JOYCE CHAPPEL PRESENTS CONTROVERSIAL CLASSES ON RACE

Correctional Officers, NAACP, Black Heritage Council, Edwards State; Ward McAfee, history professor at the University of California, San Bernardino, among others, have gotten away with calling the same thing the last time. I didn’t want to do it this time because I had a lot of the same heroes when you were a kid, people you admired but didn’t really know, like your father or your godfather, William. A. Mickey Mantle was my first hero. Kareem Abdul-Jabbar was my all-time basketball hero, before MJ. Michael Jordan. I never had the opportunity to meet Kareem. That book shot he had was just like automatic. I’ve liked Tony Dornett because even through all the typecasting, you could see the passion at the ending of his football career he was always happy for the time that he played and he never had any regrets and a lot of people don’t ever know he could never point at anyone.

I also liked a lot of these like from the old Negro leagues that I knew the stories about, and Jackie Robinson. All the other players, the managers and the players and the strategies that they had to go through, it was really hard to know if they would have been famous, not being able to take the brand with the other black ballplayers, taking brands, being able to overcome those things...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...I don’t see any regrets or any...
"We Must Motivate Our Children"

By Stephanie E. Meyers

"In bond...I don't have anything to do...I don't want to do anything...I don't care how much you read...I don't care how much good news you bring...We are facing a group of self-defeated, unmotivated children who stand before us. Let's do it!

In the first instance, bond children are affected by being around boring adults. All they hear are complaints, depression and frustration. It's unhealthy for them to listen to talk like that. They won't get out ahead because I'm black...I have my spouse...I feel powerlessness.

Listening children quickly reach the conclusion that there is no reason to work hard, get an education and then there is no reason to compete around the country, and chasing the all mighty dollar. Children with no goals, we are going to have to motivate them while they are children. But, we say we want the next generation of African American adults to be capable, competent, achieving adults. If that is our goal, then we have to show them how to do it.

But, we say we want the next generation of African American adults to be capable, competent, achieving adults. If that is our goal, then we have to show them how to do it.

If your children are around adults who are so busy that they can't hear anymore about how hard life is or are always talking negative, treat them like poison because they are unprintable.

Remember, children are around adults who are always talking negative, treat them like poison because they are toxic.

Third, read, read, read. Force yourself to go to the bookstore, or the public library, and browse until you find a subject that inspires you and is informative. Tableaux that only consist of complaints, me monotones, and stories that seem to have no strategies together. Pass on to them the wisdom and inspirational principles that were passed on to you when you were a child.

Kids learn by example. Children learn by example. Children can't motivate themselves if the adults around them aren't motivating for them. If the parents are unmotivated, the kids are unmotivated.

In some instances, I believe children aren't unmotivated because they are around adults who are bored and unmotivated. In other instances, children are around adults who are so busy that they push their children.

The Black VOICES NEWS

Established in January of 1973
The Black VOICES NEWS was the first Black community newspaper and African-American U.S. Focus, Los Angeles, California, 90016. We are a tri-weekly publication. We are a non-profit, 501(c)3 organization.

Publisher Of Essence Elected To Chair TransAfrica Forum

Edward T. Lewis, Publisher of ESSENCE Magazine and CEO of Essence Communications, Inc., has been elected chairman of the board of TransAfrica Forum, the research and education affiliate of TransAfrica, Inc., a lobbying organization for Africa and the Caribbean.

Lewis recently stated, "I am honored to be elected Chairman of TransAfrica Forum. Under the expert leadership of Executive Director, Randall Robinson and Deputy Director, Anne Griffin, TransAfrica Forum has become a leading lobbying organization for human rights, democracy, and economic, political and social concerns of Africa and the Caribbean, as well as developing and under-developed countries." He concluded by saying, "We will continue to pursue all opportunities to create understanding among policy makers and assist in the formulation of constructive U.S. foreign policy as it affects these nations, while building a more informed American public and stimulating increased public participation in the foreign policy process." Lewis, a former director of TransAfrica and chairman of Africa News Report, will guide the organization through new endeavors including the organization's Capital Campaign and the establishment of the Arthur R. Ashe Jr., Foreign Policy Library and Research Center. He will also oversee the move of TransAfrica and TransAfrica Forum to its new home, a historic landmark building, located in the embassy section of Dupont Circle, that will, after renovation, house the offices of both institutions.

With 5.1 million readers ESSENCE is the premiere magazine for African-American women. Published by Essence Communications, Inc., ESSENCE is the leading source of fashion, beauty, celebrity, career and health information, as well as calling-edge reports on issues affecting today's African-American woman.

