Holder Dies At 100

William Holder

It is a rare person who can see the limelight and find his fulfillment in the ordinary duties of life. Such a man was Horatio Holder who recognized early in life that the accomplishment of everyday good and noble venture requires the dedication of a few quiet and unsung souls. He lived the life that the accomplishment of good and noble ventures requires the dedication of a few quiet and unsung souls. He required the dedication of a few good and noble souls. He was Horatio Holder and he found his fulfillment in the ordinary duties of life. Such a man was Horatio Holder. William Holder

African-American Women And Breast Cancer

Our Bodies

By Dr. Ernest Levister, M.D.

African-American women have a higher breast cancer mortality rate than any other ethnic group in the country. Did you know that one out of every eight African-American women will develop breast cancer in her lifetime.

Breast cancer cannot occur without any warning signs. More than 80 percent of breast lumps are not cancerous.

If breast cancer is diagnosed and treated early the five year survival rate is more than 90 percent.

Mathematician's Corner

By Leo Strauss

There are many interesting fields in mathematics and one of the most exciting is cryptography. Cryptology deals with the design and analysis of ways to secretly send information via computer or communication systems. The Mathematicians and Computer Scientists who do this are called cryptologists.

Most of our most private information is contained in a computer or communication systems. The Mathematicians and Computer Scientists who do this are called cryptologists.

Most of our most private information is contained in a computer (account numbers, credit card numbers, social security numbers, and much more). Obviously, companies do not want this kind of information to be retained by the wrong people. This is where cryptography fits in.

Cryotologists develop "unbreakable" codes based on mathematical algorithms. Mathematicians in this field rely heavily on Combinatorics, Number Theory, Fourier Series, Galois Theory, as well as Probability and Statistics to send codes that are near impossible to decipher without the correct encryption sequence.

In case you are interested, the salary range for a cryptologist is between $45,000 and $80,000 per year.

Joy Of Literacy Luncheon

Awards & Spotlights Fight Against Illiteracy

The annual Opportunities Industrialization Centers (OIC) Convocation again underscores how true corporate commitment can transform lives.

Under the banner of this year's theme -- "OIC: Meeting the Commitment Can Transform Lives" -- the OIC Literacy Luncheon once again draws community leaders and corporate representatives to its annual event to be held at the Sheraton Hotel. At this year's event, Verona Wright, the OIC essay contest winner.

Ms. Wright, who was pregnant and married by age 16, wrote in her winning essay that the OIC/Coors program helped give her the necessary motivation, education and skills to become a productive member of society.

Since the beginning in 1990, the Coors literacy campaign, and its partnership with OIC, has achieved dramatic results. For example, Coors has donated more than $6 million to local, regional and national non-profit literacy programs in communities all across the United States.

Solutions To Last Week's Puzzle!

Each row, diagonal, and column must sum to 12

Step 1: Find the rows with 12

Step 2: For the hour hand, every hour we get 30 degrees so we set up a ratio and proportion.

Step 3: Cross multiply

Step 4: Since the minute hand rounds 30 degrees every hour it means 30 degrees the minute hand must have moved 1/3 of 30 degrees which is 10 degrees.

By Dr. Reginald Woods

QUESTION: Dear Pastor Woods, what general advice do you have for young people who are trying to make a decision to live a "true Christian life"? What does it mean to stay on the right track? D.W.

ANSWER: The Bible says in Ephesians 6:15, "Having done all, stand," but faced temptations, so will you. The key is to do like Jesus and make a firm stand on God's Word. A human baby needs a proper, healthy diet in order to grow. Likewise, as a Christian, you need a consistent diet. God gave His Word as spiritual food for spiritual people to live the Word. Also, the Bible warns against companionship with people who are not Christians (2 Corinthians 6:14-18). You are compared as light with darkness. Your life is different. You need fellowship with fellow Christian believers. The devil hates committed Christians. That is why they are so few of them, but thank God, Jesus Christ is greater than the devil.

If you have a question that would like answered, call Dr. Reginald L. Woods, Life Changing Ministries, P.O. Box 9779, San Bernardino, CA 92402-9778.

At Philip Morris, we believe that adults have a right to choose whether or not to smoke. But we also believe that minors should not smoke. These two issues — preserving the right of adults to make personal choices and preventing minors from having access to cigarettes — are equally important. But they should be addressed separately. It's important to maintain a balanced view so both issues get the attention they deserve.

For instance, our recently launched initiative, Action Against Access, is one of the most comprehensive programs ever introduced to prevent minors from having access to cigarettes. We are confident that this program will make a difference.

On the other hand, we will continue to vigorously support the right of adults to make personal choices. Our position is that the issue of youth and cigarettes should not be used to curtail the freedom of those adults who choose to smoke.

It's important to prevent minors from having access to cigarettes. But it's just as important to respect the right of adult smokers and nonsmokers to make individual choices.

We want you to know where we stand.

Ismail, Evans and Kaufman get offensive against Colts, in 30-17 win

By LELAND STEIN III
BNV Sports Editor

OAKLAND - The Raiders' personality is deployed by injuries. Their starting quarterback was injured. Their ground game was finding an exciting turn of track. The Silver & Black was coming off a win Monday Night Breathing by division rival Denver Broncos. And if that wasn't enough, add in the fact their opponent was the Indianapolis Colts, who was coming off impressive wins over St. Louis, Miami and San Francisco.

