Sacramento will be the ‘Reed Patrol’s’ final stop before the CFA Strike Authorization Vote scheduled for Early March

By John J. Eddy
Executive Editor

The California Faculty Association stepped up its activism this past week, taking the ‘Reed Patrol’ to Cal Poly Pomona on this past Thursday afternoon.

An estimated crowd of 100 faculty, highlighted by the presence of two statewide faculty leaders of CFA, Vice-President Lillian Tanz and Lecturer Vice-President Elizabeth Hoffman, came from around the state and showed up to wish Chancellor Charles Reed a Happy Valentine’s Day during a face to face meeting between the Chancellor and the faculty.

The meeting between the two parties was the first since the fact-finding committee began convening on Feb. 13th. We will be determining if some new course could be offered to settle the dispute between the CFA and the Cal State University Administration, led by Reed.

“Our members are determined to get back the quality education that Cal State Sacramento used to be known for,” said Jeff Lustig, CPA chapter President from Cal State Sacramento. “We must reverse trends that have seen the administration diverting the taxpayers’ money into a bloated bureaucracy instead of delivering educational services. This contract dispute is about maintaining access to a quality academic education from Cal State Sacramento. “We suspects they are diverting savings from the compensation fund. We suspect they are diverting savings from the compensation fund to a growing administrative behemoth,” said Tom Meisenhelder, CFA chapter President at Cal State San Bernadino.

The compensation fund mentioned by Meisenhelder is the CSU faculty compensation pool that is allocated funds each year to pay for retirements and turnover. The CFA alleges that the CSU administration has been diverting the percent of the CSU budget devoted to instruction.

The percent of the CSU budget devoted to instruction:

1990-1991 53.36%
1991-1992 50.64%
1992-1993 45.02%
1993-1994 44.94%
1994-1995 46.58%
1995-1996 45.02%
1996-1997 45.19%
1997-1998 44.94%
1998-1999 43.70%
1999-2000 43.13%
2000-2001 41.03%

The size of the CSU administration has ballooned in recent years while tenure-track employment remained relatively unchanged. The number of managers and administrators employed in the CSU increased by 33% between 1994-95 and 2000-2001.

The administration’s reliance on lecturers, who are not paid to perform student services duties such as advising, means that the growing amount of student services responsibilities generated by rapidly increasing enrollment all onto tenure-track faculty.

Recent Trends in the CSU System

Chronicle Merges with the Net

By Shareena C. Clark and Mathew Taylor

Have you ever felt like you could not get enough of the Coyote Chronicle? Have you ever felt like you needed a quick fix? Now the Chronicle has the perfect drug, an interactive version of the Coyote Chronicle which is in the process of being perfected.

On February 1, the editorial staff of the Coyote Chronicle met with the Computer Science Club to discuss plans for an online version of the campus newspaper. This could be seen as the perfect creative combination, capable of reaching every single man woman and child who is concerned with the goings-on at CSUSB, and its surrounding community.

When John Eddy, Executive Editor of the Chronicle was asked about the website capabilities, he responded, “we are always looking for better ways to get the information of our paper into the hands of our readers. By creating an interactive website, we can get news to not only our alumni, but also parents and families who spend hard earned dollars to send their children to our school. We hope the website will increase awareness of important issues and historical events that have occurred this year, which is more than any in our recent history. This is definitely a large step towards progress.”

David Turner and his computer science apprentices will head the project, Which has so far gone through two different versions. Currently there is a website available at http://chronicle.csusb.edu:3000 where you can check out the progress and the late and breaking news that was unable to make the weekly printing.

The Chronicle hopes to bring the people the news as it happens. Hopefully before the spring quarter there will be a completely functional site which will include interactive surveys and staff bio.s. The public will get the chance to meet and greet the staff through this site. For more information about the website, contact the Chronicle’s staff at sbchron@csusb.edu.

New Freeway Relieves Commuters

By Peter Tsai
Staff Writer

CSUSB student commuters who now have to walk to and from classes may be astonished as early as this September, when the new 14-mile extension of the Foothill Freeway is set to open.

The massive, multimillion-dollar freeway project is proceeding smoothly, according to Caltrans representative Rick Holland, and its various segments of construction are nearing completion in the months ahead.

The first of those segments lies between the L.A. San Bernardino county line and Rochester Avenue in Rancho Cucamonga. This stretch of the new highway is actually subdivided into four sections. Beginning in March, paving will be laid on 18-inch-thick lanes from the county line to Upland, with storm drains, sound and retaining walls currently under construction along the route.

The second portion from Upland to Rancho Cucamonga is scheduled to be completed in May. Along the third section from Rancho Cucamonga to the University Parkway, two bridges are currently being built with a projected completion date in July. The last section of the freeway project from Hermosa Ave. to Day Creek Boulevard is now being fitted with sound walls and storm drains.

In addition to the 14 miles of freeway being built in San Bernardino County, Caltrans is also in the final stages of a five-mile stretch of the highway just west of La Verne in Los Angeles County.

Who’s Working on Traffic?

By Beverly Delker-Gentry
Special to the Chronicle

By looking at the increasing number of vehicles traversing in and out of the university and residing in the parking lots, it becomes obvious to everyone that our university is growing. But are we planning ahead? Who projects parking usage and traffic flow? Are we doing anything to mitigate our current traffic situation?

There are several situations occurring that are impacting traffic on our university. One of the most obvious is the congestion on University Parkway between Kendall Drive and Northpark Boulevard. The City of San Bernardino wants to widen the roadway to rehabilitate this stretch of pavement; beginning December 18, 2001, with completion prior to the resuming of Winter quarter classes.

Unfortunately, the contractor was unable to get sufficient amount of asphalt during that period. Delaying the job start until classes were back in session. Completion is now not anticipated until April 1, 2002.

Public Safety has provided assistance during peak times to help ease the gridlock that occurs at the University Parkway and Northpark Boulevard intersection. Currently, patience and the ability to alternate routes to and from campus are how students are best dealing with the impact.

To remedy more long term traffic and parking congestion on campus. Parking Services has been striving to adapt in several ways. They provide assistance with traffic control in the parking lots. They have hired two additional student assistants to supplement the parking officers, opened up additional parking areas such as the south curb in Lot C and the connector road between lots A and B during highly impacted parking periods (such as the beginning of the quarter).

They have also constructed a temporary parking area with rented lighting at the site of future Lot K (near Lot A). They have also constructed temporary lighting and traffic direction during highly impacted times.

University administration recognizes that with growth, access to the university will need to be changed to adapt to anticipated traffic. The university has been forming partnerships with the State of California, the City of San Bernardino and Caltrans to reevaluate the boundaries of the university campus.

