This Article is brought to you for free and open access by the Archives – California State University San Bernardino at CSUSB ScholarWorks. It has been accepted for inclusion in Coyote Chronicle by an authorized administrator of CSUSB ScholarWorks. For more information, please contact scholarworks@csusb.edu.
There have been a large amount of rain falling, sheets and hail flooded the campus. The flood continues. There are still matters temporary and long term solutions. The campus was flooded. Visual inspections were hand to provide the campus with $2 million to $4 million. The Chemical Sciences building and still applies. Two claims adjusters of Monday, Oct. 30, 2006 are pending.

According to Demauro, the campus cleaned areas to dates show no bacteria into buildings. Amounts of mold were found. Areas inaccessible are as where small areas and explanations of the work that have been finished. There are still matters which would be burned but when there will be no minimal impact is site of the and those classes. A civil engineer has been on hand to provide the campus with temporary and long term solutions to the problems of water entry into buildings. Demauro also praised the work of the campus community calling it superb. "Thanks to all of you for your professionalism, hard work," Demauro said.

Large amounts of rainfall flooded the CSUSB campus on Sunday and continued throughout the week of Oct. 13, 2006. CSUSB became engulfed with heavy rain, snow, and hail. There were also strong winds that blew through school pathways.

Grant to foster US Security

CSUSB will receive nearly $1 million dollar to use in its National Security Science Program. The grant will require the program to report as increase in the number of students enrolled in areas related to existing National Security Science Program.

Frank Beatty Staff Writer

CSUSB is expected to receive a share of nearly $2 million. The grant to expand the National Security Studies programs in the California State University system. This is according to Professor Mark T. Clark of the National Security Studies department.

CSUSB Public Affairs goes online

CSUSB press releases from the Public Affairs office are now accessible through new RSS feed technology. With RSS news feeds, press releases can be delivered via email, web browser, and through browser-based news readers. The RSS feed allows people to get news and about the campus from anywhere in the world, either as a small provider of the "computer" desktop, said Sid Robinson, Assistant Vice President of Public Affairs for CSUSB. "It's also known as RSS "Really Simple Syndication," "Rich Site Summary," and "Web Syndication" among other names, and is a form of extensible markup language (XML) for computers. It is the format of news feeds that contains metadata of news stories and links to their locations on a website.

Good News: ‘Tight Labor Market’

CSUSB President Albert Kasing, Dr. John Harding, and CSUSB Dean of the College of Extended Learning Dr. Janet Johnson.

Extended Dialogue Speaker Series

Husing, who discussed the economic status of the inland empire, added a reading of approximately 45 attendees in the College of Extended Learning Center's Venture Center. The event spanned with remarks and introductions of the Dean of the College of Extended Learning, Dr. Kurt Haas and CSUSB President Dr. Albert Kasing.

"The Inland Empire is a region of growth," said Haas. "Five communities in Redlands, has been studying the Inland Empire growth market." He said that Congressman growth market.

According to Husing, people want affordable housing, jobs to go with the people, industrial projects, and lots of good schools.

"We are the housing market," Husing said. Husing explained that according to statistics. San Bernardino County has the lowest home prices, with a median cost of $209,000. As for determining where the market is headed, Husing explained that no one really knows.

"Consumers are confused about the marketplace," Husing said. "I don't trust data at the local level, I call people in sectors that concern me. No one really knows, probably an 18-month price and the housing market went again," said Husing.

Husing described several important capacity and management in today's economy, as well as California's logistical advantages. These advantages include the West Coast location, close to up and down California's only competitors, and biggest labor pool in the state.

"The Inland Empire is an important regional retail market in Southern California," Husing said. According to Husing, retailers need to be 15 to 20 percent of inventory cost managing goods from Continued Pg. 2

CSU entry level Test websites

The Math Success and English Success websites are intended to help students prepare for the Entry Level Mathematics (ELM) and the English Placement Tests (EPT).

Conference seeks to market the Inland Empire

California State University

The Executive Briefing Conference being held at the Ontario Convention Center.

A Message to the CSU Community:

Provision 1-D, the Kindergarten-University Public Education Facilities Bond Act of 2006, would invest $10.416 billion in our state's educational systems, with $7.329 billion for K-12 education and $3.087 billion for higher education. The California State University would receive $690 million over two years, or $345 million each year.

As a member of the CSU community, you know the important role the system plays in ensuring high-quality and affordable education for California's students. You also know that the CSU supports California's economy by preparing the workforce of tomorrow. One way to ensure that we continue our important work is to make the best possible decisions about investments in our future.

