WORST WIND STORM DOES MAJOR DAMAGE

The worst wind storm ever to hit the campus blew out windows, flung exhaust fan covers from the roofs of buildings, ripped trees out and deposited huge amounts of dirt inside and outside buildings last weekend.

The most severely damaged campus facility was the Student Union, where three plate glass windows were blown out between the patio and lounge and where a glass door was destroyed. The winds also ripped rain gutters off the Union roof. The building had to be closed for a day so the debris could be cleaned up and repairs made. Large exhaust fan covers were blown from the roofs of several other buildings.

Although dirt driven by the winds infiltrated all campus buildings, perhaps the hardest hit was the Heating and Air Conditioning Plant where soil accumulation reached more than an inch on horizontal surfaces and where even vertical surfaces were encrusted. Large deposits of dirt were also left on lawns and at the recessed entrances to buildings.

Jim Urata, director of plant operations, called the wind storm the most destructive in the campus' history. The winds' velocity on campus was not recorded due to a malfunction of the anemometer, however.

A mile away, the winds ripped roofs from houses along North Park Blvd., a block and a half from the area where the November fire burned out large tracts of homes.

134 STUDENTS GRADUATED AT END OF FALL QUARTER

There were 134 students graduated at the end of the fall quarter. Among them, Lynn Brown was graduated with high honors and Charles R. Colucci with honors. Both were administration majors.

Of the total, 36 students were granted master's degrees in education, business administration or public administration. The most popular undergraduate degree was administration at 29 graduates. Liberal studies was next with 22 graduates. Dual majors claimed six graduates; psychology, six; history, five; biology, criminal justice, nursing, political science and sociology, three each; chemistry, geography, social sciences and theatre arts, two each, and art, child development, economics, English, math, Spanish and special major, one apiece.

**TWO NEW EXHIBITS
TO OPEN AT LIBRARY**

Two new exhibits will open in the Library during the coming week. A display of Danish museum posters begins tomorrow and a collection of National Orange Show memorabilia opens March 6.

The Danish museum posters are considered representative of some of the best of the genre. Originally created to advertise exhibits at several Danish museums, they are now considered works of art. The posters were done by well known Danish artists and range from highly creative graphic/artwork designs to type-only styles.

The Orange Show memorabilia display will cover the history of the show from its inception in 1911 to the 1960's. Materials will include postcards, pictures, banners, buttons and other materials. Historical excerpts will accompany the display, as will magazine and newspaper articles. The show promotes the area's citrus economy.

The photos range all the way back to the show's earliest days and include some of the more elaborate sculptures created from the local citrus crop.

**LACHAISE PEACOCK
REMAINS AT CSCSB**

For at least the next year, the eight-foot peacock displayed in the Art Gallery's Gaston Lachaise show will be exhibited on the main floor of the campus Library. The Art Department chairman, Dr. Julius Kaplan, negotiated the long-term loan with the

Lachaise Foundation because of the enthusiastic reception received by the Lachaise exhibit.

The peacock was sculpted by Lachaise in the 1920's to ornament the garden of a Long Island estate. When the estate was sold, the Lachaise Foundation bought the work for its permanent collection.