UPDATE:

Lights Brighten CSUSB Appeal

By Beverly Delker-Gentry
Special to the Chronicle

In October, Facilities Services hosted many of the lights added and lighting upgrades. Facilities Services has conduced on campus prior to late October and even in the prior fiscal year. Facilities Services thought it might be helpful to provide you with highlights about our continued efforts.

• Facilities Services continues to have an electrician on duty Monday through Friday until 6 p.m. to check on the operation of individual lighting areas come on (for example, the parking lots) and a maintenance person on duty Monday through Thursday through 9:00 p.m. to check on the operation of individual lights, as well as work on maintenance issues.

• Facilities Services has upgraded the light fixtures in all exterior lighting areas come on (for example, the parking lots) and to the university and facilities provided to students.

• CSUSB is participating in a CSUSB system-wide survey of student satisfaction. Data from these surveys will help our campus determine the importance and quality of the services provided to students.

This year, surveys will be available online, so they’ll be shorter and faster to complete!

In the past, our campus has participated in various studies that resulted in streamlining processes and improved services.

The concept of "one-stop shopping" for student services is the Records & Registration lobby. By logging into registration, grad checks, degree audit reports, and financial aid emerged as a result of these findings.

Therefore, we are soliciting student input. If you are participating in this survey, you will help as we continue our efforts to improve campus services.

Your participation is critical to us in determining improvement of our campus services. Thank you for making CSUSB "the smart place to be!"
Registration Deadline Changes

By Mathew Taylor
News Editor

It is getting close to that time again when those magical ballots come out so that your vote can be heard. This upcoming year will be the first primary election since the 9/11 tragedy. This election will be a groundbreaking event because it is a presidential election, and the state has had a chance to voice their opinions since the attacks.

This is also another plus to this event, because for the first time the voter registration deadline is changed. You no longer have only thirty days after your registration in which you can vote, now the deadline has been extended to fifteen days before the election. The last day to register for the upcoming election on March 5th will be February 19th.

Anybody who registers between the 24th and the 19th should receive a notice of their polling place and one of the voter pamphlets.

Also remember that if you are one of those people that register late, you are allowed to vote provisionally as long as you prove to the Secretary of State your residence. The provisional ballot is the same, but the officials are required to check out all information on the provisional ballots before they count them.

In April, the Associated Students Incorporated will begin their voter registration drive, and they are focused more on the general election than the primaries.

ASI is also busy setting up a letter writing campaign to the governor that will be talking about all the issues affecting the CSU system. For more information regarding voter registration and some of the candidates check out the Secretary of State's website at www.sos.ca.gov.

Prop 40: Too Clean or not too Clean

By Jesse Henderson
Staff Writer

Prop 40 says it will clean water, clean air, keep your neighborhood parks safe, and protect the coast. It all at no extra cost to the taxpayer. Foes of Prop 40 say, "What happened to the $4 billion approved by voters in 2000 for water and parks?"

Prop 40, or The California Clean Water, Clean Air and Safe Neighborhood Parks Act of 2002 includes a ballot initiative that would authorize voting Modernization Bond Act of 2002. They feel that "every vote should count" and that this just a way to "sell" the voters 2000 for water and parks.

Prop 40 will be the first time the public has had a chance to voice their opinions since the attacks.

The state issued bonds amounting to $2.62 billion will be used to update the existing systems. Over the next 25 years the state will pay $4.35 billion average cost $54.65 per year, amounting to $172 million. In addition, Prop 40 provides a way of entering accountability; the act is subject to an annual independent audit.

In 2000, $4 billion in bonds was issued for water and parks. None of the money was spent on cleaning water or improving air quality. Foes of Prop 40 believe that the act is subject to an annual independent audit.

Prop 40 will give up to $375 million for "administrative costs" to private organizations to fund pet projects. They believe California simply does not have the money.

Prop 41: Voting for the Future

By Kody Rodriguez
Staff Writer

Trying to avoid the problems faced by the 2000 Presidential Election, California legislators have pre-pended Prop 41, the Voting Modernization Bond Act of 2002. The act would allow the state to sell $200 million in general obligation bonds to update the voting systems currently in place.

The money raised from selling these bonds would help assist the counties of California in the purchasing of new voting equipment. The state would then pay part of the cost as well as the interest on the money.

The revenues that would pay for this act would come from voter registration fees and income. The state would pay back the bonds over a ten-year period. The total cost of the bonds will be an estimated $255 - $200 million for the principle and $55 for the interest. The average payment per year would be about $26 million.

15.7 million of California's registered voters, 11.4 million of the state's $4 billion to the San Francisco Bay Area Conservancy Program, and $12 billion to the Proposition 40 Fund.

They feel that "every vote should count" and that this just a way to insure everybody has that right. They also point out that of the

money funded projects like $44.75 million for three science centers, $30 million to the San Francisco Bay Area Conservancy Program, and $12 billion to Proposition 40 Fund.

The advocates for Prop 41 believe that the act will help "sell" the issues of the 2000 Presidential Election. They feel that "every vote should count" and that this just a way to insure everybody has that right.

The quality of our voting system is critical to the welfare of the voters. The question is whether this act is the most appropriate means necessary to fix the problem, it is still a question you must answer for yourself. However, we feel that this act is the best way to do so.

For more information, call Rachel Gibert at 800-5250.
Save a Buck or Two

By Sal Desalvatore, Staff Writer

Getting the most bang for our bucks is a major concern on the minds of everyone. We choose the cheapest gas station, bank plans, etc. Why don't we pay for what we order? Any of the food on the cheap menus can be made to taste as good as the expensive stuff, and order accordingly. Any of the food on the cheap menus can be turned into the better stuff by simply adjusting the food.

This may cost a few cents or not. Back to the Ultimate Cheeseburger; if you will. I can get two Big Cheeseburgers for 99 cents combine them and I literally have the same taste of the Big Mac for less than half the price. Now I can order two or three according to my hunger at that moment.

This may not seem like much and may in fact be a bother for some, but trust me, getting exactly what you are ordered is much more appealing to me.

Another example is at McDonald's. I love Big Macs, but for the money, the Big Mac just is not a good value. First of all, Big Macs only have one measly piece of cheese. That just doesn't get it done. Second, Big Macs are way over priced at $2.49. What do I get when I go to McDonald's? Just a small double cheeseburger with Big Mac sauce instead of the ketchup and mustard it comes with. Not only do I now get two pieces of cheese, but I get the same taste of the Big Mac for less than half the price. Now I can order two or three according to my hunger at that moment.

This may not seem like much and may in fact be a bother for some, but trust me, getting exactly what you are ordered is much more appealing to me.

