Cardoza to represent CSUSB

Student elected as Vice Chair of California State Student Association

Tara Wallace
Staff Writer

In the spring Quarter of this year, the student body went through a rigorous voting process. Even though it was a tough process, the students of the campus elected their spokesmen. One of these people was Manuel Cardoza and now he has done it again.

Cardoza has now been elected vice chair of the legislative affairs committee by the California State Student Association (CSSA). He took this position in August of this year and will remain until June 2003.

Last year he was awarded CSSA student advocate of the year. The CSSA is a representative body for all Cal State University students. Each CSU campus has one of these representatives and a vice chair such as Cardoza.

Cardoza says that he hopes to make CSSA more of a voice. Such representatives at each campus is for he wishes to, “get input in” relating to each particular CSU campus. Representatives formulate this input by speaking with the various campus Board of Directors.

In order to put together an activity to celebrate National Disability Awareness Month at this university, many people had to come together.

Groups such as the Rolling Start Center for Independent Living, and several of the university offices and programs formed a committee in order to plan the event, which not only included the activities on Tuesday, but also the art that was displayed around campus. The art will be on display until Nov. 1.

Although this is the first time that CSSA has celebrated people with disabilities during the month of October, this is not the first time that the school has celebrated a disabilities awareness month.

Disabilities Awareness Month is usually celebrated in the month of May at Cal State San Bernardino.

“Anually Cal State San Bernardino has always recognized, for the last 14 years or close to 14 years, persons with disabilities and sensitizing the campus towards persons with disabilities,” stated Twilla Carthen, chair of the program.

“We plan to do it again next year. It was well recieved by the campus community and the community at large” - Twilla Carthen, program chair

Manuel Cardoza will be represent Cal State in the CSSA.

Disabilities celebrated at CSUSB

Jose Lizarraga
Staff Writer

“God Bless America” was signed by the president of Unify, Gilbert Garcia outside of the John M. Plato Library in a celebration of Disability Awareness Month. This free event was open to the public and offered refreshments to the estimated over 400 people that showed.

October was declared National Disability Employee Awareness Month in 1945 in order to recognize disabled people, and their contributions to the work force.

Traffic relief in sight at CSUSB

Youree Martin
Staff Writer

The University Transportation Center is coming to CSUSB. As growth in population and traffic continues to soar, the need for alternatives has arisen to accommodate the Inland Empire.

This venture is spearheaded by Jim Mulvihill, Department Chairman of Geography. Also working on this project are Prof. McEnally, Professor Tapiek Rohn and Dr. Cliff Young on campus.

Mike Tracey, Senior Director of Development of Transportation Resource and Analysis Center, said, “The focus is on the movement of goods and people, focusing on congestion in and thru the Inland Empire.”

The external board, headed by Bill Leonard, Sr. of California Transportation Commission on California Hi-Speed Rail Board and Founding Chairman of the Advisory Board, will be doing policy analysis and assisting them with projects. He will assist them with establishing databases and archives to enhance transportation and history collections. They will also host some conferences and speaker series.

The College of Business and Public Administration currently offers a concentration in Transportation in the Bachelor of Arts program. Internships and career planning opportunities will be expanded upon as a result of the efforts of the UTC.

“We are hoping to receive funding from the State and Federal government to help establish and make a UTC that is eventually funded by the Department of Transportation,” said Tracey.

Tracey reports that the board is also looking at resources in parking and rideshare. UTC created its first vanpool on October 1st this year. When students were asked how they would like to see congestion alleviated on campus, Alex Shey responded, “I live in Riverside and if they could have a vanpool that would run late enough, I would use it.”

I'm here until ten at night.”

Health-Check-up

October: Breast Cancer Awareness Month

Breast Cancer Questions and Answers

Q: Does mammography detect all incidence of breast cancer?
A: While mammograms detect the majority of breast cancers, they are not perfect and fail to detect about 10-15% of breast cancers.

Q: Is mammography the only technology currently used to screen for breast cancer?
A: Mammography is the standard. Other imaging techniques, however, are under investigation. These include magnetic resonance imaging (MRI), positron emission tomography (PET), and computer-based digital mammography.

Q: What should women do other than get mammograms?
A: In addition to annual mammograms, the Society also recommends that women 40 and older have annual clinical breast exams and perform monthly breast self-examinations (BSE). Women between the ages of 20 and 39 should have clinical breast exams every three years and perform BSE monthly. Women with a family history of breast cancer should discuss their screening schedules with their health care providers.

Q: Are breast cancer screenings covered by insurance?
A: Medicare provides coverage for annual screening mammography for women over 39. Unlike other Medicare benefits, the deductible is waived for mammography. For a diagnostic mammogram, the deductible is paid by the patient in addition to the co-payment.

Q: When should women perform breast self-examinations? What if they detect a lump?
A: Women 20 and older should perform breast self-examination (BSE) every month. Regular exams help women become familiar with how their breasts normally feel and to more easily and readily detect changes. If a lump is detected, a woman should see her health care provider as soon as possible for evaluation.

Q: What are the signs and symptoms of breast cancer?
A: Breast cancer can be detected by the appearance of irregular images on mammograms. Other signs include persistent breast changes, such as a lump, thickening, swelling, dimpling, skin irritation, distortion, retraction, scaliness, ulceration, pain and tenderness of the niple, or nipple discharge. Curing clinical breast examination, lymph nodes under the arm and above the collarbone may be felt for enlargement of firmness, which might indicate the spread of breast cancer.

You Say

a graduate degree costs too much?

Here’s a great investment tip: Cal Baptist.

A graduate degree is supposed to pay dividends for a lifetime—but not all graduate degrees are created equal. At Cal Baptist, you can count on personalized attention from talented faculty, widely recognized graduate programs, and an ethical focus that distinguishes you from the crowd. So don’t think of your Cal Baptist graduate degree as money out of pocket. It’s more like money in the bank.

Prop 47 equals renovation

Yazmin Alvarez
Asst, Multicultural Editor

During a Student Media Advisory teleconference with CSU Chancellor Charles B. Reed, Senator Jack Scott and Assembly Member Lynn Daucher, Proposition 47 was explained in detail through a press release reading.

