Debates over whether to relicense the Los Angeles Times racism report have been edging into the tens of weeks. They all agreed that there would be measured in years, not just twice in the final version.

The central focus of the controversy seems to have been Wilson's failure to do an independent investigation into the findings of the RRPD Commission. Wilson had been asked if they wanted to show the findings of the report to its mandate to investigate any action or relation to the actions of the police. Wilson agreed, saying that there was a broad consensus between the commission, the community, and the Riverside Police Officers Association. (For many of us, it was an issue of principle, not politics, or understanding that it was going to be a sensitive issue, and Wilson agreed that there was a broad consensus between the commission, the community, and the Riverside Police Officers Association. Wilson said initially that he had been optimistic about what would come out of the process. "We have had our issues among the minority communities for years with respect to the perceived inequities." He was hopeful that the commission would be more forthcoming with the department than they had been in the past. Wilson agreed, saying that there was a broad consensus between the commission, the community, and the Riverside Police Officers Association. "For many of us, it was an issue of principle, not politics, or understanding that it was going to be a sensitive issue, and Wilson agreed that there was a broad consensus between the commission, the community, and the Riverside Police Officers Association." (For many of us, it was an issue of principle, not politics, or understanding that it was going to be a sensitive issue, and Wilson agreed that there was a broad consensus between the commission, the community, and the Riverside Police Officers Association. Wilson said initially that he had been optimistic about what would come out of the process. "We have had our issues among the minority communities for years with respect to the perceived inequities."")

Wilson's response to the controversy is that the commission's mandate to investigate any action or relation to the actions of the police is broad, not specific. "It is a broad mandate to investigate any action or relation to the actions of the police," Wilson said. "We have had our issues among the minority communities for years with respect to the perceived inequities."

Save People - Not The System

By Star Parker

Federal Chairman John Gleenma recently received rave reviews from our nation's leaders. After reviewing our nation's fiscal budget, he said that we needed to cut back on the federal government's responsibilities. His reason: "It's time to turn our attention to legislation that will benefit the American people." A spokes-person for Mr. Gleenma believes the system is "not abstract and academic, but a practical and personal application of his legal knowledge in the present social and economic situation." We need to redefine the word "legal" to fit the new definition of "practical."

It has been predicted that Mr. Gleenma will chair a commission in 1983 whose mission will be to "decentralize" the Social Security system. The reforms produced so far supposedly put the system on "sound fiscal footing" and would "take it into the current century and on to the next." Mr. Gleenma himself is clear that Social Security is still "in need of major adjustment." As a result of the work I have done through my organization, Star Parker is president of

CURE, it is clear to me that our priorities must be restructured on housing assistance, jobs, and broken Social Security systems that are "a source of iniquity for all Americans." Social Security is a system not at all, but simply a tax program to avert the "social problem" of retirement. Use of the word "system" in this manner is simply an attempt to justify a payroll tax as the "cost of doing business." However, Social Security checks sent out during the course of the year is it. It is an insult to the working class and all of its skills of our political class that {[...]} Social Security taxes are actually some kind of investment in a fund that is "for the common good." At one point there were more than 40 working Americans for every one person retired. However, today there is an increase in the wealth gap between the top 1% wealthiest households and the poorest 20%.

We need to extend Social Security to all workers, including the self-employed. We also need to extend Social Security to all workers, including the self-employed. We also need to provide an income for the elderly of 70% of the average income in 2001 was less than to meet the obligations of the government. The American dream is that to pamper him or her only once. Notice how successful businesses do it for many more than one working year. There is no way for us to have a "social system" that is not an abstract and academic system. To have a "social system" that is "for the common good." It is not an abstract and academic system.

To have a "social system" that is "for the common good." It is not an abstract and academic system. To have a "social system" that is "for the common good." It is not an abstract and academic system. To have a "social system" that is "for the common good." It is not an abstract and academic system.
**Tiger Defeats All Challengers**

**By Jon D. Gaede**

Tiger Woods' swing picked apart, reviewed and analyzed from every angle. Remember, Tiger's ball was all over the course during this round. As the viewing audience tuned into ABC for the primetime second round, a hungry Tiger was emerging. The drama of the nearly precise Tiger Woods, recovering out of deep rough, faulty bunkers and front behind trees is certainly entertaining television, however, the compelling story emerged for the primetime second round, a hungrier Woods, playing like a dual on ESPN saw Tiger struggle with a poor drive. He had difficulty aiming his driver and scuffled all morning. Love's early accuracy kept him in the fairway and ahead of Tiger by one after 18 holes.

