Nine students selected for overseas study

Nine students from Cal State, San Bernardino will study overseas during the 1982-83 academic year under the CSU international program. They are: Lisa Christensen, a junior this year majoring in business administration, who will study at the University of Copenhagen; Jim Daly, junior, business administration, Waseda University, Japan; Bridgette Duggan, junior, Spanish, University of Madrid; Iresema Guzman, senior, liberal studies, bilingual/cross-cultural, University of Madrid; Beatriz Montano, junior, business administration, Ibero-Americana, Mexico; Bernice Morrison, senior, French, University of Aix, France; Kirsten Noerr, sophomore, political science, University of Uppsala, Sweden; Susan Paull, junior, history, McGill University, Canada; Debra Thompson (who this past year attended Ibero-Americana University through the program), senior, Spanish, University of Madrid; and Son Kim Truong, senior, French, University of Aix.

The participants were selected on the basis of their ability to adapt to a new cultural environment, their home campus recommendations and their academic record. Selection is competitive and final decisions are made by a statewide committee of faculty members. Dr. Mireille Rydell (French) is the program coordinator for this campus.
Letters to the Editor

Letter to the student body

The California State Student Association has asked the Associated Students of CSCSB to take a position of support or non-support for the Senate Joint Resolution, number 49, authored by Senator Watson and co-authored by Senator Garamendi. The bill is calling for the President and Congress to make a commitment to advance worldwide reduction of nuclear arms.

The AS Board of Directors will vote on the bill at their next meeting. If you have an interest in this issue, please advise your school representative or attend this meeting.

The Board will also address the role student organizations should or should not play in addressing legislative bills concerning “the soaring cost of utilities.” Please remember that all AS Board of Director meetings are open to the public.

Elise Traynum
AS President

Keep Climbin’

by Larry Fehrenbach

Now that summer is rapidly approaching, finals are right around the corner and most of us are waiting expectantly for a break from classes, studying and taking exams, but we should take this opportunity to recall the achievements we've made and the steps we've taken over the school year.

First, congratulations to all those students graduating this June. Also best wishes and thanks to Dr. Pfau who is retiring after this school year. Over this past academic year we have made some significant developments expanding the services of our college and also developing a better more involved and concerned attitude and an improved atmosphere here at the college.

Since last fall the library has been given a new name; The Dr. Pfau Library. Also, the Office for Students with Disabilities has opened its new quarters in the library, many new clubs such as the Students for Economic Democracy have been organized and most of the previously existing clubs have grown and become better developed. Even the Alumni Association acquired a new chapter: The Education Chapter.

Over this academic year we have had some exciting and informative activities such as the Spring Festival and the lectures by Dr. Fouts and Dr. William Glasser. There have also been numerous productions put on by our Music and Theater Arts Departments.

The Pawprint under the very capable direction of Rebecca Weldon and Debbie Weissel has improved in its ability to both inform and stimulate its readers. I believe that our students this year have been more involved and more active in improving campus and in voicing their concern.

The college experience is a vibrant force running through the fabric of all our lives, and we should always remember that this is our school and it will require our input, time and dedication to serve all our needs best. The quality of life here at Cal State can only become as good and meaningful as we, the students, choose to make it.

Theatre majors awarded scholarships

Thirteen theatre arts majors received scholarships this academic year, at Cal State, San Bernardino.

The scholarships were awarded to recognize excellence in students who have actively engaged in departmental activities. They were made possible primarily by the patrons of the Players of the Pear Garden, the campus drama club.

Honored were: Michael Galyon and John Higley, seniors; William Greeley, sophomore; Wendy Jo Murphy, freshman; and Veronica Smith, Junior, all of San Bernardino; Dawna Gregory, senior, Apple Valley; Mary Manthis, Sophomore, Highland; and Lisa Scuderi, freshman, Huntington, N.Y.

16th Commencement ceremony

The 16th commencement ceremony for Cal State, San Bernardino will begin at 9 a.m., Saturday, June 19, on the lawn south of the college gymnasium.