Proposition 47 proposes to relieve overcrowding and fund construction at California's public schools and universities. If the bond passes through majority vote on the November 5th elections, it will be Proposition 47: The Kindergartens through University Public Education Facilities Bond Act of 2002. would authorize the state to issue $13.05 billion in general obligation bonds for construction and renovation of public education facilities.

If approved in the November 5th elections, Prop. 47 will fund construction of new classrooms, modernization of existing facilities, seismic upgrades and high-tech equipment installations necessary to accommodate unprecedented student enrollments in all levels of public education from kindergarten through university.

The university will benefit by receiving $21,786,000 in renovating the Science Annex on campus. However, the measures requires a majority vote to pass and in doing so, it would allocate $13 billion to various projects through 12th grade projects, and $1.6 billion for higher education projects at California State Universities, University of California and California Community Colleges.

$464 million will renovate aging facilities and build new classrooms to accommodate 130,000 additional students expected at the 23 campuses of the California State University system by the end of the decade. The bonds would be repaid from state revenues over 30 years, and would not
Incident: Drag possession
At approximately 4:39 p.m., officers responded to Devil's Canyon. The offices smelled what appeared to be an odor of marijuana coming from inside the vehicle. The driver contacted our department and confirmed that a CD player and other property were taken from within the vehicle. No leads or suspect information at this time.
Disposition: Report taken.

Incident: Injured Student
On October 20
At approximately 9:45 p.m., an officer responded to parking lot E to investigate an annoying e-mail. The victim was emailed an e-mail and ?female had left the campus. Officers checked the area with negative results.
Disposition: Report Taken.

Incident: Vehicle Burglary
At approximately 12:57 p.m., officers responded to lot D regarding an annoying e-mail. The victim was emailed an e-mail by the bus driver.

Rhythm through rhyme

By Teresita Sosa
Scene Editor

Last Thursday, Afrikan Student Alliance hosted CSUSB's fourth annual Griot Night in the Sycamore room of the Lower Commons.

The word "griot," meaning "story teller," originated in Europe but was later adapted by African Americans as a way to express their art of music through storytelling.

Oftentimes a drum is used to relay messages, each drumbeat symboling a different meaning.

Griot Night gives students the opportunity to express their feelings through their own style of poetry and song. The night was filled with various students expressing everyday trials and tribulations.

From poems expressing their thoughts of a waitress at a restaurant recently visited to the worship and praise of Jesus Christ. They covered several aspects of life.

Krysh Nkrumah plays the beats of his ancestors

Student, Melissa Myers came because of her love of poetry as well as to support the poets.

"I enjoy the spirit and laidback atmosphere. I enjoy listening to people's poetry and I like the fact that they just want to express themselves."

Alliance President Kelly Denny, Krysh Nkrumah, and Sarah Heinderson are the founders of Griot Night.

Griot Night is one of many events that ASA puts on. Every Wednesday night is Black Wednesday, when different black organizations on campus come out to the Student Union patio and provide entertainment for the campus community. Every other Wednesday, ASA holds its meeting in the Student Union fireplace lounge.

Go on a date and find your mate

The Chronicle is currently taking applications for Coyote Dating. This is an opportunity to be featured in The Chronicle. Send pictures and a short characterization of your personality and the following information: Name, Major, Year of Graduation, Phone number and where you will be available to get your picture taken. Please answer the following questions:

- What do you look for in the opposite sex?
- Interests (hobbies, collections, etc.)
- Professions

Along with giving a time and date when you will be available to get your picture taken, hope to hear from you soon.

Hawai'i Pacific University

For those of you who are too old for "Trick-or-Treating," the Student Union Board has covered

Although Halloween is on a Thursday and most people have class early Friday morning, the SU Board will be hosting the Halloween Bash Dance for residental students.

This event will take place in the Student Union Game Room on October 31, from 9:00 p.m. - 12:00 a.m. Instead of just sitting in that dorm room, come out and enjoy a fun-filled night of music, dancing and Halloween fun along with your fellow CSUSB peers.

For more information about these events, please contact SUPB Coordinator Erika Nunez at (909) 880-5234.

Belinda Adame/Chronicle

President Griselda Marinelarena informs students about the club.

So many choices, so little time.......

What are you doing this Halloween?

There are so many choices available, but so little time to do them all. Here are a few choices:

- ASI Costume Contest in Student Union Events Center.
- 6th Annual Fall Fest, free event in CSUSB Event Center A & B.
- Shipwreck Halloween Terrer Fest: The Queen Mary - 1126 Queens Hwy, Long Beach
- The Vibe Halloween Night, 345 West 7th Street - San Bernardino
- Scandra Annual Haunted House - S. Wanamaker Ave, Ontario
- Castle Park Sinister Sideshow - off the 91 Freeway at La Sierra, Riverside
- All local Inland Empire night clubs will have large money prizes for the best costumes.

The Coyote Bookstore would like to invite all graduating students to the Coyote Bookstore on October 26th and 27th from 8am to 7pm for our Annual Grad Day event. "It's not convenient one-stop shopping for all your graduation needs."

Please note: You are not required to participate in the Grad Days Event.

In order to purchase your cap & gown and to receive tickets, you must already paid your $200.00 commencement fee.

Congratulations Class of 2002. The Coyote Bookstore would like to invite all graduating students to the Coyote Bookstore on October 26th and 27th from 8am to 7pm for our Annual Grad Day event. "It's not convenient one-stop shopping for all your graduation needs."

In order to purchase your cap & gown and to receive tickets, you must already paid your $200.00 commencement fee.
Roses are red, violence is blue

By Morgan Melendez

The Option House message "Talk it out. Don't fight it out" was clearly received by all who attended the Family Violence Prevention Day last Tuesday in the Student Union Event Center. This was the first sponsored event of the year by the University Diversity. It was co-sponsored by the Sociology Club, the African Student Alliance, the Women's Resource Center, the Women's Studies Program, the Cross-Cultural Center, and the Ethnic Studies Program.

The day's events included welcome speeches from members of the Option House, Inc., Board of Directors, and CSUSB President Dr. Earning, an invocation by several local clergy members, followed by panels expressing and explaining both the personal side of family violence and it's legal aspects. A film relating the incidents of violence in the military and readings, music, and poetry expressed by CSUSB students were also included in the event.

