FROM OUR PUBLIC

We quote from a letter received by Dr. DeRomer: "My sister sent me a newspaper picture of you and coed Linda Leutcke and Mascot Hamilcar Barca. . . . I was curious about the name, as I was "Barca" before I married. My parents were from Switzerland, near Locarno, and I remember meeting a cousin there whose name was Amilcar Barca. Are you descended by any chance from that family or how did you happen to choose that name? Just curious as we have few relatives here on the Barca side of our family. Sincerely, Zilda Barca Pollard."

COMING EVENTS ON CAMPUS

Gordon Cologne, from the 37th Senatorial District, will be on this campus at 9:30 am, Friday, February 10. If the weather permits, Mr. Cologne will speak and answer questions in the Mall; otherwise in the cafeteria.

The Class of 1970 will be taking orders all next week for carnations — another effort to raise money for the picnic grove. Single carnations with enclosure cards will sell for $.50 — delivery on February 14 and 15.

Alec Guinness in "The Promoter" will be shown in C-116 at 8:15 pm on Friday, February 10. This movie, sponsored by the Committee for Lectures and Public Affairs, is open, free, to all members of the campus community.

On Tuesday, February 14, another in the NOON SERIES of programs will be presented. John Goddard will talk and show his own film, "Congo Conquest."

PLAN NOW FOR YOUR HOLIDAY

Since Sunday, February 12, 1967, is Lincoln's birthday, the following Monday, February 13th, will be observed as a State holiday. It will be an Academic-Administrative Holiday on this campus.

SUMMER IN INDIA

A hasty memorandum from the Committee on International Exchange of Persons announces that the previously cancelled "1967 Summer Institute in Indian Civilization" has been reinstated. Round-trip travel to India will be awarded to fifteen grantees; living expenses during the eight weeks in India and en route must be supplied by the grantee. Applications are due in Washington by March 1. Further information available from Dr. Peter Marcy.

LIBRARY NOTE

The Library now has the twenty-six volume set of the Hearings Before the President's Commission on the Assassination of President Kennedy. The call number is E 842.9/ A 54.
SOMEBODY HERE LIKES US

Dean Scherba has distributed the tabulated results of a student questionnaire which last year's students filled out. It is interesting to note that the students supported with great enthusiasm some of the distinctive aspects of this school such as "class size," "3/3 Plan," and the Library. They were less than enthusiastic about the "College Reading Program" and the "General Studies Program." Most of the students who responded were glad they had come, would recommend it to their friends and planned to return the next year.

FACULTY SPORTS

The Prime Minister of Canada has suggested two new athletic events specially designed for members of Parliament, but also suitable for college professors: "Throwing the briefcase," and "The five-yard walk."

CSEA NOTE

Fred Cordova (Physical Plant) requests that all CSEA members who have not received their current 1967 membership cards, please contact him immediately.

PICK YOUR FAVORITE

These are the teams that comprise the State College Bowling League:
T.J. Peons, Ivy Leaguers, Two Thorns and a Rose, Who Knows, Mel-Vi-Kens, and Team No. 6.

This week's high games were won by Dorothea Floyd, 160; Fred Cordova, 199. Winners of the high series were Raquel Lopez, 360 and Fred Cordova, 508.

CAMPUS PHYSICAL DEVELOPMENT

To keep us informed as to the effect of current state budgeting on campus construction, Dean Thomas has given us a list of the Capital Outlay Items for the 1967-68 year as submitted by the Governor for the approval of the Legislature. These items, already approved by the Chancellor's Office and the Department of Finance, were as follows:

1. Library-Classroom Building
   Construction Funds $4,589,000
2. College Commons (Cafeteria)
   Working Drawings 57,000
   Construction Funds 141,000
3. Corporation Yard
   Equipment-Phase II 147,000
4. Biological Sciences Building
   Equipment-Phase II 112,000
5. Physical Sciences Building
   Equipment 74,000
6. Gymnasium
   Equipment 49,000
7. Corporation Yard
   Working Drawings and Construction Funds 585,000
8. Utilities & Site Development

The Governor's Budget also included the submission of parking development for $116,000 and preliminary plans for our residence halls for $150,000; however, these two projects are non-state funded projects and will not be considered with the above named projects. Funds for these two projects will come from other sources, such as Federal Funds, etc.

Minor Capital Outlay projects included in the Governor's Budget are:

1. Biological Sciences Building
   Equipment-Expendable $22,100
   Items cont'd
Governor Reagan's budget proposes a support appropriation of $154 million for the California State Colleges, a cut of about 12% from the current year or 28% from the $213 million we have requested to accommodate an additional 17,000 students.

With the $18 million proposed additional revenue from a tuition charge, the total budget figure would rise to $172 million which is about what we anticipated three weeks ago when we temporarily suspended admissions for the summer and fall terms and set a ceiling on the number of professors we would hire.

