$94,156 GRANTED FOR HEALTH ADMINISTRATION PLANNING PROGRAM

Amer El-Ahraf, Professor and Chairman of Department of Health Science and Human Ecology, has been notified by the Department of Health, Education and Welfare that the College has been authorized to participate in an allied health project grant of $94,156.

The award is for the second year's activities of the Health Administration Planning Program. Last year's grant was for $156,453. Both grants are administered by the CSUC Foundation and run through June, 1981. In addition to the CSCSB campus, Chico and Northridge campuses also participate in the program.

Dr. El-Ahraf is director of the academic project which provides for the development, implementation and evaluation of a generic and innovative health administration/planning curriculum offered as an integral part of the baccalaureate level degree programs in health science on the three campuses.

An internship component, where students spend their practicum experience in health departments, hospitals, health systems, agencies, etc., is included in the program. Last spring the CSCSB Academic Senate approved necessary changes in the Health Science B.S. degree to respond to the grant requirements. The project staff is representative of the three participating campuses and the Chancellor's Office. On the San Bernardino campus the staff includes Robert Schwabe, Larry Cappel, Myrna Griggs, and Cathy Loderstedt. A number of faculty members from the schools of Administration and Natural Sciences also served as consultants during the project's first year.

EXHIBIT ON CHANGING IMAGES OF OLDER AMERICANS COMING

Focusing on issues relating to aging, a special exhibition on the changing images of older Americans will be on display in the Library beginning January 12. Entitled "Images of Old Age in America, 1790-1977: Perceptions and Realities Through Prints and Photographs," the collection is on loan from the Smithsonian Institution and is from material researched by the University of Michigan's Institute of Gerontology.