The event was a celebration of the 25th anniversary of Option House, Inc., a local resource for families in crisis. The event's purpose was to help in providing an understanding of and preventing this atrocious problem of family violence in our communities.

For the past 25 years, Option House has been serving the San Bernardino community. The Option House opened its doors for the first time in Colton in September 1977 operating under the Central Valley Mental Health Association. They became the first shelters in the state specifically designed to house battered women and their children, and the second ever, in the nation.

"When the whole O.J. trial was taking place everyone took notice of domestic violence, but since it's not a pretty subject people conventionally forgot about it," says Option House representative Bobbie Masia.

According to the information given at the event, the highest rates of violence occur in the families of police officers, professionals athletes, and military.

Theda Miller, one of the women in attendance in the day of the event, remembers all too clearly her violent life as a military wife and mother.

Married for nine years to an army man, Miller said it was her "need for control" that drove her husband to physically abuse her and to verbally assault their two young children. "He wasn't an officer, he was just enlisted and would spend all day being ordered around and feel the need to order and control," said Miller.

Fortunately, Miller and her two children were able to break free of the abusive relationship and through counseling have been able to regain control of their own lives.

Sociology Club President and volunteer at Option House, Inc. Lilliana Mercado says, "We want people to know that violence can happen to anybody- there's no distinguishing who it's going to affect."

"Abuse is here, abuse shouldn't be here, but it is, and we're here to help," said Masia.

"As people who are being abused, or know someone who is suffering abuse, Option House has a 24-hour hotline available at (909) 381-3471. According to Masia, "Sometimes just planting the seeds to bring it to someone's attention that abuse is occurring is enough to help."
Breast Cancer Awareness

By Youree Martin
Staff Writer

The warm, friendly atmosphere was no mistake. It was meant to be comforting and inviting to encourage students to participate in this week’s Women’s Breast Cancer Awareness day on Wednesday.

The event was sponsored by the Women’s Resource & Adult Re-entry Center and went from noon to 3pm in Evener Center A. It was meant to bring awareness to students about breast cancer and share experiences of breast cancer at the same time.

Breast cancer survivor and guest speaker, Janet Peterson gave a complete account of her experience. Having had a double mastectomy, Peterson informed and reinforced the importance of self-examination.

"You need to know your body. If you feel a lump today, feel the lump today,'" Peterson said. "It would take something drastic to get a lump to go away."

Youreem also brought up the fact that after you’ve had cancer and gained weight, there is a great chance you’ll get cancer again after surgery in another area of the body. She says, "Cancer is never gone, you’re always on the alert!"

Dr. Joyce Jordan, from the Campus Health Center, reiterated "Woman who are significantly overweight have a greater risk of breast cancer. Breast cancer tests, early detection are free to women who do not have health insurance.

Genetic testing is done to determine the risk of cancer spreading to another area because the risk is greater if it has occurred in your family before.

In an indiscriminate survey, students were asked if they do monthly self-exams and if not, what would it take to start.

Nicole VanOzer said, "It would take something drastic." Pat Foula said, "I’ve had a lump before and I do check, though not every month."

Waiting until something drastic happens is already too late and defeats the purpose.

Julia Calderazzo, a student and breast cancer survivor, was in attendance and said, "I have been cancer free for nine years."

Dr. Jordan will be hosting "Tuesday’s Talk" on October 29th from 1-2pm in Evener Center A. It will be a forum to discuss better health and services that the Health Center provides.

For more information call 860-925-9450 or visit www.bcawreccos.org.

Diwali: Indian Festival of Lights

By Tara Wallace
Staff Writer

Ever heard of tandoori chicken, chicken tikka masala, saag paneer, chana masala, vegetable palau, garlic naan or gajar kahalwa? If you had been to the Student Union last Friday night you would have.

The event was Diwali, the Indian Festival of Lights. This event stems from a holiday actually celebrated in India, (that should have actually been celebrated on the 4th of November, but October 25, 2002 was the only day available). The festival theme was Indian mythology, emphasizing the theme of love.

Guest speaker, Saul Landau, left, shot this fall in Iraq.

Student Hajira Rahim claims that in India there are fireworks, tilling against a very black sky, making the presentation magnificent. This festival also would have included card playing, house decoratig, and candles.

An audience member, a native of India only three months ago, Salwar Kameez, describes this festival simply as, "A celebration of one of the good guys killing one of the bad guys and then returning home."

The room was crowded with people of different ages, sizes, nationalities and reasons for being there. Indian Student Organization president, Charles Ivan Peoples, says the expected turnout for this function was 250 people, but the actual turnout was around 350 people. This made seating room and food scarce.

The night started out with the fore mentioned food, which was a little spicy, although very tasty. The desert, gajar kahalwa, Kitchen describes as "carrots, milk and sugar all mixed together in a mysteriously delicious way."

The night continued on pg. 16

Eyewitness from Iraq!

Award-winning filmmaker

Saul Landau,

Mon., Nov. 4, 12-2, PS-10.

Landau, internationally acclaimed for his films about sites of international conflict such as Cuba and Chiapas, recently visited Iraq with former U.S. Sen. Abourezk and other officials. He will provide a behind-the-scenes view of the situation there and will screen segments of his film-in-progress.

Southern Hospitality meets West Coast

By Kelshawnda Green
Staff Writer

Looking at the students in your class you will notice that a few of them might look out of place. They might dress a little different, or maybe they talk with an accent that you recognize from an old John Wayne movie. It is not surprising that many students attending a university in California were not born and raised here.

Charles Box and Krystal Hardeman are two of the many students who moved to California from the South. Box came all the way from Tampa, Florida and Krystal came from Houston, Texas. Have they noticed any differences between California and the Southern state they were raised in? “Yes, of course!”

Southern states differ in many ways. From the clothes they wear to the foods they eat. In both Tampa and Houston you might stand out if you go to school wearing casual jeans and a T-shirt, especially if you didn’t starch and crease them.

You can find an occasional restaurant in California that specializes in what Box defines as “soul food,” but probably not as many as you would find in the South.

According to Hardeman, “The barbecue is much better in Texas, but California has better Mexican food.”