We have been informed by the new state administration that the full $172 million will be provided regardless of the outcome of the tuition proposal and we feel that we must proceed with planning on that basis.

However, I hasten to add that I have been informed by members of a special committee of the Board of Trustees that the committee intends to press the State Legislature for our full budget request of $213 million, less any economies that we are able to make by the postponement of some new programs and the improvement of some present ones, as well as by any other means.

However, unless the governor's figure of $172 million is increased in the coming months, the prospect now is that, in order to maintain our present level of educational quality, we reluctantly will have to ask some 20,000 students to seek their education elsewhere.

This estimate assumes a total student body of 169,000, some 3,000 below the current enrollment at our 18 campuses and 20,000 under our formerly anticipated enrollment of 189,000 next year.

However, whether we will be able to educate even as many as 169,000 students next year will depend to a great extent on our ability to recruit a sufficient number of competent faculty members.

As a result of the governor's budget presentation, we are taking action toward relaxing our suspension of admissions by the end of this month proportionate to the level of state support. In this regard, we are asking the president of each State College to estimate the total number of students his college will be able to accept under the amount provided in the governor's budget and to prepare priorities for the order of acceptance of new students. In this preparation, we have advised the presidents that every effort should be made to fulfill our obligation to accept junior college transfers ahead of entering freshmen where the educational balance of the institution will not be...
adversely effected.

It should be emphasized that the State Colleges will strive to take every possible qualified student while protecting the quality of our academic programs. Along this line, we have scheduled a meeting February 22 with the State Department of Finance to present our arguments for a workload budget of at least $191 million which we feel is the minimum amount at which we could promise to accept every qualified student and still maintain our educational quality at or near the present level.

The State Colleges fully recognize the financial problems of the state and will continue to cooperate in the fullest toward their solution. We will make every effort to effect further economies but I must caution that the achievement of substantial savings appears extremely unlikely in view of the already limited level of support.

---

**SB state college escapes major cuts**

SAN BERNARDINO—California State College at San Bernardino will get $5,840,000 in construction money in 1967-68 under the budget submitted this week by Governor Reagan.

Although the capital outlay budget for the State College System as a whole was reduced by $44,695,948 from that of the current year, San Bernardino State lost only three small items from the budget as approved in the fall by the trustees, with negligible delay in the construction program.

**THE ITEMS** approved are topped by the construction money for the library-classroom building, $4,589,000. Corporation yard construction, $141,000 was approved.

Dr. Joseph K. Thomas, executive dean of the college, said the State Board of Public Works approved working drawings for both of these only last Monday.

Other items on the approved list are: equipment for the biological sciences building, $147,000; equipment for physical sciences building, $112,000; utilities and site development, $385,000; parking, $116,000, and plans for residence halls, $150,000.

**THE LAST TWO** items come from self-liquidating loans rather than state funds.

The items not approved by the governor were $33,000 for working drawings for the college commons (including cafeteria), $74,000 for equipment for the physical education facilities and $49,000 for equipment for the corporation yard. Earlier delays, Dean Thomas said, made the last two items unnecessary in the coming fiscal year.

**Dumke, Smith Figures Differ On Funds for State Colleges**

SACRAMENTO (AP) — State Finance Director Gordon P. Smith said yesterday that California's state colleges apparently misunderstood how much money they can count on in Gov. Reagan's budget.

Colleges Chancellor Glenn S. Dumke said in Los Angeles earlier that "we have been informed by the new state administration" the 19 campuses would get $172 million whether or not tuition was approved.

Reagan proposes giving the colleges $154 million for operations in 1967-68 plus providing $18 million in tuition. The college trustees asked for $213 million.

Dumke said a special committee of the trustees "intends to press the state legislature for our full budget request ... We have scheduled a meeting Feb. 22 with the State Department of Finance to present our arguments for a workload budget of at least $191 million ..."

Smith confirmed the meeting date but said Dumke's statement about the $172 million was "maybe a mistake."

"We've made no promises or assurances on anything we've been asked," he said.

"We're in the midst of our discussion with all departments, including colleges and the university," he said. Smith said "a couple of preliminary discussions" have been held with Dumke.

The chancellor told the trustees last month that a $172 million budget would mean about 20,000 applicants for admission would have to be turned away.

"We are taking action toward relaxing our suspension of admissions by the level of state support," Dumke said. He explained he is asking college presidents to determine how many students they can accept under Reagan's budget and to prepare priorities for taking new students.

Dumke froze admissions last month after Reagan announced his higher education budget cuts. Former President Clark Kerr of the University of California took similar action but was overruled by UC regents. Kerr was fired at the same meeting.

Dumke said the colleges would try hard to economize but "the achievement of substantial savings appears extremely unlikely in view of the already limited level of support."