As in the past, the ceremony will have no guest speaker in order to allow each graduate to receive personal congratulations from President John M. Pfau.

Dr. Pfau, who is retiring this summer after 20 years with the college, will deliver his final commencement message as its president.

In addition to conferring degrees upon the graduates, he will present the outstanding professor award to Dr. Frederick A. Newton of San Bernardino, and the professor of psychology.

The invocation and benediction will be given by Maura O’Neill, chaplain with the Newman Center of San Bernardino.

After the ceremony, the graduates, faculty and platform party will be welcomed by Keating Johnson of San Bernardino, professor of theatre arts, college marshal.

Music will be provided by the Wind Ensemble, directed by Keating Johnson of San Bernardino, assistant professor of music.

This is the final issue of the PawPrint for 1981-82.

The staff wishes you a fine summer and hopes to see you all again in the Fall.

This photo by Corey VanLoon is among those on display at the Library.
Outstanding Professor: Dr. Fred Newton

Research dealing with biofeedback is being conducted under the supervision of Dr. Fred Newton of our Psychology Department. Utilizing a biofeedback laboratory that was three years under construction, Dr. Newton and his students have conducted unique types of research.

Dr. Newton describes biofeedback as "the use of instrumentation for measurement of physiological responses that are not observable." Responses of the nature that can be dealt with in biofeedback research can be found in animals as well as humans.

Student projects have included an attempt to increase electrical impulses in the limbs of a quadriplegic young man. The project's objective was to teach the limb how to increase its own electrical output. An increase was gained and movement was increased, though not as much as had been hoped for during the actual project. However, electrical impulses increased, as did range of motion, after the actual project ended. Carl Coolbaugh is the student who conducted the research just capsulized, and his research will be published very soon. Carl has the distinction of being the first researcher to explore this area of biofeedback.

Another student of Dr. Newton's, Rich Newman, has conducted research into the potentiality of the brain to produce two different states, utilizing the two separate hemispheres of the brain simultaneously. Both inquiries were successful, in that the questions asked were answered in the affirmative and further research can be done along the avenues already explored. Coolbaugh's research is based on empirical data; research based on experimentally derived and observable findings. Newman's research is much more epistemologically significant in that it is based on experimental data and observable responses. Newman's research is much more epistemologically significant in that his research will tend toward results of esoteric value.

Dr. Newton's background allows him to function and guide students on both levels of inquiry. He has a strong Liberal Arts background as a result of a rigorous program of study at St. Peters College, New Jersey. St. Peters is a Jesuit administered and taught college, and Dr. Newton's diploma is printed in Latin. Though his first interest was in chemistry, he evolved into a natural science major and pursued his M.A. at Villanova University, in psychology. Participating in research and doing student teaching, he studied for and attained his doctorate at the University of Houston.

Utilizing his background in liberal arts, research, and his training in psychology, Dr. Newton has played a major part in developing what is considered one of the finest overall biofeedback research facilities in Southern California. Citing Dr. Fred Keller (Physics), Dr. Nicoli Khokhlov (Psychology), Cliff McDonald (Psychology), and electronics technician Cornell Ormsby, Dr. Newton expressed gratitude for all the help he has been provided with during his work with the facility.

In order to further expand the efficiency of the lab, a request has been made for a microcomputer to make even more sophisticated analysis of results gained in the lab a possibility.

Any campus students, regardless of major, interested in participating in research projects are encouraged to contact the Psychology Department when notices of experiments are posted. These experiments are usually conducted by senior level and graduate students.

Dr. Newton's contributions to our campus community, like so many others, goes largely unnoticed outside the actual department in which he works. We of the Pawprint just thought a few of you might like to know about it.