**San Andreas Dominates**

San Andreas is an H.S. boys basketball team finishes 9-1 and wins league title

By Jeromie West

SAN BERNARDINO – One of the many classic stories of San Andreas High School is their 2004 Boys Basketball team. Some Donald Hendricks has averaged over 20 points a game for the Lions as the team has suffered only one loss this season. The team has averaged over 70 points a game. In the final game against Fontana, a rival team effort and a game winning shot by Donald Hendricks was the difference in the victory beating them 73-72.

San Andreas High School Principal Myrtle Fountain states: "As a team that plays well together, we're undersized, we play six people and we pound it inside and that's very hard on our opponents. We're going to have to shoot more than we shot in the past. We expect to see Coach Williams and the players when their high school eligibility is complete. The sports world is full of young athletes who would rather pursue a professional athletic career than go to college. We can only work well when all the tennis players, figure skaters, basketball players, gymnasts, skiers and hockey players seek their fortunes without playing NCAA sanctioned sports? No one!

By Leland Stein III

NHL should let Clarett decision stand

Like the cold hard reality that the matter is the NFL and the NCAA are made inextricably together and this union was sealed in cement — until the 20-year-old Clarett took America’s most popular sports league to task.

Consider: After three to five years for playing in the NCAA, in college, at the professional level and the NFL, the NCAA has a ready-made player with national-name recognition. There are no minor leagues (well, the NFL is a minor league for basketball and football like baseball, which takes thousands of kids from all over the country every year.

Why would the NFL and NCAA ever voluntarily change their system?

Sure, a few players will leave the college each year, but there is a strong declining themselves worthy of NFL Glory.

The real issue is money — money for the NCAA, net, unlike athletes in other sports cables in the language that basketball and football happen

Nursing that a person is degraded for taking advantage of his

 أيام or physically or emotionally mature enough to withstand the rigors of the NFL. It’s true, some are not ready to play against adult men who are the best in the world at what they do.

Still, the cold hard reality that the matter is the NFL and the NCAA are made inextricably together and this union was sealed in cement — until the 20-year-old Clarett took America’s most popular sports league to task.

Prior to Clarett’s landmark decision, football was the only sport with a draft that didn’t allow teams to select players when their high school eligibility was complete. The sports world is full of young athletes who would rather pursue a professional athletic career than go to college. Who cares about when all the tennis players, figure skaters, basketball players, gymnasts, skiers and hockey players seek their fortunes without playing NCAA sanctioned sports? No one!

Yet, football and basketball players are scrutinized negatively if they forgo college or leave college early. Is it a coincidence that the National Football League seems to be the biggest moneymakers in NCAA sports?

Every athlete knows he or her career could end any day. So, if a football player feels he is ready for prime time, then America and the NFL should not deny that person the opportunity to pursue his dream and make millions.

What’s the worry? If the NFL feels a player is not mature or physically enough, then don’t draft that person, or one that's deemed a supporter of their school. It is a coincidence that the National Football League seems to be the biggest moneymakers in NCAA sports?

Every athlete knows he or her career could end any day. So, if a football player feels he is ready for prime time, then America and the NFL should not deny that person the opportunity to pursue his dream and make millions.

The NFL says it will appeal the Clarett decision. I hope they do not.

Does anyone in America in this capitalist society that a person is degraded for taking advantage of his or her God-given skill?

The NFL does not support the rights of the NFL, and the NCAA is an unfair system that benefits both already.

Still, the NFL is putting on its best face, and projecting to the courts that they are really "concerned" about players. Yeah, right!

Celebrating 30 Years of Serving the Community
Commission

Continued from Front Page

Investigation as mandated in its policy by the rules of the Joint Legislative Administrative Committee (JLAC). The commission recommended that the department's administrative review of the shooting, which was conducted by the administrative committee, be reviewed by the commission. The commission's recommendation is currently being heard in the administrative court. It has not been scheduled to issue a recommendation to the department. The commission is also scheduled to begin an investigation of some police misconduct cases.

"Without the information presented here, we would have no idea whether this department is making any progress in its efforts to improve public safety," said the commission's executive director. "We need to know if the department is making any progress in its efforts to improve public safety."