Add all these negatives together and it wouldn't have been surprising if the Colts had dealt a win over the Raiders. But, before 53,543 at Oakland Stadium, the Raiders ousted off a trio of offensive weapons that saved the day and lied them in a 30-17 victory over the mid-hot Colts.

"We had a tough loss last week and we needed something like this," said back Napoleon Kaufman said. "We knew he was a great talent and he was coming off a rare Monday Night ride against the red-hot Colts. We knew he was a great talent and we needed this." Up front in the Raiders' victory was warhorse Vince Evans, 40-year young. He stepped up for Jeff Horneder and passed for 335 yards on 23 of 33 pass attempts and two touchdowns. The 300 yard day was only the fourth of Evans' 16-year career and the first since 1980, when he won the ball for 548 against Green Bay in 1980.

"I felt renewed," Evans said. "My competitive juices feel the bombs of 46 and 76-yards from Green Bay in 1980. For a career high 125 yards and 335 yards on 23 of 33 pass attempts and two touchdowns, that included bombs of 46 and 79-yards from Evans.

"Hey, we've got great depth as much as we like, but we still have the capability," said Rocket. "Vince just put it up where I had no choice but to catch it.'"

Chimed in Tim Brown, who correlated 7 balls for 89 yards. "Vince loves to throw the long ball. He's probably the second or third best athlete at quarterback in the league.

The Raiders also received a 84-yard kickoff return from rookie Kaufman and field goal of 28, 24 and 35 yards from Jeff Yang.

While the offensive was making big plays, the defense was putting the heat on NFL's leading passer, Jim Harbaugh. "They were bringing a little more heat than I expected," he said. "The holes looked very big as nas.

At Stanford Stadium before 45,075, the Bruins (2-2 Pac-10, 5-2 overall) defeated the Cardinal (2-3, 2-1-2) 42-28 which behind an offensive line that just took control of the line of scrimmage in the second half, when the Bruins overcame a 21-7 halftime deficit.

"Unbelievable," said Cardinal defensive coordinator Bill Harris, about the Bruins comeback and Abdul-Jabbar's run. "The second half was a nightmare ... they just manhandled us."

Added UCLA Coach Terry Donahue: "Our team showed a lot of character, being down 21-7. They came back and did it. Now we have a chance to get in the race and enjoy it."

"Confirmed UCLA defensive and wide Forde: "We were shooting ourselves in the foot in the first half, in the second half we came out and took control. This team wants to go to a bowl game this year and a win like this will catapult us to the upper half of the Pac-10." All Pac-10 game at this point in the season takes on more and more meaning, and, this contest between Stanford and UCLA surely fits into this category.

After the Cardinal got off to its best start in 44, they had their coach Willingham looking at this game as the real mid-season of character and resolve, following their first loss and the second loss to Washington last week.

UCLA, knowing their Rose Bowl hopes are slim, having incurred two losses already, are fighting to put up good numbers and catch the eye of a few major bowls. Abdul-Jabbar is definitely catching the eye of All-American and Bowls.

"I've had a lot of great teams, but Abdul-Jabbar just took over the game," Donahue said. "He never want to come back and coach because he will always offend someone, but this was one of the best performances I've ever seen."

Speed to Run: Raiders' Napoleon Kaufman breaks free on a 49-yard kickoff return.

Intense TV: Sanford Coach Tyrone Willingham challenges his players to respond to his urgings.

BNV High School Game of the Week
No.1 Riverside North 29, No.5 Rubidoux 25

HUSKIES CORRALS FALCONS: North's Sam Brandon (#42) puts the Huskies grip on Rubidoux's Ronnie Granderson (#24), as Dungle Le (#45) and Jason Lundblad (#47) hurdle to get in the fray.

Rubidoux - Heads up on the key League title is what this encounter between Rubidoux (1-1 in league, 5-2 overall) and Division 4 No. 1-ranked Riverside North is all about.

Rubidoux playing exception football and coming on an exciting win against Moreno Valley Canyon springs, Pyegos, Finders Keepers. Rubidoux's toughest test for the Huskies (7-0-0) part for

Frosh's O'Chranwata Bryant, a yard pass reception from quarter (30-yard reception) and tack Curtis Edwards (101 yards) to earn Rubidoux a victory, but ... The but in came in the form of North's 6-foot-4, 131 pound Center Chris Colzone. He scored four touchdowns including the game winner with only 29 seconds left in the game. Colzone ended with 115 yards, running. Quarterback Robert Farah also contributed a solid game, compiling 16 of 25 passes for 180 yards.

"If I hadn't

any endeavor which translates

an idea, an emotion, or a
dream. The whole process of

communication and expression

is so vitally important to

everyone."

Tony Lavalle believes that his talents is a natural, God
given gift, that was

significantly enhanced by his

parents, who were both

naturally creative individuals.

And although they were never

"practicing Artists", he cites

those things that inspire him

creatively, Tony says that "all

things, all concepts" inspire his

images in one way or another .

He says he always paints while

listening to music. Some of his

images come to him during a

subliminal, or what he refers to

as "a surreal state , somewhere

between sleep and wake."

At these odd times, he will get out

of bed and briefly sketch

whatever images he has seen.

Tony uses oils exclusively, but

a few of his latest pieces have

be done in acrylics.

The event was part of the Art

2000 commitment to promote

the visual arts. Founder and

nationally renowned artist

Charles Bibbs is pleased with

the support of the arts in the

Inland Empire. The art will be

displayed from October 20th-

30th.
