"THE SEA GULL"
OPENS COLLEGE'S
NEW THEATRE

PREMIERE

November 4, 1977

The premiere production in the new Theatre, Chekhov's "The Sea Gull," opens Thursday, November 10.

A guest actress and a champagne reception will mark opening night of the first play to be presented in the College's new \$2.5 million Creative Arts Building.

Opening night is a sell-out, although names may be taken for a waiting list, according to Ronald Barnes, director and Theatre Arts Chairman. Seats are available for all ensuing nights, Friday and Saturday, November 11 and 12 and the following week, Tuesday through Saturday, November 15-19. Curtain time is 8:15 p.m.

With the advent of the new Theatre, reserved seats are now available to patrons. Information on season tickets or single admissions is available by calling the Theatre Arts Department, 7452, between 1 and 4 p.m. daily or at the box office, 7680, at other hours.

The President's Club will host the champagne reception on opening night. Greeting guests, in addition to club members, will be President and Mrs. John M. Pfau and Dr. Barnes.

Guest artist for "The Sea Gull" is Mary Barnes, an accomplished actress with stage credits around the country, featured in the role of Arkadina. She is a veteran of many plays in the College's now extinct Little Theatre and a versatile actress with credits from numerous community productions ranging from Honolulu to Riverside.

Set in 19th century Russia, "The Sea Gull" combines elements of the serious

VETERAN'S DAY BECOMES
DECEMBER 23 HOLIDAY

Next Friday, November 11, is officially Veteran's Day. According to the College's Academic Calendar that day has been designated as a regular class and work day for the College.

VETERANS' DAY

The holiday will be taken by the College on December 23 to allow a four-day holiday in conjunction with Christmas, which falls on a Sunday this year.

The next upcoming holiday to be observed by the College is Thanksgiving Day, November 24, and an Academic and Administrative Holiday on November 25, to be taken in lieu of the October 10 Columbus Day holiday.

and the comic as each character learns to live with his or her own weaknesses.

The presentation of "The Sea Gull" will be more typical of an abstract interpretation than a literal, according to the director. The facilities and equipment now available in the new Theatre make it possible for the set designers to utilize lighting projections rather than three-dimensional scenery to achieve effects, stated Dr. Barnes.

The 143-seat Theatre features seating in five rows on three sides of a thrust stage.

LESLIE I. HARRIS STRING
QUARTET TO GIVE FIRST
PERFORMANCE IN RECITAL HALL

The Leslie I. Harris String Quartet will present its first performance in the Recital Hall of the Creative Arts Building on Sunday, November 6.

Music by Haydn and Schubert and a contemporary composer, Walter Piston, has been selected by the Cal State's in-residence quartet.

Haydn's "Sunrise" quartet will open the program at 7:30 p.m. The third string quartet by Piston, an American who died last year, and Schubert's "Death and the Maiden" complete the evening.

Members of the quartet, named in honor of the late San Bernardino civic leader and patron of the arts, are Armen Turadian and Clyda Yedinak, violin; Victoria Shapiro, viola; and Catherine Graff, cello.

Tickets for the concert, available at the Music Department, CA-175, Ext. 7454, or at the box office, are \$1.50 per person. Children and students with identification cards are admitted without charge.

The College congratulates Mr. and Mrs. Arion Contreas (June Jones, Education) on their marriage in San Bernardino Sunday, October 30.

View L.A. at 50 m.p.h.

Art Gallery Nov. 9-30

A multi-screen view of Los Angeles, as if seen from a car at 50 miles per hour, will greet visitors to the Art Gallery this month.

The show, entitled "Los Angeles Communications," will be on exhibit through November 30.

The video and slide show is from Environmental Communications, a small group of Los Angeles photographers, videotapers, researchers and editors operating under the direction of David Greenberg. An architect, Greenberg utilized the camera to give architects and planners a "third eye."

He explains that in the 19th century the shapes of a city were observed by a populace averaging a foot speed of about 2-1/2 miles an hour. In recent years Los Angeles residents view their architectural environment at an average speed of about 50 miles an hour.

The installation for the 45-minute show utilizes a video cassette hooked up to two television monitors. Electronic beeping instructions dissolve the slides at various speeds from two slide projectors. The effect is one of driving through the city at 50 miles an hour.

An opening reception will be held at 7 p.m. on Wednesday, November 9 in The Gallery. The College and the public are invited.