Sixteen faculty members will receive promotions effective Sept. 1. They are: To professor: Dr. Frances F. Berdan (Anthropology); Dr. Frances F. Berdan (Anthropology); Dr. Sheldon E. Beckman (Administration); Dr. John S. Chaney (Administration); Dr. Stuart R. Ellins (Psychology); Dr. Loren H. Filbeck (Music); Dr. Julius D. Kaplan (Art); Dr. Richard L. Moss (Economics); Dr. Reginald L. Price (Physical Education and Recreation); Dr. Robert G. Stein (Mathematics); Dr. William D. Warehall (Art).

To associate professor: Dr. Frances S. Coles (Sociology); Dr. Ellen L. Kronowitz (Education); Dr. Janice Loutzenhiser (Administration); Dr. Terrell G. Manyak (Administration); Dr. Patrick S. McInturff (Administration); Donna M. Ziebarth (Nursing).
The Nursing Program-a lesson in supply and demand

by Viki Chavez-Regeski

The Cal State San Bernardino nursing program is doing its share to keep pace with the changing face of nursing, and that means trying to recruit more people.

Dr. Mary G. Patterson, a professor of nursing and the department chairman, said both the new opportunities in nursing and the demand for nurses are increasing.

"This profession has only about a one percent unemployment rate and that usually just reflects the people who are changing job locations or positions," she said.

"All you read about in the newspapers is the shortage of nurses," Patterson said.

As the population of elderly persons increases, the need for nurses increases as well, she said.

"But that portion of the population is not the only one in need of services. There is a desperate need for nurses who are bilingual in Spanish or Vietnamese or Cambodian and other Mid and Far Eastern languages," Patterson said.

And nursing opportunities aren't limited to women.

"Men are also desperately needed. Operating room nurses and industrial nursing are two fields male nurses tend to like in particular," she said.

There are currently 20 men enrolled in Cal State's nursing program.

To further illustrate the need, Patterson told of a letter she received from a state prison requesting her assistance in obtaining a nurse for the facility. But she couldn't help because all the students were already committed to full or part-time jobs, and to supporting families.

Because so many of the students work, nursing program classes are scheduled for both day and evening hours.

The classes offer variety, with such course titles as "Trends in Nursing Care," "Roles and Education," "Health Care of Women," "Nursing Care of Children in the School Setting," "Psychiatric Nursing," "Community Health Nursing" and "Nursing Research."

In addition to offering a two-year program leading to a Bachelor of Science degree with a nursing major, the program also offers a public health nursing certificate. The certificate enables the nurse to work in schools, industries, communities and as a visiting nurse.

It also prepares the student for graduate work in nursing administration, nursing education or in clinical specialties, such as pediatrics, public health care of women's health.

Patterson said the department's enrollment has risen dramatically since the program was first accredited by the National League of Nursing three years ago.

In August 1979, the department had nine full-time and 125 part-time nursing students.

Current enrollment is 246, one-quarter of whom are alumni, she said.

The classes have increased in all areas of chemistry, mathematics, microbiology, anatomy and physiology and growth and development, and have one year's work experience as a registered nurse, have junior status at Cal State; complete one college-level course each in the areas of chemistry, mathematics, microbiology, anatomy and physiology and growth and development, and have one year's work experience as a registered nurse.

Additional information on entrance tests, grades, transfer units and application procedures is available in the department's brochure or by calling the department at extension 7366.

Information and support for student nurses is also available from the Cal State R.N. Association, which meets on noon Wednesdays in the Student Union.

President and forty-seven graduates honored

At a recent dinner and dance honoring the 1981-82 graduates of Cal State, San Bernardino, College President and Mrs. John M. Pau and 48 students received recognitions.

A plaque was presented to Dr. and Mrs. Pau for their 20 years of service to the students and the college. It was announced that a $500 scholarship honorng Dr. Pau will be established by the Associated Students to be presented by the Alumni Association to a graduate student.

Pauline Barbour, of San Bernardino, Associated Students president, was presented a certificate for distinguished service to the Cal State campus community, by the Alumni Assn.

