Ronald Ingram Died At 47

Ronald L. Ingram was the youngest son of Rev. W. Ingram and the late Margaret Westfall Ingram of San Bernardino.

Ronald was a member of St. John's Missionary Baptist Church in San Bernardino. He graduated from San Bernardino High School in 1966.

Ingram worked as a computer operator at the public enterprise for over 25 years. He was married to Patricia Cooper, West Side Community Center and had been a member of the San Bernardino community and the San Bernardino Baptist Church. He is survived by his wife, three sons, two daughters, and several grandchildren.

The family will receive friends and family at the Westside Community Center on Thursday, January 27, 1994, at 4:30 p.m. in the Assemblyman Joe Baca's office.

Ingram was a dedicated employee with over 30 years of service and was a beloved member of the San Bernardino community.

“Edison Lights Too High

Complainants

Newly formed utility consumers' group "Advocates For Consumers" held a rally at The Beauty Salon in San Bernardino, with a crowd of commuters.

Several members of the group, including Assemblyman Joe Baca's office, called a meeting with Southern California Edison officials.

According to a recent article, the group plans to continue to call attention to the high costs of electricity and the need for consumer protection.

"Nannie" Simpson Dies At 68

On Saturday, November 11, 1995, God reached down and picked a beautiful flower from his garden. "Nannie" Simpson, age 68, passed away on November 11, 1995, in San Bernardino, California. She was preceded in death by her husband, Ed Simpson, and is survived by her daughter, Bernice Inghram, and two sons, Lee and John Inghram.

Simpson was a long-time member of the San Bernardino community and was known for her kindness and generosity. She will be deeply missed by her family and friends.

Miss Black San Bernardino

Applications

Consistent and qualified applicants are needed for the Miss Black San Bernardino Pageant. This year, the pageant will be held on Saturday, January 21, at the San Bernardino Civic Center. Interested individuals are encouraged to apply.

For more information, please call (909) 587-5698.

Black Voice News

One Thousand Men To March In Val.

Women in Los Angeles County were faced with a decision - to attend a rally in support of Women's rights or to join a march in honor of Rev. B.W. Inghram.

Many women chose to attend the rally, which was held at the California State Capitol. The rally was organized by the National Organization for Women and was attended by hundreds of women.

The march was held on January 27, 1995, at Belmont House in Los Angeles. It was organized by the California Civil Rights Project and was attended by hundreds of people.

The Black Voice News was on hand to cover the event and reported on the progress of the rally.

Perris Recreation Director Shaye Firdire

Shaye Firdire, the city's Recreation Director, was fired following the allegations.

Firdire's firing was the result of a whistleblower investigation, which revealed that he had engaged in improprieties that were detrimental to the city's Recreation Department.

The Black Voice News covered the story and reported on the investigation.

Volunteers are needed.

As the Black Voice News reports, there is still a need for volunteers to help with the organization's various programs.

The Underground Railroad Experience

The Underground Railroad Experience is a program that educates people about the history of the Underground Railroad and its impact on American society.

The program will be held on Saturday, January 27, 1995, at the Black Studies Center in Los Angeles. It is free and open to the public.

The program will begin at 10 a.m. and will end at 4 p.m. Refreshments will be provided.

Volunteers are needed to help with the program.

The March on Washington

The March on Washington was a civil rights protest held in Washington, D.C., on August 28, 1963. It was organized by the Southern Christian Leadership Conference and was led by Martin Luther King Jr.

The March on Washington was one of the largest protests in American history and was a turning point in the civil rights movement.

The Black Voice News covered the event and reported on the progress of the protest.

CIF Playoffs To Start

The CIF Playoffs To Start is a program that celebrates the beginning of the CIF Playoffs, which is a statewide high school sports tournament.

The program will be held on Saturday, January 27, 1995, at the L.A. Sports Arena in Los Angeles. It is free and open to the public.

