Lessen your fears during Career Week

To kick off their annual Career Week, the Career Planning and Placement Center staff will hold an Open House on Monday, May 24th from 10:00 a.m. until 3:00 p.m. in the Student Services Building, Room 116. The Placement Center staff will be on hand to discuss the services available through the Center as well as to informally talk with you about your career goals should you wish. In addition, films entitled "Your Interview" and "Women and Careers" will be shown at various times throughout the day. Refreshments will be served during the Open House, so be sure to go by to visit with the staff. Other activities that will be held during that week include:

Tuesday, May 25 from 2:30-4:00 p.m./LC 500(North)

Representatives from six employers will participate in a panel to discuss the value of a Liberal Arts Degree as well as to informally answer questions regarding possible employment for Liberal Arts Majors. Panel members will include Ms. Dorothy Cole of the Pacific Telephone Company, Mr. Joe Moore of Connecticut General Insurance Company, Mr. Leslie Murad an Attorney at Law for the Law Offices of Falsetti, Crafts, Pritchard and Darling, Ms. Judy Smith of the Harris Company and Mr. Lynn Torrance of the Internal Revenue Service.

Don't miss this presentation if you have been wondering how you could best utilize that degree after graduation from college. Refreshments will be served.

Wednesday, May 26 from 2:30-4:30 p.m./LC 500(North)

On Wednesday, there will be personnel directors from six local school districts to

discuss current hiring practices for teachers and administrators and to answer questions that you may have concerning jobs in elementary and secondary education. The panel will consist of Dr. Joe Carrillo of the San Bernardino City Unified School District, Dr. Don A. DeSantis of the Rialto Unified School District, Mr. Charles H. Jordan of the Colton Joint Unified School District, Mr. Walter Gardner of the Riverside Unified School District, Mr. Kent Campbell of the Jurupa Joint Unified School District, Mr. Kent Campbell of the Jurupa Joint Unified School District and Dr. Joe W. Steels of the Redlands Unified School District. This is a superb opportunity for teachers to ask all their questions and to get to know various Personnel Directors first hand. Refreshments will be served as well.

Thursday, May 27 from 10:00-2:00 p.m./SUMP

The Career Opportunities Fair takes place on Thursday with approximately 30 representatives from both government agencies and private industries available to answer your questions concerning career opportunities. Companies available include Automobile Club of Southern California, Bourns Inc., Brannfors, White, Rogers & Co. (CPA's), California Highway Patrol, Agency for Guarantee Mutual Life, Edie & Payne (CPA's), First Interstate Bank, Fontana Police Department, Inland Counties Healthier systems Agency, The Internal Revenue Service, Loma Linda University Medical Center, Metropolitan Insurance Company, Monroe Systems for Business, Pacific Federal Savings & Loan, Pacific

Jeff Martin and Kelly McGulre of **Ambush** rock and roll for the crowd during the Spring Festivals Concert day. More photos of the weeks' happenings on pages 4 and 5. Photo by Gerald Colunga.

Telephone Company, Patton State Hospital, Riverside County Personnel Department, Security Pacific National Bank, Social Security Administration, State Board of Equalization, State Compensation Insurance Fund, TRW, Inc. and Vavrinek, Trine, Day and Co. (CPA's). Join us in the SUMP for refreshments and lots of

information. Don't wait until you graduate!

Friday, May 28 from 10:30-1:30 p.m./Visual Arts Building

This is a "Career Management Skills Workshop for Visual Artists" and it will be held in the Visual Arts Building on campus. Sylvia White, a nationally known management con-

sultant for Contemporary Artists' Services, will help artists learn the skills they need to manage their own careers. Should also be of interest to anyone who is preparing to market his/her skills and abilities. Refreshments will also be served.

Please plan to attend as many programs as possible throughout the week.

Commentaries

Art Lovers

Where is your support?

