THE BULLETIN

California State University, San Bernardino

JUNE 14, 1985

24 Faculty Members Receive Professional Development Grants

from the college's instructional budget. A complete list of those receiving grants and a description of their projects begins on page 4.

Twenty-four faculty members will receive grants to develop and/or continue research projects during the 1985-86 school year. The Faculty Development Awards are funded

Dr. J. C. Robinson, associate vice president for academic personnel, said the total allocation for the grants is a record high of \$47,853. The grant program was created to contribute to the intellectual development of faculty members through assistance for the improvement of their research, writing, and creative activities, provision of resources for advanced training, and support to enhance teaching effectiveness.

The grants are in the form of assigned time, travel, equipment, operating costs, and clerical and/or student assistance. Proposals had to demonstrate objectives, methods and contribution to the professional development of the faculty member submitting the proposal and to the university.

Proposals were reviewed by the Faculty Affairs Committee and recommendations approved by Dr. Robinson. Submissions for the next year will be due in the spring of 1986.

Staff, Families Among Graduates

Commencement tomorrow evening will be a family affair for a number of faculty and staff. Three employees of the Computer Center are among the graduates. James M. Bentley will receive his B.A. in administration, while Lenora Venturina and Lorraine

Gorski earn B.S. degrees in computer science. The latest degree actually is Ms. Gorski's third from Cal State; she earned a B.A. in psychology in 1978 and an M.A. in psychology in 1980. Michael Slaton, son of Frank Slaton, director of computing, also is graduating, receiving a B.A. in administration.

Earning B.A.s in administration will be Pamela Langford from Enrollment Services and Cheryl Clark from Records. Donna Van Loon, wife of AV photographer Carey Van Loon is receiving her B.A. in administration also. Barbara Saddler, daughter of Dr. John Miller, Health Center, is receiving her B.A. in administration.

Two former university employees have earned degrees. Larry Winter, mail services, left campus after earning his B.A. in administration. Shirley Ceballos Alvarez, daughter of Richard Ceballos, locksmith, completed her M.A. in education.

While their husbands are in the faculty procession, two wives will be eligible to march with the graduates. Gladys Paynton, wife of Dr. Clifford Paynton, sociology, will receive her B.A. in history with high honors, and Rosalie Lindsey, wife of Dr. Donald Lindsey, criminal justice, will complete her B.A. in administration in August.

The graduation ceremonies will begin at 6 p.m. on the lawn east of the Health Center. The new site was chosen and landscaped because it will accommodate more seating than the location next to the large gymnasium, which was used for more than a decade.

77 Students Initiated Into Phi Kappa Phi

Seventy-seven juniors, seniors and graduate students were initiated into Phi Kappa Phi, the university-wide honor society last Friday evening. Selection for the national society is based upon scholarship in all areas.

Dr. Richard Rowland, the current outstanding professor, and Dr. Frederick Newton, a past recipient of the campus honor, also were accepted into membership. Dr. Newton was the evening speaker, describing the development of his research program in biofeedback. He described his facilities here as one of the best in biofeedback in California.

Dr. James Crum presided at the dinner. Assisted by the chapter secretary, Dr. Craig Henderson, he presented pins and certificates to the honorees. President Anthony H. Evans spoke briefly, describing Phi Kappa Phi as the premiere honorary on campus.

Registration Tuesday For Summer Session

Members of the campus community are reminded that registration for all summer session courses is Tuesday, June 18, at the Gym. Students who sent an application by June 7 will receive personalized registration packets in advance and be given priority to register between 9 a.m. and 12:30 p.m.

Those who can't make the morning hours and others who did not send in the application may register during the afternoon between 12:30 p.m. and 1:30 p.m., or evening between 5:30 p.m. and 6:30 p.m., on a first-come first-served basis.

Library Book Sale Nets \$\$\$ For New Books

The library book sale held June 6 netted \$766.60. The money will be used to purchase new books for the library. This was the fifth book sale held by the library in the last three years. Income from all sales, including this year's amount, brings the total proceeds to just under \$4,000.

GTE Changes Method For Local Dialing From School Phones

Beginning tomorrow, June 15, persons dialing calls to any 714 area code number from campus telephones will no longer have to dial "1" before completing the number. The change affects

GTE customers in San Bernardino, Marshall and Muscoy who have telephone prefixes 381 through 384 and 880 through 889, which includes the university area phones.

Callers are warned that long-distance charges still apply even though they don't dial "1" to access the other non-local numbers within the same area code. GTE customers in Crestline and Lake Arrowhead are not affected by the change.

The California State University, San Bernardino BULLETIN is published by the Public Affairs Office, AD 117, Ext. 7558. Items for publication should be received in writing by noon Tuesday.

