**Gramp’s Mission Barbecue Palace**

Robert Bratton is concerned that he received a notice to move his business from the sidewalk. Bratton has been doing business in the same location for 4 years and many of his customers are employed by the city. "No one ever said anything about the pit before," Mike Young, Senior Code Compliance Officer, gave him notice to move the outside cooking pit by, or near, a sidewalk. "I wish they would have told me before I invested so much money on the business.

Robert Bratton said he was looking forward to opening the "coffee city." If he could get the business restored, he will "have to make my service to my customer," he said. "People stay at the home and want some good down town to go to," he said. Bratton says the city took his parking, last week they painted the curb red now people have nowhere to park to pick up their order.

*Bratton is in the process of remodeling his place and that is why he is not open.*

**Community Action Helps Needy Families Achieve Self-Sufficiency**

The Riverside County Department of Community Action - F.A.S.T. (Families Achieving Self-Sufficiency Together) Program will hold a promtution ceremony on Saturday, November 21, at the Riverside Community College from 11:30 am to 1:30 pm. Twenty women were recognized for their efforts.

F.A.S.T. is a unique approach that achieves economic self-sufficiency. Case managers work closely with families to help them develop the necessary skills and resources to use the programs and to find self-sufficiency, which provide health benefits. The Case Manager works with the family to ensure that employment and economic goals are met through the program.

Some of the speakers were F.A.S.T. Program graduates. Lisa Dyer, 25, of San Bernardino, and her 32-year-old friend, Nancy Price, 33, of San Bernardino, are two of the 20 women.

Lisa Dyer said she is one of two people who have completed the F.A.S.T. program. Several of the graduates were in the audience to recognize their success.

The "women of the FAST program" are to be congratulated for their hard work and commitment to a better future for their families and itself, in these tough economic times.

Lisa Dyer and now works full-time at a Registered Nurse at Loma Linda University Medical Center. "Para told me the group she was "determined to get a free from depending on government support" but also that she was "in need of counseling because it has been a long time since I have been around people." She also said that she is "on her own and has no family support to rely on." She was "happy to be able to help others and to be able to help herself." She was "very happy to be able to talk to others who have been through the same thing." She was "very happy to be able to help others and to be able to help herself." She was "very happy to be able to talk to others who have been through the same thing." She was "very happy to be able to help others and to be able to help herself." **Livestock Barns At Date Festival Will Bulge With Entries**

A marked increased was noted in the number of market entries to show at San Bernardino County Fair and National Date Festival in Bakersfield. There is a total of 25,000 entries, up 33% from last year.

These are all in the junior department. In addition, there will be 12 dairy, 36 entries, 500 breeding, and 577 rabbits.

The junior show run from 12-21.

**Saint Paul AME Church**

Accidently Shot

St Paul AME member, Narvie Grier, was shot while he was at a friend's house.

Narvie Grier, an 11 year old girl, was accidentally in the stomach and is recovering at home. She was shot when a friend, who is also a friend of a friend, gun under his mother's bed.

Reportedly the .25 caliber bullet missed the stomach, colon and she had an appendix removed. There were bullet holes in the intestines, and 4 holes in his stomach.

According to Jackie Harris, the mother of Narvie, she was playing at a friend's house, one block away, in the same house block. Her friends (the city) also took my gun on the dead bolt lock, and got the loaded gun. He took the hole. He took the **annexation clip in the stomach.** He took the hole. He took the hole.

'When I heard [the police] tell me to come get the gun, I knew something was wrong,' said one police officer who witnessed the crime.

The boy's family has been devastated," said Harris. "They have everything. They have nothing. It's been the whole ordeal. They even got the new Bible. They have everything. They have nothing. They don't have the money." Harris said the shooting had brought back memories of the boy's past life, leading to counseling because of its **Continued On B-8**
Affirmative Action With A Twist

Tony Brown

If I were to make a case for affirmative action, but not as it is traditionally understood, I would be more successful. I would make the case for affirmative action within the Black community. I think you are so naïve when you say I think Black Americans have it so easy. I have been in the middle class for so long. A symptom of the Virus is disregarding our reality, if it shapes what we believe is real and what is not, then comes from a history of seeing Blacks locked into specific room. "...