HUGS 4 HEARTS

By Yazmin Alvarez, Staff Writer

The 8th annual Hugs For Hearts event, hosted by the girls of Alpha Phi, was held on February 13. The event took place outside the lower commons in the patio area.

This philanthropy project's purpose was to help raise money for women's health research and cardiac care.

Alpha Phi's Vice President of Marketing, Nesh Cuyp, and co-directors of Philanthropy Laura Harper and Jennifer Ward planned the event for 3 months in order to make this event possible. ASI, local businesses, radio stations such as X103.9, and non-profit organizations such as In The Zone and UCAP (University & College Campus Advocacy Project), which both help in adopting tobacco-free sponsorship policies among muff campus activities, also helped in making this event possible by sponsoring and attending the event.

Students, faculty, and Clubs and Activities were invited to attend the annual carnival based event, which consisted of everything from a jumper, which the kids from the Children's Center on campus enjoyed, a cotton candy machine, a kissing booth which provided a bag of Hershey's Kisses, a fishing booth where you went fishing for a little plastic fish and if you caught it, you would win a real live guppy, and last but definitely not least, a Heart Throb booth, which was where the majority of the money raised came from.

The purpose of this booth was to have a heart throb nominee from each Chapter raise money during the event from friends, and the winner with the most money raised would be serenaded and crowned Heart Throb by the ladies of Alpha Phi.

The winner of the Heart Throb event was Eddie Cardenas, a member of the TKE chapter, who raised $716.20. Tumi Oduyemi, also a TKE member, came to support his fellow brothers by attending this event. "I came to support the Greek system, but I'm also here to help raise money for women's research. I have a family member with breast cancer, so it's important for me to be here and be supportive!"

Along with the money raised from four other Chapters, which participated in the event, "about or over $4000.00 was collected in the end from this contest", stated Devyn Grable, President of Alpha Phi. Last year's event which totaled at $3300.00. "All the proceeds will go to research for women's health, and also some money will be donated to the Childrens center here on campus. One of the girls fathers in Alpha Phi is going to match $1600.00 of what was raised throughout the event," also stated Grable.

The event seemed to pay off in the end. Money was raised, goals were reached, and a heart throb was crowned. Alpha Phi has proven themselves to not fit the stereotype of a typical sorority, but rather a mature and caring group of women.

How to Plan a Fundraiser

By Susie Medina, The Scene Editor

Clubs and organizations make their presence visible by doing events, fundraisers, and serving a cause. The idea is to promote their groups, increase membership, and produce more money.

Some make money for the welfare of the club and its members, while others raise it for charity. Whatever the case, it is hard work to put together an event that will draw in lots of people, without being too expensive.

Recently the Coyote Radio, a club on campus which accesses Cal State’s own radio station, held an event that had a turnout of only 15 people. The Winter Meltdown is a let down as members hoped for a large crowd to attend the event. "We'll rent out a club and produce more money. We won't have them at Cal State because its hard to get a crowd there because it's not a social place. We usually have them at clubs that people already know so it draws more people."

Ruben Cruz, Social Events Chair of Latino Business Student Association, agrees that their fundraiser events are usually not held on campus for the same reason as Lambda. "We wouldn't have them at Cal State because it's hard to get a crowd there because it's not a social place. We usually have them at clubs that people already know so it draws more people."

The Lambda's not only pay for the printing of their own flyers and pay rent to a club for a party, but also share their profit with their UCR brothers from the same fraternity. "We do this because whenever we have an event, we promote it to our friends, bringing in a higher crowd to the club. And the same if they have an event, we'll help promote them."

Ezekial Bonillas of Lambda Student, faculty say they go out full force with promoting their events. "We'll rent out a club and pass out flyers everywhere and if somebody else wants to help we'll pass out flyers too."

What do you know about me? I know I have choices.

We offer all the services you need in the real world.

www.plannedparenthoodOSBC.org
Roofer Bus Goes to L.A.

By Crystal Vickery
Staff Writer

Need a little excitement? CSUSB students do, and they found it with the Coyote Pack's Roofer Bus to Cal State L.A. In fact, our basketball team doing so well, every game is an adventure. On Friday, February 8, Coyote Pack offered a trip to CSULA for students to watch and cheer while our Coyotes hunted the Golden Eagles to remain number one in the region.

The bus ride leading to the game was full of excitement. Crissy Tobisio, Coyote Pack advisor, created a trivia game about CSUSB with a wide range of questions from "What were Cal State's original school colors?" (Sky blue and Earth brown) to "What kind of car does Coach Reynolds drive?" (Chevrolet Impala). Anyone who answered correctly was awarded a new Coyote pint glass. Students never had a dull moment, and learned a lot about Cal State's history.

"We wouldn't have them at Cal State because it's hard to get a crowd here..."

~ continued from page 5

people." LBSA does however have one fundraiser on campus in which they cook carne asada meat in front of Student Union and sell them to the students. "We always make money on carne asada," Cruz admits.

Sounds easy enough so far, right? Don't have an event on campus unless you're selling food. Not necessarily, says Becky Leiby from the security Alpha Delta Pi. Their annual Swing-a-thon does not have food, ticket sales, or even much promoting, but they managed to earn $3000 profit from the event. "It all seems so serene

though love and hunger break his spirit will power tames his inner wants against the wind he marches on with courage drawn, his courage flares

right past the pastures brimming my blood over roads of sand and paths of mud the hills, he covers, and mountains, too his mind is set on what he must do

one last mile til he reaches the ocean's shore in his sight he wants to cry, he wants to laugh the earth makes ready for the final fight

the crashing waves all sit in silence and the clouds flock to the scene the hero knows the moment cometh but it all seems so serene.

You Say

a graduate degree costs too much?

Here's a great investment tip: Cal Baptist.

A graduate degree is supposed to pay dividends for a lifetime but not all graduate degrees are created equal. At Cal Baptist, you can count on personalized attention from talented faculty, widely recognized graduate programs, and an ethical focus that distinguishes you from the crowd. So don't think of your Cal Baptist graduate degree as money out of pocket. It's more like money in the bank.

The Last Task

By Omar Zubair

he walks down to the very edge each step, impressions in the sand the water slowly rocks his ankles he grips his sword right in his hand

he readied his blade, so sure, so proud the time has come to trust oh, the hurdle seems so far away but this is the way it must...

the movement that was made the pain of sadness the river's full of scars or hate it wasn't skillful, wasn't fancy it was solely wrought of fate there was a silence for many moments
touched by a single wave but instead of crashing, it carried the hero and carried him gently to his grave

the hero's task was finished the winds blow upward like a sigh becalmed mankind's reign falling had been a hullo instead of good-bye

slowly the buildings turned to soil and the weather wiped away the shame the time of man was fading along with his ill-begotten fame great forests grew in deserted places and beauty again graced all the land

come be a part of our staff! we need all positions filled. please call (909) 880-5289

You Say

Here's a great investment tip: Cal Baptist.

