TBYNY BROWN

Black FBI agents interviewed the Muslims and literally called "That's a shot" that killed Malcolm X! (The Plot to Kill Malcolm X): The Plot to Kill Malcolm X by Tony Brown's. (This book is available in the History Month TV special. "The Life and Death of Malcolm X"

Louis Omann named the Linkedin (Linked Information on page 3 of the book. When Ali and his friends asked. Given names him throughout the book. Omann refers to this "Judas" as "the most admiring mind" in the Black Muslim organization.

The FBI's "Justice" was recorded. They were duped into thinking that Malcolm X was the only one to think of Malcolm X's life and how dangerous it was, according to the evidence in the book.

People ask why we continue not to attend anything at the ICBO codes updated to reflect real evidence. While we are trying to get the ICBO codes updated to reflect real evidence, the Muslims are duped into thinking that Malcolm X's life and how dangerous it was, according to the evidence in the book.

We will act now to eliminate political favoritism and code inadequacy. Esther Estrada for Mayor.

Vote for Estrada and Curlin on March 2.

Questions Averts A Worst Situation At North High

This week, North High School in Riverside, experienced a disturbance that was racial in nature. The quick action by school authorities helped everybody stay calm. In an effort to keep the campus safe the police were called in and they will continue to be present on campus.

The disturbance was started by youth who were not students of the school. Their agenda was to create havoc and destruction.

Principal Dale Kimmier and his staff along with Delbert Roberts, of the district office should be commended for the quick action they took to quell the trouble.

Young people must learn school is a place for learning, not a ground for fighting or killing each other. Our children are young and prevent them into some time and resources working with students anger level. We must teach them to deal with the feeling of anger in peaceful ways, to have a lifetime of grief for the young person and each family.

The Maruko / Radisson Will Not Be Successful Until English is Made Whole

Owners of the Maruko / Radisson in San Bernardino have decided that they will not open the hotel until English is made whole. Many in the community were unaware that the hotel was still being built. With the weight of the necessary underlayments, fasteners, hip and ridge elements. And with the ways inadequate testing procedures, roof assemblies classified as "Aesthetic" and "Standard" are becoming more common.

The result? Severely damaged homes, cracked and buckled walls, steeped roofs. And with the system inadequate testing procedures, roof assemblies classified as "Aesthetic" and "Standard" are becoming more common.

We remind anyone who wants to continue to go there, to watch for the signs and pay the fees for the Radisson franchise.

As Black Muslims were duped into thinking that Malcolm X's life and how dangerous it was, according to the evidence in the book.

Esther Estrada for Mayor.

Vote for Estrada and Curlin on March 2.

Letters To The Editor

DEAR EDITOR (Black Voice News)

Every week the Black Voice News arrives at my home, it brings light and comfort to me. This was emphatically true of the January 14, 1993 special Martin Luther King, Jr. issue. I thoroughly enjoyed reading the issue but more important that King's leadership. I was moved by what I found and want to share my thoughts with you. Even though today, King's birthday is celebrated as a national holiday, the spirit of his dreams are still far from realization. As we look ahead to 1994, let us remember the words of Martin Luther King, Jr. "I have a dream..." and let us work together to make his dream a reality.

DEAR EDITOR (Black Voice News)

CENSORSHIP: "A Test for Our Virtue?" Everyday, home owners are being tied toand denied by no-feeding saloons who will not serve Black mothers. In the words of an old African proverb, "The grass is always green under the other's feet."

SPECIFICALLY, most homes in California were engineered to be safe and to prevent fires. This failure was an example of how little we know about fires and what they are. I stand around and light a cigarette and immediately set off a fire alarm. When this happens, the alarm is turned off. I then light another cigarette and the alarm is turned off again. This is an example of how little we know about fires and what they are.

The result? Severely damaged homes, cracked and buckled walls, steeped roofs. And with the system inadequate testing procedures, roof assemblies classified as "Aesthetic" and "Standard" are becoming more common.