As the San Bernardino School Board decides whether or not to cut the elementary music program out of the schools, it saddens me to think where music might be in San Bernardino in the next five years. It's all a matter of where the priorities lie.

I wonder where the priorities of the Cal State Music Department lie, when we have the rare opportunity to hear an outstanding junior string group from Arizona, and the total audience is twelve people. Out of this twelve, there were four or so students and three faculty. This group is obviously from a community that cares a great deal about music for their young people, and supports it. The turnout at their performance here at Cal State told them something about how our community feels about music. You could see the disappointment in their faces as the twelve of us tried to applaud as if we were a larger audience. I realize that because of the short notice, there wasn't very much publicity, but even if there was, does anyone believe the audience would have been much larger?

This turnout of Cal State students is not an exception, but the rule. I have attended, and performed in numerous recitals where I felt as if I should apologize to the artists for the size of the audience.

If we as musicians educators and performers alike, don't care enough to make a good showing at our own performances, how can we expect parents and administrators to care enough to support music and keep music in our schools? Do you feel that's important? Come on Cal State musicians, where do your priorities lie?

concerned music student,

Kathy Lorimer

Another success story

Dear Students

Thank you all who participated in the Spring Festival. I am sure you not only enjoyed yourselves, but were pleased with the outcome of the events. I am glad to say that compared to the previous festivals this one was much more interesting. This was evident by the number of people participating, versus watching.

I also would like at this time to commend all of you who helped make the week a sure success. The Pawprint staff for their superb coverage of events; The PUB

for their specials and donations throughout the week; The Student Union Coordinator, Secretary, and Staff, for their aid in setting up and planning and the A.S. BOD for their funding, without which these events surely would not have been possible. The groups FLIGHT, NIGHTSPORE, and AMBUSH which all gave spectacular performances. I'd like to also thank anyone who felt that I left them out because we all know that without your help the events are nothing but ideas!

Sincerely,

Gregory P. Aarons

Heredity's role in crime

Are some people predisposed to crime because of heredity? Dr. Sarnoff A. Mednick, a researcher in the genetic factors in criminal behavior, has been investigating the possibility that biology, rather than environment, is a cause of criminal action. In a free lecture titled "Biological Factors in Antisocial Behavior," Dr. Mednick will speak at 8 p.m., Wednesday, in the Student Union.

The lecture is designed to be of interest to professionals in the fields of crime control and education and to the general public. Dr. David Shichor (Sociology) is arranging Dr. Mednick's visit. Dr. Mednick is professor of psychology at USC and director of the Psykologisk Institute at Kommunehospitalet in Copenhagen. A leading authority in research on biological factors in antisocial behavior, he has authored and coauthored more than 60 articles, chapters and books on this subject. The author-researcher earned his Ph.D. from Northwestern University and his medical degree from the University of Copenhagen.

Keep Climbin'

Special students

by Larry Fehrenbach

Many students on our campus have special conditions which require special assistance in the classroom. Some students need note takers, some need test writers and some may just need to take a test in an isolated room.

Teachers often are inadequately informed or concerned that these students may be receiving preferential treatment or that accommodating the students may be unfair to others.

First, there is no written law concerning these matters, therefore, any procedure or arrangement is permissible so long as it is agreed upon by both the professor and the student. Students who have special conditions requiring special assistance should first make the situation known to the instructor and make every effort to find a mutually agreeable solution. If after pursuing this course of action

you do not gain satisfaction, then bring the matter to the attention of Dr. Pace in the Office for Students with Disabilities. The office does not act as an enforcer of any existing policy or law, however, Dr. Pace can often work as a facilitator or counselor and the office normally can arrange for any needed personnel (i.e., test writers, note takers, etc.). If you have any questions, need any assistance or would like to discuss a condition please see Dr. Pace at the Office for Students with Disabilities. Dr. Pace is truly one of the most personable and helpful members of the college's staff.

