John Robinson: Have a passion for life

By Jeff Kabel
Co-Sports Editor

"The key to any kind of success is getting pleasure out of what you do and passion about what you do," said John Robinson, head coach of the Los Angeles Rams.

Robinson addressed a homecoming crowd of about 300 in the gymnasium Thursday with his speech entitled, "Tackling

Tomorrow Today."

In his 60-minute speech and question-answer session, Robinson focused his talk on the need for motivation and passion in one's life and admitted the Rams lost that passion last season which resulted in a 5-11 record.

"We forgot to bring the things you need to win," Robinson said. "We forgot to go back, to start again and do the fundamental things we needed to do. All of a

sudden we became kind of selfish."

Robinson also blamed a lack of team unity for the Rams sub-par season.

"Unless you're committed to making the team first, you're almost doomed to failure," Robinson said. "We lost a sense of commitment to the whole, to the group."

But Robinson feels that the Rams will rebound from their disappointing season.

"It's time for the Rams to be a team again."

Robinson was raised in the Bay area of Northern California and grew up with former NFL head coach and present CBS-TV football commentator John Madden.

He served as an assistant coach for Oregon University, USC, and the Oakland Raiders before inheriting the USC head coaching reigns from the popular John McKay.

While Robinson did achieve success at USC, he admitted that the initial period with the Trojans was a bumpy road.

"I tried talking myself into retirement," Robinson said. "I took the 10 percent of what was bad about my job and magnified

it."

After his seven-year stint at USC, Robinson was named as the Rams' head coach on Valentine's Day in 1983. Since then, he has compiled more wins than any other coach in Rams history and has led his team to six playoff appearances in eight years.

But he conceded that he does miss the college atmosphere.

"I miss being on a college campus," Robinson said. "In my job now there is very little diversity in my life right now. I knew a wide variety of people (at USC). I could go to lunch with another professor who didn't know about football at USC."

Club fest makes homecoming fun

Charlene S. Hurley
Staff Writer

The homecoming festivities appealed to a diversity of students at California State University, San Bernardino.

Friday kicked off the festivities with a club fest in front of the Pfau Library.

One of the big events of the day was the float parade. Clubs and organizations competed in different categories such as: "most likely to be in the Rose Parade", or "best 25th anniversary theme." The CSUSB Alumni Association donated \$450 to be awarded to the winners in each category.

Entertainment was provided throughout the day by many groups. Dance Images performed a routine for all to enjoy. A student-formed band, Name A Name, played three original songs for the crowd. The CSUSB cheerleaders performed a dance routine to "Iesha" by Another Bad Creation.

Many clubs and organizations came out to show their

school spirit. Delta Sigma Phi, Alpha Kappa Psi, Latino Students Business Association, Los Amigos, Ebony Mirror, Chinese Student Association, and the Student California Teachers Association were among the clubs that participated by selling a variety of foods for students to munch on in between classes.

Other clubs distributed information about their organizations to give students a greater opportunity to get involved with extra curricular functions on campus.

The California State University, San Bernardino Alumni Association gave students a chance to purchase homecoming buttons from previous years. They also had the CSUSB watches for sale.

The turn out for this year's homecoming festivities was a real indication of how fast this campus is growing. With the participation of all the clubs, organizations, and greek houses on campus, homecoming gets better every year.

Valentine's resolution: Find a lover!

According to Information USA, Inc, there are many ways to find a lover. Whether you are looking for an old lover, or even a new one this Valentine's Day, your Uncle Sam can help. Not only will the government tell you where your old boyfriends, girlfriends, ex-wives, husbands or lovers are, it will also tell you if these lovers are worth seeing again. Government offices can reveal what kind of car someone drives, what's the value of their house, and even provide you with a list of the people they owe money to. Matthew Lesko, "The King of Government Freebies and Cheapies", and author of the 5-pound sourcebook, *Lesko's Info-Power*, has compiled some of the best government offices that will help you in your quest for locating your lover.

•Your Lover's Current Address for \$1.00

You can contact your local post office for the last known address for anyone. Change of address records going back 18 months are on file and a \$1.00 will provide you with a new address. Also for \$2.00 your full service Division of Motor Vehicles located in your state capitol can dig up a person's current if you have their full

name and last known address.

•Social Security Will Forward Your Love Letter Forever

The Social Security Administration has the largest database for where people are. This office will forward the letters to lost loved ones if you can supply the name and social security number, or the person's date and place of birth. The letter you want forwarded must be sent unsealed, and you must enclose a letter explaining why the enclosed letter should be sent.

•Find Your Lover in Rush Hour Traffic

Want to know that good looking driver who pulls up next to you in a traffic jam? Jot down their license plate number and then contact the Division of Motor Vehicles in your state capitol. Most states will pass along the name and address of the person who owns the car.

•Find a Lover in the Desert

The Defense Department will help you find a new lover among the men and women serving in the Persian Gulf. Send your letters to: Any Single Serviceman or Servicewoman, Operation Desert Shield, APO, NY 09848-0006.

•A Mailing List of Rich Single Men & Women in Your Zip Code

You can receive a mailing list from your state Department of Motor Vehicles which includes information on single men or women in your zip code who own BMWs and Mercedes Benzs. The information is available for a fee in 47 states. Contact the state's DMV.

•The IRS and Census Will Tell You Where to Marry a Millionaire

The IRS analyzes tax returns to identify where the millionaires live Contact: Statistics of Income, IRS, PO Box 2608, Washington DC 20013.

•Who Does Your Lover Owe Money To? Is Your Lover Rich?

The answers to these questions can also be found in the government. The Office of Uniform Commercial Code in your state capitol will tell you who people owe money to. It's public information if they place an asset as collateral for a loan. Also, at the Recorder of Deeds at the county level you can find out if your lover owns a home and how much he or she paid for it.