Forty-seven students received honors from the Associated Students and the Alumni Assn. Nominated by their departments, they were:

Alta Loma: Cheryl Tibbals, education; and Lorna Miller, nursing.

Apple Valley: Arlene Gluck, education; and Dawn Gregory, theatre arts.

Colton: Sally Jacob, business administration; and Ivan Clements, political science.

Corona: Phillip Costarelia, anthropology.

Crestline: Emily Popovich, anthropology; Clive Richey, economics; and Rachel Monroe, psychology.

Fontana: Margaret Kell, nursing; and James Fox, social sciences.

Highland: Sally Miller and Steve McDonald, chemistry. Lake Arrowhead: Gary Malvin, economics.

Loma Linda: Helen Hager, nursing.

Pal Springs: Erika Chumbley, political science.

Redlands: Carrie Richard, political science.

Rialto: Rebecca Warren, psychology.

Riverside: Elizabeth Brittain, education; Sue Saks, nursing; Elleen White and Julia Hester, social sciences.

San Bernardino: John Ferguson and John Keith Gergen, anthropology; Debbie Alonzo, Miguel Gonzales, Debbie Notthingham, Lynn Umer and Pauline Barbour, business administration; Michael Maurer and Deborah Smith, economics; David L. Chesebore and Michael Vargas, geography; Linda Norman and Sue Oliver, political science; Steve Coffey, Carl Coolbaugh, Janet Elliott-Rosengren and Rick Engarg, psychology; Donald Gruber and John Higley, theatre arts; Karen Hameln, social sciences.

Upland: Kathy Burnett, nursing; and Roya Hay, anthropology.

Victorville: Charlotte Strickland, social sciences.

Patterson said.

All that, plus many letters from area nurses urging the establishment of a program, helped push the department through the academic planning stages.

Since then, it has continued to evaluate and update itself, Patterson said.

Requirements for admission to the program include: complete an associate degree in nursing, hold a current license as a registered nurse; have junior status at Cal State; complete one college-level course each in the areas of chemistry, mathematics, microbiology, anatomy and physiology and growth and development, and have one year's work experience as a registered nurse.

Additional information on entrance tests, grades, transfer units and application procedures is available in the department's brochure or by calling the department at extension 7366.

Information and support for student nurses is also available from the Cal State R.N. Association, which meets on noon Wednesdays in the Student Union.

Concert on the Green

A free Concert on the Green for people of all ages will be presented by the Cal State, San Bernardino Festival Orchestra and Chorus on Sunday, June 13.

This special outdoor event is the second President's Campus and Community Festival Concert and will be dedicated to Dr. John M. Pau, the college's founding president, who is retiring in July.

The program will begin at 7:30 p.m. on the Commons patio. Some chairs will be available for the aging. It is invited to arrive early and bring a picnic dinner and lawn chairs or blankets. The grassy area surrounding the patio forms a natural bowl for the concert.

Accompanied by brass, the Festival Orchestra, which consists of community members and students, will perform the remaining selections, seldom heard in the area. Dr. Richard Saylor, professor of music, will conduct.

Jane Cochran, a senior from San Bernardino, will be featured during Albion's "Concerto for Oboe," an early 18th century baroque composition generally considered his finest oboe concert.

Kathy Argues, a senior from Rialto, will be featured at the piano during "Le Carnival d'Aix," an early 20th century suite by Darius Milhaud. It combines 12 short and happy pieces composed for the annual carnival at Aix-En-Provence, France.

The Festival Orchestra will conclude the program with Schumann's lively and romantic "Spring Symphony."
Pictured above from left to right, top row: Kathleen Coles; Debbie Haasly; John Hoge; Tom Thornssley; Debbie Weissel; Ken Johnson; front row: Rebecca Weldon. This is the staff that actually put words to paper, pictures to film, laid it out, corrected it, and tried very hard to make it all come out a little bit better each time. Absent from picture are Alyce Churchill, Kimberly Obbink and Gerald Colunga.
425 pay tribute to Dr. Pfau

More than 425 members of the community paid tribute Friday evening to Dr. John M. Pfau, who is retiring after 20 years as president of Cal State, San Bernardino.

