THE BULLETIN

California State University, San Bernardino

President Stresses Goal Of Being Regional University

President Anthony H. Evans reiterated his primary goal of producing a regional university noted for service, when he opened the university's 23rd year last Monday.

"A university's service, though primarily instructional in nature, takes many forms," he told faculty and staff attending the all-campus convocation in the gymnasium.

Achievements of the past four years give him "unbridled optimism" in assessing the present state of the university.

"System executives in Long Beach describe our campus as one of the two best-managed universities in the CSU. The state auditors concluded their work this spring with the commendation that our financial records were the best of any state agency they'd seen in the past eight years," he said.

The president urged continued support for the four major goals he set on his arrival on campus four years ago. They are:

1. Emphasize outreach activities in order to serve all qualified students in the area. Dr. Evans expects enrollment growth to continue at about 8 percent annually, despite the new CSU admissions standards for next fall and the university's adoption of a new one-for-one credit plan a year later.

2. Accelerated efforts to achieve more breadth and depth in the curriculum. Tentative approval has been received from the Chancellor's Office to develop new bachelor's degree programs in geology, physical science, leisure industry management and legal studies and new graduate programs in social work, computer science, accounting, art, humanities, communication, mathematics education and educational administration.

3. Revitalized student life. Saying the university's purpose is not merely to generate learning and train students for careers, he stressed the education and nurture of emerging leaders. The new comprehensive student development model will serve as a blueprint for much of the effort. He also said large segments of the university community must be mobilized to increase student retention.

4. Strengthened relationships with external audiences. Institutional advancement efforts seek to develop support, both sustained goodwill and financial, for the university.

The growth of the region translates to opportunities and challenges for the university. The area will need hundreds of new teachers--better prepared and more sensitive to the special needs of ethnic

Continued on page 2

New Faculty Bring Diversity to University

The more than 60 new faculty added to the university's ranks this fall represent a full range of educational, professional and personal experiences.

A Chinese table tennis champion, the first faculty members in geology and industrial technology, two more professors with law degrees, a former national sales manager for Lufthansa Airlines, a man who once owned a supermarket in Texas and specialists in international business, robotics, fiber optics, tourism and travel and investment analysis will add richness to existing programs or help the university to develop new ones.

The 59 tenure-track positions are spread among the schools with Business and Public Administration and Education each receiving 15. Natural Sciences has 11 new positions, Social and Behavioral Sciences nine, Humanities eight and the Library one.

Two deans are not only new to their positions but also new to the campus this fall.

Dr. Aubrey Bonnett, dean of the School of Social and Behavioral Sciences, came from the City University of New York, where he was chair of the Department of Sociology at Hunter College.

Dr. Sidney Ribeau, formerly chair of the Department of Pan American Studies at Cal State, Los Angeles, is the new dean of undergraduate studies.

Nine faculty members, lecturers last year, also received tenure-track appointments.

President's Convocation

Continued from page 1
populations. The university could work toward improving the quality of life by becoming a cultural force for change and enlightenment. The university should be a major asset to regional economic development, he continued.

"The most recent revision of the State Master Plan for Higher Education trumpeted the need for universities such as ours to help solve key social problems. I urge our faculty to respond to this challenge. More of our research and grant activity should concentrate on our region's most pressing problems including the persistence of poverty, crime, unemployment, the homeless, youth gangs, drugs, school drop-outs and the economics of health care."

Teaching will continue as the university's paramount function; however, it must respond to other challenges as well. "That is the nature of a comprehensive regional university. Our destiny will depend in large measure on how we respond to these challenging opportunities."

Quoting Alfred North Whitehead, he said, "the careful shielding of a university from the activities of the world around is the best way to chill interest and to defeat progress. Celibacy does not suit a university. It must mate with action."

Achievements Produce Pride

Accomplishments cited by President Evans as demonstrating the university's new vitality and quickened tempo include:

- * Extraordinarily high quality of faculty and staff,
- * Increased numbers of women and under-represented minorities,
- * Improved service to the region--for example, the Coachella Valley Center in Palm Desert and the National Security Studies program in the High Desert,
- * Unique General Education program which stresses the liberal arts, provides broad perspectives, develops critical thinking and includes the contributions of women and minorities in all disciplines,
- * Enrollment growth of 60 percent in five years,
- * Dynamic Communication Department and

programs in industrial technology and rehabilitation counseling,

- * Progress of the intercollegiate athletics program, including a golf team ranked fourth in the nation in NCAA Division III,
- * Growth of 30 percent per year for five years in the extended education program,
- * Five-fold growth in grants received, more than \$2 million in each of the last two years,
- * New construction, including addition of Faculty Office Building,
- * Acquisition of several million dollars of new equipment,
- * Student scores on CPA exams twice ranking the university among top 10 campuses in the nation,
- * Dramatic rise in CBEST scores--from 17th in the 19-campus CSU system to among the top three today,
- * Membership in support groups increasing from 100 to more than 1000 in five years,
- * Cash contributions up nine-fold in same period,
- * 95 educational-cultural events on campus last year,
- * Development of traditions such as sororities and fraternities, summer concert series, homecoming and all-campus barbecue.