To learn more, visit www.calstate.edu and click on "Provision 1-D."

For the California State University Foundation

The Southern California coastline boasts some of the world's best surfing, hiking and scenic ocean views. While the rest of the country is getting ready for a cold fall season, we are heading to San Clemente State Beach to take advantage of the sunny SoCal weather.

The Math Success and English Success websites were sponsored by the Western Interstate Commission for Higher Education in 1999. It also has nearly 700 members in 46 states and 9 countries. The websites are designed for students, parents, school counselors, and teachers to use as a roadmap to help students so that they will be prepared to do well on the placement tests.

According to the WCET, the purpose of the conference is to explore how the Inland Empire is perceived and how various branding and marketing opportunities can help shape the growth of the region.

The Conference will be hosted by the CSUSB College of Business and Public Administration, and the Business Alliance. The purpose of the conference is to help students prepare for the Entry Level Mathematics (ELM) and the English Placement Tests (EPT).
Semesters versus quarters

Alexandra Gates
Staff Writer

CSUSB Faculty Senate has proposed the implementation of a Semester Conversion Planning Committee (SCPC) at California State University of San Bernardino.

The establishment of the SCPC is the next step for the Faculty Senate. The SCPC will be responsible for advising the Faculty Senate with a written report outlining the feasibility of a conversion.

If the committee provides evidence substantiating a conversion, the quarter system many students are used to will be a thing of the past. "The quarter system doesn’t produce the best learning environment for students, and it is our responsibility to afford these students the best education possible," said Chuck Hoffman, professor of psychology.

The disadvantages of the current quarter system were summarized in the minutes from the Faculty Senate meeting held in the Fine Room on September 26, 2006. The minutes meticulously described the disadvantages posed to students as a result of the quarter system. According to the meeting minutes, the major shortcoming of the quarter system is the fact that CSUSB graduates are among the last in the nation to establish themselves in the workforce. "Our students graduate in June when some of the other CSUs are graduating in May, which puts our graduates at a disadvantage when it comes to job placement," said Hoffman.

"The quarter system allows for classes to be held through mid-June which places faculty and students in a disadvantage association with fellowships at the federal and state levels that have a start date of June 1st," states the minutes.

Consequently, the typical quarter schedule complicates the enrollment of courses with those campuses, again making it a strenuous learning environment for faculty and students.

"We should have done this a long time ago. Although, a number of students may oppose the conversion, they argue they like the idea that they finish faster, it is in their advantage when it comes to graduation dates and having adequate time to absorb the course material," said Hoffman.

Presently, there isn’t a definite assembly other than the establishment of the SCPC. In the event that the SCPC authenticates a conversion method along with a written report on the practicability of a conversion, it is expected that current students may not be affected.

"It could take years for a conversion to go into effect," said Hoffman.

While the Faculty Senate intends to establish the SCPC in the near future, students seem to be in opposition of the proposal.

"The current quarter system is straightforward and is conducive compared to a semester system comprised of 16-18 weeks," said Ryan Stahl.

The Faculty Senate isn’t considering their objective to put together the committee, and students such as ASI President Anthony Conley attend the Faculty Senate meetings on behalf of the student body.

On the contrary, students are permitted to attend the meetings and hear first-hand the dispensation of proposals from the Faculty Senate.

The next Faculty Senate meeting will be held Tuesday, November 14, 2006 at 12:45 p.m.

Imagine having famous theme parks, movies and more available on campus!

There is no need to imagine anymore because the Associated Students Inc. (ASI) Box Office has the ability to take you there in just minutes.

The ASI Box Office has tickets for several theme parks such as Disneyland, Knott’s Berry Farm, LEGOLAND, Magic Mountain, Sea World and Universal Studios, among others.

Tickets for Medieval Times, San Diego Wild Animal Park, San Diego Zoo and Scunci are also available at a lower cost.

If one is in the mood for something local, tickets to movie theaters such as AMC Theaters, Cinema Star Luxury Theaters, Edwards Cinemas, and Krikorian Premier Theaters are also available.

The ASI Box Office has tickets for the following events such as Magic Mountains, San Diego Zoo and Scunci.

According to Natalie Chavez, Associate Director of Student Leadership and Development, the chapter will distribute members until this upcoming semester and may need to have at least a 15 GPA.

"We don’t pledge until spring quarter to give time for students to settle,” said Yosimar Oquendo, a member of Kappa Alpha Phi fraternity.

