DEAR LELAND (SPORTS EDITOR),

I am writing to discuss the recent escalating clippings. The article on the BCA was very well written and told the story without bias. I believe the newspaper is doing a wonderful job. I am sorry that I didn’t get a chance to meet you in Chicago. We can talk more about this when you get a chance. I want to tell you how much I appreciate your support, as well as the support of other African-American sports journalists.

When Will Black's Get Reparations?

P erhaps the greatest American sacrifice, made throughdone in the pursuit of freedom, nonetheless, was done by millions of Black people working in the fields prior to emancipation in 1865, millions of Black people tolerated relentless and malicious indignation. From the money and resources African-Americans could have acquired as free people, was the foundation for the emergence of a Black economic self-sufficiency that would place the person in charge didn’t have the courage to tackle the problem of the riots in Los Angeles. Tony Bogart died on the battle scarred streets of Imperial Courts. He knew the truth was very painful and he had a committed leadership. He realized the truth was a reality; it had to be solved. The youth had to be taught to view their reality in a new way; their values had to be changed. Tony Bogart was the mastermind behind the gangs cease fire. As an ex-member, he spoke the language, he knew them well. He understood them. The courage to tackle the problem is a real problem.

The incident at Rio Vista is a total embarrassment to the San Bernardino Unified School District and to everyone in the field of education. Any school principal that will stoop this low to dismiss accusations that a student has done work that he or she has not done shall be relieved of their duties immediately. I hope that our school district superintendent will have the fortitude to put a stop to this great injustice immediately. A concerned school district employee.

In the name arid words of Tony Bogart:

In the Imperial Courts, a desk clerk went in a back room and killed the person in charge didn’t have the courage to tackle the problem. But true economic power comes not only from the ability to produce and sell as well. Unfortunately this critical number of 2% of their earnings while the systematically evaded the rich. African-Americans are 83% richer than Blacks compared to 70% of Whites receive income from self-employment. Moreover, the mean income received by Black property owners was only $924 versus $40,782 for White property owners.

More over our level of consumption per capita is 30% relative income, African-American per capita income in 1990 was $9517 compared to $15,265 for Whites. This is a 64% gap in average income of $6,000 per Black person versus $14,000 per White person in the Black Economy as a whole. A relative income.

According to B. Boulden, a professor at Dillard University and author of "The Black Woman's Guide to Financial Independence," a typical dollar among the nation's richest persons will be worth 100% more for the future. She claims that African-Americans save about 8% of their general savings 4% less than Whites do. But that steady saving of 2% of their earnings while the systematically evaded the rich. Bishop Blake Kicks Off Celebrations In Honor Of Dr. King

Bishop Charles E. Blake, Pastor of the Angelus Temple, Los Angeles, and a COGIC Bishop, was the speaker for the events which kicked off the Martin Luther King, Jr. holiday celebrations in the Inland Empire.

Blake said, the holiday gives us a chance to evaluate King's life, and helps to heal the wounds between Blacks and Whites in this country. "It gives us a chance to honor the Africans who came on the ships, those who died in the Middle Passage, those who were lynched and killed," he said.

Blake told the story of when he was a five year old child in Arkansas, at a patriotic gathering, a White boy touched his flag out of his hand. "My father told me to be quiet," he said. "I learned at five my rights could be snatched away.

In honoring King our country began to give back the flags that were snatched," he said. "King would have been concerned and he would have addressed the issue that 80% of drug abusers are Whites, but 94% of those arrested are Black. King would have addressed the issue of what is happening to the Black family."

The Riverside MLK Monument Visionaries Committee then auctioned off the MLK replica street signs.

The MLK Birthday Breakfast and caravan to the statue was held for the 14th consecutive year. Rev. Morris Buchanan, Pastor of Quinn AME, Fontana, kept the crowd spellbound. It was the first time an organized body of ministers gathered together an event in honor King's Birthday in San Bernardino. Rev. Frank Gray, Alliance President, and Pastor of Quinn AME, Moreno Valley was pleased with the program, speaker and turnout.