If you’re one of those students who complain about having nothing to do in San Bernardino, you might consider moving to Florida where you can find a place to hang out almost anywhere.

“There were hang out spots everywhere,” stated Box, “everyone knew exactly where to meet.” And their Halloween, he says, is similar to the Mardi Gras in Louisiana. The most shocking aspect of California for Box was how closely Los Angeles resembled the movie “Colors.”

“I flew into Los Angeles and saw all the gang bangers... [The street people in Tampa] would need to buy a vest if they moved to California.”

Hardeman was more shocked by the outrageous long distance charges than anything else. So, why did they move to California? Hardeman came to California to continue studying mass communication and pursue a career in the media. Box moved to California because he saw more opportunities for minorities. Hardeman thinks Californians are more friendly and open to ethnic people than most Texans are.

Both Hardeman’s and Box’s family and friends were worried when they moved to California, but after they found out how well they were doing, they were glad they moved.

Campus Culture

GLBTSU (Gay, Lesbian, Bisexual, Transgender Student Union)

By Susie Medina
Multi-Cultural Editor

1. Club name
GLBTSU - Gay, Lesbian, Bisexual, Trans Student Union.

2. Who is the president?
Joe Flores

3. What is the purpose of this organization?
To provide a group to discuss issues relating to sexual orientation. Also to provide support, a social setting, and education to gay, lesbian, bisexual, trans, and gay friendly students and faculty.

4. Who are your target members?
Anyone who is gay or gay friendly who wants to get involved.

5. What time do you meet?
Tuesdays 5-6pm in the Women's Union.

6. How would one contact you?
If they’d like to join they can email me at jflores@sbccmail.com or call me at (909) 530-3379.

7. Any upcoming events?
In November, there will be an art show. Thursday and the Tuesday following, we will have a table out to hand out flyers and information. There will be free candy and condoms available as well. The table will be right outside the Student Union.

8. Any branches of this club at any other universities? No specific branches at other universities, however there are LGBT groups on almost every campus.

9. Benefits of joining this club?
It’s a great social setting and support group. Also it’s a good group to get involved with.

10. Any requirements to join? No requirements to join, just come and hang out. If you want to become a member of the group, we have $5 quarterly dues.

Coyote Radio renegades bust up the monotony

By Shareena C. Clark
A&E Editor

What happens when two anti-corporate DJs get together on a college radio station? You get "Heavy Metal Planet", the temporary name for Brian Keathley and Vince Guzman's Coyote Radio show. Keathley and Guzman accidentally stumbled upon each other because of a time mix up. They decided to combine their collective tastes in music and run their shows together giving them four hours on the air instead of two. They mesh very well together. "It was like click click boom!" says Guzman who is an English major. The DJs have two main things in common. One: they both are experts when it comes to Rock, Metal, Punk (real Punk), and Classic Rock. Two: they both have no respect for corporate radio. They play what stations like KCAL and KQOO will not. They play music from bands like Deep Purple, The Doors, Bad Religion, The Sex Pistols, Plasmatics, Overkill, Motorhead Rush and anything in between.

Coyote Radio is currently being broadcast online, but a positive thing about this situation is that anyone with a computer can access the site and listen in on the programs. They can also call in and request a song or just talk to the DJ's while they are in the studio. "The web isn't regulated by the FCC, with the class you can't do anything you want, but it does allow a little more freedom," said Guzman explaining the bright side to being broadcast solely on the web.

Keathley and Guzman are enthusiastic about the stations potential, but they would like more support not only from the campus, but also from the University's president himself. "If no one listens, what's the point?" asks Keathley. "I don't think Al Karmig has done anything for the station. He has the power, he's the president. If Karmig wants to come into our studio from 4-8pm he's more than welcome. But this isn't Larry King, we're playing hardball." Adds Guzman. Keathley and Guzman proposed the question, "If the president of the school doesn't listen, who does?"

With the lack of support the radio station has been receiving, Keathley refers to it as the "bastard step-child" of the University. The two DJs would like the school to put more into promoting the radio station.

The radio station is student run. Every song played on Keathley and Guzman's show is straight out of their own collections. Keathley and Guzman find thoughts go out to entertain and potential listeners. "Listen, call in. We answer every call. We cannot put you on the air, but we will quote you. The radio station is student run, so if you have an idea, call us before you are put on the air," says Keathley.

Keathley referrs to it as the "bastard step-child" of the University. The radio station has been receiving, Keathley refers to it as the "bastard step-child" of the University. The two DJs would like the school to put more into promoting the radio station.

Making Christmas and what not. Without saying too much, it would be in your best interest to have a look at this new ride before it is gone for the season.

"No one can be in Knott's Scary Farm. Knott's is notorious for making grown men run off screaming into the night. Every year Knott's goes off with the Halloween Haunt. The entire park is transformed into a festival of fright. There are mazes to wonder - Haunt continued on page 16...

Haunt or Nightmare?

Having a Hard time deciding between major theme parks for Halloween?

By Billy Osuna and Shareena C. Clark

If you still don't have anything to do this Halloween, you might want to consider these two options. Remember Halloween isn't just and excuse for kids to get free candy. It's an excuse for everyone to get free candy! It is also the one day out of the year when you get to dress up like a fool, and try to scare the mess out of your friends and colleagues. If you aren't into dressing up like a goon but you still want to have a good time, you can try two places where other people have gone out of their way to scare the crap out of you. Both locations are in Orange County, and they both have an $8 parking fee.

First up you have Disneyland. The rest of the park is crowded as usual, but they truly gone out of their way doing the Haunted Mansion for Halloween. "I mean Christmas...I mean Halloween, whatever. The once humdrum haunted mansion is now Tim Burton's Nightmare before Christmas. While waiting in line there is a ghoulish usher hopping from person to person singing and acting a fool. It is entertaining, and it makes the wait seem a lot shorter.

Inside the Haunted Mansion ride, it seems like a whole new theme park. The entire ride is remodeled to well, you kind of think you're in the movie. The same creepy yet creative characters are scaring about doing this and that, making Christmas and what not. Without saying too much, it would be in your best interest to have a look at this new ride before it is gone for the season.