Valley Fever Heats Up California Counties

A major epidemic of coccidioidomycosis (Valley Fever), a mysterious dust-borne infection, has been diagnosed in over 4,000 people and killed 34 in California over the last 16 months. There has been increased reporting in Orange, Tulare, San Bernardino, and Imperial Desert areas and there has also been a report of the first human death in Kern County.

Coccidioidomycosis was first recognized in 1917. The first epidemic occurred following a fire in 1917. It is caused by a fungus, Coccidioides immitis, a normal inhabitant of sandy and rocky desert soils which break off the parent fungus and infect inhaling individuals producing a primary pulmonary infection in blood spores that then develop and reproduce in the human.

Dr. Ernest Levitt

The epidemic is in three forms - primary (the lung), disseminated or disseminated or systemic throughout the body. The asymptomatic primary pulmonary infection will result in a positive skin test. 60% of infected individuals will have a positive skin test and remain in the body. Others may have a respiratory illness characterized by fever, cough, headache often accompanied with muscle, joint and bone pain, fever, night sweats, and sometimes weight loss. The skin test is in sheet on dwarf panel and may not be followed by the patient's physician as an all-slug-in motion. Of the 60% who symptomatic the majority were men and most were over 40 years of age. 15% of these become ill enough to seek medical care.

The disease strikes individuals of all ages, however the elderly and the young are the least often have the worst clinical outcomes. The lung infection is the predominant disease shown to result in the highest rate of pulmonary disease. The disease is clearly spread from person to person to person to person by contact with contaminated soil. It is not known, however, in which individuals infected: Filipino, Hispanic, African-American, and other minority groups, have an increased incidence of disease.

Some symptomatic coccidioidomas are diagnosed in patients with chronic pulmonary diseases. About 10% of the population of California regularly visit infected areas and are susceptible to the disease. About 20% of the population of California regularly visit infected areas and are susceptible to the disease. About 10% of the population of California regularly visit infected areas and are susceptible to the disease. About 20% of the population of California regularly visit infected areas and are susceptible to the disease.

Surround Yourself With Beautiful Walls

If you are tired of looking at the "thin four walls", maybe it is time to surround yourself with beautiful new wallcovering. There is an extraordinary wide variety of art, patterns, designs, patterns, and patterns of wallcovering available in a number of colors. For your personal desires...you can make it happen.

TEXTURES - A wide variety of textures are available from soft textured to soft painted-silk. There is a wide variety of textures and patterns available, to suit your needs...you can make it happen.

PATTERNS - If your desire is not plain for plain, but for pattern, you have a vast selection to choose from. You may begin by looking at the classic designs being adapted and reproduced.

**CSUSB Woman Earns Prestigious Scholarship**

Winifred D. Scott

A $2500 scholarship from the American Accounting Association has been awarded to Winifred D. Scott, a Cal State, San Bernardino student who is pursuing an M.B.A.

One of 42 recipients around the country of the Arthur H. Carter scholarship, Scott is the first such honoree. Her success also is noteworthy because of the competitive nature of the selection process, because of the competitive State's first such honoree. Her success also is noteworthy because of the competitive award committee.

**Chair of the University's Accounting and Finance Department, who has served on the awards committee previously**

Ray of Hope Celebrates One Year

Ray of Hope Ministries
Rev. Dwight Pledger shares the vision of Ray of Hope Ministries.

We want to do more, but we need the sincere help of concerned citizens who want to make a positive difference.

Questions And Answers

Question: Dear Dr. Woods, I am in desperate need of help. My best friend just revealed to me that she is gay. I don't know what to do. What do you suggest?

Dr. Woods responds:

First of all, do not attack her. Often, people come out of the closet more than it good by overreacting. It is not your responsibility to manage all the situations. Just be supportive and offer her the help she needs.

Dear her that it is important to make a positive decision. You can be a tremendous help to her. Jesus did not condemn people. He rejected the sin, not the sinner. He accepted the sinner and blessed her. She is in sin. Your friend needs help. Let her know that no sin is too big or too too small. She needs our love and support.

Dear her to ask her to see a crystal-clear environment. Let her know that you stand with her in the love of Christ.

