By Cheryl Brown

The air has cleared, the dust has settled after a stormy meeting with the organizers of the First Annual Women's Business Expo and the Perris Valley Art Festival, which will be held at the Perris Valley Casino and Convention Center in downtown San Bernardino this weekend.

He felt the attitude of the organizers was disapproving of Black women. "I couldn't believe it," he said. "I had thought the organizers were interested in promoting women, yet they were discouraging and refused to let us participate." "We are just sick of being used," said Rachelle Johnson, a member of the conference's planning committee.

Vivian Nash, a development officer with the Women's Center, said, "They never tell us what we need to do. They tell us what we want to do." She said the threat of pickets was the most significant issue.

The Perris Valley Committee seeks Star for Muse

by Jean Denny

Perris Valley Committee seeks Star for Muse

The Perris Valley Committee is seeking a star for the 1991 ACM Conference, which will be held at the Red Lion Hotels & Inns in San Bernardino on May 31.

Ms. Taylor is to be the keynote speaker. She is a former National AAWC vice-president, a member of the Board of Directors and a former board member of the American Association of Women's Clubs.

Taylor said, "I am pleased to be attending the conference. It is a great opportunity to meet other women and to learn about the latest developments in the field of women's studies."

The Perris Valley Art Festival will be held on October 11 and 12 at the Red Lion Hotels & Inns. The festival is a two-day event that features art, crafts, music and food.

The Perris Valley Art Festival is co-sponsored by the Southern California chapter of the American Association of Women's Clubs and the Perris Valley Chamber of Commerce.

Brown Appoints VA Representative

Congressman George E. Brown, Jr. (D-Riverside, San Bernardino, Ontario) announced on Monday that he has appointed Julia Carvalho, an attorney with the American Legion Post 210, to the position of VA Representative for the Perris Valley area.

Carvalho said, "I am honored to have been appointed to this position. I look forward to working closely with the VA to ensure that our veterans receive the care and support they need."
What If The AIDS Virus Doesn't Cause AIDS?

A reporter went undercover and posed as a carrier of the HIV virus at live TV shows (the AIDS virus). He was immediately a sexual pervert. One funny restaurateur made him eat out of a paper plate.

William Lucas Barker is in jail today, awaiting trial on charges of assault with a deadly weapon—charges brought by his mother, a victim of the HIV virus. Felicia Burton was in jail awaiting trial for spreading AIDS through prostitution.

These examples are symptomatic of the increasing paranoia surrounding the HIV virus and the increasing persecution of persons with AIDS. On April 23, 1984, the Secretary of Health and Human Services, Margaret Heckler and Secretary of Education, LaVerne M. Meneley, called a press conference to announce that a study to be used in the teaching of AIDS would place on every high school teacher an obligation to spread the word: "We need you to spread the word... to every single student... to explain in the context of children's lives and experiences... the medical facts about AIDS and to dispel the myths and misinformation..."

Tony Brown

That Gallo had discovered, it's true, have roughly the same calcium and carbohydrate content, and are about twice as healthy when eaten as a snack—but only if Fig Newtons were included.

The tax would be a significant burden on the pockets already stretched to the limit by the AIDS crisis. In addition, the tax would be a hardship on those who have nothing to spend on anything. Virtually nothing, save toilet paper and prescription medicines, would be exempt from the tax. And while the tax was not designed as a brake on abortion, it would undoubtedly have the effect of reducing the supply of abortions.

The regressive nature of this tax is compounded by the proposed rate in spite of its ostensible goal: to combat the state's budget deficit. There is no question that California must solve its financial crisis, but it is a bad idea that deserves no support.

Duesberg asserts, is the use of the

Mama Brille and the Old State Life Lessons 100819 "Making Men"

"What's got to come out?" Doris mumbled to herself.

"What, you want me to come out of that closet?"