A graduate degree is supposed to pay dividends for a lifetime but not all graduate degrees are created equal. At Cal Baptist, you can count on personalized attention from talented faculty, widely recognized graduate programs, and an ethical focus that distinguishes you from the crowd. So don't think of your Cal Baptist graduate degree as money out of pocket. It's more like money in the bank.

Perhaps the only art form that the United States has produced and unleashed on the world is in the form of blues and jazz music. Originating in the late nineteenth century in the Delta region, improvisational-based music can be traced to performances by slaves in New Orleans' Congo Square. Blues and jazz music arose from African idioms in folklore, and rhythms that endured the hardships of slavery. Cultural resistance became manifest in the spirituals and soul music of the day. In the early twentieth century, the music progressed north, finding distinct strongholds in Memphis, Kansas City, St. Louis and New York City. Jazz today is more affluent, and is often used as a metaphor for sophistication when portrayed in television commercials. Last year, the "Ken Burns on Jazz" series ran twice on PBS, and introduced the music to a wider audience. Unfortunately, the series also came under scrutiny by jazz critics as the best and worst thing to happen to the music. However one may feel about this controversy, the African-American contribution to culture is undeniable. Louis Armstrong, the New Orleans-born trumpet player and vocalist became an international sensation by crossing racial boundaries, and paved the road for Duke Ellington, Count Basie, Miles Davis, John Coltrane and numerous other musicians and composers.

Jazz music should be heard, and one can do that by tuning in to 89.1 KJON out of Long Beach. This is a listener-supported station with no commercials, and it features Latin/Afro-Cuban jazz, blues, soul and related music 24/7. "Classic" jazz should not however be confused with "smooth" jazz, championed by Kenny G and his ilk. "Real" jazz spans Delta blues, swing, bebop, hard bop, avant garde, and free styles, right into the electric fusion and modern "acid" jazz.

How to start collecting this vast genre? First of all, listen to KJON and write down what you like when the DJ comes on. Then, take your list to a store such as Borders Books and Music and start collecting.

Who should I start with? It really depends on your taste, but it is hard to go wrong with the following top-sellers: Miles Davis-Kind of Blue, Cookin', Bitches Brew, In a Silent Way. This is because Davis' long career and are only a starting point. John Coltrane's A Love Supreme and a Live Love Supreme is good introductions, as are pianist Bud Davis "Waltz for Debby" and drummer Art Blakey's Moanin'.

Think Hard Before Getting Married Young

By Jonna St. John
Staff Writer

How many of you guys proposed marriage this past Valentine’s Day? And, how many of you girls said yes? Well... recent studies, statistics, polls, etc. etc. say, “Wait! Don’t rush into anything!”

According to the National Center for Health Statistics, 43% of first marriages end in divorce. One in three marriages ends within the first 10 years, and one in five ends within the first five years. This means that by 2005, 20% will already be divorced, and by 2010 only 63% remain married. But, they better watch out because another 6% will divorce in the next five years. Disturbing statistics, but for most of us, they probably do not come as a shock. I was considered the abnormal one throughout school because my parents are still married. Divorce is all around us. The nuclear family is no longer the mother, father, kids, and dog. Now it includes stepparents, step-siblings, and half-siblings.

There are many reasons for the so-called “broken homes” and there are also many consequences. Surprisingly, the average American spends the majority of their life unmarried. This is due to just not wanting to get married, or, of course, early death. Susan, a sophomore, says that many families are not emotionally ready to commit. Being that this is an institution of higher education, you would assume most would say this.

Another popular argument for waiting was best explained by Robert, a senior business major here on campus. He believes that when people marry at an early age, they are “sacrificing so much.” There is so much to experience that you wouldn’t be able to experience if you were tied down. With marriage comes more responsibilities which means less leisure time without your spouse. However, these opinions do not coincide with statistics, but because so many of us are products of divorced homes, there is the underlying fear of becoming a statistic ourselves.

We are afraid we too will have to go into a marriage relying on the fact that if it doesn’t work out you can just get divorced, you will have children and emotionally ready to commit, while others of us try a new relationship only to fail. He did suggest that a person like you is only allowed to go so far in life. If someone tries to tell you that there is no room at the top, you tell that person you will only be the bearer of bad news, and you are the person who will find a way to climb at the top, or be out of his office by 5pm! I am the lizard king. I can do anything!” —Jim Morrison

Journey #5- Get it While the Getting is Good

“Get it While You Can” - Janis Joplin

Do you remember your high school graduation? You know, the one that’s like every other graduation when the most successful student, the principal, and the guest speaker gavet out “Get em tiger” speech. You were either hyped up by the idea and ready to conquer the world or you were like me and just turned the volume up on your Discman.

Frankly, I found Led Zeppelin was better than listening to some Ivy league bound, top of the class, yuppy in training, boy band loving teenager give me advice on life. What does some kind ass, grown up in a gated community know about my life? Nothing.

Don’t get me wrong here. If that graduation speech changed your life, and you have it all figured out, by all means, put this article down and live your life. For those of you who would have slipped through the cracks if it wasn’t for mom or dad or Pastor Alexander or whoever, read on.

Like many young people grew up with only their parent, guardian, or close friends believing in them. Some parents may have been put down and rejected. Some have been considered worthless until proven wrong. We were, and still are at times the ones who had to work twice as hard to be seen as equals. We are the ones who had some type of stereotype slapped on our foreheads as soon as we were born, and still to this day we are constantly finding ourselves battling with it. Perhaps it is because of society, who knows.

Well, I say to hell with society! To hell with all those people who told me I could not do anything with my writing, and to hell with whoever told you that you could not do something. If Bill Clinton can dodge the draft, I can write a book, or sell a screenplay. You can be a doctor, or a lawyer, or whatever you want to be. Do not let some jenks who has never spent a day in your skin tell you that you cannot do something.

Don’t be disheartened by someone telling you “No,” or “You Can’t.”

Have some faith in yourself. There is a fine line between modesty and self-compliment. Do not settle as an indentured servant, you better get your forty acres and a mule and then some. Don’t wait for the okay, or someone else to get it for you. Get it ya’ dumb self. You don’t need permission from Big Brother! You better take what is yours and get it while the getting is good because you aren’t getting any younger. You cannot go into a marriage getting any thicker, and Uncle Sam ain’t handing down nothing to you.