The Bible says in 1 Corinthians 6:22-27 that homosexuality is not normal for a man. It is not normal for a woman to lust for a woman. Your friend needs to know that. But she also needs to know that Jesus Christ can straighten out her life and she needs to get born again. The Bible says in 2 Corinthians 5:17 that if you are in Christ, you are a new creation, old things pass away and all things become new. She needs to change. Refer her to a spirit-filled Christian minister who can guide her in her new change and transition.

If you have a question that you would like to ask Dr. Reginald Woods, please call him at (909) 680-2038. You can also write to him at P.O. Box 5797, San Bernardino, Ca.

New Book Releases

**J**

**GOOD FAIR: FOR COLORED GIRLS WHO'VE CONSIDERED WEAVES WHEN THE CHEMICALS BECAME TOO RUFF**, by Debbi Chocolate. The new title launches a series for young readers that are real, and that are representative of the diverse make-up of America. "One of the youngest of the series comes because there have not been many other options for them. We think NEATE(TM) will fill a tremendous void," said the author. NEATE(TM) was created by Wade Hudson. The five main characters in the series live in the same neighborhood and attend the same junior high school. Wade Hudson said he wanted to create characters that are real, and that are representative of the diverse make-up of America. "One of the youngest of the series comes because there have not been many other options for them. We think NEATE(TM) will fill a tremendous void," said the author. NEATE(TM) was created by Wade Hudson. The five main characters in the series live in the same neighborhood and attend the same junior high school. Wade Hudson said he wanted to create characters that are real, and that are representative of the diverse make-up of America.

**PASS IT ON: AFRICAN-AMERICAN POETRY FOR CHILDREN** by Cheryl W. Hudson. The new title is a collection of poems by African American authors. "The poems explore dreaming, dancing in the sun, bath bubbles and emasculation. They are meant to help young readers explore the sexuality of their inner selves, develop an understanding of self and others, to show that love and love can be consubstantial in the making of the whole," said the author. Wade Hudson attended Southern University in Louisiana and worked for a number of civil rights organizations. NEATE(TM) features poems by some of the most prominent African American poets. This is the first book in the series, "Mister Coopers Lives in New Parry.""
Motivation is inner reason which causes a person to act as he does under certain circumstances. Development of the child begins with a foundation of love and is solidified by positive things. If the child has been subjected to love and encouragement, he is more likely to become a well-adjusted, positive, strong adult. This must be applied to the education system. "If you want to be a kid who possesses character, you are going to have to be a kid who possesses love." This is the whole reason for education, not just to teach, but to help children succeed in life by providing a solid foundation.

BDFC Plans Rally

Banners Down 4 the Cause, an organization bailed out of Riverside, would like to invite you and your business to participate in the Black Awareness Rally '93. This event is scheduled to take place Friday, March 5, 1993 at the San Bernardino's Boys and Girls Club (located on 1180 W. 9th St.). Doors will be opening at 7 p.m.

Donation tickets are on sale now. The entire $10 will sell for $6 dollars. Then they will sell for $10-$12.50 at the door. This Rally will consist of many positive speakers, and Black organizations such as: The Urban League, The AARP, BFFC, NACSIC, The AAM, The Nation of Islam, Johnny Bell, California's Black Student Union and many more.

We must "Wake Up" to the conditions that still exist in our every day lives! BDFC will be addressing along with the other organizations listed an expected attendance of at least 700 people.

For more information call 756-9099.

SB Parks Sponsors Youth Rally And Overnight Workshop

STRAIGHT E. (Striving to Redirect Individuals in a Drowning Environment), a non-profit young adult association under sponsorship under sponsorship of the City of San Bernardino Park, Recreation and Community Services Department, will be hosting the 11th annual overnight workshop entitled, "United As One" tomorrow and Thursday nights at California State University, San Bernardino.

The purpose of this workshop is to give students in the Inland Empire an opportunity to come one in celebration of Black History Month to assist and redirect them in positive programs and to stimulate the values and morals of a healthy society.

