of the public health, will be amended to include a section prohibiting smoking in public places.

The ordinance, if passed, will make Riverside County the first in the state to ban smoking in public places.

The ordinance also carries penalties for business owners who permit smoking as well as for smokers who light up.

The ordinance was echoed by Sheila Beck, Director of Administrative Services for the city of Riverside, who said, “Any restrictions that are more numerous, unfair, and unreasonable to an entire population of adult Americans, is not the way to go.”

The ordinance also carries penalties for business owners who permit smoking as well as for smokers who light up.

Police will go forward in one area and unreasonable to an entire population of adult Americans, is not the way to go.”

Recognizing Child Sexual Abuse

When children have been victims of sexual abuse, there may be a way of getting out of character, to become invisible, to hide, to become hunched, to refuse to go with certain people, to suffer from behavior, to run away, hurt others, take drugs or alcohol or other self-destructive behavior. In the early stages, it is very important to listen to the child and pay atten-
tion especially to the behavior and the context of the child’s words.

Allow the child to express the events using his or her own words.

After the child has explained the event, it is very important to reassure them that now is not the time to discuss it. They should not be told that the event has occurred. They should be told that they believe him/herself, even if it is dif-
ficult. Anger is a normal re-
action but can also be the result if it is not made clear that the

\[\text{anger is directed at the alleged abuser. He/She should un-
derscore that the anger is not directed at him/her. Let the
child know that this incident is not his/her fault and tell the
child you will do something to help. After a child has confi-
}

ded in you, you should immediately

call the police or Child Protective Services. You should

\text{also establish a local sexual assault ser-
vice agency which provides counseling services for you, the
child, and other family mem-
bers. You may call the San Berna-

dino Sexual Assault Hotline at 1-800-822-RAPE for assistance.}\n

Opportunities Await Minority Business Owners With The RTC

Success at last may lie in the difference between existing opportunities and allowing them to pass you by. With the recent crisis of the Savings and Loan failures across the country comes opportunities for some of the government's legislation that set up the Resolution Trust Corporation (RTC) to aid the owners of failed institutions and clean up their debt. The government is looking to contract with minority and women professionals and businesses to help them with the awesome task of managing the financial wreckage.

Last December, Rev. Jesse L. Jackson met with RTC officials along with a coalition of African-American and other minority business owners and professionals from across the country who felt that the corporation had been overlooking the opportunities available to them through the RTC. As a result of their complaints and recommendations, a one-day seminar in Washington, D.C. sponsored by the RTC will tell hundreds of minority professionals and businesses how they can contract with the largest asset-holding corporation in the country.

RTC officials claim that they are looking for people who have experience in the areas that will deal with the management and disposal of the assets of the former Savings and Loans. Professionals such as lawyers, accountants, financial consultants, property managers, real estate appraisers, environmental specialists, etc. are some of the needed expertise that the RTC could use in their combined services.

The RTC will sell commercial and residential properties, large items such as boats, <1,000,000 building, shopping centers, restaurants, churches and loans portfolios in same a few. There are over 41,000 properties located across the country.

This seminar, part of the RTC's minority outreach effort, will be held on February 23rd, Wednesday in Washington, D.C. at the Renaissance Hotel. It will focus on what they have to offer and what you can do for them. Speakers will include L. William Seidman, chair of the RTC and William S. Emery, director of the RTC and other RTC specialists will highlight the opportunities available. Discussion will include the services required, how minority and women-owned businesses can become registered contractors with the RTC and these firms once registered already will be given valuable information as to how they can increase their chances of being awarded RTC business.

There will be hands-on information on how to prepare a proposal and how to keep abreast of service imposed by the RTC. The RTC will explain their new affordable housing program which can benefit low-to-moderate income individuals working home. Non-profit organizations working programs can earn low-to-moderate income people and private developers working on acquiring property for rental to low-to-moderate income individuals will also get the opportunity to benefit from this program.

Any and all businesses interested in owning and getting the opportunity find hard to win their own financial salvation will be provided valuable information. The seminar will also present you as to how the RTC may be interested in helping you to finance the acquisition of financial institutions as a minority business owner. People who own minority institutions will have the opportunity to receive information about other opportunities for sale. Group as well as individual investors also have the chance to apply.

This seminar is of importance because of the economic potential that lies in doing business with one of the largest asset-holding corporations in the world. RTC resources are approximately $150 billion for contracting to dispose of real estate and loans.

To request a registration form, you should contact the RTC, 1425 K Street, N.W., Washington, D.C. 20580 and include a self-addressed stamped envelope. RTC reserves the right to cancel the program, a continental breakfast, coffee and bagels will be provided. To cancel, a letter must be submitted to the program due to the P.O. box for a full refund. Some are limited, therefore the sooner you apply, the better. The program is an outreach for African-Americans, Hispanic-Americans, Asian Americans or Pacific Islanders, American Indians, Alaska Natives, and Women.