DEAR DR. LEVISTER:

I have sciatica. What is it? What can I do about it? I hurt.

DEAR HURTING: Two out of 3 people, usually by age 50, will suffer from sciatica. You may feel pain and need for medication on the affected leg or it may be shooting. This sensation always affects a whole muscle group, a whole nerve, which can become more severe. It can erode into a variety of backaches, including the back, leg, and buttock area, holding you in an excruciating and forcing bed rest.

The pain typically strikes on one side. Stomach, coughing, laughing, standing or sitting for too long makes it worse. Low back pain accompanies sciatica and worsen the pain may be worse during their periods.

Sciatica is defined as pain along the course of the right or left sciatic nerve that stretched from the end of the spinal cord at the feet. The roots of each nerve of origin amongst the lumbar and sacral vertebrae exit the spinal cord with nerve roots. These get irritated filled disks between the vertebrae normally cushion that stack of nerves called the S-L-C-B. Sometimes a disk prolapses and located. What this occu...

As a CHILD, you never gave a thought to how your PARENTS could do so much with so little. As an ADULT you realize it was all about taking CONTROL.

Your parents raised and educated you and your brothers and sisters on a fraction of what you're making now. The magic that they worked was all about managing their finances.

Today, money management is a bit more complicated. But now, you can learn how to take more control and make your money work harder and stretch farther.

T he period of the late 1990s and the so-called new “darker-hard-core-never-again” was a time when hip-hop was going through a lot of changes. The hard-core scene, which had been around for a few years, was undergoing a transformation, as many artists were moving away from the traditional sound and style of the genre.

Hammer, as we all know, was one of the pioneers of this new sound. He was one of the few artists who were able to bridge the gap between the old school and the new school. He was able to bring together the energy and intensity of the old school with the innovation and experimentation of the new school.

Hammer’s album “The Art of Storytelling” was released in 1996 and it was a huge success. The album featured a number of hits, including “Run,” “Our Love,” and “Skullcap Hat.” The album was critically acclaimed and it helped to bring hip-hop to a new level.

Hammer’s music was not just about the beats and the rhymes, it was about the story. He was able to use his music to tell stories about his life and his experiences. He was able to get people to connect with his music on a personal level.

The album was produced by The Dap-Kings, a group of musicians who were known for their ability to bring a soulful sound to hip-hop. The Dap-Kings were able to create a sound that was both new and familiar, a sound that was both innovative and traditional.

Letter from a Boy

"It is too late for us because the damage has been done, and our child has a record... but maybe if we share this letter it will help other parents. Thank you very, very much.

Parents of a child
Dear Folks:
Thank you for everything, but I am going to Chicago and try to start some kind of new life.
You asked me why I did these things... I have so much trouble, and the stress is too much, and you had nothing to give me, but I am wondering if you will understand.
Remember when I was about six or seven and I said I want you to just listen to me? I remember all the nice things you gave me for Christmas and my birthday and I was real happy with the things for about a week at the time I got the things, but the rest of the time during the year, I really didn't want presents. I just wanted all the time for you to listen to me. I was somebody who felt like I was somebody who felt like I remember even when I was young, I felt things. But you said you were never...

I have been analyzing the situation and have submitted the document makes no sense to the rest of the document but does seem to be a code, called, VOICE. Let them help you.

They want to help you. The voices are nice.

Sincerely,
Charles Ledbetter

Canyon Springs From Front Page

The students cannot be that bad because I didn't think they had anything more to say.

The students cannot be that bad because I never thought that one would really be crying inside. And when they're about to bake... six dozen cookies to make sure that the kids don't want to tell about a dream or a hope or something, because thoughts are important too so small kids even though they don't have so many words to use when they tell about what they have inside them.

I think that all the kids who are doing so many things that the grownups are treating their hair out worrying about are really looking for somebody...