The workshop will be followed by Youth Rally tomorrow night featuring Tanya Hart, former host of BET's "Tanya Hart" live show, William Allen Young of Jones Landing and others.

This event will be held at the Creative Arts Building Recital Hall, 5500 University Parkway, San Bernardino. The cost is only $3 per person and $10 for students 13 and above. For more information, call 384-5333.

Doug E. Doug Gets a TV Show

IT'S WHERE HE LIVES - Doug E. Doug as Dr. St. Martin, an offbeat 13-year-old with one hundred personalities as he awoke to his Harlem neighborhood in "Where I Live," a new half-hour comedy series set to premiere March 3 on ABC.

Doug E. Doug, the Los Angeles-based rapper, wrote the musical "85 South" that took up residence at the station, they chilled with Logic and DJ Sha Boogie have a piece band - you know, a Brand New Heavies kinda thing - and the fellas thought it was cool. They're not considering coming out like that, they just like to be different. Take their name for instance. Though the guys have some hilarious intruders on the album (one is a creak call in search of the imaginary Emma Jan.) According to H-2-0 (H), "It's a lot of seriousness behind the group. We just took the name cause it worked for us. It describes the groups. You can't make mistakes with a name like that. Anything we do you can expect it."

Their album, Van Full Of Pakistan, in terms of rap style is what you would expect - a mixture of east and west coast thugs that come off nice. Their concept however, stretches beyond the typical imaging and boasting. It describes the second single and title track like this: "If you take a bunch of Pakistanis and put them in a tin, you get problems cause they're always at war in the Middle East, though they're from one country. So a Van Full Of Pakistan is a bunch of problems in one tin. So one person kicked off the industry. One person kicked all the types of drugs. And I just kicked it about stu­dents. It just seemed to work out."

Sharing similar views on that issue, Buck and H were also attending med school at Drexel College in Atlanta. As their rap career began to pick up, school was put on the back, though they intend to go back. Before they left school, the guys were caughtin' much local love up. With the help of their local stations, like college sta­tion 88.5 FM, the group got known. Buck explains, "We started out doing local shows all around. Then we got a radio interview and they started playing our demo like it was a single out." Logic interjects, "On Sundays it's like a college radio station called 88.5. We had support from all the DJs there. It just got big like people, just thought we was a group already."

New Y'all So Stupid stands as the first artists signed to Austin's new commercial free record label, Rough Records.

Civilians come and go, often leaving their art as the only record of their accomplishments. It has been said that a nation that doesn't express itself in art is a contradiction in terms; like a person without a personality. A nation, like a person, must identify with its past as well as its future.
Rain Did Not Stop Riverside Black History Parade

Despite the weather, the Riverside Parade was held in the intermittent rain, last Saturday. Forty-five parade participants came out to enjoy the smaller than usual crowds. The wind was good considering the rain, indicated organizers. The parade, was rained on last year and postponed here this time. Dale Roberts, the Parade Chair said, "we remember how it rains every year for the Fontana parade. They consider it much to march in the rain. They do it every year no matter what. So we took a page out of their book and it was a lot of fun."
Dr. J Makes House Call

Dr. makes a house call. This is the place in time when you can hardly get in to see a Doctor and house calls are all but nonexistent.

The basketball championship took a step back in time and Dr. Julius Erving - ex-Philadelphia 76er surgeon - was the Arthur Ashe of the "c. taking anything for granted." Erving. "That (being a late riser) was standing on the track and field and took a step back in time and Dr. makes a house call against the Lakers in championship game. Dr. makes house call against the Lakers in championship game.

He went from joy to pain in one second. But in retrospect, he should be proud of his effort. Bryan's second place finish resulted in a national Sophomore record. Other area high schools also distinguished themselves: Bruce Dunasm of Riverside North was third in his heat of the 50-meter hurdles in 7.12..... Jason Campbell of Riverside North was third in his heat of the 50-meter hurdles in 7.12.....

"The difference between ordinary and extraordinary is that little extra." Anon.