Climaxing the evening was the announcement of the naming of the university's new Colleges Building-in honor of President Dr. Glenn S. Dumke, chancellor of The California State University, said the Board of Trustees had unanimously approved the action even though it has a long-standing policy of not naming buildings for people until they have been dead or retired for at least a year. The John M. Pfau Library is the first building on the San Bernardino campus to be named after an individual.

A portrait of Dr. Pfau, to be hung in the Library, was unveiled by university President Dumke, chairman of the College Advisory Board, and Mrs. Lorraine El-Alraif, past president of the Cal State Alumni. The oil painting by artist Maxine Olson of Cal State, Chico shows the president in a relaxed pose.

Dr. Pfau's alma mater as founding president of the college was outlined by master of ceremonies James K. Guthrie, a community leader, developer, and former publisher of the Sun-Telegram, and personal friends.

The history began with what Guthrie described as Dr. Pfau's assignment in 1962 to "create a college out of something, literally, not more than a few scraps of legal document," to the selection of the campus site in the foothills north of San Bernardino, to the beginning of classes in 1965 and the educational philosophy that still exists today.

Amidst the highlights of the evening were a musical tribute to Dr. Pfau by the Chamber Singers of Cal State, San Bernardino, directed by Dr. Loren Filbeck, and a performance by operatic tenor Val Stewart of the University of Redlands.

Interspersed between the pages of history Friday night were introductions of Dr. Pfau's daughters Ellen and Madeline; tributes to both Dr. Pfau and his wife, Antrew; and resolutions by the city and county governments of San Bernardino, the State Legislature and the United States Congress.

Tributes were paid by Pauline Barbour, president of the Associated Students; Lawrence Daniels, president of the Alumni Association; Robert J. Bierschbach; Dr. James W. Cleary, president of Cal State, Northridge; and chairman of the Board of Directors; Dr. Glenn S. Dumke, president of Cal State, San Bernardino, directed by Dr. Loren Filbeck, and a performance by operatic tenor Val Stewart of the University of Redlands.

The lecture is the first in the John M. Pfau Outstanding Lecture series sponsored by the Health Science and Human Ecology Department. The series has been initiated in honor of Dr. John M. Pfau, the college president, who is retiring in July.

Dr. Pfau is a clinical professor of community and environmental medicine at the University of California, Los Angeles, and a recognized expert in the field of occupational medicine.
Freestyle Karate

A summer extension course emphasizing freestyle karate as a sport rather than as a combative activity will be offered at Cal State, San Bernardino beginning June 23.

Willis Gneck, lecturer in physical education, will teach students the Shorin-Ru Okinawan system. Self-defense techniques will be explored. Kick-boxing techniques from Thailand are in free association with each other, constantly on guard. Moves are spontaneous. All force is removed from attacks; weapons are trimmed to touch only. The non-violent nature of this system of karate makes it acceptable for anyone interested in active sport.

Other types of karate to be introduced include Kung-Fu, Kenjitsu and Alkido. Belts can be earned. The cost is $64 for two units of credit. Noncredit is $46. Class meets from 6:30 p.m., in the small gym, Mondays and Wednesdays, beginning June 23.

Registration is required by June 17, and can be made by calling the Office of Continuing Education at 887-7664.

Photo workshop

Joseph Colley, international salon exhibitor and photography instructor at San Bernardino Valley College, will teach a "Photography Workshop" in Redlands during the summer session, through Cal State, San Bernardino's extension program.

The course, to begin June 22, is designed for personal growth in photography at all levels, in either black and white or no color.

There will be field trips to visually unique areas, exercises in seeing, examination of the photographic controls in exposure, development and printing, and production of the final print.

The cost is $64 for two units of extension credit in photography. The class will meet from 7-10 p.m., Tuesdays, at the Redlands Community Center.