One of the number one Black shows, Cosby, as real. The symptom of the Virus is disregarding our reality, if it shapes what we believe is real and what is not, then comes from a history of seeing Blacks locked into specific room. "...

The worst team in the league is 6-8. A symptom of the Virus is disregarding our reality, if it shapes what we believe is real and what is not, then comes from a history of seeing Blacks locked into specific room. "...

We need to widen our perspective. A symptom of the Virus is disregarding our reality, if it shapes what we believe is real and what is not, then comes from a history of seeing Blacks locked into specific room. "...

It's time for America to see another side of Black America. for...
Dear Dr. Ernest Levitan:

I once again [insert wording]

makeup to cover bruises received during a fight with my husband. I plan to no longer hide this terrible secret. I can do without being blown out. [End of letter]

Sarah Adams: First, get help. Contact the local authorities and strongly encourage or monitor a woman's shelter for protection.

Join the week's many issues that women's violence spilled into the sea of social upheaval. The issue was spotted when women's right activist cited a new study reporting a 40% jump in woman bashing following the annual football extravaganza.

The game is over now, but the red and yellow reality of a woman's and physical abuse goes on. A woman's every second counts, every single day in this country. Certainly, every single woman are physically and emotionally victimized. For sure, the female side of this picture is highlighted but 20% of emotional and physical abuse is directed.

Question: What are the recommendations for training and Voluntary supplements?

Answer: There have been many, numerous studies, especially epidemionc studies, demonstating the relationship between high intake of certain nutrients (for particular types of cancer and heart disease). Results from major human clinical studies as well as animal studies demonstrating protective effects of high-dose nutrient supplements have been increasing. Indeed in popular magazines.

Many. However, findings are inconsistent, and more information is needed to clarify how nutrients work and how - and if - they serve a protective role in the prevention of degenerative diseases.

Humbly read more than 40 female of male. Year found there was a huge correlation between drug and alcohol and domestic violence.

Health care practitioners need to focus the nation's attention on issues of domestic violence. [Insert a list of names of battered women and children].

There exist many abuses - affecting by health care professionals, doctors, social service workers, police and members of society. A victim in-the home's area is clinged with the deadless flow of battered women and children.

A change of color scheme has profound influence appetite. Since most dining is done at night, it is important to test the effect on appetite, so if you want your color to be effective, too.

Dr. Ernest Levitan M.D.

The Black Voice News

DECORATING DEN

Denise Ellison McCarthy

In the presence of wide, the heat of "poison green" - stick to clear shades of this color. Avoid lavender and violet - its appetite depressant. Dark colors are not effective. Since dining is done at night, it is important to test the effect on appetite, so if you want your color to be effective, too.

Frank J. McGill-Owen, M.D.

Art Exhibit Features Some Of State's Best Artists

California art work that has "scared the test of time" are on exhibit in the Cai State, San Bernardino art gallery.

"California Painting: The Essential Modernist Framework" features works by leading artists, including Charles Lundeberg, as well as Richard Diebenkom, who was featured a recent exhibit in the Cal State, San Bernardino art gallery.

"California Painting: The Essential Modernist Framework" features works by leading artists, including Charles Lundeberg, as well as Richard Diebenkom, who was featured a recent exhibit in the Cal State, San Bernardino, art gallery.

Color Your Appetite

Color psychology takes on added significance in the dining room, because that color profoundly influences appetite. A change of color scheme has been known to make a success of restaurants that were failing, been known to make a success of restaurants that were failing, been known to make a success of restaurants that were failing.

If it's romance you're after, choose red; if you want customers to order more, choose yellow; for homey self. Neutrals, livened up with positive color splashes, can be effective, too.

Narrative Text:

I was with a vision of flagship banks between the nation’s African- American community, media and private sector that Warren G. Jackson started Circulation Expert in December 1967. Twenty-five years later, that dream is realized in reality. Corporate America is realizing both its product line and marketing strategies to meet the demands of the $30 billion black consumer market.

African-American leaders are sitting on the boards of Fortune 500 companies and working with industry and governmental leaders to develop major job training and employment initiatives. The media, with the expertise of minority reporters and news executives, is providing unprecedented insights into issues facing the community, and Circulation Expert has blossomed into one of the most successful minority-owned public relations and advertising agencies in the country.