Accounts Payable Staff Moved to New Location

The Accounting Office staff who handle travel claims and accounts payable have been relocated from their cramped quarters in AD 113 to the former Foundation Office, AD 108. Questions about either procedure should be directed to the staff--Ronnie Hosier, Shannon Kelley and Carol Poindexter--at their new phone number, Ext. 7793.

New Student Trustee Named

A senior civil engineering major from Cal Poly, San Luis Obispo, John F. Sweeney, is the new student trustee on the CSU Board of Trustees. He was appointed by the governor.

The California State University, San Bernardino BULLETIN is published by the Publications Office, AD 117, on the first and third Fridays of each month. Items for publication must be submitted in writing by the prior Friday. Edna Steinman, Editor (Ext. 7814) Vol. 22 No. 2

Sabbatical Leaves Available For Winter, Spring Quarters

Because of faculty resignations and changes in plans, the Academic Personnel Office unexpectedly has sabbatical leave funds available for winter and spring quarter of the current year, Associate Vice President J. C. Robinson reports.

Ten copies of the application form plus a description of the proposed project must be submitted to the Academic Personnel Office, AD 109, by Thursday, Oct. 1.

Eligible faculty and librarians have another week, until Oct. 9, to submit their documentation for sabbatical or difference-in-pay leaves for the 1988-89 academic year.

Funds also are available for the Affirmative Action Faculty Development Program. This educational equity program is designed to assist faculty and librarians who have demonstrated the potential for successful academic careers in meeting the qualifications for retention, tenure or promotion. Deadline for applications for these grants, which will be used during winter and spring 1988, is also Oct. 9.

New Department Focuses On Information Sciences

The new Department of Information and Decision Sciences, created this fall, recognizes the computer-assisted educational needs of future business managers.

Dr. C. E. Tapie Rohm, Jr., chairs the new entity, which was spun off from the former Department of Marketing, Management Science and Information Management. Dr. Lance Masters continues as chair of the Department of Marketing and Management.

The increased focus will help meet the needs of students who will be the information managers of the future, explained Dr. David O. Porter, dean of the School of Business and Public Administration.

"We are stressing the information management elements on the premise that more work will be done (in the business world) with computers but not by 'computer experts,'" he added. "More people will be using computers not only for word-processing but also for communication and information storage and update. We are bringing that emphasis to

our new department."

The office for Information and Decision Sciences temporarily is located in AD 139. The phone there is Ext. 7533. Dr. Rohm has moved to AD 198 and his number is Ext. 7834. The secretary, Renee Kastner, will move to the adjoining office after the current occupant has relocated.

Want to Learn About Another Culture Without Leaving Home

If funds for international travel aren't in your budget this year--but you'd still like to experience the stimulation of another culture, the International Student Services Office has a proposal for you.

Be a host to one of our foreign students, invites Jeanne Hogenson, program director.

"A host family could act as a surrogate family for the foreign student new to the United States," she explained. The student could be helped with simple tasks like finding an apartment, opening a bank account, getting a driver's license or an identification card.

The needs of each student would differ throughout the year. "But, I hope host families would welcome the students to holidays in their homes and assist them to learn about the American culture."

Further information is available from Mrs. Hogenson at Ext. 7662. The university expects about a hundred international students this year.

Three Dates Left In Open Enrollment

The Personnel Office will accept applications for changes in employees' health benefits programs on three more Thursdays before the annual open enrollment period closes. Employees wishing to make changes must take their worksheets to Personnel, SS 151, on Sept. 24 or Oct. 1 or 8.

Congratulations

to Lorraine Gorski (Computer Center) and Jerry Frost on their marriage Aug. 25 in Phelan. Their home is in Phelan.

Training Coordinator Brings New Resources to Personnel

When Dee Thomas joined the Personnel Office Sept. 1, she began planning training programs to be implemented on campus.

Officially designated as a personnel management specialist II, Ms. Thomas functions as the staff training coordinator.

One of her strengths, coming from five years in industry, is in performance appraisals. She will prepare workshops to help campus supervisors do a more effective job with evaluating subordinates.

Ms. Thomas came to Cal State from Unisys (formerly Burroughs) in Laguna Hills, where she was a senior human resources representative and worked with training, performance evaluation, salary administration and the out-placement activity created by the company merger. Earlier she was a personnel assistant with American Zettler in Irvine.

In her free time, she enjoys sports, creative writing and drama. She is deeply interested in the problems of battered individuals and volunteers time to talk to women in the shelters about employment opportunities.

She earned her B.A. in Russian literature from UC Irvine and her M.S. in human resources management from Chapman College. She has been a substitute teacher in elementary classrooms in Orange County for four years. She will continue to commute from her home in Irvine.

Cal State Associates Host Ice Cream Social for Campus

A special welcome will be extended to the entire campus community by the Cal State Associates at an ice cream social Sunday afternoon, Oct. 4.