Registration is required by July 5, and can be made by calling the Office of Continuing Education at 887-7664.

Classes for teachers in the desert

Seven courses leading to a master of arts degree in education will be offered by Cal State, San Bernardino through its extension program at the College of the Desert beginning in June.

"Teaching Learning Handicapped Severe Severely Handicapped Students" will meet 5-9 p.m., Mondays and Wednesdays, June 21-July 28, excluding July 5. Registration should be made by June 14.

This five-unit course applies to a master's degree in education with an option in special education and is approved as an elective in the reading option program. It also applies toward the special education credential.

"Interpersonal Relations and Communications in Education" will meet 6-10 p.m., Fridays, June 25-August 6. Registration should be made by June 19 and 26. Registration is required by June 11. This 2.5 unit course applies toward a master's degree in all education options.

"Special Problems in Reading" will meet 9 a.m.-1 p.m., Mondays and Wednesdays, June 28-July 28. Registration is due by June 21. This five-unit class applies toward a master's degree in reading with an option in reading and toward the special reading credential.

Three courses in June will meet 10 times from 4:30-7:30 p.m., Mondays, Wednesdays and Thursdays, beginning June 23, at the San Bernardino campus.

The instructors will be Steve Daley and Bonnie Russell, program specialists for the severely handicapped San Bernardino County School Districts.

"Creative Curriculum for Young Children with Disabilities and Another for Teachers of the Language Arts" will meet 9 a.m.-1 p.m., Mondays, June 21-July 14. The fee is $96.

The Powprint Office of Continuing Education at 887-7664.

Upward Bound program

The curriculum will include English, mathematics, reading, social studies, study skills and personal development classes. Individual counseling, tutoring, physical education and social activities will be part of the students' schedule. They may be permitted to receive 10 elective credits for successful completion of the program.

Now in its ninth year at Cal State, Upward Bound is funded through a grant from the U.S. Department of Education. More information is available from high school counselors and the Upward Bound Office at Cal State, 887-7200.

Extension courses for Nurses

Two extension courses for nurses will be offered at Cal State, San Bernardino beginning in June.

"Crisis Intervention for Nurses," beginning June 21, will emphasize crisis intervention theory and practice.

"Health Assessment for Nurses," will meet 10 times, 4:30-7:30 p.m., Mondays, Wednesdays and Thursdays, beginning June 21, in Room 129 of the Biological Sciences Building. Registration is required by June 14.

Extension courses for Teachers of Disabled Youth

A class for teachers of the severely handicapped, San Bernardino County Schools.

"Creative Curriculum for the Language Arts" will meet 9 a.m.-1 p.m., Mondays, June 21-July 14, at Etiwanda Intermediate School. Registration should be made by June 21.

Carolyn Hargrave and Sylvia Kordich, elementary teachers for Etiwanda School District, will concentrate on developing projects for teaching writing, spelling, punctuation, grammar, English and positive reinforcement.

These classes carry three units of extension credit in education. The fee is $96. Registration can be made by calling the Office of Continuing Education at 887-7664.
Pouring bronze for lost wax casting was one of the activities students were involved in for weeks preceding the Student Juried Art Show.

**Positions Available**

Activities Director

Executive Assistant

Description:

Activities AD - Applicants must have administrative abilities and a strong interest in developing diverse student activities. Must have some knowledge of student government and Cal State, San Bernardino.

Executive EA - Applicant must have a strong background in Student Government and willing to make necessary commitment. Willing to put in summer hours. Typing skills necessary. Must have some knowledge of the CSUC and the structure of higher education in California.

Application deadline - June 9, 1982

---

**Dorm Party**

**Theme**

**Fantasy Village**

June 11, 1982 8-Midnight

at the Village Pool

Come as your fantasy: prizes for best costume, couple, legs, etc. for village resident and their guest.

We wish to thank Coors for helping with donations.

Sponsored by Village Council.