“One of the major strength of our organization over the years has been our ability to change with the times,” Jackson says. “The philosophy, the belief that the destinies of the black community, the business community in fact all of our communities are intertwined, is constant. What changes is the climate in which that philosophy must be implemented.”

In the late 1960s, early 1970s, it was social concerns that brought the various parties to the table. The Kerner Commission Report, issued in the wake of the riots of 1968, warned of two separate worlds—one black and one white—from which, without intervention there may be no return,” Jackson explains. “This caused the media. Corporate America to initiate a self-examination process which made them receptive to beginning a dialogue with black leaders. The realization that economic opportunity was the real key to social change had also begun to permeate the African-American community, and thus building bridges to the private sector became part of the civil rights agenda.”

Ten years later, the relationship was motivated by economic interests. African-Americans were beginning to develop an awareness of their consumer purchasing power and, as they looked at the companies they spent their money with, the notion of economic reciprocity, or supporting the people who supported them, began to take hold. Corporations which had never given much thought to blacks as a consumer base started to emphasize their affirmative action and community service programs, thus creating the need for the kind of coordinated public relations/advertising campaigns which inspired Jackson and his wife, Christina, who had joined him in the business as a partner, to establish a full-service advertising agency in 1980.

In 1987, when Workforce 2000, a study conducted by the Hudson Institute for the Department of Labor, predicted that by year 2000 nearly 40% of the new additions to the labor force would be minorities, immigrants and women, the nature of the relationship changed again. “The realization that workers are consumers was not lost on anyone,” Jackson said, “and if the complexion of the American workforce was changing, so was the face of the American consumer.”

Corporations started rethinking the way they marketed products to consumers as well as the products themselves and media began to reconsider both the news they brought, to their audience as well as the reporters and other persons who delivered it. Circulation Expert underwent some changes as well during this period as the Jackson’s children W. Garrison, Tenley-Ann and Terrance became major forces in the business. In addition, in 1991 the company celebrated its 50th anniversary with the creation of a Hispanic division, Hispanic Expert.

Today, Circulation Expert’s clients cover the spectrum of consumer goods and services, as companies like Phillip Morris, J. Eberly International, Ryder System, Miller Brewing Company, Chase Manhattan Bank, The Seven-Up Company, Pepsi/General Foods and Chesapeake-Pond’s seek to enhance their relationship with the African-American market and increase their market share. And, with Garrison serving as vice president of development and advertising, Tomkins as managing director of editorial services and Tarrants as manager of operations and production services, the company has truly become a family business.

**Baptist Fountain Makes Record Pledge to UNCF**

"If we do this, we will not only help empower a new generation of African-Americans, we will empower this nation....William Gray"

The members of Fountain Baptist Church understand the relationship between the African-American church and the historically Black colleges and universities, said Gray.

The Reverend Donald Osborne, pastor of Fountain Baptist Church, Summit, signed a pledge with UNCF President William Gray, President & CEO of the University of Missions, to the tune of over a million dollars in the United Negro College Fund.

"The response represents the prospects of the Men's Day event and will be given over a 10-year period, Gray said. It is our hope that Fountain Baptist Church's gift will serve as a witness for other church communities following us," said Osborne.

**What About People Who Can't Sing That Are In The Choir?**

**Questions And Answers**

"I'm good at the piano," said Dr. Woodruff. "There is a person in our choir who sings too loud and can't even sing! I feel like telling them to sing quietly or just don't sing at all. Should I tell them, tell the director, or tell the congregation?"

Dr. Roosevelt Woods, dean of a very important ministry within a church that is a national ministry so to speak. Therefore, we should always be the function of the people of our light. Psalm 100:2 says, "Serve the Lord with gladness; Come before His presence with singing." Singing is related to the scriptures in a multitude of instances where the praise of the Lord is the focus of our praise to the Lord. It is fantastic! It is a great spiritual exercise!

Singing can be defined as three categories: 1) Individual; 2) Community; 3) Corporate. The first is what you do by yourself, such as (example: singing while driving down the road). The second is what you do with other people in the group (example: Choir). The third is what you do as a part of a larger group or corporate in nature (example: Church, Family). Without question, the evidence of things hoped for, the evidence of things not seen."

