Contract Awarded For Bookstore

A \$414,800 contract was awarded this week to Oakview Construction, Inc., of Yucaipa, to increase the size of the Bookstore by approximately 40 percent. The firm was the lowest of six bidders.

Construction on the two-story, 3863-square-foot addition is expected to begin in about two weeks, said William Shum, facilities planner. Completion is scheduled for early December. A ground-breaking ceremony will be held Friday morning, April 24.

The upper floor of the addition will be an extension of the Bookstore and will permit expansion of the services provided to the growing student body. The lower level, set in the downward sloping terrain, will contain five classrooms to be used by Extended Education. The configuration of the classroom level calls for one major size classroom, three medium size and one small, plus restrooms.

Two other campus projects are expected to go to bid in April. One is the Serrano Village Multipurpose Room, to be built as an addition to the pool area. The 1536-square-foot room will have an adjoining small kitchen. Occupancy of the addition, to cost about \$100,000, is set for September. The other is an additional 400-space parking lot, located between Serrano Village and the existing smaller lot at the front entrance to the campus. Working drawings have been completed and approved is awaited from the Chancellor's Office, which administers parking lot construction. The target date for completion also is September.

Personnel Needs Latest Information

It isn't that the Personnel Office is nosy--it's their business to know the latest about all employees, explains Marjorie Callaghan, benefits officer, in urging everyone to remember to update their personnel file with the current information.

Some of the critical information she needs includes:

- * Current designation of person authorized to receive warrants (pay checks), a Form 243;
- * Up-to-date designation of the beneficiary to receive PERS retirement, life insurance, disability insurance, deferred compensation, tax sheltered annuities;
- * Correct address, phone number, marital status;
- * Name and phone of private physician (not the medical center) to be called in case of an emergency.

"All of this information could save your loved ones a lot of inconvenience and expedite your wishes, in the event of a major catastrophe or your death," explained Mrs. Callaghan.

She also reminds all employees currently covered by the Blue Shield-State Wide Service Plan that this insurance coverage has been cancelled by the state effective July 31. "You will be without medical coverage as of Aug. 1, if you do not enroll in another plan during this special open enrollment period." (The Blue Shield Preferred Provider Plan is still a valid program and should not be confused with the discontinued plan.)

Next Tuesday, April 7 is the last day to enroll in the new vision care plan in order to receive coverage on May 1. Eligible employees who enroll after April 7 will have a June 1 start date. (New employees have 60 days from beginning of employment to decide.)
