Solons Make 'Political Hay' of Fullerton Play

by Rene Jacober
ASSOCIATE EDITOR

Interesting questions have arisen in connection with last quarter’s presentation of the play, "The Beard" at Cal-State Fullerton. These questions relate both to what is acceptable study and entertainment on the college campus and to what extent the state legislature interferes with such academic productions.

The play was conceded to have contained so-called unacceptable materials; however, the ASB and the Fullerton drama department defended it. They contend that the play was of experimental nature and fundamental to the educational process.

At the present time, state senator James Whitemore (R-La Habra) is engineering an upcoming investigation committee designed to tax-payers money researching "The Beard." It is "a prime example of political interference in the primary purpose of making political hay in conservative Orange County specifically and in the state generally.

The student senate at Fullerton stated that the play, however shocking to a few of those who attended, has been presented previously at at least four major California public and private college and university campuses.

The senate also condemned the political interference involved in state censorship on campuses of tax-supported institutions which presents a dangerous threat to the principles of artistic liberty and academic freedom.

John Briggs (R-Fullerton) has stated "that the state legislators cannot come in here to make the law for two college administrators throughout California who disclaim authority to act."

He added that the person responsible for the production of "The Beard" is not a tenured faculty member and could easily be dismissed. This also raises an interesting point: if legislators are allowed to intimidate teachers in the educational system, then the teacher will never be an integrated part of the system. They will educate in fear of transgressing established conservative boundaries.

TRUSTEES APPROVE RECORD BUDGET

A record 1968-69 support budget for the 18 California State Colleges has been approved by the State College Board of Trustees.

Totaling nearly $300 million, the budget represents a 23.3% increase over the state general fund allocation for the current year.

Chancellor Dumke said the proposed budget foresees "a record enrollment of 197,190 students at the 18 operating campuses."

Exclusive of additional financing, the budget for CSCSB totals $3.1 million, an increase of 22.8% over 1967-68.

S.F. State and Berkeley Have No Monopoly on Involvement; Cal-State Has Possibilities Also

by Bob Morales

"The only thing necessary for the triumph of evil is for good men to do nothing." Remember those words? John F. Kennedy did. Carry them with you as you walk the halls of academia.

Ten thousand miles away, a million Americans fight "for freedom." When the last shot is fired and the smoke has cleared, someone will have to answer for the dead. And here at home, in the streets of our cities, we are faced with the real possibility of a civil uprising. With the passing of each day the lines of confrontation are delineated even more sharply, and opposing groups harden into their respective positions. As students become more advent in their demonstration, the task of the Regents is to administer the principles of artistic liberty and academic freedom.

Assembly Speaker Jesse M. Unruh last week labelled the report of the special University of California Regents' committee to recommend a $156 yearly increase in student charges "a hypocrical bow of obedience to the Reagan administration."

"The decision of the committee (as reported January 11 in the Los Angeles Times) would have the effect of making the expensive public university in the University of California the fifth country, the State University of most costly public university to New York, now charges $500.

This is the theater of the United States will be, and the Regents are watching the tuition and fees exceeding the budget figure they are asking for. If this report is adopted by the Regents' committee, only the dully believes that by proposing for State University of New York, this 64 percent increase in tuition and Pennsylvania administration will be pacified University will have combined and will give the Regents the tuition and fees exceeding the budget figure they are asking for. The Times story reported that placed," Unruh said. "The result of this administration over the past twelve months amply would bring average student the tuition and fees exceeding the budget figure they are asking for. The Regents should honestly resist such action without having to resort to last-minute, ineffective expedients designed to give certain politicians a momentary victory."

Ed. Note: Student Bob Morales has definite ideas about student involvement. A profuse and honest writer, Morales contends that Berkeley and SF do not have a monopoly on action and involvement. --PS

Unruh: University Fee Proposal a 'Bow' to Reagan

Assembly Speaker Jesse M. Unruh said last week that the Regents have recommended a $156 yearly increase in student charges "a hypocrical bow of obedience to the Reagan administration."

"The decision of the committee (as reported January 11 in the Los Angeles Times) would have the effect of making the expensive public university in the University of California the fifth country, the State University of most costly public university to New York, now charges $500 for student fees.

If this report is adopted by the Regents' committee, only the dully believes that by proposing for State University of New York, this 64 percent increase in tuition and fees exceeding the budget figure they are asking for. If this report is adopted by the Regents' committee, only the dully believes that by proposing for State University of New York, this 64 percent increase in tuition and fees exceeding the budget figure they are asking for. **Goodyear Recruits on campus Tuesday**

The College's 1968 recruiting season will get underway Tuesday when Goodyear Tire and Rubber Co. representatives visit the campus.

Doyle J. Stansel, Director of Placement and Financial Aid, reports that seniors interested in exploring career employment opportunities with Goodyear are invited to schedule an interview time before noon Monday.

Seniors, regardless of major, are encouraged by Stansel to become familiar with the services of the College's Placement Center.

**Far Country' Cast Named; Drama Dept. to Present Four Performances**

The College Drama Department has announced the cast for this quarter's production, "The Far Country," by Henry Denker. Based on the actual events in the life of Sigmund Freud, the play will be presented in the Little Theatre, C116, at 8:15 p.m. on February 16, 17, 23, 24.

Two faculty members, Joseph Laub and Clark Mayo, will join the cast of eight students, directed by Jed Horner of the Drama Department.

Also named in the cast are Brenda Axtell, Jack Conner, Burton Hendrickson, Charlotte Elder, Vicki Straus, Dottie Roberts and Leslie Sternberg.

CSCSB drama veteran, Don Blair, a senior, will play the lead role of Sigmund Freud.