Attention, Mothers-To-Be! Ask your doctor if you have been tested for the hepatitis B virus during your next prenatal check-up. This simple test can determine whether you carry the hepatitis virus in your bloodstream. This virus can be passed on to your newborn infant at birth. Babies with hepatitis B virus may develop lifelong liver problems.

Ask your doctor or clinic if you have been tested. For more information call 993-3053.

Mixed Media Exhibit Opening February 22 At SBVC Art Gallery
Artist Jeff Potterfield is a seeker of beauty where he finds it. He puts his marks on canvas in North Riverside. "American Window," opens Feb. 22, at the San Bernardino Valley College Art Gallery.

For more information call 848-6511 ext. 1460.

SBVC Woman Listed Among Best Engineering Students
A San Bernardino Valley College honor student who is a member of four is among 16 Southern California college and university engineering students named as "outstanding" by the College of Fellows of the Institute for the Advancement of Engineering.

Her honor, along with a check for $100 was presented to Susan Raper Townsend of San Bernardino. She is preparing for an master's of science degree in engineering drafting technology next spring from SBVC. Townsend announced her instructor, Eric Gruenler of Redlands.

Mentoring Program Begins At Emmerston
Emerton Elementary School and military and civilian personnel from Norton Air Force Base have teamed up to form a Mentoring Program in an effort to provide adult guidance in children's lives.

Their primary goal will be to help improve the children's educational development and set an positive role model.

"The mentoring program pairs adult volunteers with a child who can benefit from their life experience," says Fay Painter, Social Worker/Coordinator of the Emerton Project.
The VH-1 February artist of the month is Griffin, the raggamuffin rapper on the cut "Rump Shaker". This is the third single off the album "No More K.C. - 88.1 FM", released earlier last summer.

Griffin is urging VH-1 viewers to tune in as they chart their album's progress on the new VH-1 show "VH-1 Specials: Making It". In the first segment, viewers will watch Griffin record an album and perform songs from his new album. Griffin is also scheduled to appear on VH-1's "Soul on Sunday" specials.

Griffin is expecting an extremely large audience due to the popularity of the new VH-1 show. He is also excited about the increased exposure the show will bring to his music. Griffin says, "The staff will have more pressure to realize the changes the station has made. It's been over a year-and-a-half since KUCR and KLON, broadcast from Long Beach, were sharing the 88.1 FM frequency. The changes are not too abstract, but their music is constant and changing like the tide, as is Griffin's hairstyle for instance.

Everyone knew it was sur­prised when they found out the raggamuffin rapper on the cut "Rump Shaker" was not Black. "Rump Shaker" was one of those things that Griffin had to have on the record. "We were confident that the record would be a hit, so we put the beat, singing the lyrics, look at the video, pause in time to the beat, sing along with the video, and constantly changing like the tide, as is Griffin's hairstyle for instance."

The album was released last summer, and it features a range of raggamuffin songs like "Rump Shaker" and "Ez Come Ez Go." The album was released last summer, and it features a range of raggamuffin songs like "Rump Shaker" and "Ez Come Ez Go." The album is currently in stores and getting positive reviews from critics and fans alike. Griffin is proud of his music and is excited to see how it will be received by the public.

Griffin is grateful for the support he has received and is looking forward to the future. "I'm happy that the album has been a success, and I'm excited to see how it will be received by the public. I can't wait to see how the single "Rump Shaker" will do on the charts," Griffin says.

For more information on Griffin and his music, please visit his official website. Griffin's music can be found on all major music streaming platforms, and he is currently touring and performing at various events. Griffin is grateful for the support he has received and is excited to see what the future holds for him. "I'm excited to see how my music will be received by the public, and I can't wait to see how the single "Rump Shaker" will do on the charts," Griffin says. Parents, Learn To Fight The Flu Monster

Children are probably more prone to catching the bug than adults because they come in close contact with their friends on the playground and in the classroom.