"And between the time period, we get to know seniors, we just don’t rush," said Oquendo.

The Interfraternity Council is formed by five organizations.

Delt Sigma Phi, Sigma Chi, Sigma Nu, Sigma Phi Epsilon, and Tau Kappa Epsilon.

The chapters extended about 50 bids collectively.

Non-perishable food items, clothing, & monetary donations also accepted!

Food Drive for Campesino Farm Workers

The interfraternity councils within CSUSB hold this drive, which is held at the CSUSB Box Office.

Want to be involved on campus? There is no better way to get involved on campus.

There are four chapters, each of which represents specific cultures and traditions on campus. These councils are Panhellenic Council (PC), Interfraternity Council (IFC), National Pan-Hellenic Council (NPHC), and United Sorority and Fraternity Council (USFC).

The Panhellenic Council consists of four organizations, Alpha Delta Pi, Alpha Kappa Alpha and Zeta Tau Alpha. The Alpha Delta Pi was the first organization to extend a bid to students.

According to the Panhellenic flyer, eligible women are or will be full-time CSUSB student with a cumulative high school or college GPA of at least 3.0. Many participate in the recruitment process; however, the general GPA requirements for some chapters may be higher.

The National Pan-Hellenic Council, which is home to Omega Psi Phi, Sigma Gamma Rho, Zeta Phi Beta, Alpha Kappa Alpha and Phi Beta Sigma.

According to Natalie Chavez, Assistant Director of Student Leadership and Development, the chapter will invite new members until this upcoming semester and may need to have at least a 15 GPA.

For example, these days people are dressing up as figures from famous movies, literature, and video games. It’s time to get in the spirit! Costume plans, anyone?

Halloween is here! There are many fun activities to do in Southern California. From movies to haunted houses, there is sure to be something for everyone.

In San Bernardino there is an event called Frightmares film festival. It is said to be the biggest haunted event ever in the Inland Empire. It is taking place from Oct. 13-31.

There are going to be 3 different "cute chilling" themes. They will be Carrie, Frank's Farm, and Frightmares. Many other attractions will be offered at this event including Frightmares Film Festival, celebrity special appearances, horror and carnival activities, monsters, firearms, and live music.

The hours of operations are weekdays 7-10 p.m., Fridays 7-10 p.m., Saturdays 7-10 p.m., Sundays noon-10 p.m. Tickets are $15 and parking is $5. Entrance is gate 9 off Arrowhead Ave. For more details on the event you can visit www.elfright.com.

Another attraction available locally is at Knott's Berry Farm. Many people go there to have a fun time at night. The theme park is decorated in a Halloween theme.

"Knott's professional 'spookmeisters' transform it into 'Knott's Scary Farm' or 'Halloween Haunt.'" Park employees dress as monsters and go through the night scaring guests. Different scare zones and movies are put on throughout the park.

The attraction runs from Sept. 28 through Halloween. The event calls for a teenager to young adult audience because it may be too scary for younger children. Visit www.knott's.com for more info.

Another theme park that has changed its appearance for a Halloween theme is Six Flags Magic Mountain. With their "Fright Fest," they also decorate the park with Halloween decor. Similar events to Knott's are held in the park. For more info visit www.sixflags.com.

If you are thinking about going to the event, don’t forget to dress up as a monster or a ghost. There are many old Halloween favorites you can choose from. Spending $5 to watch a film isn’t necessary. There are the "Halloween" movies, the "Freddy Krueger" movies, or even the previous "Scary" movies. If you haven’t seen them then. There are plenty more to choose from.

Sure enough there will be costume parties going on the weekends, so if you party at all, expect the event. Go out and have a good time with your friends, be safe, and don’t drink!

Multi-Cultural

October 30, 2006

Honing the departed

Beatrice Huerta
Staff writer

It has become a tradition in Mexico to honor the dead. It is a day when the culture and tradition are vibrant. The Day of the Dead is celebrated on Nov. 2, after the Day of All Saints on Nov. 1. This day is also called Día de los Muertos.

For children it is the day before, Nov. 1, and is called Día de los Niños. Toys and candy are often put on the graves of children.

A theme that is woven throughout the holiday is Calaveras, or skulls. A famous and widely known artist in Mexico, Jose Guadalupe Posada, made his art which consisted of drawings of skeletal people.

The ofrenda, or offerings to the deceased, are all of the deceased's things.

Families show their respect for their dead members.

Deceased adults are offered Tres aguacates, or avocados, which is hot and made of salt-and-sugar, to keep the deceased happy.

