Farwell Named Vice President

The university now has two vice presidents with the designation of Business Manager Leonard Farwell as vice president for administration and finance. The change in title was effective Oct. 13.

With the growth of the campus and his organization responsibilities, Farwell's previous title of business manager inadequately reflected the scope of his duties, President Anthony H. Evans said in announcing the change. "His new title will more accurately convey to all audiences the true nature of his division's responsibilities."

Farwell, the university's senior employee in years of service, joined the planning staff for Cal State, San Bernardino in June 1962, three years before the college opened. The campus' first and only business manager, he brought four years of budget and business experience in the University of California system. He had been assistant business manager at UC San Diego and budget officer at UC Riverside.

He established and still supervises the Accounting Office, Budget Office, Payroll, Personnel, Purchasing/Support Services. With the retirement of James H. Urata earlier this year, he assumed responsibilities for Plant Operations, Facilities Planning and Policy Coordination Office and the Department of Public Safety.

Farwell, who holds a B.A. from Antioch College and an M.B.A. from Stanford, was instrumental in bringing computerization to the campus' administrative offices. He personally studied different systems and equipment and became adept at operations and teaching others.

As treasurer of the University Foundation, he is responsible for all Foundation operations, which include the Bookstore and the Commons plus grants administration.

Vice President Farwell and his wife, Ellen, live in Riverside. They have a daughter, Patty, employed by MicroPro as product manager for Wordstar 2000, and a son, Paul, a graduate student in philosophy at Pennsylvania State University.

It's Official: 7444 Enrolled

The university has a student body of 7,444 for the fall quarter, a 14 percent increase over last fall, according to the official census date figures. The full-time equivalent (FTE) count for fall term is 5544.1, a 12.9 per cent increase over last year.

Outstanding Faculty Nominations Due

Nominations now are being sought for the campus' outstanding professor for 1986-87. Any member of the campus community --faculty, staff, students, alumni--may propose a candidate to the Outstanding Professor Selection Committee. Forms

must be submitted to the Faculty Senate Office by 4 p.m., Friday, Oct. 31.

Tenure-track professors of any rank and administrators holding faculty status are eligible for the honor of representing the campus in the CSU award competition. Teaching excellence is the primary criterion for selection, however, consideration is given to significant achievements in creative production, scholarly achievements in research and service to campus and community, explained Dr. Michael Weiss (Psychology), selection committee chair. Last year's campus honoree, Dr. Diane Halpern, was chosen one of the two outstanding professors in the CSU.

20 Faculty Offices To Be Occupied Soon

About 20 faculty members will be occupying their own offices beginning Monday, with moves to the five new relocatable units taking place next week. The trailers, secured on a temporary basis because of the surge in growth, are located north of the Student Services Building.

Plant operations tradesmen have installed ramps, connecting the new units to the existing temporary offices at that location. Electrical connections were being made this week, said David DeMauro (Plant Operations). Installation of telephones was delayed by a problem with a cable to the site.

Occupants of the new quarters, with phone extensions when available, are:

Community Counseling Center Provides Free Service

The Community Counseling Center, a service of the Department of Psychology, offers free counseling services to faculty, staff, their families and friends and members of the community at large, reminds Dr. Edward Teyber, director. The center is located in BI 129. Appointments may be made by calling 887-7272.

Confidential, free counseling services are available to individuals seeking help with personal problems. There are no openings for child therapy or marital counseling. The service is provided by graduate students in psychology, under the direction of qualified faculty members.

Mentor Program Meeting Tuesday

More than 50 faculty and staff will participate in the Mentor Program, which will have an informational meeting at 1:30 p.m., Tuesday, Oct. 28 in the SUMP. Any one interested in volunteering to assist is welcome, said Raul Valenzuela, project coordinator.

The Mentor Program is designed to provide a support system to enhance the educational experience of new, underrepresented students. Mentors will serve as role models, will provide information, will help provide access to services and will facilitate the bonding between the university and the individuals.
