Sen. Proxmire To Speak Here

U.S. Senator William Proxmire, noted for his "Golden Fleece" awards for frivolous use of federal funds, will speak here Thursday evening, Nov. 8. In his public lecture, which begins at 8 p.m. in the Recital Hall, Wisconsin's senior senator will discuss "The Coming Crisis: America's Troubled Economy."

According to the National Taxpayers Association, Proxmire holds the best record in the Senate for the last four years for holding down spending. He is the ranking minority member of the Senate Banking, Housing and Urban Affairs Committee and a member of the Appropriations Committee and the Congressional Joint Economic Committee.

First elected to the Senate in 1957, Senator Proxmire holds the longest unbroken record in the history of the Senate for answering roll call votes. He has missed none of the 8800 votes recorded since April 1966. Proxmire also is known for his stance on campaign contributions. In his last two campaigns for his Senate seat, he accepted no contributions and spent only $323.

Proxmire, who earned a B.A. from Yale and two master's degrees from Harvard, has written six books: Can Small Business Survive?, Report from Wasteland, America's Military-Industrial Complex, Uncle Sam: Last of the Big-Time Spenders, You Can Do It and The Fleecing of America.

Tickets are $5 in advance and $6 at the door for general admission; $3 in advance and $4 at the door for students. Advance tickets may be purchased at the Student Life Office, SS 122. The lecture is sponsored by the Special Events and Intellectual Life Committees.

Radio KSSB Now Broadcasting

The university radio station, KSSB, is now in operation, sending its signal via Chambers Cable company into northern San Bernardino from 11 a.m. to 2 p.m., Monday through Friday.

The signal is sent by phone lines to the cable company, which transmits it at 106.3 on the FM band. On campus, the station can be received in the Student Union, Serrano Village and Audiovisual Services.

Station Manager John Cloud said the programming now is basically jazz, folk and blues and "will ease into light guitar rock." Programs being carried include Radio Sweden International, a transcription service featuring news, information, culture and music from Sweden, and Dimensions in Science, a 15-minute recorded program produced by the American Chemical Society. The Swedish radio program, transcribed in English, is heard on Monday, Wednesday and Friday. The science program is aired Tuesday and Thursday.

The station also is broadcasting concerts and recital by faculty, students and other artists, which were recorded earlier by the Department of Music.

Academic Decathlon Needs More Judges

Additional interview and speech judges are needed for the San Bernardino County Schools' Academic Decathlon, which will be held on campus Saturday, Nov. 15. The time frame for the volunteers will be approximately 7 a.m., when the judges' orientation will be held, to about noon. Approximately 200 high school students from throughout the county will participate in the annual competition. More information on helping with the event is available from Bobbi Simenton at the County Schools Office, 387-3147, or Anita Rivers, Ext. 7608.
TGndGr Fsmily Drsma ‘Tender Family Drama’ initiates season

Diann Matheson, lecturer in theatre arts, directs the story of David, who has retreated to an island after his wife’s tragic death. Worried about him, his family reintroduces David to an old friend. Together they share laughter, pain and emotional rebirth.

The play will tour to Victor Valley College Dec. 3 for a performance at 8:15 p.m. in the Performing Arts Center. The VVC Drama Department presented a play here last year.

Tickets are available at the Theatre Arts Department for the season or for the fall presentation.

Staff Elected Two staff members have been elected to represent their areas on the University Planning Advisory Council (UPAC). They are: Catherine Carlson (Purchasing) representing administration and finance and Joanna Roche (Alumni Affairs) representing university relations.

UPAC was formed to advise on major planning needs, goals and activities at the university. Membership includes five faculty, four staff representatives, three students and four administrators. Leonard Farwell, vice president for administration and finance, chairs UPAC.

Commons Scheduling May Require Clarification Kathy Beemer, who is responsible for scheduling use of campus facilities for events and activities, says departments who earlier requested use of the entire Lower Commons should check the availability of the Sycamore Room with her. Because that space was completed during the summer, it was not on the earlier records as an available room. Departments wishing to include the Sycamore Room in their plans should check with Ms. Beemer to make certain it is available. It is being booked for weekend classes and other events. The Event Scheduling Office extension is 7400.