Family members also make vigils for the deceased. They pray and light candles at the cemetery and the family members make their way home.

The deceased are honored in different ways, one of them is the ofrenda. Epitaphs begin with "Viva la Dia de los Muertos," which means "Happy Day of the Dead." You will have Day of the Dead celebration Nov. 2 in the Lower Commons from 10 a.m. until 3 p.m.

If 17,000 people died tomorrow, would you notice?

Of course you would. There would be 24-hour news coverage. Dramatic headlines. And a devastating effect on our country forever. But last year, drinking and driving did kill about 17,000 people. It injured half a million more. But because it happened over a year rather than in a single day, most of us hardly noticed. It's a growing problem, with a simple answer. If you drink, find a safe way home. And help remove the marks that drunk driving leaves on our country.

Honing the departed

Beatrice Huerta
Staff writer

It has become a tradition in Mexico to honor the dead. It is a day when the culture and tradition are vibrant. The Day of the Dead is celebrated on Nov. 2, after the Day of All Saints on Nov. 1. This day is also called Día de los Muertos.

For children it is the day before, Nov. 1, and is called Día de los Niños. Toys and candy are often put on the graves of children.

A theme that is woven throughout the holiday is Calaveras, or skulls. A famous and widely known artist in Mexico, Jose Guadalupe Posada, made his art which consisted of drawings of skeletal people.

The ofrenda, or offerings to the deceased, are all of the deceased's things.

Families show their respect for their dead members.

Deceased adults are offered Tres aguacates, or avocados, which is hot and made of salt-and-sugar, to keep the deceased happy.

Family members also make vigils for the deceased. They pray and light candles at the cemetery and the family members make their way home.

The deceased are honored in different ways, one of them is the ofrenda. Epitaphs begin with "Viva la Dia de los Muertos," which means "Happy Day of the Dead." You will have Day of the Dead celebration Nov. 2 in the Lower Commons from 10 a.m. until 3 p.m.

If 17,000 people died tomorrow, would you notice?

Of course you would. There would be 24-hour news coverage. Dramatic headlines. And a devastating effect on our country forever. But last year, drinking and driving did kill about 17,000 people. It injured half a million more. But because it happened over a year rather than in a single day, most of us hardly noticed. It's a growing problem, with a simple answer. If you drink, find a safe way home. And help remove the marks that drunk driving leaves on our country.

Challenge & reward

Erie O'Toole
Multicultural Editor

The most difficult part of living as an international student to Serge Chamtikov is not understanding and speaking English, or surviving university in the process, obtaining work permits, or navigating the overcrowded free way site, international student fees for the university in the state. Obtaining work permits, or navigating the overcrowded free way site, international student fees for the university in the state.

Charntikov.

Tuition fees are more than five times higher than they are for California residents. According to a calculator on the university's website, international student fees for the 2006-2007 academic year average a whopping $10,000 per quarter for 40 units of full-time study, compared to resident fees of around $1,100 per quarter.

In addition, state regulations prohibit non-U.S. residents from working more than 20 hours per week.

"There's no way to work and survive on 20 hours a week," said Chamtikov.

To complicate the problem, the on-campus jobs offered to students generally pay between $6.75 and $8.00 per hour. Given the financial constraints, why would anyone from another country ever consider studying in the U.S.?

For Chamtikov, it was the quality of the education available that shaped his decision. He knew he wanted to live in Southern California, and chose CSUSB because it was the most affordable university in the state.

Chamtikov grew up in the Ukraine and moved to Greece at age 20 before coming to California in 1998. He completed a Bachelor of Science in psychology here at CSUSB, and is currently working on a Master's in experimental psychology.

"The application process was a nightmare," he noted, but added that the staff was helpful and attentive, and eager to accommodate his needs. In spite of the financial difficulties, Chamtikov is happy with his decision to attend CSUSB.

"The education here is good, and the Cal State system itself is well-organized," he said. He is pleased with the faculty and the quality of the instruction.

Chamtikov also finds time to socialize with friends, mostly fellow international students. Although he enjoys interacting with all types of people from a variety of backgrounds, he says it is easier to connect with other students from other countries.

"We have gone through hard times to get here, and we have similar goals related to education," he said.

Chamtikov says his university experience is more meaningful because of the financial and academic challenges he has faced.

He is married to a former international student who is currently working on her Ph.D. He hopes to begin work on his own Ph.D. soon, in neuro-psychology and neuropharmacology.

As for the future, he's not exactly sure whether he and his wife will stay in the U.S. or go to another country.