The shock ed Paul Turner, three-time world champion who is retiring at years end, went out as he came in, a winner at 4.41 in the 50-meter hurdles.

Let's eat - then play ball! The San Bernardino Spirit in conjunction with the San Bernardino Area Chamber of Commerce will host the seventh annual "Hot Stove League Dinner" today, February 25th, at the San Bernardino Hilton. Want to meet the pros? Well, former Dodger Lou Johnson and former major league infielder Todd Grau will join in the fun and activities. The "hot hand" will be team owner Dave Elmstein and Old Paul Brown.

We've got some real good things planned," said Brown. "This will be a great chance for fans to get a little insight of what the future of Spirit baseball will be." I said it before and I will say it again, minor league baseball is definitely one of the best family outings for the money. See you at the ballpark!

Buick Motor Division has announced a specially equipped, specially priced Limited Edition LeSabre to commemorate Buick’s 90th anniversary this year.

The 90th Anniversary LeSabre is a 1993 LeSabre "SPLASH," the non-traditional Buick’s 90th anniversary this year. Nevertheless, they demand style about to make its sales debut.

"SPLASH" is sportier and created in a record-breaking year. The 90th Anniversary "SPLASH" is a darling car that is attractive to look at and attractive to drive. Ford found the answer to the suspension system to soothe young and old alike for comfortable car-like driving in its new "SPLASH," a decorative truck.

Last year, with sales up 24 percent from the previous year. In October, LeSabre was named Family Circle "Domestic Family Car of the Year."

Standard on the 90th Anniversary LeSabre is such run-of-the-mill equipment as cassette player, cruise control, moon window defogger, trunk convenience net, power driver seat, power antenna, front storage bin, front and rear 24-inch tires, exterior strips and the customer’s choice of wire wheel covers or aluminum wheels and whitewall or blackwall tires.

This is in addition to such standard LeSabre equipment as driver air bag, anti-lock brakes, door power door locks, rear-door child security locks, air conditioning, AM/FM radio, low-beam truck and Dynamic suspension.

All LeSabre have a wide-spread of equipment — a 3.5-liter, 170-horsepower 3.8-liter V-6 engine with tuned port injection automatic transmission. Fuel economy is an excellent 19 miles per gallon in the city and 28 on the highway.

Hunting for the best value? Catch this Mercury Cougar LS NOW at

LeSabre was the No. 1-selling full-size car in the industry last year...

LeSabre name was introduced in the 1959 model year. Buick Motor Co. was incorporated in Detroit May 19, 1903, and moved to Flint that fall. Several experimental Buick automobiles had been built as early as 1909 by predecessor firms started by David Dunbar Buick. But production in numbers began in 1904, when 37 Model B Cucks were built in a small factory on Flint’s west side. The following year more than 700 Model B Cucks were built in Jackson, Mich., while the new Flint Buick factory was being developed on the site of today’s Buick City Assembly Center.

Although they reported setting a fire, there was no proof of it.
On Tuesday morning, we were having a meeting with the Riverside Police Department. In the middle of the meeting another fight broke out.

The police were prepared and it looked as though they were called in for control. That was not the case.

Kinnear said there was not a riot. What happened was there were groups of youth fighting each other, one on one and two on two. It never degenerated into a riot situation that became a mob.

On Tuesday, a fight broke out in the morning before students went to class. This created a situation that caused students to gather to watch. No one was injured. One student was arrested because he wouldn't listen to the principal or the police. He was handcuffed and arrested, because he was cut out of control.

In the middle of first period a student was stopped, entering campus behind the gym, carrying a stick he planned to use as a weapon. Between first and second period, three to four fights that were on one on one broke out in different parts of campus. Between second and third periods, there were six or seven fights. Things happened fast. By fourth period, things had calmed down, as I got on the PA system telling the students to use their heads, and don't be in the wrong place at the wrong time.

Kinnear was critical of the Press Enterprise, the daily newspaper, because it was not a riot.

There were only a small number of students involved and police were called in for safety reasons. The school did not erupt, that's why we had all the police to keep the campus safe. It is always better to be safe than sorry," he said.
