STUDENT SERVICES FEE IS GOING UP

The Board of Trustees has increased the student services fee by \$8.25 per quarter, effective with the winter quarter. Students taking up to six units will pay \$175.50 per year in student services fees. The fee for 6.1 or more units will be \$205.50.

In addition to the student services fee, students pay the facilities, associated students, student identification card, student union and instructionally related activities fees.

Fees for the coming year will be:

<u>Units</u>	<u>Fall Quarter</u>	<u>Winter Quarter</u>	<u>Spring Quarter</u>
0-6	\$53	\$61.25	\$61.25
6.1 or more	\$63	\$71.25	\$71.25

The Board of Trustees implemented the fee increase as a result of a \$5 million reduction in the 1981/82 budget passed by the Legislature and signed by Governor Brown.

REROOFING PROGRESSES

Reroofing of the Administration Building is progressing on schedule and completion is expected by the first week of September. The old roof has been removed and the workmen are in the process of replacing it with new materials. Air-conditioning and heating units are expected to arrive within the next two or three weeks. Then the ducting must be installed for carrying the chilled water to the Administration Building from the tunnel which connects with the central heating and air-conditioning plant.

**DR. LISS AWARDED GRANT
FOR TV SUPERHERO STUDY**

Dr. Marsha Liss (Psychology) has received a grant of \$12,017 for her project "The Justification of Aggression by Prosocial Models" from the National Institute of Mental Health.

The research project will study the ability of children's television programs to achieve their goal of teaching moral lessons. Dr. Liss will study whether the superheroes, who win over bad guys through the use of aggression, are actually glamorizing violence. Also, she will test whether children learn better through superheroes or ordinary people.

Children from local schools will participate in the study. Dr. Liss will create her own children's programs on videotape, featuring Cal State students in the various roles.

NOTEWORTHY

Amer El-Ahraf (Health Science and Human Ecology) participated in the Cal Poly Pomona Campus Forum on "The Future of Technology--A Critical Look at Progress." The forum was held June 16 at the Oak Glen Conference Center.