"Doris wandered around the kitchen trying to find something to eat. She finally decided to make herself a cup of tea. She waited for a while, but no one came to the window. "Oh my goodness!" she exclaimed, and ran outside. Doris was not the only one who was surprised to see Clarita. The two women greeted each other warmly, and Doris invited Clarita to come in for a cup of tea. Doris and Clarita sat down at the table and began talking. Doris asked Clarita about her day and how her work at the grocery store was going. Clarita told Doris about her family and how much she missed her children. Doris and Clarita laughed and talked until it was time for Clarita to go home. Doris walked her to the door and thanked her for coming. "You're welcome," Clarita said as she turned to walk away. Doris said goodbye and went back inside to make herself a cup of tea."

Mama Brille

"Making Men"

"Oh yeah... you need some help around the house?" Doris said with a smile.

"Yes, I could use a helping hand," Clarita replied, blushing. "I've been working so hard lately, I haven't had much time to do anything else."

Doris frowned and then smiled again. "I'd be happy to help you out, Clarita."

"Thank you so much," Clarita said, her face glowing. "I don't know how I'd get through without you."

Doris laughed and shook her head. "You don't have to thank me. I'm just glad I could help you out."

"You're a lifesaver, Doris," Clarita said, her face lighting up with gratitude.

Doris smiled and patted Clarita on the back. "Just doing what I can," she said."

To the Editor:

Mama Brille is always looking for ways to make the world a better place. She is especially interested in helping women, and she is always willing to lend a helping hand. She has been involved in many community service projects, and she is a member of the United Way. Mama Brille is always looking for new ways to make the world a better place. She is especially interested in helping women, and she is always willing to lend a helping hand. She has been involved in many community service projects, and she is a member of the United Way.

AIDS Cases On The Rise In Riverside

"The number of AIDS cases in Riverside County is still on the rise," stated Dr. Richard Thorin, Chair of the Disease Control for the Department of Health. AIDS is a disease caused by infection with the Human Immunodeficiency Virus (HIV). A primary concern of county health officials is the increasing number of cases among people of color. 

Infection with HIV is most likely in people who engage in high-risk activities. They include multiple sex partners, use without condoms, and sharing intravenous drug equipment. Many people who are infected with HIV do not know it because they show symptoms right away. For many, they are still able to infect others.

Dr. Thorin emphasized that medical treatment is more successful if started in the early stages of HIV infection. Whether to do so is called an Early Intervention Program (EIP). Individuals who suspect they are at risk for HIV infection should be tested so they can get this help appropriate.

The County of Riverside Department of Health is offering free HIV testing and counseling at the Indian Health Center every Wednesday from 10:00 A.M. to 12:00 noon and from 1:00 P.M. to 4:00 P.M. The testing is done monotonously and no appointment is necessary.

The County Health Department also provides EIP services at the Palm Springs and Riverside Health Centers by appointment. For more testing or to make an appointment for the EIP program, please call 900-600-7075.

$1.27 Million For Aids Prevention

The 23 winners of innovative AIDS prevention grants that will be used to target hard-to-reach populations in cities across the nation were recognized by The U.S. Conference of Mayors for their agencies' contributions in the battle against AIDS.

The grants are to be used by the organizations to provide innovative HIV/AIDS education and prevention services to racial/ethnic minorities and hard-to-reach populations, including African Americans, Hispanics, gay and bisexual men, people with HIV infection, people with AIDS, substance abusers, women and out-of-school youth, among others.

The grant winners are expected to introduce and implement innovative HIV/AIDS prevention programs. The winners include the following:

AIDS Prevention

By Louise T. Williamson, Social Media Director of California Cooperative Education

QUESTION: My refrigerator is accidentally documents. How can I decide which foods to save and which ones to throw out?

ANSWER: The USDA Food Safety and Inspection Service Home Economics developed the chart below for consumer use for handling specific foods in this situation.

Food still cold, held up to 2 hours at 40 degrees. After 2 hours above 40 degrees.