"We'll see what the future has in store for us," he said.

International Student peer advisors Ankita Thapliyal and Sergios Charntikov look over paperwork in the conference room. Paperwork and high fees are some of the biggest challenges they face.

Quick stats

International student population at CSUSB

Fall 2005:
Total CSUSB enrollment 16,431
Non-resident alien 572
Percentage of international students 2005: 3.7%

Fall 2006:
Total CSUSB enrollment 16,479
Non-resident alien 542
Percentage of international students 2006: 3.5%

International undergraduate students' estimated student budget for one year:

Tuition ($226 per unit) $10,848
State university fees $4,068
Books $1,200
Housing/food $6,900
Health insurance $626
Personal expenses $2,400

TOTAL: $26,042

This Day In History
I have just realized word that people in college are not supposed to have to work for their degrees. I know, I was shocked too! But that again, this is everyday in today’s college world.

It could not have been this way five, even ten years ago. Did people used to actually study? Were study groups a widespread occurrence? Because honestly, I have offered many a time to work in a group with people, but it’s almost as if we are too busy (impossibly) to stop our personal stuff that we deal with on a con­

stant basis, and get to business.

Experience, though, is one of the keys to a successful life in the long run. But I guess people these days do not value a college experience, we must be taught the same thing college students used to be. Or maybe we are more influenced by social and freedom pop culture more than those of yesteryear. I do not know. What I do know for sure, is that people are getting degrees, and cannot remember what they were supposed to be learning. People get their diplomas in a box, and do not use half of their experience in class to better their lives afterwards.

It seems like a waste of time to me, to spend so much time and money on something you do not even have a clue as to what you are doing. I do not even think there is more than an ascension in the world of academia, nor to mention real world and tangibly useful knowledge. This is why the careers are a huge mistake. And guess what? I am going to claim. I enjoy doing things on my own way. I may be involved in many other ways, but this academic challenge makes me happy. I feel like there is a lot of useful knowledge and experience. I will be able to use this in the near future. If you are not afraid to take time off because, ‘I’ll never get these classes over with until I have a job,’ it’s a lie.

If you are only a few years old don’t mean you will be happy when you grow up. You might have chosen the wrong path in life and because you realize it, you did not figure it out. Now you still gotta go back to school, but it still gonna be a lot more expensive, and time consuming and you are still un­

able because you have to support your life in different ways, maybe even a family. And you will look at the young kids trying to blaze through it all and you will say, “Don’t rush. Take your time and do it right. don’t do it like this. It won’t make you happy.” and they’ll laugh at you like this. I laughed at that thirty or forty-­year­

old in one of your classes when you came home. Seems odd, doesn’t it?

Higher education is the only institution where people pay a lot of money for something they say they do not want, and is a choice. I mean, if you go, I would not even go back. Is it just me? We pay a lot of money to have the real world and tangibly useful knowledge at our disposal. We have volume upon volume of knowledge at our disposal in the world of academia, not to mention you have to pay for useless and frivolous pop culture that we deal with on a con­

stant basis in your future. I guess people these days do out all of your parents’ hard work to give you this opportunity. So people are pressured to decide what your future is, the best answer you can give is, “Try taking this very seriously. I want to be sure I don’t make a rash and premature decision, and that I use my time wisely as possible. I don’t want to have to do this again, and I want to be able to give back when I move on.”

I took two years after high school, and I knew I would come back. I just needed a break in my life at the time because this was my dream. I was making a huge mistake. And guess what? After going to claim, I enjoy doing things on my own way. I may be involved in many other ways, but this academic challenge makes me happy. If you are not for a little bit off, I would not be in close to as good of shape that I am now. If you are not afraid to take time off because, ‘I’ll never get these classes over with until I have a job,’ it’s a lie. And I need to do that. I am here.

I am here... I do know for sure, is that people are getting degrees, and cannot remember what they were supposed to be learning. People get their diplomas in a box, and do not use half of their experience in class to better their lives afterwards. I am here.

I am here, I do know for sure, is that people are getting degrees, and cannot remember what they were supposed to be learning. People get their diplomas in a box, and do not use half of their experience in class to better their lives afterwards. I am here... I do know for sure, is that people are getting degrees, and cannot remember what they were supposed to be learning. People get their diplomas in a box, and do not use half of their experience in class to better their lives afterwards. I am here. It’s called Emotional Management, or EM. It is the practiced ability to change the energy of one’s emotions into another activities. In short, some people have practiced the art of using the emotions they have to their benefit. Saying that you will turn them off is a lie and can be very damaging and potentially dangerous.