The program will begin at 7 p.m. and will end at 10 p.m. Refreshments will be provided.

Volunteers are needed to help with the program.

The gala event will be held on February 2, 1996, at the Los Angeles County Museum of Art. It is free and open to the public.

The gala event will begin at 7 p.m. and will end at 10 p.m. Refreshments will be provided.

Volunteers are needed to help with the program.
Discover The Choices And Challenges Of Law School

It's time to discover the choices and challenges of law school. Pursuit of potential law students for this next generation of law, what LSAT and GPA scores really mean, how to spot those with great legal potential, law as a second career, police, physicians, engineers, astronauts, workers, single mothers, disabled students, etc., scholarship programs and government grants that can make it happen. The "whole person" attributes of superior prospective law students... even the critical role significant others can play.

Law School Admission: Offer many powerful choices for bright people, learn to pass the practice of law. These scholarships are available for all students, the handicapped, full and part time students and even those seeking a second career.

Those who are considering law school now or who question whether they might have the required personnel and want to know if it makes a difference in the future of a law, a law Student 2000 booklet, is available. Read it and realize you have many choices for "whole person" attributes that are necessary for lawyers and the law of the future.

Educator, experience media personality and spokesperson, Professor Merz uses simple and easy to understand terms as he tells the story of a disappointing ALCS of law school with the current and future state of the profession of law.

Wilson Signs Landmark California Tourism Marketing Legislation

Governor Pete Wilson himself signed Senate Bill 256 by Senator Patrick Johnston (D-Stockton), which will enact the California Tourism Marketing Act of 1995. SB 256 establishes the framework for an industry-wide effort on the part of all segments of the tourism industry to cooperatively promote travel to and within California.

The California Tourism Marketing Act has the potential to increase California's tourism marketing budget from $7.3 million to $32.3 million annually.

Ghana Researchers Discover Plants Potent Against HIV

ACDRA, Ghana (Press Release) - The Ghanaian scientist who has found four plants which have "selective activities" against the Human Immunodeficiency Virus (HIV) that causes AIDS, the Ghana News Agency reported Monday.

The agency, which teamed up with a Nigerian and a German research fellow with the Nogouchi Foundation of Medical Research, New York, announced that investigations conducted into seven plants showed that they had a strong potential as a means to fight the disease.

The four which work against HIV are active even under "stressful conditions," which is saying no to crime and drugs and, secondly, by saying no to美洲's "mass destruction." The Black Voice News is not necessarily the newspaper of record for the Black community. Comments (0)

The Million Man March

FOLLOWING ARE QUOTATIONS

"...the whole person" attributes of superior prospective law students... even the critical role significant others can play.

"It is to Farkhan's credit that he recognized and communicated emotional and cultural crisis which is at the heart of the American culture today. African-Americans who parti­ cipated in the Million Man March described a desire sense of fel­ lowship and a community of common feeling. Men wept openly and women cried, and what we were witnessing was a commitment to new levels of personal and civic empowerment. Life-long political positions were explained to the media that they had been unable to explain to the people. DC, in Support of Farkhan's political agenda. Rather, they were there to express a desire for the moral and spiritual renewal of the world, and that is something that is not white people that are black.

The real evil in America is not white flesh or black flesh. The real evil in America is the desire that underpins the white and black world, and that is something that is not white supremacy. Louis Farrakhan declared in his two-hour keynote speech before the largest public demonstration of African-Americans in United States his history. On October 14th, hundreds of thousands of black men from across America gathered in Washington, DC, in front of the Capitol. The U.S. Parks Service conservatively estimated the crowd at 400,000. Independent observers placed the demonstration between 600,000 and one million people. All accounts, by all accounts, the "Million Man March" of 1995 paled by comparison to the histor­ ical March 5th in Washington, led by Dr. Martin Luther King, Jr., at the head of the Civil Rights Movement a generation ago.

