"A GLASS OF WATER" OPENS TONIGHT IN THE NEW THEATRE

Eugene Scribe's French play "A Glass of Water," opens tonight in the new Theatre of the Creative Arts Building. Presented by the professional Travellers' Company of Los Angeles, the comedy will continue its run tomorrow evening and Sunday afternoon, and the succeeding weekend, January 13-15. The Sunday performances, January 8 and 15, are matinees beginning at 2:30 p.m. All other performances are set

for 8:15 p.m.

Translated by Richard Switzer, Dean of Humanities, the play features Helene Koon, English Department Chairman, in the role of Queen Anne. Audiences should enjoy the lively dialogue sharpened by Dr. Switzer's sparkling translation. Laced with plots, the comedy of intrigue is enhanced by gorgeous period costumes.

All of the Travellers' Company actors and actresses are currently working in television, movies and theatre productions and have given their evenings to rehearsals for the Cal State performance. Leo Matranga, stage and television actor, directs.

Admission is \$2.50 per person. Call 7452 between 1 and 4 p.m. daily for reservations.

NEW STUDENT SERVICES STAFF

NEW OUTREACH E.O.P. COUNSELOR

Laura Gomez is the College's new Outreach Counselor, succeeding Frank Reyes who recently accepted a counseling position at San Bernardino Valley College.

As Outreach Counselor of the College's Educational Opportunity Program, her job is to show students with promising academic qualities, but who for socio-economic reasons were not considering a college education, that college is the way to go.

For the past two and one-half years Miss Gomez worked for San Bernardino County's Office of Community Development. She is currently working on her master's degree in education, with an emphasis in counseling, in the College's program and hopes to receive her degree in June.

A 1970 graduate of Pacific High School, she attended Valley College. Her third year was on the CSCSB campus and the fourth year was at the University of Madrid through the CSUC International Programs.

NOTE: You can see her in living color on Channel 18, Wednesday, January 11 at 6:30 p.m. in an interview.

NEW DIRECTOR FOR UPWARD BOUND

John Chesney is now serving as the Director of the Upward Bound Program. As the new director, he hopes to encourage more parent involvement within the program. He also says he would like to see more self-development and goal-oriented courses added.

Upward Bound, in its fifth year here, is a national program funded by HEW. High school students participate in a six-week summer residency session and an academic year follow-up.

CSCSB BULLETIN

The California State College, San Bernardino BULLETIN is published by the Office of College Relations, AD-151, Ext. 7217. Material for publication must be received by noon Tuesday before the Friday of publication.

Editor Barbara Nolte

Printed at Duplicating

Before moving into his new position on November 1, Mr. Chesney served for two years as an advisor-counselor in the program at Pacific and San Geronio High Schools. He received his master's degree at CSCSB in education and did his undergraduate work at Agriculture & Technology University in North Carolina.

SOKOLOFF'S THIRD VOLUME
ON TRIBOLIUM PUBLISHED

The third and final volume of Alexander Sokoloff's monograph, The Biology of Tribolium, was published by the Clarendon Press, Oxford, England last month.

This 632-page volume summarizes widely scattered information on general, populational, quantitative, ecological, behavioral and biochemical genetics of flour beetles of the genus *Tribolium*; susceptibility and resistance to insecticides; effects of irradiation; possibilities of using *Tribolium* as a food source; methods of detecting infestations and possibilities of bringing these serious insect pests under control.

Dr. Sokoloff indicates that of the two earlier volumes, Vol. 1 dealt with the taxonomy, morphology, anatomy, histology, cytology, embryology and teratology of flour beetles, while Vol. 2 dealt primarily with ecological, nutritional, physiological and biochemical aspects, and their use in mathematical models in the field of animal ecology.

The monograph, totaling about 1,550 pages, will be used primarily as a reference by researchers in different fields throughout the world, and by graduate students.
