### EXPERT ON WHITE-COLLAR CRIME TO GIVE TALK HERE

"Respectable Crime and Respectable Criminals: White-Collar Crime" will be the topic of an authority on the subject in a talk on campus next Wednesday.

The number one crime today, white-collar crime, includes embezzlement, petty business theft, commercial fraud, bribery and the like, according to Dr. Gilbert Geis, author of the best-selling book, "White-Collar Crime," who will lecture at 8 p.m. in PS-10, May 16. Admission is free.

Dr. Geis, an internationally known expert in this field and a professor of social ecology at the U of California, Irvine, will examine the problems and reasons of white-collar crime, defined loosely as offenses committed by persons in government, business and the professions in their occupational roles.

His book, "White-Collar Crime," is considered the primary work in the field. He has published more than 200 articles, research papers and books in this area and has conducted research in England, Sweden and Australia.

In addition to many agencies on crime and delinquency, Dr. Geis has also served on the President's Commission for Law Enforcement and Administration of Justice and was responsible for drafting statements on white-collar crime, including compensation to victims of violent crime.