The most crucial factor in this, it seemed to him, to Farkhan's credit that he recognized and communicated emotional and cultural crisis which is at the heart of the American culture today. African-Americans who participated in the Million Man March described a desire sense of fellow­ ship and a community of common feeling. Men wept openly and women cried, and what we were witnessing was a commitment to new levels of personal and civic empowerment. Life-long political positions were explained to the media that they had been unable to explain to the people. DC, in Support of Farkhan's political agenda. Rather, they were there to express a desire for the moral and spiritual renewal of the world, and that is something that is not white people that are black.

Business, Community And Political Leaders Stand-Up For San Bernardino

More than 2,000 citizens, business leaders, politicians and clergy recently assembled in front of city hall on Monday to Stand-Up for San Bernardino and tell the world about the good news in San Bernardino.

With reporters and television cameras from Channels, 2 (KABC), 3 (KCBS), 4 (KNBC), 7 (KABC), and 9 (KCAL), a diverse group of speakers, poets and singers told the over 1,500 spectators about the great things that San Bernardino has to offer.

Ron Sch op was the master of ceremonies at the rally. The event began on a somber note with a moment of silence, then prayer for slain Israeli singer Jubel Obien delivered a moment of silence.

African-American singer Jubel Obien delivered a moment of silence. The American Medical Association says they are safer, because they are made of 100% surgical grade cotton. Unlike the rayon and rayon-cotton blends that make up most tampons, cotton does not promote the growth of bacteria that causes toxic shock.

New, Safer Tampons

By Dr. Ernest Levister, M.D.

New, Safer Tampons is a tampon that may further reduce the potential health risk. Sold under the brand name, Terra Femme and Natracare, the Swedish imports recently arrived in the United States. The American Medical Association says they are safer, because they are made of 100% surgical grade cotton. Unlike the rayon and rayon-cotton blends that make up most tampons, cotton does not promote the growth of bacteria that causes toxic shock.

New, Safer Tampons are made from 100% surgical grade cotton that causes toxic shock.

Dear Dr. Levister:

I recently started menstruating. I am 14 years old and active in sports. My mother insists that I should not wear tampons in fear of toxic shock syndrome. Am I wearing a tampon safe? R.H.

Dear R.H.: The incidence of toxic shock syndrome (TSS) dropped dramatically after cellulose and polyester tampons were removed from the market, but TSS has not disappeared. Hundreds of cases are diagnosed every year. Now there is another brand besides Terra Femme and Natracare that may further reduce the potential health risk.

New, Safer Tampons is available from specialty pharmacies. Terra Femme tampons are cleansed with peroxide, which means they don’t contain dioxins. Users report they are just as effective and easy to use as other tampons and they don’t dry out vaginal walls as some tampons can. At around $6.00 a box of 20, Terra Femme tampons are more expensive than other brands. Terra Femme and Natracare are currently available at health food stores and some specialty pharmacies.

What can you do to reduce the risk of getting TSS? You can entirely avoid the risk of getting tampons associated TSS by not using tampons. If you choose to use tampons, you can reduce your risk of getting menstrual TSS by using the lowest absorbency that meets your menstrual flow needs.

Tampons are available in four absorbency ranges: Junior, Regular, Super or Super Plus absorbency. Though your need will depend on your individual flow, you should change your tampons at least four times a day. You should leave a tampon in for no more than six hours. You can also reduce your risk by alternating tampons with the use of feminine napkins during your period, such as Stay Free or Sure and Natural. For example, you might want to use tampons during the day and napkins at night.

DEAR DR. LEVISTER: I was married last year and I am now four months pregnant. My doctor insists I stop every week for a check-up. My husband insists I continue to work as a team to continue to work as a team to decrease crime," she added. The American Medical Association says they are safer, because they are made of 100% surgical grade cotton. Unlike the rayon and rayon-cotton blends that make up most tampons, cotton does not promote the growth of bacteria that causes toxic shock.