I am in touch with how things make you feel, being honest about your feelings, can make you a very powerful person. You will also understand, with much more clarity, what you really feel, and how you can change the way you do. However, with EM, you must practice stress manage­

ment techniques that work for you. If you utilize EM, there must be a way for you to blow off steam. Such as when you are at work, and after work you go to the gym, or find another way to work out. Maybe you write in a journal or blog. Play or listen to music that fill your mood. Wrote with a moment. Confide in a friend.

Here is an example from my experience working in the cell phone retail business. I was dealing with a customer at the cellular kind I was working for the day. I was fairly new employee, I was my second week on my own, and I was still learning all of the ins and outs of what I can and cannot do.

There has always been a big belief in providing excellent customer service, and this customer was正常使用 phone, made a call, turned on my phone, and I was still learning all of the ins and outs of what I can and cannot do.

I don’t really need to say more about other people and how to let go of their emotions, it fill of it.

We do not have the luxury of actually turning them off, but we do have the blessing of learning how to make them better, on us. This includes getting used to just accepting things.

I am very familiar with the sign of things to truly be emotions. You will be very successful, and you need counseling.
Introducing The Manchester United Football Club, one of the best supported football clubs in the world

Chrysta Wong Staff Writer

Though the CSLUSA men's and women's soccer teams finished out a rough season, soccer still reigns supreme across 5,000 miles away in the United Kingdom.

The Manchester United Football Club is a world-renowned English football club (otherwise known as soccer to us Yankees), based out of Trafford Student in Trafford, Greater Manchester.

It is one of the most successful clubs in English football history, as it has won every European football award more than once and the prestigious FA Cup (the oldest football competition in the world) 11 times.

Ask any fan, and they'll tell you that Manchester is the best-supported football club in the world.

The club itself has gone through rocky, all-too-familiar history. It was formed in 1878 as the Newton Heath Football Club, but was near bankruptcy by 1902.

It was then purchased by brewery owner John Henry Davies. Legend says that defender Harry Stafford's dog ran over to Davies, leading to a conversation between the two men and resulting in Davies buying the team and renaming it Manchester United.

In 1958 eight of the club's players perished in the Munich Air Disaster, but it didn't stop them from winning not only the football league in 1965 and 1967, but also the European Cup in 1968.

The club then ran stagnant until 1999, when they became the only team to win the treble.

The treble is in football what the Triple Crown is in horse racing: it entails winning the UEFA Champions League, FA Premier League, and the FA Cup in the same season.

The post- treble era for Manchester United has been, in past years, filled with ups and downs.

In the following five years the club had an average of offensive success rate, and caused great controversy during the 1999-2000 season when they failed to defend their title and enter the World Cup instead.

History and statistics aside, United is the best-supported football club in the world.

It is one of the most successful clubs in the world, playing at Old Trafford, and is one of the most visited tourist attractions in the world.

Cross Country teammates, Becky Southworth has been working hard to get back on form. The goal of placing in the top five was just barely out of reach, with the girls losing with place to Cal State Bakersfield by only five points and fifth to San Francisco State by only 21 points.

When asked about the missed fifth place goal, junior Amy Gilson was far from disappointed. "We did really well," she said. "San Francisco State came out of nowhere with their best times. They only beat us by a few points."

The women's cross-country team is not only a team of runners, but an academic team as well. Every team member holds a GPA of at least 3.5, and topped that during last year in academics with an overall average of 3.86. The team looks to repeat that record this year. They were honored with a Coke Coyote award earlier this month, presented to the teams with the highest overall GPA each quarter.

But even with the pressure of academics to add to the practice schedule, Gilson is upbeat. "Regionals is really important," she said. "It's the next step up. We're about to be in a great team. They're holding it together really well."

Bartuson also believes that there's no looking back. "Conference is for bringing right here. Without the regionals is us," he said. "This is the toughest conference in the nation. We've had a very strong season, and we've consistently made it the top ten. At regionals we'll prove why we're in it at the top five."

One of the strongest members of the team continues to be the team's captain and senior Stephen Southworth. The team looks to repeat that 6-0 record, only consistently improved throughout the season but also earned USCAA honors for his performance at the championship meet.

The team is not only the second USCAA runner in the history of cross-country to earn this award, and named it with a personal best time of 25:30 at the 6,000-meter race.

The team will now advance to the NCAA West Regionals on Nov. 4 at Chico State University.
