ADJUSTMENT OF JULY SALARY INCREASES EXPECTED MID-AUGUST

The Controller's Office has notified the College that an adjustment to the July salaries in the pay increase authorized by the Legislature last month will be released during the week of August 13-17, in the form of a separate warrant.

The increase will be included in subsequent paychecks, beginning August 30, with the issuance of the August warrants.

APPELLATE COURT TO RULE ON RETROACTIVE PAY BILL

On Wednesday two petitions seeking to invalidate the retroactive pay bill for state employees, Senate Bill 91, were sent to the Court of Appeal in Sacramento for consideration.

The California Supreme Court declined to act on Howard Jarvis' petition and sent it and a similar action filed by Armand Brodty to the appellate court in the state capitol.

The Court of Appeal now will determine the issue and the legality of SB 91.

FINE ARTS BUILDING CONVERSION BID HIGH

A lone bid of \$260,168 was received for the remodeling of the Fine Arts Building last Tuesday. Eason Construction Co. of Highland came in 15-1/2 percent over the capital outlay budget.

The College administration is working with the Chancellor's Office and the CSUC Construction Engineer, Raymond Yusi, to facilitate the remodeling within the budget allotment.

The building, formerly devoted mainly to music and drama usage and the Bookstore, is scheduled for conversion to Art Department facilities, faculty offices and classrooms as well as an expanded Art Gallery.

HOURLY PAY RATES FOR STUDENTS INCREASED

The Administrative Council has granted a pay increase to student assistants and students employed in the College Work Study Program. Effective July 1, the new hourly rates will be as follows:

<u>CSCSB EMPLOYMENT PERIOD</u>	<u>HOURLY RATE</u>
First 12 months of employment	\$3.28
Second 12 months of employment	3.38
Third 12 months of employment	3.48
Fourth 12 months of employment	3.58
Graduate Level Student Assistant	3.88

TWO MATH PROFESSORS  
JOIN EMERITUS FACULTY

Two veteran mathematics professors who joined the College within a year of each and retired within months of each other, have been named Professor Emeritus. John Hafstrom who came to CSCSB in 1965 and Rene Dennemeyer, who came a year later, have joined the exclusive ranks of the faculty to be so honored. There are now seven Emeritus faculty.

As senior mathematicians they established the College Math Department. Both mathematicians received some notice from the press in 1968 when, within a year, each wrote a college text for a major publishing company. Dr. Hafstrom's, his second book, an "Introduction to Analysis and Abstract Algebra," was adopted by several colleges and universities, including our own, Michigan State and University of Maine. Dr. Dennemeyer's book, "Introduction to Partial Differential Equations and Boundary Value Problems," was published by McGraw-Hill.

Dr. Dennemeyer, a native of Monrovia, California, received his doctorate in math from UCLA and worked a number of years at Lockheed Aircraft Corp. as senior scientist as well as Aerospace Corp. in San Bernardino, which he left to join the faculty here. He also taught at Long Beach State for seven years.

Dr. Hafstrom served as chairman of the CSCSB Math Department from 1965 to 1971. For ten years he held the same position with the University of Minnesota Math Department prior to coming to CSCSB.

The first of the CSCSB faculty to take advantage of the CSUC faculty exchange program, Dr. Dennemeyer was on leave from the College to Cal State U, Northridge from 1977 until his retirement. The Northridge location permitted him to continue his close association with the UCLA Math Department where he was involved with research in advanced math, which he is maintaining.

Dr. Hafstrom is spending the summer at his cabin in Minnesota and will return to San Bernardino in the fall.
