Community-based Art

Community-based Art is an approach to making, teaching, and learning art that directly engages community through collaboration and mutual learning.

Students facilitate art classes and programs in local community sites that otherwise have little or no access to art. Throughout this initiative, students examine the ways that social, cultural and economic forces impact access to and understandings of art.
We at CBA/PAC discussed the importance of language used to describe who we are and our work, including the importance of people-first language.

CBA/PAC Participants Include:

- Youth and children at-risk
- Seniors in low-income housing
- Persons who are incarcerated
- Individuals who are homeless
- People with disabilities
CBAPAC Teaching Artists & Teaching Interns Include:

- CSUSB undergraduate art students
- MFA students
- CSUSB alumni
- Local volunteers
- Guest artists and writers

A University and Prison Collaboration

*Community-based Art: Prison Arts Collective* is dedicated to collaborating to facilitate creative arts and writing in prisons. We are committed to supporting the development of self-expression, reflection, communication, and empathy.

We believe in the capacity of art to expand make a difference in how we see and understand ourselves and the world around us.

We currently facilitate weekly programs in three California state prisons: California Institution for Men (CIM), California Institution for Women (CIW), and Los Angeles County State Prison, Los Angeles County (LAC). Currently, we have approximately 140 inmate participants in these weekly programs.
“I was surprised that even though I didn’t think I had any talent the teachers bring it out of me & make me feel like I can do anything if I apply myself.”- Class Participant, California Institution for Women (CIW)