Next off is Knott's Scary Farm. Knott's is notorious for making grown men run off screaming into the night. Every year Knott's goes off with the Halloween Haunt. The entire park is transformed into a festival of fright. There are mazes to wander and potential listeners. "Listen, call in. We answer every call. We cannot put you on the air, but we will quote you. The radio station is student run, so if you have an idea, call us before you are put on the air," says Keathley.

Keathley referrs to it as the "bastard step-child" of the University. The radio station has been receiving, Keathley refers to it as the "bastard step-child" of the University. The two DJs would like the school to put more into promoting the radio station.

October 22nd was no ordinary night at Club La Luna in San Bernardino. The nightclub drew music fans from all around the Inland Empire when The Used and H2O opened for the headlining act, Box Car Racer. The all ages show was jam packed as soon as the doors opened and the club continued to fill as the opening acts played for the growing mosh pit. Yet, it was Box Car Racer that most people were waiting to see.

No, Tom DeLonge and Travis Barker didn't kick their Blink182 band mate Mark Hoppus to the curb, they simply wrote some Blink material. DeLonge and Barker added guitarist David Kennedy and bassist Anthony Celestino to form their "side-project" band Box Car Racer. Their self-titled album came out over the summer and the band is now embarking on a tour covering the smaller club scene. It was nice to see DeLonge and Barker get back to their roots and play a more intimate setting than they are use to performing in.

Although I am sometimes disappointed when I see a band perform and they sound nothing like their album, that was not the case with Box Car Racer. They are just as good, if not better, live. DeLonge's signature vocals sang out to the hundreds of fans that showed up at La Luna and sang along with him to almost every song while Kennedy and Celestino proved to be a valuable asset to the already famous lead guitarist and drummer. Yet it was the amazing Barker that delivered, as usual, an array of incredible beats throughout the entire show. I found that I spent almost the entire Box Car performance watching Barker and I tried to keep up with his quick, precise movements across his drum set; the Inland Empire native never missed a beat.

While I can't say that all of the fans that showed up at La Luna were true Box Car Racer fans (I received many screams of "Travis! Travis!" right in my ear by girls that were obsessed fans of the Blink boys), I can honestly say that Box Car Racer is a great band that offers real, raw music and an awesome live show.

Kelly Rowland is Simply Deep  
By Matthew Taylor  
Managing Editor  
"Stole", the first single to be released by Kelly Rowland signifies the beginning of her solo career. Rowland most recently (for her duet with Nelly) on the song "Dilemma" is set to pique the public eye. Rowland is known all over the world for her role as one-third of Destiny's Child is pursuing her own solo career as a songwriter and actress. Her album Simply Deep was released on Tuesday and following that release her video for the first single "Stole" has already made its way onto the TRL set being voted on the countdown at #9 as of Thursday. Although Kelly is busy working on her own endeavors she still retains true to her roots.

The album Simply Deep is a voyage into the mind of Rowland. The album is a mixture of different styles, the styles all seem somewhat different from what people are used to hearing from Destiny's Child. Although she only co-wrote three of the tracks on her album, she says that it was her own decision to do so. She co-wrote all of the songs differently from Destiny's Child because she didn't want to compete them with the group's work. The albums are an opportunity for people to know her personal side. In my case, I am sure that most of my fans didn't realize how much I love old school rock. In fact when I first went into the studio and told the producers I wanted a mixture of safe with edgy rock, they looked at me like I was crazy! And honestly, about halfway through the recording process I was wondering if I could handle this style of music better. But it all worked out wonderfully!

Beyond Rowland's career, moves her album has its own powerful messages. The first single "Stole" tells a story about lives and opportunities taken away for wrong doing. The track has a hypnotizing punch almost reminiscent of some of the early work of Sade, but then at the same time it has hints of rock and even a bit of soul. Coyote movie ticket

The rating system:
Watch this film now = Brace Catch the inatmee= Jet Li Lee guy in a karate outfit
Bury this film= some white; Rent this film== Jakie Chan :

Darren Aronofsky had written the first draft of the screenplay, and that David Twoby was directing, I knew there was something special brewing here. Unfortunately, the Dimension Films did not know that. So now we have "Below." But hey, I know "Ghost Ship" is coming out in late November, to next spring.

Marcos: Aronofsky is the man. I don't understand why a studio would give a director money to make a movie and then, they don't decide to back it up. Example: "Below," the submarine, and now we have "Below." But hey, I know "Ghost Ship" is coming out because I've seen 20 trailers within the last hour. "Below" was a damn good movie!

Marcos: I would like to take the time to thank the Mister Sniper for putting back what seems to be a good movie. Because of the sniper shootings, Universal has postponed the release of "Phone Booth," which was supposed to come out in late November, to next spring.

Ivan: One thing I like to do in video games is snipe people. Why? Because it's pretty damn cool. Does that make me a bad man, especially there was a guy on the loose on the East Coast, stalking people at random? No, it does not. Does the fact that I think "Phone Booth," which deals with Colin Farrell being trapped in a phone booth by a sniper, shouldn't have been delayed make me a bad man? No, it does not.

Marcos: Once again, thank you Mr. Sniper because I'm probably going to miss out on some cool video games in the future. Like Ivan said, sniping in video games is freaking real and nobody gets hurt.

Ivan: While I agree that the whole Sniper situation totally sucked, because killing kids and innocent bystanders at random is just wrong, I don't think we should put an immediate ban on anything and everything related to snipers. Especially when something like this is on such a small scale.

Ivan: "Below" is what I like to call "Smart Popcorn." It's entertaining, but is sure as hell isn't stupid entertainment. Why film companies can't make more "pep­ corn" films like these, I don't know. "Below" was well-written, well­ acted and superbly directed. Twoby (don't ask me how to pronounce it) has a great eye for shots. More than once, I was impressed by the way he set up a shot to make it more dramatic or suspenseful. And there's plenty of suspense.

I am haunted by the 80's. I ask you, is it strange to have a shrine for Michael J. Fox in an undisclosed location somewhere in Angeles National Forest? It seems like every time I turn around, I see that deuce economics. Which in my mind means 'hey look peasants we're pissing on your heads, he he he'.

How strange is it that now in the 00's we have a Bush giving a big tax break to the upper crust. Yes, the Bush tax cut means, 'hey look peasants we're piling on your heads, he he he'.