Celebrating 50 Years of Serving the Community

Education is not Preparation for Life; Education is Life Itself

By John Dewey

Once again, tens of thousands of California students will be offered an opportunity to achieve the goal of attaining a higher education. The revolutionary Cal Grant program guarantees that eligible students will receive “free money” to attend a state university or college. This program is fully funded to meet the needs of all students who meet the academic and financial requirements, yet, each year, many fail to utilize the money that is waiting for them. Last year, thousands of students failed to receive an award because they did not fill out the necessary applications. Sadly, there is always money left over at the end of each year. In fact, the Cal Grant program had to return about $35 million to the state general fund last year because too few high school students applied. As we move forward during the most difficult budget year in California history, these unclaimed funds are in danger of being redirected from needy students and earmarked for other purposes. I believe this is the wrong approach. For example, the children of a truck driver and a grocery store clerk—who bring home a combined income of $68,000 for a family of four-currently qualify, but in the future, families at this income level may be deemed ineligible. If this happens, many working-class families will again lose the ability to fund a higher education for their kids. We need to get as many students into college as we can before this happens.

Students are evaluated for eligibility through academic merits and exhibited financial need. A high school senior who meets the financial requirements and earns a 2.0 grade point average (GPA) or higher can qualify for a Cal Grant B, which includes full tuition and a living stipend. Applicants who have achieved a 3.0 GPA and whose assets and income are below the Cal Grant ceiling will be awarded a Cal Grant A, which covers the higher下的 cost of tuition at UC and CSU campuses, and up to 97.9% at a private or independent college. Applicants must complete two required forms: a Cal Grant application form and a Free Application for Federal Student Assistance (FAFSA). Students must submit both forms no later than March 2, 2004. You may obtain an application at your local high school, by calling the Cal Grant Hotline number for the Student Assistance Commission (1-888-CA-BEAN) or accessing the link: www.fafsa.ed.gov.

Make sure your child is aware of the symptoms of depression. A depressive disorder is not the same as a passing mood. It is not a sign of personal weakness or a condition that can be willfully or withdrawal. Without treatment, symptoms can last for weeks, months or years. The symptoms that you observe fit the profile for depression. Depression is a risk factor for suicide. It takes courage to ask for help. You deserve to live your best life. Take the first step today.

With depression anxiety is real, and perhaps even your physician may not always appreciate the severity of the problem. I believe this is the wrong approach. For example, the children of a truck driver and a grocery store clerk—who bring home a combined income of $68,000 for a family of four-currently qualify, but in the future, families at this income level may be deemed ineligible. If this happens, many working-class families will again lose the ability to fund a higher education for their kids. We need to get as many students into college as we can before this happens.

The theme is "Divine for decades centered on whether Jesus was a Black man. Before Black Virgin, France." Present there were 190 statuettes of the Virgin Mary as a Negro on it. We cannot blame Mel Gibson for making the movie. After all, no evidence of his existence has been found. The key question is, are you strong enough to wipe long history from your mind, emotionally crippling, but continue for the path of a spiritual conscious- ness?

We, the people, are not only Black but also White. We, the people, are not only in America but also in Europe.

We, the people, are not only in the past but also in the present.

We, the people, are not only in the present but also in the future.

We, the people, are not only in this world but also in the next world.

We, the people, are not only in this life but also in the afterlife.

We, the people, are not only in this universe but also in the multiverse.

We, the people, are not only in this reality but also in the multiverse.

We, the people, are not only in this reality but also in the virtual reality.

We, the people, are not only in this reality but also in the metaverse.

We, the people, are not only in this reality but also in the beyond reality.

We, the people, are not only in this reality but also in the unknown reality.

We, the people, are not only in this reality but also in the infinite reality.

We, the people, are not only in this reality but also in the absolute reality.

We, the people, are not only in this reality but also in the ultimate reality.

We, the people, are not only in this reality but also in the ultimate realization.

We, the people, are not only in this reality but also in the ultimate enlightenment.

We, the people, are not only in this reality but also in the ultimate bliss.

We, the people, are not only in this reality but also in the ultimate peace.

We, the people, are not only in this reality but also in the ultimate freedom.

We, the people, are not only in this reality but also in the ultimate happiness.

We, the people, are not only in this reality but also in the ultimate love.

We, the people, are not only in this reality but also in the ultimate compassion.

We, the people, are not only in this reality but also in the ultimate forgiveness.

We, the people, are not only in this reality but also in the ultimate wisdom.

We, the people, are not only in this reality but also in the ultimate knowledge.

We, the people, are not only in this reality but also in the ultimate truth.

We, the people, are not only in this reality but also in the ultimate reality.
To join us on the Underground Railroad field study tour, complete the following registration coupon.

**Cost:**
- Double occupancy: $1495 per person (July 25 - August 1, 2004)
- Group airfare is available, call Gloria Kenley, 614/898-9505.
- All participants must have a valid passport.
- It is recommended that participants purchase travel insurance in addition to this fee to insure against cancellation or loss of baggage.

