Interlochen, DanceAspen To Audition Students

In 1965, as the Black History Committee in Southern California Edition was organizing a soul food breakfast to celebrate Black History Month, the thought of joining with the El Monte Mayor Club for its celebration in May would have seemed unusual.

The CAC has formed a partnership with the Fontana Unified School District and the Fontana Chamber of Commerce to bring ethnic awareness to local schools. Their unique plan calls for adopting all the high schools in the Fontana area, with members serving as advisors on the Youth Board of Directors chosen from each high school. The Board will then choose ethnic themes for celebrations at middle schools in their area.

For more information on the Partnership Signing or other Cultural Awareness Coalition activities, call 909-820-5585.

**Celebrations at middle schools**

May would have seemed mundane in high school. The Board will celebrate May as California Edison was organizing a soul food breakfast, with the Cinco de Mayo sale. Recycled collections and other projects, cleverly framed the primary -colored boards and grouped them on one wall of the family room. The result was playful, not yet complete.

Mother Hale and daughter, Dr. Hale, studies of her life,” and through it all, after several months, Dr. Hale began to gain weight and exhibit the normalcy of a normal, healthy child. If Mother Hale’s love could be bought and sold, the label would read, Love Potion for Healing Abandoned or Drug-Addicted Babies.

Dr. Lorraine Hale, Mother Hale’s only daughter by birth, and the Executive Director of Hale House, told this story in her column “A T I Work Home Last Night”, which appears in the organization’s newsletter.

The story is indicative of the methods which have been employed as sources of miracles, having personally preceded over the care of more than 800 children. A MOTHER FOR LIFE

Born Clara Maud Hale in April 1, 1905, in Elizabeth City North Carolina, Mother Hale was orphaned at the age of two.

She moved from the care of an “uncared” sister in town to that of a more compassionate and supportive family. She visited with the Wootens as they traveled in early 1940’s. Mother Hale moved to New York’s lowest rung side with husband Thomas Hale and their two children, Nathan and Lorraine. Thomas Hale died of cancer shortly thereafter, and Mother Hale began taking in children whose parents could not provide for them.

In 1969, as Mother Hale was anticipating her ninetieth birthday, her daughter happened upon a woman overcome with a heroin stupor. The newborn in her arms had been left on the doorstep. Dr. Hale is a home for teenagers and girls for who have had drugs without who may never have had the chance to talk to a bit of their adolescence,” she explained.

Dr. and her mother are particularly concerned about the current trend of white families Who Are Interested To Know the process of laying eyes on an African child. “I think if I were to reflect mothers who have...

The week before the Raiders finished regular season appearance at the old cavernous, but memory filled, the local media, Marcus Allen and the Raiders, reached a feverish pitch. Truth: Doug Williams, earned first-team All-American on the Associated Press' major conference squad, after a super season at Grambling, in 1977, an unprecedented feat at the time. Doug later led the Washington Redskins to the 1982 Super Bowl.

Truth: Ed "Too Tall" Jones, was the first overall NFL draft pick by the Dallas Cowboys, in 1977, after a stellar four years at Tennessee State.

Want more? Truth: Twelve Black college-networks have been enshrined into the Pro Football Hall of Fame in Canton, Ohio. The list includes Len Barney of Jackson State (my personal favorite), Gene Moodie (growing up in Detroit); Mel Blount of Southern; Roosevelt Brown of Morgan State; Willie Browning of Grambling; Buck Buchanan of Grambling; Willie Davis of Grambling; Ken Horne of Prairie View (you believe Prairie View can field a team now, game 0-10, well thus another story).

The family's annual budget is reduced from $8,328 to $7,956 - at a time when the cost of living is rising at about 3 percent annually and when rental housing often costs more than the entire grant. In addition, the annual cost of living adjustment (COLA), signed into law by former Governor Reagan as an inflation buffer, will be suspended for five years. By 1996, near­ly one­third of the value of the AFDC grant — already only 77 percent of the poverty level — will be lost in inflation.

A family may now receive assis­tance only once in 24 months rather than once in 12 months in addition, temporary housing assistance is now available for only 16 days rather than four weeks.

Everyone knows about the teachers, faculty, and coach John Chaney. But his many years as head basketball coach, Chaney has, along with coach John Thompson of Georgetown, contin- ued to be a strong voice in the NCAA for minority concerns.

Who is Ron Dickerson? Ron graduated from Kansas State University as a student athlete in 1971. Ron was an accomplished enough athlete to have played in the East-West Shrine Game and have the Miami Dolphins draft him on the 7th round.

Before getting the opportunity to head Temple's program, Ron progressed through coaching stints at the following Universities:

FREMONT, Calif. (AP) - Toyota said Monday the company would begin building a new pickup truck, a move expected to create between 200 and 250 new jobs, and plans to build 25,000 a year between 200 and 250 new jobs, the company said.

Executives of the joint venture between General Motors and Toyota said Monday the company would begin building the Toyota Xtracabs in March and plans to build 21,000 a year by mid-1993.

The new model, now made exclusively in Japan, is a stretch version of the Toyota pickup now built by Nummi. The company currently produces 100,000 pickups a year, along with 200,000 Toyota Corollas and Geo Prizms.

Nummi is seeking approval from United Auto Workers for the plant, which would add a new shift and expand operations from five to seven days a week. The company will employ 4,200 people once the new employees come on line.

Nummi is in the state's only remaining auto plant following GM's closure of its Van Nuys facility in August. The expansion in Nummi's third since it opened in 1984, according to Dennis Cusco, vice-president for corporate planning and external affairs.

Cusco said Nummi will spend $6 million to expand the truck line next year. Xtracabs are 19 inches longer than standard models and have jump seats in their cabs.

Nummi is also tentatively planning a second phase to boost annual truck production to 150,000 by 1995 and build bumpers and fuel tanks at the plant, Cusco said. Those parts are now imported from Japan.
