Dear Editor:

I wish to let you know of an incident that occurred on my wife’s 80th birthday. We have been together for over 50 years, and are both retired. We had invited some friends over to celebrate, and while they were here, one incident which my wife did confide in me about.

First I would like to give you a little background about my wife. She is currently 80 years old, and we have been married for 50 years. We are both retired and enjoy spending time with our friends. We have always treated each other with respect and have never called each other anything outside of our relationship. She is a kind and gentle person, and I try to be the same way. This incident occurred between my wife and a neighbor. I was called into their home to mediate, and I was not sure how to handle the situation.

It started when my wife mentioned to me that her neighbor had made a remark about my wife which she heard but did not inform me about it. I was very upset and contacted the neighbor to discuss the matter. The neighbor apologized and admitted that the remark was not intended to cause harm.

I have always believed in treating others with respect, and I know that my wife does the same. In this case, I believe that the neighbor did not mean to cause any harm, but it was important to discuss the matter and make sure that everyone understands the importance of treating others with respect.

I want to make it clear that I would not stand for this behavior. In truth I want to protect and respect her rights. I try to be fair and just in my dealings with everyone, and I believe that this is what my wife wants as well.

I am hoping that this incident will not happen again, and that everyone will continue to treat each other with respect. I believe that this is important for maintaining a和谐 community.

Sincerely,

Stereotyping Of Black Males Must Stop

By MILLENT REED

THE COLUMBUS TIMES

When you pick up a paper in Columbus, one thing is certain - you are going to see Black males in the headlines. These headlines are not just random, they are thoroughly researched and well written - according to an article, entitled "Cathedral, But a Whore!" - which appeared in The Columbus Times.

According to Dr. Gibbs, there are "too many Black males who are mostly unemployed or working in low-income, low-status jobs. They live in neighborhoods that are neglected. Their children, if they are fortunate enough to live in a safe environment, are exposed to violence.

We have to educate them."

The media knows the truth that Black males are dropping out of high school at ever-increasing numbers at an alarming rate of 40 to 60 percent. These numbers are misleading. The national high school dropout rate of Black males has steadily decreased since 1960, high school completion rates have improved dramatically.

Dr. Gibbs believes that we must challenge the stereotypes about Black males. He has listed what he believes is the most damaging misconceptions and stereotypes.

Tips For Having Healthy Children

When stress can affect your unborn child

Women once believed that if a pregnant woman was scared by a snake in the forest, her baby would be born with a snake mark on her skin. The days of old wives tales and古代 superstitions about pregnancy are now long past, and medical advances have given us a direct view of the womb that women of a century ago could not have dreamt of.

How stress can affect your child is that it is a remarkable fact. Hubbard, who said in 1950 in the book Dianetics that "It is a remarkable fact."

The influence of stress on the child is that it is a remarkable fact. Infant and toddler who are not treated properly in the womb will ill later in life.

Dr. Gibbs tells us that we must understand the effects of stress on the child. He says that there is a new definition: "It is a remarkable fact."

Some observers have emphasized the alarming statistic that nearly one of every four Black babies born are not involved in the criminal justice system - in jail or in probation, or on parole. However, there is one statistic that has gone unnoticed. Three of every four young adult Black males are not involved in criminal behavior.

According to juvenile experts, young Black males tend to be arrested, hooked, unwed, and incarcerated at higher rates than White youths who are committing similar crimes.

Have you had enough of stereotyping all Black males? If not, you had better start to know the true facts which should lessen stereotypes and bigotry. We can't afford to go back to the twenty first century with them.

QUESTION: Can you give me some tips on safe grilling?

ANSWER: As we approach the hotselling time of Memorial Day is the time when we see many people back fences. Follow these tips:

1. Avoid flare-ups and charred food, remove visible fat from the meat.
2. Don't muddle and close the lid until the fire is beneath the grate.
3. Maintain foods only in the refrigerator. Reserve a portion of the food if you have placed it in the refrigerator or for a coked food.
5. Serve food from the grill in the cleanest, most sanitary way possible.

A couple preparing to purchase a home recently asked the question, What is the difference in the relationship or duty owed by a real estate broker to his or her client or customer.

In answer to the question we must consider several elements. First, the nature of the relationship owed by a real estate broker to his or her client or customer. According to Civil Code Section 2959, "An agent is one who represents another, called the principal, in dealings with third persons. Such representation is called agency."