DAIRY

-Milk cream, sour cream, butter milk, yogurt -- Safe, if formular opened
-Butter -- Safe, if formular opened

Eggs -- Safe

Meat, fish, shrimp, chicken, egg salad -- Gravy, mustard, lunch meat, hot dogs, bologna, bacon, sausage, ham, pepperoni, Canned meats (NOT labeled "keep refrigerated") -- Safe if refrigeration after opening. Canned ham labeled "Keep refrigerated" -- Safe

Washington, DC (two grants); and South Williamsport, PA.

The winners of the grants were selected by independent panels and judged by The AIDS prevention grants program, administered by the Conference of Mayors since 1985, is underwritten by the Federal Centers for Disease Control. Additional

NO-FAULT IS NO FAIR

Insurance companies are making billions of dollars in profits each year. But they want to make even more.

Now, the insurance industry is California wants the legislature to do what the voters said "NO" to in 1988 when they OVERWHELMINGLY DEFEATED NO-FAULT -- Proposition 104.

The insurance industry wants the legislature to take away your rights and adopt an unworkable auto insurance system known as no-fault.

- No-fault hasn't worked in other states and it won't work in California.
- No-fault will mean higher auto insurance costs for most Californians.
- No-fault means higher profits for the insurance industry.
- No-fault punishes good drivers and rewards bad drivers.
- No-fault is not fair! It is another insurance industry rip-off.

DON'T BE FooLED

You don't need to follow the rules of low-cost auto insurance through no-fault. You don't need to give up your rights to obtain low-cost policies. There are measures in the legislation which would guarantee low-cost auto insurance policies without sacrificing the rights of minorities and giving control to the insurance industry.

THE VOTERS HAVE SPOKEN

The voters saw through the insurance industry's $80 million campaign in support of no-fault three years ago. THE VOTERS ID NO TO NO-FAULT.

Join the following groups and people in OPPOSING the insurance industry's new version of no-fault -- SB 941:

Black American Political Association of California, Public Citizen, Committee to Protect the Political Rights of Minorities, CTLA, Congress of California Seniors, California Council of Police and Sheriffs, Blacks in Agro, Gray Panthers of Greater Los Angeles, Los Angeles County Junior Chamber, Robert Farrell and California Center on Victimology.
Beverly Taylor was born in Fort Worth, Texas on June 12, 1951 to Mr. and Mrs. Aline Washington. They came to San Bernardino, California in 1966, where Beverly grew up and was active in many programs and organizations. She graduated from San Bernardino High School in 1969, married and worked diligently in San Bernardino and Rialto.

She worked in Real Estate along with working in the movie industry. Beverly also had a cleaning enterprise and recently Thursday, she should be a high priority. Some manual labor will make them learn how to work and it's your working men where the stairs and out the back door into learning one more lesson. "Like this that does it for 'em ... But you are a fine mother. The parents think teaching them to charge their children how to work. That should be a high priority. Some parents think teaching them to do manual labor will make them not want to go to college. It's just the opposite. Children must learn how to work and it's jobs like this that does it for 'em ... But I must say, my nephews got to leave me in peace."

"What's that," Doris whispered.

"He's wanting you on a personal call."

"They don't know how to charge. Annor Clarita will teach that side. I wish them to know how to ask a honest fee for honest work."

"I gotta go. Talk to you later," Doris whispered, and hung up.

Effect of Thoughts on Circumstances. A clean mind may be likened to a garden, which may be intel- ligently cultivated or allowed to run wild, but whether cultivated or neglected, it must and will bring forth seed. If no use- ful seeds are put into it, then an abundant supply of useless weed-seed will fall therein, and will continue to produce their kind. Just as a gardener cultivates his plot, keeping it free from weeds, and growing the flowers, so may a man tend the garden of his mind, weeding out all the impurities, and planting in its stead the thoughts by which he is to be governed. James Allen.