Phi Kappa Phi Elects New Secretary

Dr. Edward Erler (Political Science) has won election as secretary of Phi Kappa Phi. He will serve in that capacity for the 1985-87 school term. The society president, Dr. James Crum (Natural Sciences), and treasurer, Dr. Carol Goss (Political Science), were unopposed for those posts and will remain in office for the next two-year term.

Atwell To Chair Special Programs

Dr. Margaret Atwell, assistant professor of education, has been selected to chair the Department of Special Programs in the School of Education. A member of the faculty since 1981, Dr. Atwell arrived from Indiana University where she received

her Ed.D. in reading. She has been serving as coordinator of reading and will become an associate professor in September. She succeeds Dr. Steven Wagner who completed his term and will return to teaching duties.

Prior to coming to Cal State, she was a visiting assistant professor and assistant director of the learning skills center at Indiana University. Dr. Atwell also earned her master's in reading at that school. She graduated from Marquette University with a B.A. in journalism.

As coordinator of the reading department she directed the 1983 annual Reading Conference which featured lectures by more than 50 specialists and attracted more than 400 educators and parents from throughout the state.

Professional Activities

Dr. Ernest Bernal (Education) gave an address "Assessment of Minority Gifted Children" and conducted a workshop "Assessment of Handicapped, Limited English Proficient Children" at the tenth Educational Conference at Eastern New Mexico University.

Drs. Charles Hoffman and Edward Teyber (Psychology) will present a symposium "Fathering After Divorce: to the Benefit of the Child" at the 1985 Fatherhood Forum in Santa Monica, June 15.

Dr. J. S. Johar (Marketing and Management Science) presented his paper, "The Effects of Fear Arousal through Threat/Coercion Versus Promise of Reward/Gain Types of Appeals in Advertising," at the 1985 Academy of Marketing Science Annual Conference in Miami.

Dr. J. S. Johar's (Marketing and Management Science) article, "Seasonal Segmentation of the Tourism Market Using a Benefit Segmentation," was selected the outstanding 1984 Journal of Travel Research article, by the Travel and Tourism Research Association (The International Association of Travel Research and Marketing Professionals).

Dr. Mireille Rydell (French) gave a presentation in French "Le Meroc hier et aujourd'hui" on June 5 to the Crafton Hills College French Department.

1985-86 Faculty Professional Development Grants

Dr. Margaret Cooney (Education) was awarded \$1,964 in release time to develop a curriculum and grant proposal in support of the new Rehabilitation Counseling M.A. program. Three new courses will be added and a major grant proposal will be made to the Rehabilitation Services Administration to generate resources such as faculty positions, supplies and student stipends.

Dr. B. H. Fairchild (English) received \$2,384 in release time and travel to research and write three articles relating to poet William Blake and 18th Century music.

Dr. Chris Freiling (Mathematics) was given \$1,964 release time to study the possibility of the existence of a mathematical object with topological significance. This award supports a summer research grant already awarded by the National Science Foundation.

Dr. Carol Goss (Political Science) won a \$435.80 award for travel to Sacramento to obtain direct information about legislators' activities. She will spend a day with each of the four area legislators during the budget debates. This will supplement videotapes collected during earlier visits which are used in classroom courses relating to the legislative process.

Dr. Joan T. Hallett (Mathematics) will receive \$2,369 in release time and supplies to support continued graduate work in statistics at the University of California, Riverside.

Dr. Dalton Harrington (Biology) was awarded \$2,700 for supplies and student assistance study and verify chemical compounds extracted from a freshwater alga which, in conjunction with other known agents, may interfere, reduce or eradicate certain cancers. Information gained from the studies will be published and is expected to provide a basis for eventual testing against human malignancies.

Dr. Paul Heckert (Physics) will receive \$3,964 in release time and travel to study infrared polarization properties of regions of active and ongoing star formation through observations on the 2.1-m telescope at Kitt Peak National Observatory. He also will be performing optical observations in support of a simultaneous study of Quasars, a long term monitoring project attempting to find out about their energy source.

Dr. John Heeren (Sociology) received \$910 to obtain clerical assistance to transcribe the remaining interview tapes of victims from the 1980 Panorama fire. The research gathered from these and earlier tapes, 60 interviews in all, will focus on the emotional and socio-psychological responses of fire victims.

Dr. Les Herold (Psychology) was awarded \$2,214 in staff time and travel to develop a set of guidelines for early identification of children who have been sexually abused and to provide identifying characteristics of children who have suffered such abuse but deny it or claim abuse but later recant their stories.

