Nursing Program Is Reaccredited for 8 Years

The university's B.S. program in nursing is being reaccredited for an additional eight years by the National League for Nursing, following an unanimous vote of the NLN Board of Review, Dr. Janice Layton, department chair, and

Dr. James D. Crum, dean of the School of Natural Sciences, reported today.

The accreditation decision was the culmination of a year-long process which included a thorough self-study by the nursing faculty, a detailed report based on criteria of the League and an in-depth, on-site visit by two League representatives last May. Dr. Layton attended the meeting of the Board of Review to observe the proceedings and to answer questions. Recommendations from the board will be sent to the university within four weeks.

Dr. Layton believes all aspects of the review were very favorable. Of the 36 criteria for accreditation, 33 were fully met. She expects some recommendations to be made on the three criteria. "This is a very good outcome. All programs receive some recommendations," she said.

Many people on campus were helpful when the accreditation team visited last spring, Dr. Layton said. She believes the campus input contributed in a positive way as the visiting team specifically mentioned the cooperation received from all of the university administrators who were interviewed as well as staff of the Library and the Admissions Office.

Dean Crum expressed the excitement of the entire faculty of the School of Natural Sciences over the extension of the accreditation. "Over the past decade, the faculty of the Department of Nursing have worked very hard to meet the needs of students at the baccalaureate level," he said. "This has indeed been a challenge because of the extremely diverse needs of these upper-division students. The nursing faculty have worked together to help the university implement a quality program. I can sincerely say that we are proud of them."

Equity Grant Applications Deadline is Today, Oct. 31

Applications for funds from the university's Equity Grants Program must be submitted to the Undergraduate Studies Office by today, reminds Dean Diane Halpern. The program is designed to encourage the

All full-time employees of the university are eligible to apply for a small grant under the program, which is funded for \$10,000, she explained. An ad hoc committee will review proposals and submit its recommendations to Vice President Robert Detweiler. The awards will be made by Nov. 28. Details on the application are available at AD 184.