Fisher Named To Key California Small Business Committee

Susanne M. Fisher, owner of Diversified Executive Services; a meeting management and public relations firm, in Sacramento, has recently been named to serve as a member of the California Chamber of Commerce's Small Business Committee.

With over ten years of professional business experience, she will be representing thousands of Californians small firms in determining the statewide Chamber's legislative policy positions and programs for small business.

Fisher, who recently left the Bank of America as the associate deputy regional administrator for the U.S. Small Business Administration, also served as the first woman Small Business Advocate for the State of California, under Governor George Deukmejian.

While with the state and the federal government, Fisher represented many high ranking public officials and was responsible for numerous special events, public relations and extensive community outreach.

She also serves as a member of the Sacramento Metropolitan Chamber of Commerce's Small Business United; the Sacramento Metropolitan Chamber of Commerce's Training and Development Committee and as the Sacramento area Independent Meeting Planners Liaison for Essence Communications, Inc., Publisher Of Essence Elected To Chair TransAfrica Forum

**New Visions Plans Pastor's Installation**

Reverend J. Stewart, the new Pastor of New Visions Christian Community, was installed on Sunday, July 29, 1995, in the home of Mrs. and Mr. Jefferson and held its first worship service in Moreno Valley on February 7, 1995. Since its Commissioning Service, NVCC has dedicated itself to teaching and establishing its family and social ministries because there is no question that God loves you. In all your ways acknowledge Him, and He will direct your path. Jesus is the way of life that leads to peace and happiness. Nothing in this world is perfect, but Jesus is the perfect one who has lived a perfect life. He has paid the price for our sins and has given us the opportunity to be saved. However, while we have a choice here on earth we can choose Jesus, but God says in John 10:10, "I have come that you might have life and have it more abundantly."
Frightening Facts About Guns. 1. Guns kill their owners and family far more than criminals. Handguns purchased for home protection are 43 times more likely to be used to kill the owner, family member or friend than to be fired in self-defense, according to a study published in the Nationalbold Safety Center. It's gotten so bad that some schools are now installing metal detectors and building high walls with posts to protect their students from stray gunfire. Do you remember when going to school was fun?

4. Sales of dangerous assault weapons have increased dramatically in recent years. In fact, the numbers of weapons designed to accept silencers and bayonets increased 51% in 1989 alone and these assault rifles are six times more likely to be used in crime than other firearms, according to a study published by Cox Newspapers.

5. Five school children murdered and one injured in minutes. One lone gunman used an AK-47 in a elementary school and gunned down 34 children and one teacher in less than two minutes. Systematically spraying the playground, Patrick Peary modeled the school year with 106 bullet-ridden school deaths over a background check and a waiting period. There are many Americas and the influence of drugs, will do very foot-long residents. We love our children, let us protect them from vicious, violent sick people.

6. There's virtually no regulation on gun dealers. Due to NRA lobbying efforts, the US Bureau of Alcohol, Tobacco and firearms does not have the funding to thoroughly check applicants. Anyone who tends in $30 can obtain a three-year license for selling guns, often in violation of local law. Why not promote friendship, fatherhood and family living? We can put the gun boys out of business.

7. American is the world's most violent nation by far. Other industrialized nations have visible bans on handguns. That explains why the chance you will be gunned down in America is 55 times higher than if you lived in Great Britain — while almost seven times higher than in Australia and more than 5 times higher in Canada. This information was obtained from the Coalition To Stop Gun Violence, 100 Maryland Ave. NE, Washington, D.C. 20002.

Life would be better for the entire world if we would all think and practice fellowship and love for our fellowman. Put aside the weapons that take lives and use a weapon that gives life, the Holy Bible. We can all do it. Together, we can.

Hands for Peace. The objective is to celebrate peace. The procedure is as follows: Discuss the symbolic meaning of two hands shaking or clasping. The goal is friendship. It is achieved by helping others, trusting each other and working together.

Ask your students how they might use these images as part of a classroom or school-wide directory of celebration of peace.

Some suggestions might include:

1. Designate a date and time for everyone in the classroom (or school or district) to clasp hands, forming one large chain in circle to each room.

2. At an assembly have everyone clap hands forming a chain while someone reads a poem or proclamation about peace.

3. Have your students trace one of their hands on construction paper, cut it out, then fill their finger space with things they can do to foster peace. Display the pictures on a "Helping Hands For Peace" Bulletin board.

It would be nice if each home would set aside a period of time when the entire family can talk about what each of them can do to promote on earth. Together, we can work for peace.