In the 80's we had Ronald Reagan for most of the decade and he gave us the gift of 'trickle down economics'. Which in my mind means, 'hey look peasants we're pissing on your heads, he he he'.

DearEditors,

When reading the Coyote Chronicle, I feel it is necessary to voice my concerns regarding the lack of professionalism on my campus and within our community. The Administration's policies regarding communication with prospective students on a daily basis and at times favors the lack of professionalism. I urge the Administration to share CSUSB culture with our community.

The sentence is a concern. "Although CSUSB is not considered a prestigious school, that doesn't mean that its graduates can attain high-level positions in society." Jhye? I believe that the second half of the sentence should have a "can't" instead of "can", but it does not. This is just one example in a newspaper full of grammatical and spelling mistakes. Try reading the newspaper and finding an article without a mistake. Does anyone read this before it is sent to the Chronicle staff sends the paper to an outside source for printing. Does this concern really exist?

The reads that CSUSB is not a good school and is not recognized. CSUSB has accomplished many things and should be proud of the university they are attending.

I also observe that the sentence is a concern. "Although CSUSB is not considered a prestigious school" that doesn't mean that its graduates can attain high-level positions in society. This is just one example in a newspaper full of grammatical and spelling mistakes. Try reading the newspaper and finding an article without a mistake. This is just one example in a newspaper full of grammatical and spelling mistakes. Try reading the newspaper and finding an article without a mistake. Does anyone read this before it is sent to the Chronicle staff sends the paper to an outside source for printing. Does this concern really exist?

After reading the Coyote Chronicle, I feel it is necessary to voice my concerns regarding the lack of professionalism on my campus and within our community. The Administration's policies regarding communication with prospective students on a daily basis and at times favors the lack of professionalism. I urge the Administration to share CSUSB culture with our community.

The sentence is a concern. "Although CSUSB is not considered a prestigious school, that doesn't mean that its graduates can attain high-level positions in society." Jhye? I believe that the second half of the sentence should have a "can't" instead of "can", but it does not. This is just one example in a newspaper full of grammatical and spelling mistakes. Try reading the newspaper and finding an article without a mistake. Does anyone read this before it is sent to the Chronicle staff sends the paper to an outside source for printing. Does this concern really exist?

The reads that CSUSB is not a good school and is not recognised. CSUSB has accomplished many things and should be proud of the university they are attending.

I also observe that the sentence is a concern. "Although CSUSB is not considered a prestigious school" that doesn't mean that its graduates can attain high-level positions in society. This is just one example in a newspaper full of grammatical and spelling mistakes. Try reading the newspaper and finding an article without a mistake. Does anyone read this before it is sent to the Chronicle staff sends the paper to an outside source for printing. Does this concern really exist?

increase or create new taxes. Bond money cannot be used for salaries or other administrative expenses.

Trustees of the California State University approved a resolution supporting the bond in May. "More than half of CSU facilities, including science, computer and research laboratories, are more than 28 years old and badly in need of renovation," said Debra S. Farr, chair of the CSU Board of Trustees. "In addition, more facilities are critically needed at all CSU campuses to accommodate skyrocketing student enrollment."

CSU as well as other higher education institutions and the public schools in California have relied on voter-approved general obligation bonds to pay for capital construction projects since those typically are not funded through the State's General Fund.

Prop. 47 is necessary because according to the State of California, "one of every three elementary and secondary school students attends an overcrowded school or one that needs modernization." It is estimated that 46,000 new classrooms are needed to relieve overcrowding and accommodate new students in elementary and secondary schools in the next five years. Likewise, the community colleges, the CSU and UC systems are experiencing growing enrollment that is straining higher education systems, which enroll 2.3 million students combined, expect more than 700,000 additional students before 2010.

Opponents of Prop. 47 have argued that taking on more bond debt could harm the state’s finances. They also have said that the state school construction process takes too long for new schools to be built. If the bond measure is approved by voters, a referendum bond will be added to the November 2004 voting elections and will approve 47 million dollars for construction of the College of Education building on campus.

It cannot be stressed how vital it is for Proposition 47 to pass in the upcoming elections. Therefore everyone needs to vote in order to make a difference.

If you are not a registered voter and would like to become one, you can log onto www.sbcgov.org.

through where you have to watch your back. Ghosts, vampires, and giant spider seem to jump out of nowhere at you.

Here’s a hint for you future maze goers: the more you run, the more you’ll be chased.

Not only is Knott’s decked out in scary 3D clown mazes, and other scary walkthroughs, they also have some great shows to watch when you get tired of being chased by greasy aliens.

One show is called The Haunting. The Haunting is an annual show, and it is held in the Old West section of the park. Right off the saloon where you can get a nice cold Bud or a nice cold Bud. I don’t want to give away the goodie, but there is lots of blood and lots of laughs.

Perhaps you’ll go to one of these parks. Perhaps you’ll go to both in one day. (It is possible). Either way you are guaranteed to have a run for your money. Go on, go out and try to have a good time, I dare you!

---Haunt continued from page 9---

Kelly Rowland to appear in next summer's horror flick 'Freddy vs. Jason'

Beyond Rowland's career moves her album has its own powerful messages. The first single Stole tells a story about lives and opportunities taken away far too soon. The track has a hypnotizing punch almost reminiscent of some of the early work of Sade, but at the same time it has bits of rock and even a taste of the new R&B that is seen commonly through vocalists such as Alicia Keys and Ashanti.

The album continues and goes into the romantic urban love song Dilemma. This song has plagued the ears of the world for the last couple weeks but it seems to never truly lose its impact because it is almost telling a ghetto love story where girl meets boy that she really likes but she can't be with him because she already has some one. That love ballad keeps the listeners wanting more. It kept me wondering what else could Rowland have to offer.

Another notable track is Love/Hate. Love/Hate is a track that comes with a sound close to what has been produced by great names like Brandy, and when a closer look is taken at the inside cover the name B. Norwood-Smith appears. Yes, Brandy the pop sensation with the current album Full Moon wrote a song for Rowland.

The track talks about the feelings and emotions that a girl has about a man especially when he is getting under her skin and making her feel things that she never wanted to feel, which are both emotions Love and hate. It could even be seen as an empowering song because in the end the song is basically saying, "I am fed up and can't take anymore."