There are also other benefits as well. Most tampons are bleached with chlorine, which can leave dioxin residue; dioxin has been linked to some cancers. Terra Femme tampons are chlorine free and are made from 100% surgical grade cotton. This makes them more expensive than other tampons and they don’t dry out vaginal walls as some tampons can. At around $6.00 a box of 20, Terra Femme tampons are more expensive than other brands. Terra Femme and Natracare are currently available at health food stores and some specialty pharmacies.

Bruins Lose To Washington, Regrouping For Trojans

CIF PLAYOFFS START THIS WEEK

Led by unbeaten Riverside North, Fontana, Norco and San Bernardino Cajon, CIF playoffs are in full swing.

By LEAND STERN III

PN Sports Editor

RIVERSIDE: The beast is on!

For the youth in the Inland Empire who have labored during two decades and a 10 game season, all the hard work was rewarded with a berth in the Southern Section California Interscholastic Federation football playoffs. But when the dust clears in a few weeks, only one will stand at the top of the steepest division competing for football glory.

In division 4, an all Inland Empire division, there are three undefeated teams - Riverside North (10-0), Norco (10-0) and San Bernardino Cajon (10-0) - that are on a collision course for destiny.

North, led by All-American Chris Claiborne, who has rushed for 1,315 yards and 25 touchdowns, and coach Mark Paredes, who has a two year record of 18-3-2 at the Huskies’ helm, is in the number 1 seed. Having won its first outright league title in 24 years, the Huskies season can be described as a success, but the division title will add the icing on the cake.

Norco, who earlier in the season won his 200 game, has assembled another super offensive line that will carry the load.

Although Abdul-Jabbar, who was injured on his very first carry and didn’t return, is not able to play against USC, James Milliner and Massey will be called on to carry the load.

Also, freshman quarterback Cade McNown will have to right himself after a sub-par showing against the Huskies.

"He made some very costly turnovers and mistakes," Donahue said, "but he wasn’t supported by the offensive line."

Added linebacker Tommy Bennett: "The turnovers did affect the momentum and morale of the team, but I don’t think it is the offensive line’s fault.

"We have to consider the game in our bowl game, because there’s a strong possibility we might not go anywhere after this," and talkback Thaddus Massey. "It’s been a long, hard year.”

That may all change if Abdul-Jabbar, who was injured on his very first carry and didn’t return, is not able to play against USC. James Milliner and Massey will be called on to carry the load.

Football: Kevin Jordan broke J.J. Stokes’ career receiving record with this catch against Washington.

Steve’s career record with this catch against Washington.

At the Coliseum, they can bring the halftime score was 28-7 for the Huskies. After halftime the first three Bruins’ possessions resulted in merely seven points, with three points and three interceptions. As a result the halftime score was 28-7 for the Huskies.

After halftime the first three Bruins’ possessions resulted in two points and a fumble. So, it’s not surprising that with 6:25 remaining in the third quarter, UCLA found itself down 36-7.

Although Abdul-Jabbar and Donahue denied the records, receiver Kevin Jordan did.

Jordan, who caught 3 passes for 33 yards, all from backup quarterback Ryan Fien, who replaced McNown, he could find no joy in his historic accomplishment.

"It’s hard to enjoy the record when we lose 36-7,” Jordan said. "It’s somewhat of a surprise. Our goal was to win the league and our second goal was to win the CIF and at this time we were going to be in position to accomplish it. That’s all, we could hope for.”

Norco on the win is running back Reggie Williams’ 1,073 yards rushing and quarterback Aaron Williams’ 1,078 yards passing. Ranked 10th in the third time in four years. Coach Gary Campbell, who earlier in the season was his 200 game, has assembled another super offensive line that will control the trenches and are looking to average the Huskies to Moreno Valley Clayton Springs in last year’s title game.

