Waters Addresses LABELO

Assemblywoman Maxine Waters, was the keynote speaker for the Los Angeles Basin Equal Opportunity League's (LABELO) annual seminar which was held at the Brookside Country Club in Pasadena, in October.

The outstanding speech was laced with examples of discrimination actions which are taking place today. Waters, in her eloquent style set the stage on fire.

Waters, spoke of California State issues, which have an impact on minority and females in the state. She made reference to the term "BIPPYES". (Black Urban Professionals) and she said it's time to give something back to the community and continue to fight the war, including equal employment.

The group was additionally addressed by Raymond Johnson, President of the Los Angeles branch of the National Association for the Advancement of Colored People. Johnson said Economics is the last vestige of civil rights. The main method to obtain economic development is through "Fair Share Agreements."

The helm of LABELO, is being passed on to David Figueras from Mary Cryer, out

Questions & Answers

By Pastor Woods

Which Denomination is Right?

Dear Pastor Woods,

There are so many different types of churches out there. They all say their way is God’s way, so it is really confusing. Which denomination is the right one?

A: Consider the condition and frustration. Man-made has really messed up Christianity by breaking it up into so many substanc.

B: For one body, it is just Spirit, even as you are called in one faith, one baptism, one God, and Father of all, who is above all, and through all, and in you all. Jesus came to do the work that he could be with one of the Father, and only one of the Father. And he is seeking to hear people say things such as "we Baptists don’t do it that way", or "we Catholics believe it that way" or your church does such and such. All of this is a representation of man’s carnal

"Jesus Christ can make a difference in Your Life" (2 Corinthians 5:17)
Amanda Ambrose At The Rainbow Room
John S. White
review taken from New York Times.

Amanda Ambrose, whose corporate career and access has included night clubs, concert tours for Billy Joel, Cher, musical theatre and Shakespeare for Joseph Papp, is having a low key existence frequently in reality. And because she is singing for distant, she has to stay in style and sit at a level that will not cheer the dancers from the floor with the feeling that they should stop dancing and listen in. It is a tricky balancing act - being not too strong and yet convincing sufficiently to be effective. The result is an almost intimate small-room style that manages to fill the spacious Rainbow Room.

miss Ambrose is a confident, knowledgeable singer who can range from subtly a whisper to Fats Waller's "George" in a perfect parallel. She seemed to live uncomfortable.
**United Negro College Fund to Honor Marilyn McCoo and Billy Davis, Jr.**

Los Angeles, CA—Vince Bryson, director of the United Negro College Fund in Los Angeles, recently announced that UNCF and the 100 Black Men of Los Angeles would host a special reception honoring Marilyn McCoo and Billy Davis, Jr., on Sunday, December 8, 1985, at the California Afro American Museum in Los Angeles.

Known by its motto, “A mind is a terrible thing to waste,” the United Negro College Fund supports 42 private, historically Black colleges and some 45,000 students enrolled at those schools. More than half of the student body comes from families earning less than $10,000 annually and most received financial assistance.

“We are extremely pleased to honor Marilyn McCoo and Billy Davis, Jr., for their great support of our programs,” it is through concerned individuals such as McCoo and Davis that we are able to continue our role in helping young people to move into the mainstream of American life and provide educational opportunities to their communities and the nation by providing them with a means of obtaining a college education.”

**A&M Records Present Atlantic Starr**

The name is a clue: Atlantic Starr, featuring the Lewis Brothers with special guest Barbara Weathers. Almost two years after their last album, 1983’s Yankee Fever, Atlantic Starr has returned with something both familiar and fresh. The band’s heart and soul brothers David, Wayne and Jonathan Lewis—remain intact, but the frontman nucleus has a new, invigorated sound and a revamped lineup. Star of all, Atlantic Starr has a new album: As The Band Turns, their third LP on A&M.

The album title alone, with its silvowRAP opens reference, is a good indication that 1985 found Atlantic Starr in good form. And why not? She shows interior, her freshman, the three Lewis brothers—vocalists David, Jonathan and Wayne—and prodigious rhythm guitarist Joseph Phillips and new vocalist Barbara Weathers, are playing the music of agree to their long-term blend of smooth, closer material.

You need go no further than “Fresh-A-Rista,” the first song on the first side, to find out where this hand has been. We’ve always had songs like “Fresh-A-Rista” and the others on Side One,” says David Lewis.

Atlantic Starr

**ATLANTIC STARR**

But on our previous albums, those songs didn’t fit the overall concept.

“Atlantic Starr is made up of three very different types of people, from the music industry and the entertainment business,” says Vince Bryson. “When you put them all together, you get Atlantic Starr.”

**The United Negro College Fund will honor Billy Davis at a reception which will take place at the California Afro American Museum in Los Angeles on Sunday, December 8, 1985.**
MORENO VALLEY NEWS...

Thursday, November 21, 1985

Meeting last Sat., two weeks ago at the home of Mr. and Mrs. of this type of activity. The acid of Moreno Valley to become more aware of the effect toxic waste can have on this area. Other cities have already suffered the results of this type of activity. The acid rain we have read about the water and land around in Moreno Valley will not be worth two cents if this plant is allowed to go into operation. Moreno Valley will be the place where all the garbage of Southern Calif. will be sent to be processed. Later the substance will seep into our soil and the water table will be affected. People have paid high prices for their homes. If we lose our freedom we should let high technology chase them away by dumping toxic waste in their backyards, we think too much of our children to allow this to happen.
