Outstanding Student Award Established

Recognition will be given at commencement to an outstanding graduating senior, under a new program approved this week by President Evans and the Administrative Council.

The campus has, for the past five years, honored an outstanding professor. Now it is possible for a student to be similarly recognized.

The Outstanding Student Award, the brainchild of Dean of Students Peter Wilson, will honor "an outstanding graduating senior who has distinguished him/herself through a combination of superior academic achievement and service in campus and community organizations."

Students may be nominated by faculty or staff. Appropriate forms will be available in the school offices, the Student Union, the Associated Students office and the Dean of Students Office beginning April 1. They must be completed and filed by April 30.

To be eligible, a student must be a senior who has completed all graduation requirements at the time of commencement on June 15, has a minimum 3.5 GPA here and a minimum 3.0 GPA in all college work and has demonstrated service and leadership.

The committee to select the honoree will consist of the dean of students, as chair; the executive dean for university relations, two students appointed by the student body president and a faculty representative from each school selected by the dean.

Savings Bonds To Be Available Through Payroll Deduction

University employees are now able to purchase the new, variable-rate U.S. savings bonds through payroll deduction, announced Leonard Farwell, business manager.

Savings bonds today carry a floating rate which makes them a good investment, he explained. The rate is based on the average yield on Treasury marketable securities and currently is 10.94%. The floating rate, which changes every six months, cannot fall below 7.5%, if the bonds are held at least five years. Since 1982, the rate has averaged 10%.

Participants must purchase a minimum of one \$25 bond per month. The bonds, which may be redeemed after six months, are not subject to state or local taxes. Federal taxes may be deferred until the bonds are cashed or reach final maturity. Bonds also are not subject to probate, if a co-owner or beneficiary is named on them.

The U.S. Treasury Department has launched a special bond drive for March 11-19. CSU Chancellor W. Ann Reynolds is the national chairman for higher education in the campaign.

The forms necessary to purchase savings bonds through payroll deduction are available from the Personnel Office. They must be turned in by the tenth of the month for the deduction to be made in that month's paycheck. Employees may begin the program during any month.
