SUPREME COURT SAYS NO TO INTEREST ON BACK PAY

The California Supreme Court has denied a request that state employees be given the \$25 million in interest earned on the lump-sum back pay awarded in December.

The 4-2 ruling, made Feb. 16, also denied all other petitions concerning the back pay issue. Howard Jarvis and others had asked the Court to delay a decision on the interest and to reconsider its favorable ruling made in December.

As a result of this ruling, the way is now clear for final disbursements of some \$207 million in back pay to those current and former employees who have not yet received their checks. Checks to some 40,000 retired, no longer employed and current employees will be issued to departments by mid-March, according to the State Controller's Office.

While ruling against the interest payment, the Court said the California State Employees Association (CSEA), which filed the request on behalf of state employees, could pursue its attempt at getting the interest money in a lower court. CSEA has indicated it will file an action seeking the interest with the State Court of Appeal.

In addition, Assembly Bill 161, which will give the interest to employees if approved by the Legislature and the Governor, has been dropped off the Assembly Committee hearing schedule indefinitely.

The \$207 million in back pay gave some 200,000 state employees a 7 percent lump-sum payment for a nine-month period from Oct. 1, 1978 to June 30, 1979. The money was invested in the state's pooled interest fund while the retroactive pay case made its way through the judicial process. Initially, the Legislature granted the raises over the Governor's veto. That action was challenged by Jarvis.

AIR CONDITIONING TO BE RESTORED ABOUT MID-MAY

Air conditioning will be restored to the campus about mid-May under terms of a contract for repair of the damaged cooling tower and reconstruction of the destroyed tower.

Bids were opened Feb. 25 with the contract going to F.M. Thomas Air Conditioning, which submitted the low bid of \$120,300 for both towers. The bid was substantially lower than the architects' estimate of \$140,000. Work is expected to start in two to eight weeks with repair of the first tower to be completed about mid-May. That tower will provide cooling while the second unit is reconstructed.

The other bidders were: San-Val Air Conditioning, \$124,951; Hansen Mechanical, Inc., \$125,170; Los Angeles Air Conditioning, \$127,000; Herzig Corp., \$139,700; Dalworth, Inc., \$141,000; Ashman Air Conditioning, \$153,098, and Armada Mechanical, \$154,896.

APPLICATIONS INVITED FOR ADMINISTRATIVE FELLOWSHIPS

Applications for the CSUC 1981-82 Administrative Fellows Program must be submitted by March 23 to Dr. J.C. Robinson (Academic Affairs).

The proposed 1981-82 budget allows for 12 internships; appointments, however, are contingent on the Legislature's approval of funds. Applications are being taken now so appointments can be made when the funds are approved.

The Administrative Fellows program is open to faculty members and administrators with either tenure/permanent or probationary status. Normally, the fellows are assigned to campuses other than their own. Salary, vacation and retirement benefits are provided as if they were in their regular positions. Women and ethnic minorities are particularly encouraged to apply.

Further information may be obtained from Dr. Robinson's office, Ext. 7510.