San Bernardino Cajon (10-0), who averaged last year to second last week, 40-13, is shooting for a rematch with North, but beat them in the playoffs last year.

Fontana (10-0) and Rancho Eisenhower (8-2) are competing in Division 1 and two of the better defenses in the Southland. Fontana led by multi-dimensional back R. Jay Sowell Jr. quarterback P.J. Guerrero, back Art Gibson, tight end Chris Alex and linebacker Angelino Zanella, are coming off a 12-0 win over rival Eisenhower.

Although Fontana is ranked No. 1 in Division I, they are not taking anything for granted.

“If we don’t take one game at a time, it’s hard to imagine this way things went this year. We have great coaches and players, and we play like we are coached.”

One team to look out for is the Rubidoux Bulldogs. Rubidoux has multi-dimensional team speed and led by maturing quarterback Darryl Knight and back Chuckray Bryan, the Cardinals could be the sleeper team in the playoffs.

“I think we have come together as a team and will be a force to deal with,” said Bryant. “We have the team and coaches to go a long ways in the playoffs. I’m just going to make sure I’m prepared and do what I know I can do when my number is called.”

SANDIEGO

“Sports has always been a vehicle for us to come away from our problems,” said City College coach Bob Thompson. “So why ignore it?”

Well, at San Bernardino’s Martin Luther King Jr. High School, it’s not being ignored.

Sports are a proven approach for excelling academic discipline, teaching team work and learning about the value of competition.

Philanthropy and basketball have been the main vehicles for the intensity year-round to channel their energy and enthusiasm into a positive direction.

But King is expanding the program core and opportunities in youth through volleyball and boys’ and girls’ basketball.

Martin Luther King Jr. High School still has its problems.

Martin Luther King Jr. High School still has its problems.

For the Martin Luther King Jr. High School students, sports are a vehicle for coming away from their problems. They are taught that they can do anything if they work hard and put in the time.

Martin Luther King Jr. High School's Martin Luther King Jr. High School still has its problems.

What this means is that students have a chance to change their lives and not be caught up in the same problems for which they are enrolled in school.

Exploring Black America

A way to explore Black American history is to visit Wilberforce University where archives and exhibits tell the story of a small liberal arts college founded in 1856 by abolitionist and minister David R. Porter. The university's mascot, the Blue Jacket, commemorates the African-American soldiers from the area who risked their lives serving in the Civil War. The Blue Jacket symbolizes the university's commitment to honoring the legacy of its students and graduates who have made significant contributions to American society.

The Underground Railroad Experience

The Underground Railroad was a network of safe houses and routes used by enslaved African-Americans to escape to freedom. The term "Underground Railroad" refers to the secret, underground networks that helped slaves escape from slavery in the United States.

The Underground Railroad began during the early 19th century and continued until the Civil War. It was a complex and often dangerous journey for both the enslaved people and the abolitionists who helped them.

The story of the Underground Railroad is a testament to the courage and determination of those who risked everything to fight for freedom. It is a story of hope, resilience, and the power of the human spirit.

The Underground Railroad Experience

By Cheryl Brown

A trip on the Underground Railroad continues. There is a way to explore the past the enslaved people took when they escaped to freedom. Recently, we took 400 miles of that approximately 1000 mile trip to the same story. We took a trip that took months for the travelers from safe house to safe house of the Shawnee, Creek, and the Blue Jacket. To walk in those footsteps of the courageous men, women, and children who risked their lives for freedom is an emotional and intellectual experience. "As your "Conductor" I invite you to continue on your journey.

There were many stops on my Underground Railroad trip that showed the areas where the stops were or helped to understand the area, the journey. One such place was the Callahan Building at Wilberforce University. It was 18 months old when this building was deeded to the university by the Callahan family. The building was named for Major Callahan, who had been a Confederate soldier.

It was at this mill that the mill was rebuilt. It was at this mill that the mill was destroyed. Following the Civil War, the mill was rebuilt.