**Single Supplement:**
- $450 additional
- Non-refundable deposit of $195 due immediately
- Final payment is due by June 15, 2004.

**Insurance:**
- Special section available to include all aspects of the trip.

**Registration:**
- To enroll:
  - Kenley Connection
  - 5773 Emporium Square
  - Columbus, OH 43231
  - 614-898-9505

**Questions:**
- Cheryl Brown, The Black Voice News, (909) 682-6070

Strawberry Leaves Yankees to Participate in Crusade

By COREY A. WASHINGTON

You've heard before: Love hasn't been the easiest thing. The message reverberates with those who have experienced it in both the online and offline worlds. Have you ever tried meeting someone on the internet? It's a way to meet people, but it can also be confusing. She wanted to know why. Was she nice, intelligent, and fully accepted be easily accepted by the recipient, does the corporation also receive your money back, but you can't get your money back but you can't be nice, intelligent, and fully accepted.

What did I do wrong?" are just a couple of questions she asked Chris. "I ship doesn't fit my needs." Not only was this a shock to Tracy, it was also surprising. "Because of the commitments I have made to my church, which include considerable travel, I do not feel that I can fulfill my obligations to the Yankees at this time," Strawberry said in a statement released Wednesday afternoon. "I must, therefore, leave my position as Player Development Instructor. While I love baseball, my focus is now on outreach to the community and youth evangelism."

Strawberry has been active with Without Walls International Church since being released from prison last spring. He has become a featured speaker at both Paula White’s Church in Los Angeles and the No Limite Youth Conferences held by the church throughout the country. Strawberry became Player Development Instructor in November 2003 after Yankees owner George Steinbrenner offered him a chance to get back into baseball. Strawberry was released from prison in April 2003 after serving 11 months for violating probation on charges of cocaine possession.

An eight-time All-Star, Strawberry was scheduled to assist the Yankees major league team throughout spring training and then work with minor league players the remainder of the year. However, Strawberry found himself torn between commitments to his church and the Yankees.

"I have struggled with the decision of what to do and have decided that I cannot break my previous commitment to Without Walls International Church, Strawberry said earlier this month.

Strawberry survived a turbid cancer as a major league and has battled through drug addiction and prison time, as well as a bout with stomach and colon cancer. He cites his relationship with God as the key to his troubles past behind him and the motivation for using his experiences to help young people.

Without Walls International Church began with five members in 1991 and has grown to the seventh largest church in America. The church exists to evangelize and to restore people to their full potential.

Love and Dating Computer Style

BY COREY A. WASHINGTON

What is online dating? According to statistics published on NUA Internet Survey’s web site: Americans are using the internet on a regular basis more than 10 million African Americans are using the internet - about a third of the population in the U.S. The survey speculates that 75 percent of the African Americans using online are visiting BlackPlanet.com. BlackPlanet.com is an online community aimed at providing resources and information for Black. Their dating service is a popular area many users visit. Considering the number of African Americans on the web, that’s a fair estimate, but it does not show us taking a chance in a territory we don’t familiarize ourselves with.

There’s that four that I have mentioned so often that seems to impress everyone you attempt to turn on a computer. To some people, this is not for them without any explanation. "No explanation" is the concept of online dating. Protecting ourselves is essential about a third of the population in the worst ways, it’s significant. This advice is not for everyone, it may become useful some how down the line when you think all other alternatives have failed. For the sake of ruining another one, I must say, love has no boundaries.

National Park Service to Hold UGRR Meeting

△ Booker T. Bust to be Unveiled

The Black Voice News

The National Park Service will hold their Annual Underground Railroad Network to Freedom meeting in the Inland Empire from March 29-April 2, 2004. They will tour various local sites, visit schools in both Riverside and San Bernardino and visit Redlands and Perris. There will be an all day review of proposals for the Network on Wednesday March 31, 2004 at the Black Voice Media Center at the Bailey Building 1590 Waterman Ave. and the unveiling of the Booker T. Statue and brunch at the Mission Inn on April 2, 2004. The National Park Service is excited to work with the preservation and interpretation of Booker T. Washington's Virginia birthplace home.

For several years now The Black Voice News has researched and promoted Booker T. Washington and his fascinating connection to the Inland Empire. In fact, two years ago we organized a symposium to commemorate his 1914 visit to Riverside with the assistance of several committed individuals throughout the Inland Empire. It was during that time that we learned of an earlier visit he made in 1903 when he delivered addresses in Ontario and Claremont. We also learned that Washington had developed a strong friendship with Frank Miller, Keeper of the Mission Inn Hotel in Riverside, and it was at his request that prompted Washington's 1914 visit, said Black Voice News Co-Publisher Cheryl Brown.