Parents can generally tell if the bug has hit. Kids trudge home tired and achy, with a slight fever as their bodies summon their immune systems to fight off the virus. The best course of action, suggest Dr. Walter Morgan of Kaiser Permanente in Riverside, is to be prepared. Have on hand a baby thermometer, a supply of infant or child-sized medicine, a cold care book for late-night references. (Kaiser Permanente does not endorse any over-the-counter medications but lists in blankets — one layer of insulation is usually sufficient. Aspirin is not recommended for children under age 16. Call the doctor if the fever persists more than five days. For vomiting and diarrhea, stop feeding for a few hours and give the child plenty of liquids like chicken or orange juice and two sips of 7-Up.

Permissions can successfully treat most colds and flu at home. It's time to consult a pediatrician or nurse practitioner if a child has flu-like symptoms, severe ear ache or ear discharge, a cough with shaking or chills or bloody, brown, or green spumon or a cough lasting more than two to three weeks; a fever in a child younger than six months, or that lasts more than five days; signs of dehydration; black or bloody vomit or stool; or a severe sore throat.

Kaiser Permanente, Southern California Region is a pre-paid, nonprofit medical care program serving more than 2.3 million members from Bakersfield to San Diego. The Region has more than 3,081 physicians and 34,000 employees. It is made up of 10 major medical centers and over 93 satellite medical offices.

WARNING: Cigarette Smoking is The Leading Cause Of Death Among African Americans — And It's Totally Preventable.

Cigarettes Made Them History.
H ow beautiful King Arthur Ashe is! He recently wrote a piece about the works of King Arthur. In light of his passing, the following is an amended tribute to a personal hero of mine.

No one was more entitled than I, when Sports Illustrated ranked number one athlete in America. Banned from playing tennis due to a coronary bypass operation in 1979, Arthur was forced to make a move from tennis to another sport. Through the sport of basketball, he developed a friendship with Alexissance. Their friendship led to a connection with the United Negro College Fund. Arthur-Career-Century-Exclusive, recognizing his African American Athletic Achievement, participated in TransAfrica. A truly remarkable achievement.

Inland Empire Section

Charles Ledbetter

Mental illness arises from a conflict of identities. People need to control to find a new voice of self-worth. Arthur Ashe’s mental illness came from an attack on his inner self. It is this attack on his inner self that was his battle. He had been an athlete. He had been as well.

Want to know the definition of class? Look no further than Arthur Ashe.

In 1992, Arthur Ashe was diagnosed with AIDS. He had been an athlete, but a real man. He had been a model, but a human being. He had been as good as any athlete.

Black psychology is a term that African Americans have used to describe their mental health. It is not a term that comes from the outside. Black psychology is a term that comes from the inside. It is a term that comes from within.

Barbados Landmark Is Restored To Original Glory

The Black Voice News
Page B-5 Thursday, February 11, 1993

Unsung Plantation

House, one of the oldest properties on the island of Barbados, was purchased by its owners and recently re-introduced for visitors to discover its treasures.

Keith and Angela Melville purchased the property in 1981 and have transformed it into a showplace with a magnificent Georgian lounge; an elegant dining room complete with the original mahogany table and silverware, plus rubbing-oval crystal glasses and a decanter originally owned by the pirate Sam Lord, a mahogany staircase, breezy bed chambers and a fully furnished nursery.

The house is in the heart of the Parish of St. Phillip, surrounded by tranquil countryside, some 10 miles from Bridgetown, the island's capital. Visitors can stroll through the cellars and grounds which house elegant horse drawn carriages and one of the famous iron wheels designed, forged and exported by Miller Austin, Barbados' first black plantation owner.

The land adjacent is a working plantation run by the Melvilles in conjunction with the manager Tandy Allen. Although the house is lived in, it remains open daily to the public.

Barbados is the eastern most Caribbean island. Surrounded by the calm Caribbean Sea on the East, this 21 mile long and 14 mile wide island is home to breathtaking natural beauty and inspiring historic landmarks.

For more information contact, the Barbados Board of Tourism, (800) 221-983.

Barbados Landmark Is Restored To Original Glory

While most people think of Lexus as appealing to the classical or jazz music set, the luxury division of Toyota is also making inroads into the rap market culture.

The Lexus SC 400 sport coupe is featured in Pete Rock & C.L. Smooth's "Straighten it Out," which has been on Billboard's Hot R&B Singles Chart for 13 weeks and the Hot Rap Singles Chart for nine weeks.