**Festival in Solvang' Movie at City Library Tonight**

Three films will be shown tonight at the San Bernardino City Library, 401 N. Arrowhead.

"Festival in Solvang" shows how a California city celebrates its Danish heritage. "The Sixty Minute Circle" is about urban growth in relation to the transportation revolution from the Atlantic to the Pacific.

The third film, "Helen Keller in Her Story," tells of the life, achievements, and methods of this remarkable woman who is mute, blind, and deaf.

Showtime is 7:30 p.m. sharp, admission is free, and everyone is welcome.

**Another Car Rallye? MEC Promises Encore**

The Motor Enthusiasts at Cal-State held its first rallye of the year on December 2 and reports plans are now underway for this quarter's attempt at boggling your mind and tuning on your perceptive faculties.

The first rallye of the year in December was considered a success; there were 15 entries. But club officials say the turn-out was good, considering the other activities slated for the same night: a drama presentation and numerous CIF football games.

Ken Harper, club president, says the next rallye will take a bit more skill on the driver's and navigator's part and added that the club has not yet decided if the rallye will be "navigational" or "average speed." It might be helpful, Harper noted, that potential drivers "bone up on their arithmetic or learn the basics of the slide rule."

The Fall rallye was won by two UCR students, driving (of all things!) a Renault. It is interesting to note that of the four "true" sports cars entered, not one was able to finish in the required time and only one, a snappy red Porsche, was able to finish at all. "It is not always the car that wins," Harper said "but the driver."

Involvement

continued from p. 1

and to be taken seriously as human beings, authorities escalate the possibilities for retaliation, e.g. the naming of "riot control" squads, as beating up of police forces form college campuses and so on. Is all of the previous too remote for you? It may only seem so. Three years ago when CSCSB first opened, I was impressed with the cleanliness, the neatness, and the serenity on the campus. Civil disorder, international strife, and countless good citizens I*as discharging my duties as a student, and faithfully voted in every election. And things got better, I thought. After all, I was discharging my duties as a good citizen. I worked, attended school, and faithfully voted in every election. And things got worse.

And my fellow students, by and large, reflected the same sensations. We were the chosen few. Sunday, with degree in hand, we would step out into the world and take our stand against poverty, ignorance, and disease. Yes, I cheered for Martin Luther King and cried when Kennedy was shot. I enjoyed the air-conditioned classrooms paid for by taxpayers' money even though millions of those taxpayers were black Americans still can't live beside some of us, but they sure do fight for freedom in Vietnam. Is that still too remote for you?

If you think that themes, term papers, and tests are what school is all about then you are cheating yourself. If "education" is simply enriching your mind but not getting to you at the gut-level then you are cheating yourself. If "education" is qualified to present a valid and responsible opinion.

The Scene

MONDAY, Jan. 22
Soph Class Meeting L 114 at 7:00 a.m.

TUESDAY, Jan. 23
MEC PS 104 at 10:30 a.m.
Theta Mu PS 207 at 10:30 a.m.
Theta Psi PS 102 at 10:30 a.m.

Beginning this term, the College Master Calendar will be kept in the Activities and Housing Office. All campus organizations requesting meeting rooms, event facilities, or further information should contact this office, room L-122, extension 264.

WEDNESDAY, Jan. 24
Activities Comm. Meeting at 11:30 a.m., L-114

THURSDAY, Jan. 25
Senate: 2:30 to 4:30, L-114

FRIDAY, Jan. 26
Frosh Cabinet meeting L-114 at 8:00 a.m.
W. C. Fields "classic shorts" 7:30 p.m. in PS 10

SATURDAY, Jan. 27
"Backwards Dance" at 8:00 in Cade (to midnight)

The Beard continued

The Pawprint that he will send a letter to Fullerton commending the ASB's action and the college's.

Senator Whetmore, however, has also stated that "I've talked to three persons who attended the play and am convinced it was pornographic.

"Because Whetmore is rapidly losing interest and talked to three of the 600 who have attended the play, we rest assured that he is qualified to present a valid and responsible opinion.

LIGHTING SYSTEM PAINFULLY INADEQUATE

As CSCSB grows, we like to sit back on occasion and poke fun at some of the things that go on around campus by way of discussing the effectiveness of new buildings, or say, renaming the atom-in-motion.

However, it is not in jest when we must present a situation to the college community which calls for immediate attention.

For the past few weeks, we have observed the students attending night classes using flashlights to light their way to and from the new buildings. Some of these students are regular day students, others can only attend during the evening. Some of the comments that have been overheard about the lighting system from the night students are pertinent and worth consideration.

We feel it is imperative to note that a potentially dangerous situation faces the campus and should be dealt with as soon as possible. The lighting system on the walkways to the new buildings is really painfully inadequate.

CSCSB is located in an area abounding in wildlife; in the summer, the deer feed in the PE area, coyotes chase jackrabbits across the lawn, and as veterans of last year can consider, the new buildings is really painfully inadequate.

The job of gathering has been considerably facilitated by the erection of a yellow blinking light on kendall last year which warns drivers to slow down about 20 mph to 85 so that they can get a better look at the degenerate college crowd - and perhaps a riot. This enables the information gatherers to spend less time looking for parts of cars and drivers that otherwise would have been scattered great distances. More time can thus be spent in the study of them. Meanwhile, cscsbs can assure everyone that its new invention, called "the nightstick," will not get into the college's readily available resources.

The intersection of state college parkway and kendall drive provides a natural laboratory for the study of high speed vehicular collisions and the resulting effects on passengers. All that is needed is an interested group to gather and interpret the available data.

The new road leading into the college community which calls for immediate attention.