Forget that half-assed notion that a person like you is only allowed to go so far in life. If someone tries to tell you there is no room at the top, you tell that person you will only be the bearer of bad news, and you are the person who will find a way to climb at the top, or be out of his office by 5pm! I am the lizard king. I can do anything!” —Jim Morrison

TaIWANESE STUDENT ASSOCIATION PUTS ON NEW YEAR CELEBRATION
Forget giving spirit, give funding! The CSUSB Spirit Squad's main purpose is to keep our school's spirit alive. But unfortunately, the school doesn't always retain the favor. The squad spends three hours rehearsing two to three days a week at athletic games. “We work very hard to support our teams and enjoy the games,” said coach Kris Moore.

The spirit squad receives a small athletic budget that provides them with their shirts and skirts. San Manuel and Xpress Rent a Car are the two sponsors that support the spirit squad. San Manuel provides them with $500, and with travel for away games. Xpress provides them with transportation to the A.A. and Dominguez tiger games. The squad has raised $400 from their own fund raisers to buy spirit packets, cheer leading shoes, pants, and pom-poms. The squad only consists of females, but five gentlemen as well.

The spirit squad performs at baseball games, volleyball games, soccer games, basketball games, and pep rallies. Next year the squad will start competing throughout the Southern California area, according to Moore. “We may not rank as high as other Cal State universities, but we do alright.”

Former Cal State Long Beach cheerleader Jason Cecil said, “On our campus, cheerleaders are treated like gods,” and from the sound of things, they were. Cal State Long Beach cheerleaders were many times given full ride scholarships for their hard work. The title squad even competes throughout the Western Athletic Conference, uniform, and competition cost.

They were also sponsored by Xpress footwear, who paid for their warm-up gear every year. “When you have a school that is supportive, the cheerleaders really do have something to cheer about. They work very hard and are dedicated at making their team number one.”

Cecil admits, “We ranked number one in cheerleading because we were part of a department and were well trained. Having your school support you makes the difference.”

How can two Cal State schools (California State University San Bernardino and California State University Long Beach) treat their cheerleaders so differently? CSUSB needs to start making our squad a priority, taking the squad on as part of the Athletic Department and fund them.

Treat them like a team, so that our squad can be treated with the respect that they deserve. The squad showcases their hard work on the court, at the university, and at games. “It’s this university’s turn to lend a helping hand.”

Anyone interested in being apart of our school’s spirit squad, tryout will be held during the spring quarter in May and in the fall quarter.

For more information contact Coach Kris Moore.

New York City became the home for the Toy Fair this week. At the fair, Peter MacDougall, Executive Vice President of Marketing and Corporate Communications for Nintendo of America, George Harrison, Senior Vice President of Marketing and Corporate Communications for Nintendo of America, and Kerrin Kaplan, Vice President of Corporate Affairs for Nintendo of America, led a briefing held at the Four Seasons Hotel that focused on the growth of the gaming industry and the success of the Game Boy Advance and the Nintendo Gamecube.

As stated in my last column, 2001 was the year for gamers and the numbers help prove it. Video game sales were up by forty-three percent, reaching a total of nine billion dollars in sales in the US alone. Thanks to the release of the Nintendo Gamecube, Game Boy Advance and Microsoft’s Xbox, console sales shot up to forty percent.

Nintendo is calling the Gamecube a success, selling as well and even better than they had originally hoped. 1.25 million GC’s were sold in the US while 1.3 million units were sold in the Land of the Rising Sun. The top ten games sold for the Gamecube in 2001 were:

In other news, Nintendo announced the release dates for two of its most anticipated games for the Gamecube. Star Fox Adventures: Dinosaur Planet, produced by Rare, and Eternal Darkness: Sanity’s Requiem, produced by newly-acquired Silicon Knights, will be released on June 10 and 24 respectively. Both games will sell for a retail price of $49.95.

The wireless Gamecube controller, the Wavebird, will also be released on June 24 for a retail price of $39.95.

The wireless Gamecube controller, the Wavebird, will also be released on June 24 for a retail price of $39.95.

Do You Have A Reason?
The Underground Network by Anti-Flag

by Krista Morris
Staff Writer

At a time where Wal-Mart has a shortage on American flags, but no one has any idea how the “Pledge of Allegiance” even starts, there are a few bands that dare to raise their voices against the extreme nationalism our society has become complacent in. Anti-Flag has channeled their energy to getting the word out about human rights and corruption of our country’s leaders in their 2001 LP Underground Network.

Underground Network, produced by Fat Wreck Coords, has a lot to offer in one PSL (political - punk LP). Within 13 songs, vocalist/guitarist Justin Sane and Chris Head (about about economic struggle, Bikini Island, fascists, Panama, right-wing politics, corporate media, and isolationism. Their songs encourage taking action in social issues the rich ignore and the public never knows about.

Aside from the political agendas the lyrics carry, drummer Pat Thetic and bass player #2 Chris carry the rhythm section. Their songs carry a lot of bass and a solid bass guitar platform instead of guitar due to son^ having strong bass leads and scales by Chris. Followed by Sane and Head on guitar. Anti-Flag’s aggressive melody with politically fueled lyrics in Underground Network has continued The Underground Network has continued Head on guitar. Anti-Flag’s aggressive melody with politically fueled lyrics in Underground Network has continued their reputation of being hard-hitting avengers of social strife in punk rock.

Although it is important to have pride in our country that has provided so many opportunities for us to exhaust, Anti-Flag wants to lift up the rug our government likes to sweep social issues under. I don’t recommend buying this LP to take notes on and start preaching about socialist issues in South America. Under. Slaughtered by the hands of a butcher
The hands of the butcher were the hands of a ‘doctor’
And these are the golden days that you want to bring back?
Making it illegal won’t make it go away
The rich will fly to far off lands, the poor will stay and pray that their back abortion is clean and safe
You can’t make it go away, so why endanger women’s lives?
Because the issue here for you isn’t life
IT’S CONTROL! Control of what we do and say
BUT YOU’LL NEVER GAIN CONTROL–CONTROL–CONTROL
Is to value life, to move a factory to the place that you can most easily f*** those laboring for you?
That isn’t what I call a high value on life
And yet that is the policy of those on the right who back the brainwashed Jesus jumpers with the cash flow for the fight.

But we won’t let you control our lives
We’re not gonna be herded like your flock of sheep, I value life more than anything...
And your false morals can’t do a thing to brainwash me
I’LL NEVER BE YOUR’S–YOUR’S–YOUR’S
And there’s no justice, In a society that’s run by greedy old men, who want to control our lives
You’re not gonna control our lives anymore...

I Stand Corrected

In the February 4th issue of the Coyote Chronicle, I, Melissa Adamson, made a mistake which I’d like to clarify.