Newcomers to the campus are urged to take this opportunity to acquaint their family and friends with the university, said Lorraine El-Ahraf, program vice president.

Ice cream will be served from 2 to 5 p.m. in the Lower Commons Plaza. The admission fee of \$2 for adults and \$1 for children will provide ice cream and an array of toppings plus cookies, punch and coffee.

Tram tours of the campus also will be

available from 3 to 5 p.m. Reservations are not required. Further information is available from Pam Dortch (Children's Center), president of the Associates, Ext. 7725, or Mrs. El-Ahraf, 882-1840.

Community Counseling Center Provides Free Service

The Community Counseling Center, a service of the Department of Psychology, offers free counseling services to faculty, staff, their families and members of the community at large, reminds Dr. Ed Teyber (Psychology), director.

The center is staffed by graduate students in psychology, who work under the direction of qualified faculty members. The initial interview is conducted by Dr. Teyber, who then assigns the individuals seeking help with personal problems to the appropriate counselor. There are no openings for child therapy or marital counseling.

The center is located in PS 129. Appointments may be made by calling 887-7272.

Volleyball Champs Seek Repeat in Tourney

The women's volleyball team, described as a powerhouse in southern California, will defend its title in the third annual Soroptomist-CSCSB Intercollegiate Volleyball Tournament Saturday (Sept. 19) on campus.

Pool play begins at 8:30 a.m., with the tournament rounds starting at 2 p.m. The championship round is set for 7:30 p.m.

Competing Saturday are teams from Christ College, Pacific Christian, California Baptist, Point Loma Nazarene, Master's College and Mt. St. Mary's.

In the Whittier College tourney last weekend, the Coyotes finished second for a season record of 6-2. The squad, coached by Naomi Ruderman, has six players back from its 1986 NCAA Division III Western Regional champions.

Community Service

Dr. Derk Bruins (National Security Studies) talked to the San Bernardino Rotary Club Sept. 9 on "U.S. Foreign Policy in the 1990s."

Dr. Robert Detweiler (Academic Affairs) has been named to the Contracts Committee of the Arrowhead United Way. He also serves on the Executive Committee and chairs the A UW's Policy Committee.

Dr. Mildred Henry (Education) spoke to the San Bernardino County Public Health Nurses July 24 at the Norman Feldheim Library on "Community-Based Educational Support Systems." She also was a guest panelist on "Women's Issues" on the Cecil Johnson Show Aug. 5 on radio station KCKC. Dr. Henry spoke about "Education and Employable Skills" for the San Bernardino West Lions Club at the Hispanic Chamber of Commerce Aug. 27.

Dr. Lance Masters (Marketing) was appointed by the Riverside City Council to a two-year term on the city's first Mayor and City Council Salary Commission. The commission will make recommendations to the council regarding salaries and benefits for the mayor and council in even-numbered years.

Dr. Jan-Hendrik A. Vroom (Marketing) presented a tourism marketing plan to the Board of Directors of the Inland Empire Tourism Council July 28 at Claremont.

Newsletter of Faculty

Activities to be Launched

A quarterly publication containing faculty research and professional activities will be published by the Office of Academic Affairs, Associate Vice President J. C. Robinson announced.

Co-editors will be Dr. Robinson (Academic Personnel) and Sid Kushner (Sponsored Programs). The first issue is expected about the end of September.

The journal will contain abstracts of research in progress, innovations in teaching, news on grants, resources for research and teaching, faculty professional

activities including books, articles, reviews and poetry published, papers read, awards, honors and fellowships and letters to the editor.

It will be distributed to all faculty and selected administrators on campus.

Bulletin No Longer Will Carry Faculty Professional Activities

To avoid duplication of efforts with the publication described above, the Friday Faculty and Staff Bulletin will no longer carry professional activities by the faculty. These items should be sent to Dr. J. C. Robinson's office, AD 109.

The Bulletin continues to seek items about professional activities by staff for publication, said Edna Steinman, editor. Community service items from all employees will continue to be published.

The Bulletin has regarded as professional those activities conducted with one's peers (i.e., faculty to faculty, others in the same professional group or persons of similar levels of expertise). Working with community groups, youth groups and speaking engagements in the community, for example, have been considered for the Community Service column.

Because of space limitations, the Bulletin does not publish items about individuals attending meetings; they must be active participants (presiding, moderating, presenting papers). Election to an office in an organization is newsworthy and will be published. Questions about placement of items can be directed to either editor.

Congratulations

to Denise Benton (Upward Bound) and Michael Benton (Custodial Services) on the birth of their first child, Kimberlee Lorraine, Sept. 11. She weighed 7 pounds 2.5 ounces.

to Ron Rodriguez (Computer Center) and his wife, Valerie, on the birth of their first child, Ron, Jr., Sept. 13. He weighed 7 pounds 13 ounces.

to Esther Summers (Records) and her husband, David Chris, on the birth of their first child, Curtis Mitchell, Aug. 31. He weighed 8 pounds 14 ounces.