When a seller hires a real estate licensee to undertake the task of selling the seller's home and signs a listing agreement, an agency relationship is created. The agent owes loyalty to the principal (seller) and a duty and fiduciary relationship which the law compares to the duty owed to a beneficiary by a trustee under a trust (Civil Code Section 2224 et seq.). In most real estate transactions, a "broker" is an agent for someone else (principal) who seeks to sell or purchase (exchange etc.) from a third party. From the

MULTICULTURE IN ACTION: Citrusdale Elementary school presented an outstanding International Dance Festival at the Canyon Spring High School in the Gym May 7. It was a thrill to see students dressed in costumes that represented many different countries performing as a group. An audience of parents, teachers, and friends had a wonderful relaxing time as they listened to music that was designed to spread joy. The dances performed told their country's war: Daza Philippines-Philippines, LA Baja- Mexico, Sukiyaki-Japan, Campbrow Race-U.S.A., African Rhythm-Africa, Dunia Danza-Bolivia, La Lithka-Chile, Cuando Los Huascara-St. Francis-Bulldog, Danza Alemania-Germany, Zorba The Greek-Greece, Kawi Kawai, Kuwait, Guantamara-Cuba, Senegal Sen-Africa, Fisco-Peru, Shaka Malawi-Egpy, and El Salvador-El Salvador.

However, with the positive attitudes and groundwork, there is definitely an education program, Sat, May 9th. All will have no foreboding as we may be made so plain that we may make our decision, nor vain other's miserable and sad. By working together, we can be happy.

A New World. I walked up and down Pico and Western St. in L.A. Last Saturday talking to people on the street and local business owners. The bars and liquor stores are the area seen to be in bars and liquor stores. I spoke to a young Black man named Anthony, he was telling me about some one world color that is coming into being, his dream was the Black race and the White race had a chance to be united and they have failed. He was very interested to listen to us. All we should do all the time we can for our children, especially neglected students in school. We created a values program that could put low, chronic low back on the map. It is a prayer I learned with no effort. Our father, in the midst of the simplest situations of life, here is the answer to any sense of failure. Let them feel the superhuman resources of true patience throughout this land, above all, spirit of the everlasting arm. One person can make a difference, one person can change hearts and minds of a child or many children. One person can spill the beauty and soul of children, can instill a feeling of skin to skin human dignity that will enable a child to surmount the ravages of poverty, of prejudices of failure.

We must go no further than the nearest classroom to find who is literally begging to be a child. I think some is nobody, but one person can at least help him to feel that they are somebody.

Let us work together and help develop a better world for our children. The schools need our support. As I continue my campaign, I will be able to bring the people in need of help to those who can help us.

The television industry can be a great one. You are doing for children by bringing more value entertainment and inspiration to the public. I realize they are the people that provide the most equal money, however money is not good if there is no one left with enough to enjoy themselves except their parents. My major further says: "Cleanse our heart of selfishness. Grant that all questions immediately before us may be made to pass that we may have no焚烧ing at all. In the decision, nor vain regrets after it is made. For Jesus' sake." I believe we should all do the most that is coming to be.

Yes God is real! I had the opportunity to visit the "Land Middle School" dedication program, Sat., May 15, was wonderful to listen in capabilities. There is definitely hope in this country if we would maintain the support of our education system. Just a kind word will help the child know that we all care about them and want them to have a happy productive education.

Yes, we have problems, and will continue to have problems, however with the positive attitude of the citizens of Moreno Valley, we will overcome them all. Because we know that God is real.

Now hear this: Parents, youth, and friends had a wonderful relaxing time as they listened to music that was designed to spread joy. Gray Davis Visits Inland Empire

State Controller Gray Davis was in town recently to meet and greet the church going community in one of his stops around the state. Davis is in a election and the only candidate who is taking their campaign to the people.

Davis got an ear full as he not only worshipped with congregations at four local churches, but fellowshipped following services with local residents.

His first stop was Amos Temple CME. Rev. James Washington is pastor. Davis told the congregation about his record in the field of education.

The next service, Second Baptist. T. Elizabeth Guest, pastor, Gray Davis again addressed the congregation and spoke about his stand on what is right for the constituents.

At New Hope Church, LaMar Foster, pastor, Davis was introduced and said he need them to win.

Later he said he did not take the people for granted and felt it was necessary to ask for their vote. Many had questions for him. Many had comments on how his office helped in given situations. There was a social following the morning service.

Rev. Charles Brooks, pastor of St. Paul AME, greeted Davis, who spoke about education. Davis related the story of Richardson, California.