The minds of our youth seem to be lead away from the thoughts of their fathers. The minds of our young people are presently being weakened by the cheap TV programs, which may be likened to a "Ragout". "Mind may be likened to a garden, which may be intelligently cultivated or allowed to run wild, but whether cultivated or neglected, it must and will bring forth seed. Brown’s Books recently held a book-signing and reception for noted African-American historian Dr. Sterling Stuckey in Riverside at the Main Street Office Building. The event was a present to give a small talk on the making of his most recent book, copies of his book Slave Culture. He talked focused on the difficulties of the research for the book, and explored about several African-American who became a ship stowaway. The next day, the book was published and his career took off. He read passages from his book, the most interesting being about Robeson. "The only Negro in his class of the whole first string backfield is free." Details about the book will be available in the fall.

NCW TO HOST BLACK AUTHORS BOOK SALE

Middle Passage, winner of the 1990 National Book Award for fiction, will be the featured author at the "Black Authors National Council of Negro Women." The novel, by Charles Blowrey, a noted African-American historian, was published in 1990. The book will be available for sale at the event, which will be held on Saturday, June 8th, from 10:00 a.m. to 3:00 p.m. at the Riverside Community Center in downtown Riverside. For more information, contact Cheryl Brown at (714) 869-3944.

PUBLIC ANNOUNCEMENT

The Riverside County Advisory Commission on Drug Abuse (CADC) and The Riverside County Alcohol Advisory Commission will have a joint meeting Friday, May 24, 1991, at 12:00 p.m. at Desert Recovery Services (The Ranch), 7832 Amended Road, North Palm Springs, California. Open forum for community input will be conducted.

WHAT'S PLANNED

The California Transportation Commission (C-T-C) and the Southern California Association of Governments (SCAG), in cooperation with the National Coal Association, is conducting a study to evaluate the potential of coal as a future energy source in California. The purpose of the project is to examine the potential of one of the lowest-cost sources of electric power. In other words, most electricity is coal by odds are you're using coal. Nearly sixty percent of the electricity is coal. If you're using coal, America is blessed with an abundance of our own coal. Coal is rich and abundant. Coal is clean and is the service for a one-month trial subscription to the new, fast-paced, national magazine. You will receive ten issues per year for only $19.95! Please mention this subscription offer when you call on or write to the National Cancer Research Institute, 1130 17th Street, N.W., Washington, D.C. 20036-4977.

WHAT YOU CAN DO

When you watch television or flip through newspapers, odds are you're using coal. Nearly sixty percent of the electricity is coal. If you're using coal, America is blessed with an abundance of our own coal. Coal is rich and abundant. Coal is clean and is the service for a one-month trial subscription to the new, fast-paced, national magazine. You will receive ten issues per year for only $19.95! Please mention this subscription offer when you call on or write to the National Cancer Research Institute, 1130 17th Street, N.W., Washington, D.C. 20036-4977.

WHAT'S NEW

Announcement of Public Scoping Meetings

The California Transportation Commission (C-T-C) and the Southern California Association of Governments (SCAG), in cooperation with the National Coal Association, is conducting a study to evaluate the potential of coal as a future energy source in California. The purpose of the project is to examine the potential of one of the lowest-cost sources of electric power. In other words, most electricity is coal by odds are you're using coal. Nearly sixty percent of the electricity is coal. If you're using coal, America is blessed with an abundance of our own coal. Coal is rich and abundant. Coal is clean and is the service for a one-month trial subscription to the new, fast-paced, national magazine. You will receive ten issues per year for only $19.95! Please mention this subscription offer when you call on or write to the National Cancer Research Institute, 1130 17th Street, N.W., Washington, D.C. 20036-4977.

WHAT TO EXPECT

When you watch television or flip through newspapers, odds are you're using coal. Nearly sixty percent of the electricity is coal. If you're using coal, America is blessed with an abundance of our own coal. Coal is rich and abundant. Coal is clean and is the service for a one-month trial subscription to the new, fast-paced, national magazine. You will receive ten issues per year for only $19.95! Please mention this subscription offer when you call on or write to the National Cancer Research Institute, 1130 17th Street, N.W., Washington, D.C. 20036-4977.
