"Mercy" Aguirre
27 Years at Mitla's

The San Bernardino lunch crowd knows that Mitla's Restaurant is one of the favorite eateries in the area and many Mitla's patrons are very familiar with one of the area's favorite waitresses. Mercedes Aguirre, "Mercy", as she is known by everyone, is the busy, fast moving and very efficient person serving customers during the lunch hours on a daily basis.

The end of April was a special month for Mercy. She celebrated twenty seven years as an employee of Mitla's Restaurant! In addition, Mercy is celebrating the big five O in her life. "I think that both occasions are wonderful and important events in my life. I have enjoyed every single day that I have worked here at Mitla's. I have enjoyed my life and being 50 is a moment in my life when I can look back and reminisce about all the good things that have happened to me," she said with the quick smile.

Mercy started as a dishwasher at the restaurant. In a very short time she was promoted to waitress. The reasons generally given for the quick promotion was due to her outgoing and easy personality and going out of her way to please her customers. She has become one of Mitla's favorite waitresses.

Celebrating these highlights in Mercy's life were 150 family, friends and school chums who recently gathered at the Knights of Columbus, eating delicious (naturally) barbecue and rocking to oldies. Mercy is the daughter of Lucio and Rachel Martinez. She was born and raised in San Bernardino and attended the local schools. She married Richard Aguirre and have four daughters, Lisa, Lena, Annette and Jeanette. The Aguirres have three grandchildren, Lisa Aguirre, Andrew Ortiz and Richard Duran.

The PAC Information Meetings are to inform the Community of the reasons for selection of the Project Area, and furthermore to appraise potential PAC applicants of the PAC's role and responsibilities. The PAC will primarily serve as an Advisory Committee to the City Council and provide input on policies, programs and resources that may affect Project Area residents. At a third (3rd) meeting, the PAC members will actually be elected by those eligible voters in attendance. PAC membership will ultimately be affirmed by the City Council (see dates below).

To be eligible for PAC membership, an individual must qualify for one of the following categories: a residential owner occupant, residential tenant, business property owner, business owner/tenant, or a representative of an existing community organization which must be located within the Project Area. The West Valley Detention Center, the largest single building project ever undertaken by San Bernardino County government, will be unveiled Thursday, June 6th at 11 am. A public open house is set for Saturday, June 8, and Sunday, June 9.

The $123 million West Valley Detention Center in the City of Rancho Cucamonga is situated on a 40 - acre section of this formerly vineyard-covered 120 acre site. Located at the northwest corner of Etiwanda Ave. and Fourth St., the pretrial facility was designed to help alleviate jail overcrowding due to the ever-increasing inmate population at the county's other penal institutions.

At build-out in roughly 5 to 6 years, up to 3,000 prisoners will be incarcerated in 14 state-of-the-art housing units. Admittedly a costly structure, the Detention Center was nonetheless envisioned high-tech -- yet cost-effective.

The project was initiated and completed under two different sheriff's administrations, each providing valuable insight.

"The tremendous one-time development and on-going operational costs demanded early and intensive hands-on involvement in both structures and management procedures," stated former Sheriff Floyd Tidwell when the Transition Team was established in January 1988.

Such complex efforts paid-off, said current Sheriff Dick Williams. "Input offered by the development team saved millions of dollars."

When in full operation, the site will be operated by a staff of approximately 450 employees from the San Bernardino County Sheriff's Department.

Adds Sheriff Williams, "These employees, as well as the citizens of this county, will be able to take pride in a government project that will help make the difficult task of housing jail prisoners more secure, humane and efficient."