The rest of the album is also a good listen, but the final track is also a notable track and people should look out for this to be one of her next singles to be released. The track entitled Make U Wanna Stay is a song that is very much a part of the new hip hop scene as this music fan sees it this track will be one for the record books. Kelly Rowland is a superstar that is Simply Deep and she will be seen in next summer's horror film "Freddy vs. Jason".
Barry hit a baseball out to left field and everyone in my group made a play for the ball. We all put our gloves up to the sky seeking the ultimate piece of sports memorabilia, a World Series baseball. I will never forget that moment because time literally stopped. I heard the ball thud into a glove and suddenly we were all on the ground. Everyone opened their gloves with eager anticipation but only one person had the ball. Me!

I have shown the ball to all of my close friends and look at it like it is the holy grail of sports. I will never forget the time my guardian angel saved the day for the ultimate sports fan.

Top five reasons to jump on the Angels bandwagon:
1. Everyone looks better in red.
2. Why be a blue Dodgers fan?
3. The Lakers season is still two weeks away.
4. LA does not have a pro football team.
5. The rally monkey beats the San Francisco chicken.

NBA Western conference looking strong

By Jumadil Washington
Staff Writer

There is a lot of talk about who was the best team last season and who will be the best team this season. It is no rumor that the top five teams in the NBA over the past couple of seasons have been in the Western Conference.

The Los Angeles Lakers possess a dominant force in their one-two punch of Shaq and Kobe, which is seemingly unstoppable by any team in the NBA.

The lack of dominant centers and power forwards in the East Conference has produced a (0-4) record in their past four NBA finals appearances. The Eastern Conference made high profile trades during the off-season as well as key players returning from the injured list. The Eastern Conference is making plans to end their horrid reputation to the elite Western Conference teams.

The Los Angeles Lakers have been the team to beat in the past three seasons they are in pursuit of another championship without the help of Shaquille O'Neal for the first 4-6 weeks of the season, due to surgery on his toe in the off-season.

Here is a preview of all the possible contenders that might show up as post-season threats to the Lakers quest for a fourth straight NBA title.

Sacramento Kings—Coming off of last season's heart-breaking loss in Game 7 of the Western Conference Finals to the Los Angeles Lakers, the Kings have made some off-season acquisitions, (Kron Clark, Damon Jones), that might improve their hopes for this season. However, as long as Rick Adelman believes that Vlad Divac and Doug Christie are going to be successful in their starting lineup guarding Shaq and Kobe, Sacramento has a chance to becometitle winners.

Philadelphia 76ers—With a little bit of fine-tuning on defense, this team might make it to the Eastern Conference Finals this year. It is hard to count them out of any series; they will do much damage:

Pennsylvania's 76ers—Rebounding from a first round elimination, the Sixers have had to deal with many battles in the off-season. Star guard Allen Iverson's controversial summer should motivate him to play even better than he did last season just to compensate for the pres- sure of Iverson as well as provide the team with some needed depth on defense. If they stay healthy, look for this team to make a statement in the Eastern Conference Finals.

Washington Wizards—This team has stacked up well in order to get Michael Jordan back where his bad knees kept him from going last season. This team has depth offensively (Jerry Stackhouse, Chris Webber, and especially Michael Jordan and Brendan Haywood) and defensively. (Charles Oakley, MJ, Bryon Russell) as well as a talented young players and veterans. Look for some of Michael Jordan's court knowledge to rub off on new teammates such as, Juan Dixon, Jarrod Jeffries, and Larry Hughes.

You can expect to see a vast improvement with this group of players in comparison to last season.

Lastly, you can expect to see three teams in the playoffs, but don't get your hopes up that they will do much damage.

Portland Trailblazers—Look for another underachieving season and a first round elimination.

Minnesota Timberwolves—Look for Kevin Garnett to do all the work during the season and show his fatigue in the playoffs.

San Antonio Spurs—David Robinson will be out indefinitely with a back injury (by his eleven season of the game), Tim Duncan and Tony Parker will see a second round elimination.

Atlanta Hawks—Look for Glen Robinson and Shareef to dominate until the rest of the "Big Dogs" come to the ATL.

Milwaukee Bucks—Ray's got game, I just don't know about the rest of the team.

Toronto Raptors—Vince will light up the highlight reels but injuries will play a role in their post-season.

Orlando Magic—TMac will definitely bring his game to the court, but will Grant Hill's ankles be around?
Brandon DeVaughn and the men's soccer team started the season off extremely well but are slowly falling to the bottom of the CCAA conference.

By Corinne Jamieson
Staff Writer

The men's soccer team lost 2-1 last Tuesday to Concordia University in a non-conference meet.

"We had a very good first half," said Coach Christian Johnson, "then we got too comfortable and stopped playing as a team; that's why we lost."

The Coyotes did have a good first half, taking the lead 34 minutes into the game. Sophomore David McConnell scored CSUSB's only goal. Junior Johnny Richardson, the men's top scorer, assisted on McConnell's point.

This was all Richardson was able to get past the Eagles' defense, which limited him to one shot during the whole game. The Coyotes were only able to get off a total of seven shots against Concordia's goalie before half time.

In the second half, the CSUSB men were met by an even tougher Eagles' defense. The Coyotes were only able to get off six attempts on the second half.

Goalie Joe Kulm did his best to keep the Eagles' shots from getting past him. He completed eight saves for the Coyotes, with only two kicks slipping by.

"He had some very, very good saves," commented Coach Johnson on Kulm's performance throughout the game.

Kulm almost beat out Eagles' Kyle Carroll when both went for a ball dangerously close to the Coyotes' net. Carroll won the battle and headed the ball to teammate Raul Navarro, who scored, tying the game at 1-1.

CSUSB was unable to overcome the Eagles' defense and fell to Concordia 2-1.

The Coyotes' loss makes this the first defeat for goalie Kulm, who was 5-0 in previous games.

On Saturday, UCSD edged out the 'Yotes 3-2 in CCAA play.

The CSUSB men have had their ups and downs. Their record for the season now stands at eight wins, eight losses and one tie.