Beeman makes big impact

By Richard Kontra
Co-Sports Editor

While the California State University, San Bernardino women's basketball team has struggled through a subpar season, one might think that the Coyotes just won the championship by talking to junior point guard Laura Beeman.

With a bright smile she sat and talked about how her season hasn't been a total disappointment. While the team's record

is a dismal 9-16, Beeman looked at the positive side of things.

She surpassed the career assist record early this season and said it was a relief to get it out of the way.

In her third season, the two-year captain shattered the career assist record of 221 in front of the home crowd against Texas Women's University. With one game remaining, she currently has a career total of 372. She has one more year of athletic eligi-

bility.

While Beeman is busy making an impact on the court she also uses her spare time to help out in the community. Beeman, along with Sports Information Director Dave Beyer, has started the Pups program. The Pups program is a booster club for young children from 6-10 years of age.

"It gives the children a chance to interact with college players while it also provides a very good atmosphere," Beeman said. "That's been the most positive thing all year."

"She's the best publicity we have," Beyer said. "She's genuine and she cares about people."

How did CSUSB get a hold of a player like Beeman?

Born in San Bernardino, Beeman earned many awards in high school when she was a member of the San Bernardino Cardinals. A four-year varsity player, she was named to the first team all-CIF, Most Valuable Player of the San Andreas League and also received the Coaches Award.

Beeman received scholarship offers from Weber State in Utah as well as from the University of California, Riverside. After injuring her knee at UCR she was unable to go on and devoted herself to her studies. When she was approached by assistant coach Darrel Smith to come play for the Coyotes she jumped at the chance.

While Beeman is not playing for the Coyotes she likes to spend time with her family and help out with her father at Beeman's Pharmacy.

With the roster reduced to seven players, Beeman is averaging 39 minutes per game. The team has continued to work hard all season and will wrap up the season Friday against Master's College at 7:30 p.m. in the gym.

Beeman will play softball for the Coyotes this spring and receive her degree in business marketing in June.

Deagle brings his baseball past into Coyote's future

By Jon Dillon
Chronicle Staff Writer

For those of us who love the game of baseball, our time is here.

The days are getting warmer and lasting longer. Winter is on its way out, taking with it all the "if only's" and the "might have beens" from last year.

Instead, college baseball teams are focused on the upcoming season with the attitude of "this is our year."

For Head Coach Chuck Deagle and the men's baseball team at California State University, San Bernardino, they have good reason to hope for a successful season. They are the defending NCAA Division III West Regional champions and finished fourth in the nation at the Division III series last year in Battle Creek, Mich.

In addition, the Coyotes were ranked No. 8 in the 1991 Division III preseason poll conducted by *Collegiate Baseball* newspaper and are currently 2-1 this season.

The Coyotes beat Azusa Pacific University Feb. 6 when they Coyotes rallied for four runs in the bottom of the ninth to win 12-9. The team then split a doubleheader last Saturday against the Master's College, winning the first game, 7-4, while coming up short in the second, 8-0.

Although last year was the first invitation to the postseason tournament, the team has never had a losing record in its five-year history. Many credit the team's success to Deagle, the only man to coach Coyotes baseball.

In the first four years of the program, Deagle has compiled a 104-44-2 record for a winning percentage of .703.

Although Deagle is quick to point out that the CSUSB baseball program is not "all mine," he speaks of it with a great deal of pride.

But the pride is evident when he speaks of some things.

"My teams have never

caused the university any embarrassment," Deagle said. "Our program is lily white."

Before he founded the CSUSB program, Deagle coached at the University Of Redlands where he compiled a record of 79-47 (.627 winning percentage).

His composite record of 183-91-2 ranks Deagle among the winningest coaches in NCAA Division III. He is 39th in victories with 183 and 15th in winning percentage at .667.

How does Deagle describe the success his teams have achieved in the past?

"The past is water under the bridge. Last year we were invited to the tournament and won it."

But for now, the 1990 West Region's "Coach of the Year" is concerned with the 1991 season.

While the Coyotes defense and hitting are strong, Deagle, like most coaches, seems to be focused on pitching.

"Your team will go as far as your pitching can take you. Because of the strain on a pitcher's arm, it is important to have a balanced staff."

Deagle summed up the uniqueness of baseball compared to other sports.

"Imagine football or basketball if the star quarterback or center could only play every four

or five games. It would be a whole different ball game."

But Deagle's philosophy on coaching seems to go beyond winning or losing baseball games.

"Education is why we are here. A kid won't play ball until he is 65 so the degree has to remain the primary goal. We try to teach the facts of life."

Men's Basketball

The men's squad will play its final NCAA Division III basketball game against rival UC San Diego at home Saturday at 7:30 p.m. The team will move to NCAA Division II next fall.

UC San Diego has won the past four meetings between the two teams and beat the Coyotes in La Jolla this season, 81-69. The team currently sports a 6-19 mark.

Women's Basketball

The women's squad currently sports a 9-16 record and will play their last Division III game at home Friday against Master's College.

UC San Diego spoiled the Coyotes homecoming game Friday with a 50-41 victory. Junior for-

ward Sandrine Rocher led the Coyotes attack with 15 points.

Men's Baseball

The Coyotes own a 2-2 record after losing a 7-4 contest to Southern California College Tuesday. Third baseman Miguel Salazar homered in the game.

Women's Softball

The women's squad dropped their first two games to three-time NCAA Division III defending champs, 9-6, and 11-6, at CSUSB Friday.

Sophomore third baseman Felicia Haral and Monica Reyes each went 4-for-8 with two runs batted in in the doubleheader.