Dr. Charles Hoffman (Psychology) received \$1,964 in release time to explore how previous interaction affects men's behavior and response to children. Building on earlier studies, Dr. Hoffman hopes to assess the effects of children's gender and age in both an unstructured and a structured setting to determine men's responses.

Dr. Kimball Hughes (Mathematics) will receive \$1,964 in release time to collect data and develop theoretical means to prove results about certain number-theoretic properties of functions in combinatorial significance.

Dr. Vic Johar (Marketing and Management Science) was given \$1,964 in release time to develop and test self-image and multi-attribute models as predictors of consumer behavior for highly value-expressive or utilitarian products.

Janet Kottke (Psychology) was awarded \$1,964 to study student responses to gender-related, untitled job descriptions to test tenants of human capital theory and provide information about perceptions of jobs by students at earlier ages.

Roger Lintault (Art) was given \$2,514 for equipment and supplies to learn the shell-casting process for metal sculpture and to incorporate the procedure in sculpture classes at the university.

Dr. David Lutz (Psychology) received \$1,040 in release time and for equipment to study the emotional development of males and to examine males who have been victims of maltreatment and incest.

Dr. Theodore McDowell (Geography) was awarded \$934 for travel and registration fees to attend the 10th William T. Pecora Memorial Remote Sensing Symposium and tutorial workshop in Fort Collins, Colorado. The workshop will give participants hands-on experience using computerized geographic information systems.

Lance Masters (Marketing and Management Science) was given \$1,964 in release time to write the student, instructor and game administrator manuals for a textbook, Mansym IV, co-authored by Robert Schellenberger.

Clark Molstad (Management) won \$1,964 in release time to interview management and workers at the new, growing California Steel Industries facility to determine perceptions of productivity and factors which account for their high productivity rate.

Dr. Richard Moss (Economics) was given \$1,930 for supplies and student assistance in analyzing the earnings of Spanish-origin and nonspanish-origin males over the decade 1970-1980 to determine if earnings differences between these groups have changed and if so, by how much.

Dr. Walter Oliver (Foreign Languages) was awarded \$1,673 for travel to attend the Linguistic Society of America's Institute on "Linguistics and Literature, Speaking and Writing" as a visiting scholar, to be held in July at Georgetown University.

Dr. Stuart Persell (History) received \$1,964 in release time to continue a series of articles analyzing the works of several French biologists who taught at the Sorbonne and the Musee d'Histoire Naturelle between 1880 and 1920.

Dr. David Shichor (Criminal Justice) was given \$2,166 in release time and student assistance to study patterns of lawbreaking, personal background and how the justice systems handles the elderly offender. The results will be used for writing a research proposal for a large scale project.

Dr. William Slout (Theatre Arts) received \$1,964 in release time to continue his ongoing contractual commitment to Borgo Press to compile and edit 13 volumes on 19th century American amusements.

tracts and the university.
environmental education.

Dr. Darleen Stoner (Teacher Education) will receive \$2,451 in release time and travel to establish a Network for Environmental Sciences Training which will link environmentally related businesses, nature centers, school dis-

Dr. Lynda Warren (Psychology) received \$527 for a graduate assistant quarterly appointment to assist in her study of gifted women which was funded earlier by an off-campus grant.

Congratulations

The university community extends best wishes to Gayle Digioia (Health Center) who became Mrs. Gary Villavicencio on May 25. The couple are making their home in San Bernardino.

Congratulations also are extended to Catherine Livesay (Accounting Office) who married Brett Carlson on May 11, in Lake Arrowhead. They also live in San Bernardino.

Sympathy

The campus community extends sympathy to Carey Van Loon (Audio Visual) at the death of his father, the Rev. Howard A. Van Loon, who died in Pasadena June 4.

Personnel

CHANGE IN POSITION

Barbara Gilpatrick
Warehouse Worker, Physical Plant
Ext. 7754, PP 111
From: Custodian, Physical Plant

Employment Opportunities

(Applications will be accepted from 2 p.m., today until 2 p.m., June 28, except as noted)

ENROLLMENT SERVICES

Administrative Operations Analyst II--
\$11.63-\$13.99/hr.; part-time, temporary to April 30, 1986. Available immediately.

SHIPPING AND RECEIVING

Mail Clerk--\$1280-\$1511/mo.; full-time, permanent. Available immediately.

UPWARD BOUND

(not state position)

Physical Education Coordinator--\$14.33/hr.; half-time, temporary to Aug. 10, 1985. Available July 1. Apply by June 21. (repost)

1985 Summer Hours

Unless otherwise noted, facilities will be closed Independence Day, July 4; Labor Day, Sept. 2; and Admission Day, Sept. 9.