In my article on the Teatro Universitario on Espanol, I stated that the play they were presenting this quarter on Latino culture was the first Latino play to appear on campus. This was an error. The Teatro Universitario en Espanol had been performing Latino plays on this campus for 11 years.
**Coyote Movie Ticket**

by Ivan Fernandez & Marcos Landin
Staff Writers

Movies reviewed will be graded on a four-star system ranging from one (terrible) to four (incredible).

However, instead of stars, we will use “Snootches” like the ones used by Jay & Silent Bob. They go as follows:

One star = Snootch
Two stars = Snootchie
Three stars = Snootchie Bootchie
Four stars = Snootch to the Motherf@#$ in Nootch!!

**MONSTER’S BALL**

A Corrections Officer falls in love with the former wife of the last man he executed in the electric chair. (Hence, not the sequel to Monsters Inc.)

**MARCOS:** Not only was it well-written, but it also had some great shots in it. The editing was above par. Please do not be offended if you are fat.

**IVAN & MARCOS:** We give “Monster’s Ball” a unanimous Snootch to the Motherf@#$ in Nootch!!

**MOVIE NEWS WE STOLE FROM THE INTERNET!!**

From filmforce.ign.com (Steve Head): time to make another trip to Blade 2’s official site. The deal is that the webmasters have switched from “preview mode” to full-access. They’ve got the goods-photos, storyboards, sketches, etc.- so go to www.blade2.com. Also, Blade 2’s new release date is Wednesday March 27, two days earlier than the prior date.

**STUART TOWNSEND**

THANK GOD! I have been waiting so long for Blade 2. Wesley can do no wrong as the black-suited, sword-swiping vampire killer. Once again: THANK GOD!

**IVAN:** Wednesday March 27, I’ll be picking up my comics and my (free) ticket.

---

**Aaliyah’s Legacy**

by Bethany Anderson
Staff Writer

On February 22, 2002, the feature film Queen of the Damned will be released nation wide. The film, based on the Anne Rice novel of the same name, focuses on the story of the Queen of all Vampires, Akasha.

As the cast walks the red carpet on the night of the big Hollywood premiere, the presence of the lead played by Aaliyah Haughton, will be inevitably absent.

Her untimely death on August 25, 2001, shocked the music world and her countless loyal fans. Aaliyah, who would have celebrated her twenty-third birthday on this past January 16, will not have the opportunity to see what critics are calling her best acting to date.

In addition to moviegoers being treated to one of the most anticipated Anne Rice adaptations to film, there will be an added tribute to Aaliyah cast, crew, and friends that referred to Aaliyah’s presence on the set as a “bright light.”

There are now talks by Aaliyah’s family to have her life story made into a feature film, similar to that of Selena. Though there are no official statements released by Aaliyah’s family at this time regarding a film based on her life, Queen’s production team said they would be the first to be involved in her life story.

The biggest irony of Aaliyah’s role as Akasha in Queen of the Damned is that both women were fervently making their place in history, while ultimately fate had other plans for them.

Aaliyah’s light will never diminish as long as her family and fans keep her memory alive. Known for her music, acting, and professional yet lively spirit, her enduring qualities were needed by audiences who were being forced to face images of young women on their radios and televisions.

Aaliyah never sold out her talents in order to reach stardom. Instead she held tight to her goals as an innovative artist who surrounded herself with enigmatic producers such as Timberland and Missy Elliot, to name a few.

Even if you are not a fan of the Vampire Chronicles by Anne Rice, make February 22 an opportunity to celebrate the limitless career of a “bright light” named Aaliyah Haughton.

Anthropology Club ALPACA Upcoming Events

Mar. 2, Sat, 9:30 AM, The Archaeological Survey Association of Southern California is putting on an event based on the "CSUSB Archaeological Field School: Last Year's Results and This Year's Opportunities". It will be held in the auditorium of the San Bernardino County Museum, Orange Tree Lane, Redlands. Guest Speakers: Dr. Donn Grenda, Daniel McCarthy and Dr. Pete Robertsaw.

Kappa Delta Announces 12th Annual Shamrock Event for Charity

The members of the California State University San Bernardino Chapter of Kappa Delta Sorority are proud to host their 12th Annual Shamrock Event for the prevention of child abuse. In-N-Out will be present for the Shamrock Event in an effort to help Kappa Delta Sorority's fundraising. The tickets will be $5 dollars each and this will include a complimentary In-N-Out, and also your name will be added into a raffle. This event will be held Wednesday, March 6, 2002 in front of the Pfa Library from 11:00 AM - 3:00 PM. Thousands of Kappa Deltas across the country will be working together in the fund-raiser to benefit local affiliates and chapters of Prevent Child Abuse America (PCAA), the sorority's national philanthropy.

Eighty percent of the funds collected will remain in Beaumont, California for the Children's Hospital. The remaining 20 percent will go to the PCAA for nationwide public awareness programs. Founded in 1897, Kappa Delta Sorority began supporting PCAA in 1981, and began the annual nationwide Shamrock Event in 1983. More than $4.5 million has been raised through the Shamrock event to benefit child abuse prevention efforts across the country.

The Chronicle serves the right to reject any advertisement it deems inappropriate.
A long, long time ago, back in the Cold War era, it was up to Valery Yarynich, a Colonel in the Strategic Rocket Forces, to keep the Soviet Union’s nuclear missiles protected against accidental or unauthorized actions. This he did for over forty years until the collapse of Communism in 1991. This monumental event changed relationships between the United States and the new Russian Federation, allowing gifted individuals such as Yarynich to visit and teach in the very places the missiles he protected against accidental or unauthorized actions once targeted. Professor Yarynich chose CSUSB’s National Security Studies Program as his host. He hopes to finish a number of research projects during his stay here in San Bernardino.

Working closely with Dr. William Green, a Eurasian specialist in the National Security Studies program, his first objective is to write a concise book on the command and control structure of Russia’s nuclear forces. This much-needed study can shed light on the inner workings of Russian decision-making in times of crises, helping to reduce the chances of accidental launch. He believes that “nuclear weapons are not only national property but also a grievous legacy for all mankind,” (see his editorial in The New York Times, “The Doomsday Machine’s Safety Catch,” 2/1/94). Professor Yarynich also plans on teaching classes here at CSUSB. In the fall 2002 quarter he will team-teaching a course on Arms Control with Dr. Green, and he will be assisting Dr. Green in his Spring 2002 course, “Regional Security of Eurasia”. The National Security Studies Program would like to welcome Professor Yarynich to CSUSB and looks forward to working with him. If you are interested in attending one of Professor Yarynich’s classes or want more information on CSUSB’s National Security Studies Program, contact us at xt. 5534.

The Evelyn Magrino Scholarship provides $5,000 scholarships for students planning to become school teachers. Two $5,000 scholarships are offered to mathematics or science majors. The scholarships are awarded to a major in each major. Applicant must have graduated from a CSUSB campus. Deadline is April 1/1/94.

