APPROVAL RECEIVED FOR EARLY CHILDHOOD SPECIALIST CREDENTIAL

Commission on Teacher Preparation and Licensing.

The College recently received approval to offer the Early Childhood Specialist Credential Program, effective this year, from the State

Nathan Kravetz, Dean of the School of Education, in announcing the new credential, states that the program will provide advanced preparation for teaching children in the early years and for those persons interested in administrative positions or leadership positions in early childhood programs.

Candidates must already hold a valid California teaching credential and have successful teaching or student teaching experience. According to Florence Mote, Coordinator of the program, several candidates are already enrolled in the program and additional classes and students are expected in Winter and Spring Quarters.

The Early Childhood Specialist Credential stems from SB 1302 which places emphasis on qualified, trained persons working with children of pre-school ages and their parents.

The College also offers a multiple subjects basic credential with an emphasis on early childhood which prepares teachers for pre-school through six-grade levels, but particularly provides preparation for work with the youngest children.