The men's soccer team will have their last regular season match on Nov. 2 against Cal Poly Pomona at home. From there they will begin the CCAA Conference Tournament starting on Nov. 7.

Junior midfielder Kayla Humphries' seventh goal of the season proved to be the difference in a 2-1 Cal State, San Bernardino victory over Concordia University Irvine in a non-conference women's soccer match Wednesday before 100 fans at Coyote Field.

Kayla Humphries jukes and goes by her opponent.

For Humphries, it was her second match-winning goal of the season. She is the team leader on offense with seven goals and seven assists for 21 points through 17 matches.

The victory enabled the Coyotes to climb back to the .500 mark for the season at 7-7-3 after being 2-6 at one point early in the season.

Stephani Sheidrick (Palmdale) put the Coyotes on the scoreboard first with a left-footed 15-yarder into the near corner of the net just five minutes into the match. She later assisted on Humphries goal in the 21st minute, a blast from just beyond the 18-yard line.

CSUSB winds up the season with three matches against California Collegiate Athletic Association South Division rivals UC San Diego on Saturday, Grand Canyon on Monday and Cal Poly Pomona on Nov. 2. The GCU and Pomona matches are on home turf. CSUSB is 4-5-2 in conference play.

Erin Lea, Concordia's leading scorer, notched her 11th goal of the season in the 74th minute, to narrow the Coyotes' lead to 2-1 but the Eagles offered little thereafter. Several Coyote attacks in the forward half also produced nothing.

The visiting Eagles', ranked 24th in the nation among NAIA teams, are now 11-1 on the season as they return to Golden State Athletic Conference play where they are 3-2-1.

Coys' goalie Amanda Hernandez (Cathedral City HS) stopped six Eagles shots as she improved her record in goal to 5-1-3 since moving from the midfield position.

CSUSB is 3-1-2 in the month of October as they try to produce their third straight winning season for Coach Christian Johnson.

Sophomore forward, Michelle Lopez knew if given the playing time, she could have a tremendous impact for the Lady ‘Votes soccer team this season. Lopez is one of the biggest reasons for the Lady ‘Votes recent success in the past couple weeks.

The Lady ‘Votes started the season 2-6-1 overall, but have been able to turn the tide around due to the play and confidence of Lopez. A 2-1 win on October 23 against Concordia Irvine puts the Lady ‘Votes at 5-0 with an overall record of 7-7-3, 4-5-2 in the conference.

Lopez knew if given the playing time, she could have a tremendous impact for the Lady ‘Votes soccer team this season. Lopez is one of the biggest reasons for the Lady ‘Votes recent success in the past couple weeks.

Despite playing limited minutes as a freshman, she was the number one scorer on the team with a total of 16 points. She had seven goals on 19 shots for an outstanding shooting percentage of 37%.

This season Lopez has played extremely well, scoring 5 goals and 40 shots for a total of 13 points. Lopez saves her best for last with three of her goals were game winners.

Lopez says playing more minutes in the game has given her more exposure and truly made her a better player.

She also credits her coach for making her work harder this season.

“Coach Johnson stays on me and doesn’t let me slack off.”

When asked what she could do to make herself a better soccer player, Lopez replied, “Getting more open to score more goals.”

What intangibles does Lopez bring to the team week after week?

Head Coach Christian Johnson says, “Michelle had great confidence last month when we were struggling. She has deceptive speed and she can hold the ball well. When she’s on she’s very dangerous. She’s very good at creating and scoring goals.”

Right now the Lady ‘Votes are playing very good soccer and will look to finish the season on a high note. When asked what everyone on the team would need to finish strong this season, Lopez says, “Everyone has to play well and give a 100%. We can’t slack off.”

**Setting up their opponents**

By Kermit R. Boyd  
Sports Editor

All American setter Amy Pope left an extremely large void to feel after she graduated in 2001.

With Pope being the only loss from last season. The major dilemma that presented itself in 2002 was, who would takeover the setter position?

Luckily, the answer came in the form of Freshman Cristen Trent and Junior Beth Fowles.

Trent was recruited by Head Coach Kim Chemiss while Fowles was a returner form the 2001 squad.

Thus far, the 2002 season is the challenge and call of the position. Trent does not dwell on or look to average a certain amount of assists per game. She is doing an outstanding job,” says Fowles.

Trent’s on the court demeanor has allowed the Coyotes to be almost flawless with only one blemish on their record, a loss to Cal State LA. Trent’s biggest game came against Western State in which she tallied a career high 62 assists.

Trent does not dwell on or look to average a certain amount of assists per game. She is doing an outstanding job,” says Fowles.

Trent’s on the court demeanor has allowed the Coyotes to be almost flawless with only one blemish on their record, a loss to Cal State LA. Trent’s biggest game came against Western State in which she tallied a career high 62 assists.

Fowles’ biggest game came against Cal Poly Pomona in which she raked up a career high 44 assists while helping her team get the win.

Both has done a great job and she has come into some very critical match-ups and helped us win; when we played Cal Poly Pomona, she did a great job, and at San Diego she performed well and helped us get the win,” said Chemiss.

Fowles is determined to continue to play well, which would most conceivable result in a Pacific Regional title and a chance to compete for a national title.

Winning a regional and national championship are not only Fowles’ goals but Trent’s as well. Trent, straight out of high school, has emerged as the ‘Votes primary setter and is competing exceptionally well for a freshman.

“Beth has done a great job and she has come into some very critical match-ups and helped us win; when we played Cal Poly Pomona, she did a great job, and at San Diego she performed well and helped us get the win,” said Chemiss.

“She is doing an outstanding job,” said Trent.

“Cristen is working on about thirty different things at one time while on the court, and she is keeping her composer, and has kept a great attitude, and she has been everything that I hoped she would be,” says Chemiss.

Fowles knows if given the playing time, she could have a tremendous impact for the Lady ‘Votes soccer team this season. Lopez is one of the biggest reasons for the Lady ‘Votes recent success in the past couple weeks.

**Key Matchup**

UC San Diego (11-2) vs. CSUSB (12-2)

Last time these two power houses met, the Coyotes beat UC San Diego in four hours. UC San Diego is No. 2 in the CCAA right behind CSUSB. CSUSB is ranked No. 3 in the nation while UC San Diego is No. 8.
