JAMES URATA NAMED TO HEAD PHYSICAL PLANT OPERATION

James Urata, Building Coordinator, has been named Director of Physical Plant, President John M. Pfau has announced.

Mr. Urata will take over as head of the Physical Plant operation, effective as of the first of the year, filling the vacancy left by the retirement of Andre Maurel.

Mr. Urata, who joined the College in 1963 before the campus was built, has been responsible for supervision of construction of the buildings, during which he worked with administration, faculty, architects, construction personnel, utility and government agencies. He has seen the College grow from a dream into a well-developed campus.

As Building Coordinator he also worked closely with student groups such as the disabled students, when new regulations were developed to provide easy access by the handicapped to existing buildings.

He will continue limited responsibilities as Building Coordinator in addition to his new duties with the Physical Plant.

A native of Los Angeles, Mr. Urata earned two degrees at San Diego State U, including a master's in industrial arts education, and taught industrial arts before coming to CSCSB.

During his Army service he served as an Army Intelligence language specialist.

He has been active in San Bernardino civic affairs, serving as a member of the City Board of Water Commissioners, YMCA Board of Directors, and First Vice President of the San Bernardino Kiwanis Club, is past president of the Riverside Chapter of the Japanese American Citizens League, and is a Trustee for the First Congregational Church of San Bernardino.

CENTER ON ECONOMIC EDUCATION FORMED HERE

Cal State, San Bernardino, has been extended formal recognition and affiliation with the Joint Council on Economic Education. Word was received recently from the Council's headquarters in New York indicating that the College has met the requirements for establishing the center. James Charkins, Assistant Professor of Economics, will serve as Director.

The goal of the council is to produce better-informed citizens on economic matters. Dr. Charkins has already conducted seminars and in-service workshops in some San Bernardino County schools as well as a seminar for teachers held on campus last July.

He plans to introduce more economic education into local schools and try to

reach future teachers, CSCSB students and the public to promote economic understanding. "Some knowledge of the U.S. economic system and economics in general are necessary in today's world," says Dr. Charkins. "That's why we are trying to reach the schools and the public -- to improve economic literacy."

Funding is by the Economic Literacy Project of the Chancellor's Office.