The William H. Wilson Scholarship is awarded to a full-time incoming student majoring in Science. The amount of the award is $1,200. Some awards may be renewed. The most recent award was $600.

The Dr. Arthur A. Moorefield Scholarship provides a $1,200 scholarship to a student who is a participating member of one of the university’s intercollegiate athletics programs. The amount of the award is $500.

The Media Studies Department of the University of California, San Diego, is offering a one-year fellowship to an entering graduate student in Media Studies. The fellowship provides a $1,000 stipend and tuition remission for the academic year. The fellowship is renewable for a second year. The fellowship is open to graduate students who have completed the equivalent of a bachelor’s degree and who are enrolled in a graduate program at a university. The fellowship is open to students who are citizens of the United States or permanent residents of the United States.

The Harry S. Truman Scholarship provides $1,000 scholarships for students pursuing a career in public service. The amount of the award is $1,000. Some awards may be renewed. The most recent award was $500.

The Junior Titan Memorial Scholarship provides $1,000 scholarships to students majoring in education with a minimum GPA of 3.0. The amount of the award is $1,000. Some awards may be renewed. The most recent award was $500.

The Elizabeth M. Stover Scholarship provides $500 scholarships to students majoring in education with a minimum GPA of 3.0. Some awards may be renewed. The most recent award was $500.

The Dawn S. Smith Scholarship provides $500 scholarships to students majoring in education with a minimum GPA of 3.0. Some awards may be renewed. The most recent award was $500.

The Charles A. Moorefield Scholarship provides $1,000 scholarships to students majoring in education with a minimum GPA of 3.0. Some awards may be renewed. The most recent award was $500.

The campus is pleased to host Professor Pandit.

realize that educational quality is dependent upon a reasonably rewarded and professionally secure workforce. Temporary faculty provide a high quality education to their students but you cannot have a quality school when most of the faculty do not have job security or adequate supportive resources," said Meinersholder.

Both the CFA and the CSU administration are anxiously awaiting the determination of the fact-finding committee, who are expected to report their findings by either Feb. 20 or Feb. 27. The CFA has prepared its members for March if no new course is found."

I believe that in order to attract and retain the best possible faculty for the CSU, we need to offer fair and competitive compensation packages. That's why I made a pledge to close the 11 percent salary gap over the next three years." - Charles B. Reed, CSU Chancellor, Sacramento Convocation - 11/29/98

Home-grown Bailer has Proven Success on the Hardwood

By Danny B. Homaidan
Sports Writer

All-American guard Bobby Burries is the glue that holds the Cal State San Bernardino basketball team together. He is also a major reason the Coyotes are sitting atop the Western Region standings with a 20-1 overall mark.

Burries is the Coyotes second-leading scorer, who averages 13.8 points per game along with a team-leading 30 minutes a contest. Facing Cal State Stanislaus on February 2, Burries poured in a season-high 23 points on a stellar 8-for-9 from the field. On nights when Burries is not the leading "points getter," he serves as important role as the Coyote floor general.

The old adage "action speaks louder than words," applies to Burries, especially in crunch time. In these pressure-packed situations, he seems to always find open teammates like Lance Ray for a spot-up basket from beyond the arc or James Taylor with an inch inside his face. Burries also shuts down the opposing team's top scorer, including Cal State Dominguez shooting guard Earl Rowland who was held to 2-of-11 shooting during a CCAA contest on February 2. Burries went on to score 17 points for the Yotes in the same contest.

Burries is from San Bernardino, where he started for San Bernardino High School. Then after high school graduation, he attended San Bernardino Valley College, receiving the honor of California Junior College First Team. As a Coyote, he has learned the valuable principles that will help him excel both on-and-off the basketball court.

"In life, time, discipline, understanding, that you should not run off at the mouth," said Burries. "Like basically with school, you really don't have to go but you really need to go."

Following this junior year, Burries wants to further his education and career goals.

"I want to continue to play basketball and graduate, you know. Everybody in life and school wants," said Burries. "I want to teach fifth graders and coach junior high school basketball and also join the Air Force or the Navy after I graduate."

Danny Homaidan is sports writer for the Coyote Chronicle. He can be reached at dannyhb@verizon.net.

Call the Cops! Basepath-minded Rabusin is on the Move

Rabusin continues to dominate the basepaths, leading the Coyote baseball team in stolen bases.

By Chad Birdshall
Sports Writer

Senior outfielder Adam Rabusin has the inside scoop on what it takes to pull the perfect crime.

The criminal justice major studies the issues, and then applies it on the field as dictated by last year's season, when Rabusin set both the single-season and career record for stolen bases.

In just a season ago, Rabusin strong-armed 29 bases, adding to his three-year career for a total of 42 stolen bases.

He bettered. Kris Ulbrich's 2004 single-season by nine, and is currently adding steals to the all-time mark, formerly held by Ulbrich who held the old record of 30 steals.

The six-foot, 200-pound Rabusin transferred to CSUSB from UC Davis where he did not partake in baseball. However, his high school campaign was nothing short of outstanding, as he was recognized "the team MVP and also garnered an all-league honor."

In his specialty, Rabusin leads the team with stolen bases, making a near-unblemished 4-of-7 attempts on the basepath. Climbing inside the mind of a criminal (justice major) is a hard thing to do, especially when your goal in life is to put away wrong-doners.

But when it comes to taking a little bit of their insight to benefit the Coyote baseball standings, — more power to it. Adam Rabusin is a sports writer for the Coyote Chronicle. He can be reached at brdshald@briohn.net.
Coyote Softball Dominated in Doubleheader Contest

By John D. Halcon
Sports Editor
UC San Diego's starting pitcher Keri Hanley lasted only one inning, but teammate Christi Martinelli came in relief to complete a Triton shutout against Cal State San Bernardino.

The freshman Hanley faced five batters in the top of the first inning before relaying the ball to the senior righthander Martinelli who tossed the final four innings to give the Tritons an 8-0 victory on Saturday, February 16.

Coyote Chronicle

In addition, the Tritons also won the first game of the CCAA doubleheader by a decisive 2-1 score as the first basemen Matt Swaydan and Jeff Meritt of the Tritons pushed its lead to 2-0 when the Antelopes committed a fielding error for the first run of the game.

But the Tritons responded with three runs of their own in the bottom half of the fourth inning. The senior righthander Hanley retired the last six Antelope batters to end the inning.

The freshman Hanley faced five batters in the top of the first inning before relaying the ball to the senior righthander Martinelli who tossed the final four innings to give the Tritons an 8-0 victory on Saturday, February 16.