PLEASE NOTE—On May 21, 1982 the Uni Phi Club will hold a Bowl-A-Thon at the San-Hi Bowling Alley on Highland Ave. in San Bernardino. Anyone interested in pledging a penny or dime per point for this three game event please call our office at 887-7662 to make the arrangements.

Peace Sunday

Nuclear Arms and Nuclear Weapons, what will be the outcome? Will one mistaking finger hit that one button and destroy the world? Will one nation, misunderstanding the words of another, fire the first bomb and cause a chain reaction of nuclear destruction around the world? Will the insane arms race end in global annihilation?

On Monday June 7, 1982 the United Nations will hold its Second Special Session On Disarmament. The world leaders must understand: People want peace; they want an end to nuclear proliferation. Now! Before it is too late. The message must be strong, it must be clear, and it must be backed by the peoples of the world.

So an international movement has begun and will continue to grow for the next six weeks (preceeding the U.N.'s Special Session). The Message: "World Peace, May We See An End To The Production Of Nuclear Weapons, And Nuclear Madness."

There will be peace marches, peace rallies, and

energy conferences. And on Sunday June 6, 1982 (the day preceeding the U.N. Session) the Alliance For Survival (a grass-roots, anti-nuclear organization) and Friends will host the largest political/musical event in the history of Southern California. The Rally will be held at the Pasadena Rose Bowl and will be called "Peace Sunday, We Have A Dream."

A diverse group of religious leaders, politicians, scientists, musicians, and anti-nuclear activists from all walks of life have already committed their time and energy to support this call for peace. The list includes musicians, Stevie Wonder, Jackson Browne, Graham Nash, Steven Stills, Dan Fogelburg, Linda Ronstadt and Camilo Cuesta. Speakers Rev. James Lawson, Tim Sexton, Steve Sulkes, Midge Costanza, Dr. Michio Kaku, John Trudell and Patti Davis Reagan.

Tickets for the event are available through ticktron. There will also be a celebrity champagne brunch on the morning of the event as an additional fund raiser.

What happened to the Open House?

by J.R. Hoge

During a conversation with Jeannie Hogenson this past week, she stated the reasons for the cancellation of CSCSB's Annual Open House. Cal State was a victim of the state spending freeze. Money normally available for departmental activities was unavailable. These departmental activities were unavailable. These departmental activities included the support services needed to demonstrate the roles of various departments on a public awareness basis. Case in point was the recently popularized video game craze that our computer department had managed to capitalize on. Our computer department became one of the most popular attractions with regards to the Open House. Due to the spending freeze, the money normally used to produce the computer availability could not be touched.

Cal State's most significant outlay of Open House funds is in the form of advertising within the community. This year, however, due to departmental budget restrictions, this advertising was not done. Priorities were reestablished upon notification of the freeze.

It was thought that since advertising was the only unrestricted or untouched area with regards to funding, that the departments could not afford to live up to past expectations. Other annual projects undertaken by the departments would receive the benefits of the newly restricted budgets and the Open House would be resumed next year.

If you would like to attend the brunch, or would like to volunteer some time and energy on the day of the rally (help needed: ushers, security, stage-construction, first-aid, T-shirt sales, food preparation, etc.) please contact Julie Rosenthal at 1-213-466-4240. An army of volunteers will be needed.

Promote WORLD PEACE! Attend Peace Sunday at the Pasadena Rose Bowl on June 6, 1982. Help strengthen the Southern Californian message to the United Nations: A plea for world peace and an end to Nuclear Proliferation.

One Earth-One People-One Nation-United.

Denise R. Allen (writer: Canyon New Gazette) Alliance Member (phone, 794-3022).

ODDS and ENDS

Future Sustainability not just ideology

University of California's Systemwide Appropriate Technology Program (UCATP) is sponsoring its annual conference May 21-23 at UC Santa Barbara. "Sustaining the Lands: Appropriate Technologies for City and Country" promises to promote innovative and timely ideas and solutions to current societal problems. Highlighting the conference will be the keynote address given Friday night May 21, by noted author, poet and farmer Wendell Berry.