"Woman or man, the car of the future is the Lexus Coupe or Sedan," says C.L. Smooth, who wrote the lyrics to "Straighten it Out." "It's my dream car. It shows my measurement of success but in a subtle way. There's no need to put accessories on or in the car. It comes fully loaded. In '93 Pete Rock & C.L. Smooth will be behind the wheel of a new 400 SC!"

Lexus executives were at first reluctant to participate, but gave their approval after reviewing the song's lyrics. "Straighten it Out" shows that rewards, such as Lexus automobiles, are possible if one straightens out his life.

The video was produced by 900 Frames, whose president, Chris Halliburton, was interviewed by the R&B Top Album chart for 31 weeks.

"Chris Halliburton, secured the exciting visuals to the video," Halliburton explained. "We thought by interpreting their lyrics literally, we could best capture the spirit of their message and at the same time add exciting visuals to the video." "Straighten it Out" is on the "Mel's & The Soul Brother album (Electra Records), which has been on the R&B Top Album chart for 31 weeks.

World War II was in full swing when a group of courageous young men enlisted in the U.S. Army Air Corps. They were known as the Tuskegee Airmen, the first African-Americans ever to undergo training as combat fighter pilots. Faced with a somewhat skeptical military establishment, they quickly set out to prove themselves. And prove themselves they did. Within months, they were organized into the all-black 99th Fighter Squadron and sent to fight in the skies over Italy and Germany. By war's end, the 99th and its all-black sister units had destroyed nearly 50 enemy aircraft and done untold damage to the Axis war effort.

What these brave men achieved is just one of many little-known contributions African-Americans have made to our country. That's why American Airlines offers accounts like this in observance of Black History Month. By so doing, the stories of the Tuskegee Airmen and others like them will be heard and appreciated by people everywhere. And their accomplishments will continue to assure them their rightful place in American history.
Air Bar Suspected Of Piercing Woman's Heart

The 22-year-old woman underwent surgery for the life-threatening injury and was released from the hospital after 11 days. The bag opened when the woman's car struck a parked vehicle at less than 15 mph...

Women's car struck a parked vehicle at less than 15 mph, doctors reported today. The bag opened when the woman's car struck a parked vehicle at less than 15 mph, doctors reported today. The bag opened when the woman's car struck a parked vehicle at less than 15 mph, doctors reported today.

Aetna Drops California Auto Insurance

SAN FRANCISCO (AP) - Aetna plans to withdraw from the California personal auto insurance market effective immediately, according to a published report.

Citing low profits in the state, company officials said they would no longer write personal auto insurance policies, the San Francisco Chronicle reported in Tuesday editions.

Customers who held policies with the company were advised to seek new coverage immediately.

Doctors believe the pressure ruptured the woman's right atrium, one of the heart's four chambers, Dr. Gilbert Lancaster of Danbury Hospital said.

However, he said the move was not specifically related to Proposition 103, the 1988 state initiative that limits auto insurance rate increases.

Aetna, the third company to leave the state since the passage of Prop. 103, has about 30,000 personal auto insurance customers in the state. The company's commercial auto insurance business will remain unchanged.

A spokesman for state Insurance Commissioner John Rosenfield's office said Aetna's departure would not affect the overall market because the companies that have withdrawn for, the main author of Prop. 103, said that since the initiative was approved, companies entering California have outnumbered those leaving.

The two companies that have withdrawn for California's personal auto insurance market are Ohio Casualty and Travelers.

James White, President

The best prices on the best tires with the best service guaranteed to all my Goodyear Certified Auto Service Centers.

Lancaster of Danbury Hospital surge ruptured the motorist's right atrium, one of the heart's four chambers, the Chronicle said. The newspaper said that since the initiative was approved, companies entering California have outnumbered those leaving.

Once upon a time, in a land far, far away, there was a page that contained some classified ads. The ads were about various topics such as real estate, personal services, and even a newspaper called "The Black Voice News." But what made this page unique was the way it was presented, with a mix of different fonts and sizes, making it look like a page from a newspaper. The ads were written in plain English, with a focus on providing information about local businesses and services. The page also included some legal notices, such as a notice to creditors and a notice of intention to sell real property. Despite the different formats and styles, the page managed to convey its message in a clear and concise manner, much like our own text-based assistants. It's a testament to the power of language and the importance of clear communication.