The Tritons won two of three games in the doubleheader. The Tritons improved their record to 5-0 in the California Collegiate Athletic Association standings and 11-1 overall.

On the other hand, the Coyotes dropped to 2-2 (CCAA) and 8-12-1 overall.

With the game on the line and the score tied 3-3 Cal State San Bernardino pinch hitter Matt Rohr smashed a double to right center, giving the Tritons a 4-3 victory over Grand Canyon University.

Rohr's game winning R.B.I came in the bottom of the seventh inning, runners were on the corners with one out and the Tritons leading 3-2 in the shortened seven inning game.

The game was a dominated by pitching on both sides of the mound.

CSUSB Wire Reports

Cal State San Bernardino's women's basketball team notched what is believed to be its first win ever over Cal State Bakersfield, beating the Roadrunners 6-3 in a CCAA match Saturday, February 9.

The Coyotes won two of three doubles matches and took four of six singles matches to even their CCAA dual match record at 1-1. The Coyotes are 3-1 overall in dual matches.

No.2 doubles partners Heather Chen and Jennifer Neumann defeated Natalie Peterson /Breatha Kacz 6-4 while Lisa Duan/Teresa Hampton knocked-off the Roadrunners duo of Yari Sawai and Michelle Spiker 6-1.

CCAA Honors for the Week

Three student-athletes from CSUSB were named CCAA Athletes of the Week on February 12.

Dawn Onishi was named for the softball player while junior firstbaseman Matt Swaydan and tennis player Heather Lehman grabbed the CCAA honors for the week.

Yotes card in third place

J.R. Reyes and Frank Firman each got the win against the Antelopes in the third place game on February 13.

No Brainer! Men's Basketball Win, Again

By Kermit R. Boyd
Ast. Sports Editor

As part of the "Faculty Appreciation Night" on Friday, February 22, Chaps Video Productions and Chaps Video Productions will be televising Cal State San Bernardino's men's basketball contest against UC San Diego.

Featuring the televised delayed event will be the Coyotes' 1992 alumni Jeff Pope, who will cover the action as the lead play-by-play announcer. Pope is currently a disc jockey for the radio station KGGI (99.1 FM) and is the host of "Jeff and The Guerro Wake-up Show."

KGGI (99.1 FM) and is the host of "Jeff and The Guerro Wake-up Show."

Chico State University will enter Saturday's game with expectations of upsetting No. 4 ranked Cal State San Bernardino, but the Coyotes put the Wildcats to a flat-footed performance in Saturday's game.

The Coyotes commenced their third straight victory, and a perfect home record, with a 71-45 win. They are currently riding an 18-game winning streak, and the Coyotes have nestled themselves at the top of the ASC conference standings, and are now 22-1 overall, and 17-1 in conference play.

The Coyotes' blessing was a beast on the boards in the first half, snatching eight boards and putting up eight points in only 14 minutes of work. Coyotes' Bobby Burries pulled downed five boards and finished the first half with six points.

With Saturday's victory over the Wildcats, the Coyotes retained their number one position in California Collegiate Athletic Association conference standings, and are now 22-1 overall, and 17-1 in conference play.

The Coyotes shot a horrendous 38 percent in the first half, but managed to turn the tables over, four times, while forcing their opponent to commit seven turnovers in one half. After one half of play the Coyotes entered their locker room with a 34-22 lead over the Wildcats but hoped to come out poise and undaunted in the second half.

However, the second half mimicked the first; the Coyotes shot thirty-five percent from the field, as did the Wildcats. "I was happy with the way our team was moving the ball, the shots didn't go in, we had twenty-two offensive rebounds, and were able to make some of our second chance shots. All the aspects of the game were there, we just needed to finish a couple of shots," said Head Coach Larry Reynolds.

The Coyotes continued their dominance in the paint, grabbing fifty-five total rebounds andcontainering most of the twenty-one offensive boards they had in the game.

The Coyotes total rebounds and 10 offensive boards, the Coyotes entered the locker room with a 34-22 lead over the Wildcats but hoped to come out poise and undaunted in the second half.

However, the second half mimicked the first; the Coyotes shot thirty-five percent from the field, as did the Wildcats. "I was happy with the way our team was moving the ball, the shots didn't go in, we had twenty-two offensive rebounds, and were able to make some of our second chance shots. All the aspects of the game were there, we just needed to finish a couple of shots," said Head Coach Larry Reynolds.

The Coyotes continued their dominance in the paint, grabbing fifty-five total rebounds and containing most of the twenty-one offensive boards they had in the game.

Knight ended the game with 10 rebounds and 3 points, stopping the ill effects of a flu that he has been battling the past week. Burries was "picky" only his game, he had nine boards and jacked up a team-high 12 points. Summerall was able to add seven boards but was unfortunately 0-for-9 from the field.

CSUSB had all but three players contribute points in Saturday's game, which displayed the Coyotes team depth and discipline that will carry them throughout rest of this season.

The Coyotes have seamlessly been able to railroad teams into relinquishing their basketball pride and spirit, while according to what seems to be an untested No. 4 ranking in NCAA Division II. This begs the question: Who or what "David" will bring down this all-powerful and Division II giant, "Goliath?"

Women's Scoring Summary
Coyotes 67, Wildcats 55
Saturday, Feb. 16

Cal St. Chico 28
Wildcats (55) — Simponton 11, Abos 5, Schuttin 5, Kern 15, Pietka 11, Pandajta 3, Olen 5.

Records — Coyotes (16-1, 22-1). Wildcats (8-10, 13-10).
Attendance — 290

Brown Tails 26 as Coyotes Dominate Chico State

Brown Tails 26 as Coyotes Dominate Chico State

By John D. Halcon
Sports Editor

Senior Sharee Brown collected a game-high 26 points as Cal State San Bernardino defeated Chico State 67-55 on Saturday.

Brown shot 12-of-19 from the field and grabbed a team-high 10 rebounds to pace the Coyotes who improved to 8-10 in CCCAA and 12-11 overall.

Amy George was the only other Coyote to score in double figures as she netted 10 points while Leilani Tirona added 8 during the victory at Cosumnes Arena.

The Wildcats (8-10, 13-10) trailed the Coyotes 36-28 at the half, but could not withstand a 40-18 run in the second half going 12-23 from the paint and outscoring the visitors 31-27.

With Saturday's victory over the Wildcats, the Coyotes retained their number one position in California Collegiate Athletic Association conference standings, and are now 22-1 overall, and 17-1 in conference play.

The Coyotes scored in double figures during the second half of the Coyotes' Wildcat contest. Banks went on to score four points as the different Coyotes scored in double figures during the CCAA contest on Saturday. February 16 at Cosumnes Arena.