The upcoming conference features special sessions on appropriate energy systems, efficiency and economies of scale, controlling water and society, technology and taxes, retrofitting historic buildings, innovative urban development, agricultural technology, appropriate technology and the University's teaching and research role. Papers will be presented by University professors, State and Federal officials and several non-profit group organizers.

Students will be admitted free of charge to the weekend's events, all others will be charged \$15.00 registration fee. The conference organizers can help in locating local hotel space and meals will be provided at cost at the University. For more information, contact Carroll Pursell, Department of History, University of California, Santa Barbara.

Wind and Jazz celebration

The Wind and Jazz ensembles, directed by Keating Johnson, will present a concert at 8:15 p.m. Sunday in the Recital Hall. The Wind Ensemble will feature four works by Percy Grainger in honor of his 100th birthday. Graduate student Gerald Willis will conduct the Wind Ensemble during Holst's "Somerset Rhapsody."

Islamic Club open forum

Salaam! (Peace)
The Islamic Club wishes to invite members of Cal State's other religious clubs to a forum for theological discussion to be held Thursday, May 20 from 1-3 p.m. in the Student Union Senate Chamber.
While we especially wish religious club members to

CA 93106, (805) 961-2992.
'Appropriate Technology' means a technology which is less harmful to people and the environment than our present technologies, which reduces dependence on non-renewable resources, which is economically and ecologically sound, and which offers small-scale, practical alternatives to our current level of resource consumption. Appropriate Technology has been proposed by some of its advocates as an answer to many of the social and economic problems created by large-scale, centralized technology in both the industrialized countries and the Third World. The appropriate technology movement, with its roots in the writing of Thoreau, Jefferson, and Gandhi, came to a head with the pioneering work done by "Small is Beautiful" author E.F. Schumacher.

The State Legislature helped found UCATP four years ago and its principal aims are to stimulate appropriate technology research for students and faculty through grants and creating a broader awareness to the issue of appropriate technology through publications and events. For more information on UCATP's work, write UC Appropriate Technology Program, 2043 Bainer Hall, University of California, Davis, CA 95616.

The Jazz Emsemble will perform "Walk on the Water," "Have You Changed," "Samba These Days" and Hoagy Carmichael's "Skylark." The ensembles will combine to perform a new work by David Miller, a graduate student at the University of Southern California. Admission to the concert is \$3 general, \$1.50 students.

attend, all interested persons are welcome, including faculty.
We wish to share our understanding with you and wish you to share your understanding with us. Please come. For further information call 887-8275 (Hamid) or 882-0923 (Stephen and Saleh).

New Club for pre-health students

Students planning a career in any one of the numerous health professions such as medicine, dentistry, medical technician, EMT, podiatry, vet. medicine, public health, optometry, osteopathy, and many others now have a club on the CSCSB campus, the Pre-Health Professions Club.

The first meeting of the club was held on April 14, 1982, at which time the need for and purposes of the club were discussed. Dr. Egge, Professor of Biology and Chairman of the Advisory Committee for Health Professions discussed the advantages of a Pre-professional Health Club for the student applying for admission to a professional school. In addition, valuable sources of information and financial aid that are available to students were discussed. In general, the advantages and purposes of the club were set forth as follows:

- 1) Provide an accurate source of information regarding the particular health fields, ie: undergraduate requirements and how to be a more desirable candidate for admission to the professional school of choice.
- 2) To help advise students of the resources available to

them, ie: conferences, financial aid, and scholarships.

3) Organize and participate in field trips to professional schools in order that students will have an opportunity to look over a school, and hopefully allow the students to meet and talk with, in person, admissions directors and/or professors that could advise students of the specific requirements of that particular school.