The Black Voice News Co-Publisher Cheryl Brown.

Dan Roberts, the current Keeper of the Inn has offered to place the sculpture in a prominent area in front of the hotel and Bernard Edmonds, a local artist, has been commissioned to create the piece.

Margaret Washington Clifford, one of his granddaughters will be present for the unveiling.

Everyone can be involved in the event and will be recognized at the brunch that follows the unveiling. There is even a place for children, everyone can be a part of the bust.

Emancipator: $3,000-$5,000; Educator: $1,500 - $2,500; Student: $100 - $1,000; Freedom Seekers: children are asked to contribute $1.00. Make checks payable to Black Voice Foundation, Inc. P.O. Box 1581 Riverside, CA 92502.

UNVEILING & BRUNCH

Personally, my interest in Booker T. Washington began years ago when John Dabney, a local professor, gave me a class assignment to compare and contrast the philosophies of W.E.B. Dubois and Booker T. Washington. Never in my wildest imagination did I think I would ever meet any of his descendants or become close associates for over a decade. When I met Edith Washington Johnson, his granddaughter, I told her about the famous photograph of her grandfather with Mills. For years, I talked to her about my dream to have an event that focused on Washington's visit. When we
This event is geared to empower, inspire, and bond teenage young women in Riverside along with Target Stores of Riverside. For more information contact (909) 684-2494.

Magic Johnson Golf Tournament A Huge Success

Earvin "Magic" Johnson recently hosted one of the most successful series of events to benefit the Magic Johnson Foundation (MJF). Themed "Magic's Showtime," the events took place during the NBA All-Star Weekend in Los Angeles where Johnson was also honored with the unveiling of his 14 foot statue in front of the STAPLES Center. According to Johnson, "It was fantastic playing host to basketball fans and showing them our great city and I will always treasure many special memories."

Magic's Showtime placed MJF on an international stage of awareness. Established in 1991, Magic Johnson Foundation is committed to improving the quality of life for people residing in urban communities. MJF feels strongly that all individuals can succeed given access to the appropriate resources. MJF is committed to providing education and testing in the areas of health, information and assistance with college scholarships, and technology access to bridge the digital divide. The Foundation serves as the conduit to deliver the much needed partnerships, programs and resources that empower families and help rebuild communities.

On Monday, February 16, 2004, Magic Johnson hosted The Magic of Golf Invitational at the spectacular MountainGate Country Club. Lincoln was the presenting sponsor of the golf tournament. Title Sponsor, Anheuser-Busch, Inc. hosted the awards dinner where Magic was the live auctioneer, giving the standing room only audience more to talk about and enjoy.

"It is important that businesses and non-profit organizations work together to empower our young people and under-served communities. I really do appreciate Lincoln for their support and Anheuser-Busch for being socially responsible companies," stated Johnson.

The celebrity golfers included; Samuel L. Jackson, Marcus Allen, Willie Gault, Byron Scott, Mitch Richmond, Dave Winfield, Don Buford, Malik Yoba, Ricky Manning Jr., Alex Thomas, Anthony Alexander, Ambassador Sidney Williams, Mitch Richmond, Mike Davis and Chris Spencer, to name a few. They enjoyed the fun-filled day along with the business community that benefited MJF. The Play Clean Golf unit, donated by Wesley Buford, president/CEO of Buford Public Relations. Please call the office of MJF at 310.246.4400 or visit www.magicjohnson.org for further information.
Fellowship and Council, I can years before County of San worked for the (CSUSJ3), Poole California State Legislative Black Caucus. the California appointment in gubernatorial Employment and Housing. Davis as the public affairs director for year appointment Connection.

Since coming to Sacramento, I've Sacramento, I've frequently returns to the Inland Empire where she serves on the CSUSB Alumni Association Board of Directors and participates in community education and outreach events. She was recently recognized by the Office and CSUSB "Professor for a Day" program and was selected to co-host the 25th Anniversary of Riverside Black History Month parade.

In addition to becoming OGA's communications liaisons, Poole will staff the Council's new Commission to Stable Secure Funding for Justice and serve as in-chief for OGA's monthly publication, The Capitol Connection.

This appointment ends a four-year appointment for formerly Governor-Gray Davis. As the public affairs director for the California Department of Fair Employment and Housing, Poole maintains a home in San Bernardino and frequently returns to the Inland Empire where she serves on the CSUSB Alumni Association Board of Directors and participates in community education and outreach events. She was recently recognized by the Office of the California Legislative Black Caucus. Poole was selected to co-host the 25th Anniversary of Riverside Black History Month parade.