4) As an extra curricular activity providing students a chance to get involved, which to many professional schools indicates a commitment to a career in the health professions.

5) Forum for sharing experiences such as candidacy interviews and guest speakers who are experts in the various health professions.

Eight club members attended a convention on Saturday, May 15 at the UCI School of Medicine campus. Admissions administrators and students from the various professional schools of podiatry, vet. medicine, medicine, dentistry, optometry, osteopathy, pharmacy, and public health advised and discussed the entire admissions process for the student interested in a professional health career. Some of the topics on the agenda were; test taking techniques with emphasis on the MCAT, panel on pre-health professions clubs, undergraduate curriculum requirements, and a panel of admissions representatives from UCI, UCSD, and UCLA Medical Schools.

The next meeting of the club will be held on Wednesday, June 2, 1982 from 4-5 p.m. in the BI 101. All students interested in a career in any of the health professions are encouraged to come, the only requirement is interest.

The PawPrint is published under the control of the CSCSB Publications Board. It is published on a weekly basis for a total of 31 issues less quarter breaks and final exam periods. Contact the office at 887-7497, 5500 State College Parkway, San Bernardino, CA 92407, for further information.

Letter to the Editor should be kept to a maximum of one and one-half typed pages. Letters which attack any person may be held until that person has time to respond in the same issue as the other letter. Letters must include name and address, a phone number and must be signed, although names will be withheld upon request.

The PawPrint reserves the right to edit all copy submitted in order to comply with space requirements, libel laws and good taste.

Advertising requests should be addressed or directed to the Business Manager at the address and number above.

Classified ads may be ordered similarly except that such ads for students, faculty and staff of CSCSB up to twenty words in length are free.

Ad and Copy deadlines are the Thursday preceding the date of publication. Copy received after that date appears in the paper on a space available basis.

Ad Policy The PawPrint accepts all advertising in good faith but makes no warranty, and does not check any goods or services advertised.

The PawPrint is funded in part by an annual allocation by the Associated Students to cover the costs of printing and expenses. It is distributed free to students and to the community. The remainder of the funding is developed by the PawPrint itself.

The Spring Festival 1982

Games, wheelchair races, contests, a talent show, concerts and a variety of other activities were all taking place the week of May 10-14 as part of the Spring Festival 1982. Shown on these two pages are just a sampling of the extra-curricular happenings.

Talent Night held Tuesday May 11, was very successful. There were a total of nine acts, all of which were very good. Talent Night was also a means of getting various acts for the PUB entertainment on Wednesday nights. If interested contact the A.S. Activities Office. The grand prize of \$100 went to the duo act of Terri Garcia and her sister Lisa. 2nd, 3rd, and 4th place were all trophy prizes and were won by Mark Tracey, Yollen Lucas, and Matthew Smith II respectively. Thanks to all who entered, and especially the judges Sherri Deutchman and Jakki Conley.

Concert Day, held all day and evening on May 12, included three bands. The first of which was **Flight** who gave a spectacular performance outside on the Union fairway. Everything from explosions and flips to video game sounds. All done with the expertise of

professionals. A group which is sure to make it big.

Nightspore performed in the PUB later that night. A familiar name but a different appearance, **Nightspore** had lights, a sax player and a new, jazzier sound. **Nightspore** left the PUB in an atmosphere begging for more and pleased with what was given.

Ambush-Well with a name like that what else can you do? They attacked the crowds with various special effects, a new bass player, a loud rock sound, and **Hot Wax** (the all girl back up vocal team). A free dance, which would have been worth paying for, went with the music.

FAME: The premiere motion picture, what else can be said but it was FREE and being shown from 10 a.m. thru 11 p.m. continuous running, almost every showing had only a few seats available once students arrived.

Daisy Mercado and William Greeley

"The Boyfriend" is on campus

The spring production, "The Boyfriend" will open Thursday evening in the Theatre. Students in the Music and Theatre Arts departments will join in presenting this musical comedy by Sandy Wilson. Dr. Amanda Sue Rudisill will direct. Keating Johnson is musical director. Dr. Helene Koon (English) is dialect coach.

Performances are set for 8:15 p.m., Thursday-Saturday, May 20-22, and Tuesday-Saturday, May 25-29. Admission is \$3.50 general, \$1.75 students and senior citizens. Advance tickets are available by calling Ext. 7452.

Knowledge of Islam adds to world view

A few years ago Islam became a very prominent, if negative, part of the world view. Fortunately, though, we are able to experience a personal contact with the world of Islam as a result of the formation of the Islamic Club here on campus. Hamid Aghili and Stephen Killian are the people to talk to, and of course, any other Islamic Club member.

Our campus Islamic Club was founded for pretty much the same reason that any other campus club is founded, which is to expose the campus community to an activity that certain members of our general community think would be beneficial to the whole. In this case I think it's vital that we of the western world avail ourselves of the opportunity to become familiar with a subject with which we were so emotionally involved just a few years ago.

Christianity has its Bible and Moslems have their Koran. One of the differences

between the two religions is that there are several versions of the Bible currently in use, though there appears to be only one version of the Koran. The Koran is the sacred scripture of Islam, believed by orthodox Mohammedans to contain revelations made in Arabic by Allah directly to Mohammed. A couple of the more interesting beliefs of Mohammedans is that the use of violence to rid oneself of oppression is justifiable, and that Mohammed is "The Seal of the Prophet", meaning that he is the last Messenger of God.

Hamid is the chairman of the Islamic Club and Stephen is his Vice-President. Together they make a good team and hope to continue such activities as the recent movie the club sponsored, "Muhammed: Messenger of God." The Islamic Club meets Tuesdays and Thursdays in the Student Union Senate Chambers.

The cost of leaving just went down.

The game of Kings

by Steff Duck

Mike Lowry (1908) took the Woodpusher's Third Chess tournament with a four and a half-one half score. Lowry had four wins and one draw. Lowry and Delmar Webb (1881) were undefeated beginning the fourth round. Webb overlooked a potential move for Lowry and could not recover from the losing position. Webb's loss allowed Lowry to win the tournament. Steward Boden (1959) was able to break Lowry's streak with a draw. Lowry received the club trophy and \$15.

Webb upset Clark Mayo (1935) in the third round but Mayo continued to win the last two rounds taking the second place prize of \$10 with a 4-1 score.

The Potts' father-son combination caused major upsets. The unrated son, Vincent Potts, beat Jack Wyatt (1607), while father, Jerry Potts, (1300) upset William Knippenburg (1810). Eric Johnson (1721) upset Williamson (2003). William Milender (1603) beat Knippenburg. Ronald Dean (1595) beat Ray Wong (1721)

and Michael Barton (1651). Wond upset Rinzo Wilkerson (1844).

Jerry Potts and Ronald Dean tied for first place in the Reserve Section with a 3-2 score. Potts won the trophy on tie-breaks and split the money with Dean. Each received \$7.50.

Plans are being made to keep the chess club open this summer. The chess club will continue to meet in the Student Union Conference Rooms A and B at 7:15 p.m. on Thursdays until the quarter ends. Everyone is welcome to play chess.

Stay ahead of the game!

Reinforce your college degree by getting a better start through Army ROTC's special Two-Year Program.

It includes six weeks of challenging summer training that's both tough, but rewarding. When you finish, you'll be in the best shape ever. And proud of it!

Earn good money during your training, plus an additional \$100 per month when you return to college as an Army ROTC Advanced Course student.

Meet students like yourself from more than 275 college campuses all over the country — making lasting friendships you'll never forget.

So take the best shortcut to your future, no matter what your career goals may be. Begin the Basic Start with Army ROTC — and stay ahead of the game!
