ON SOCIAL RESPONSIBILITY

by Morley D. Glicken, D.S.W.
Professor and Director
Department of Social Work

In out of my professional life has been spent working with and writing about the end result of that has been the nature of divorce to people in our organizations and institutions. The son of a labor organizer in North Dakota, I've come to terms with the spectre of bright and capable people whose spirits were broken by repetitious and mundane work. Because the work place created such a sense of dole endarkness, alcoholism was epidemic, and the broken dreams of otherwise talented men and women characterized my early view of the workplace.

At the same time my father, a Russian immigrant deeply antagonistic toward communism or strong government intervention in people's lives, made his position into a bully pulpit in support of America. The words of my youth, beautiful to the tongue, were: freedom...democracy...opportunity.

It is entirely predictable that his sons would become a social worker. The gentle, unobtrusive way of my profession appealed to his sense of change as a process — gradual, with the support of the majority and within the context of the democratic way. He would have liked the notion of a bully pulpit and the American belief that people in a position to speak out against the ills of society have an obligation to do so.

And largely because of his example, I have come to the ex citing position of directing a new graduate social work program, one of only 100 in the country. Our mission and the way we achieve it are an extension of my father's belief that we have an obligation to correct ills when we see them no matter how unpopular our positions might be in the public arena.

And so it is that our new program looks at its surroundings in an attempt to gear our program to local needs and we are deeply troubled by what we see: an environment so polluted that much of our groundwater is contaminated, air pollution so severe that almost half the days of the year are below clean air standards, a growing number of poor people without hope who intern sify the already severe social ills of our society and strain our resources. Yet worst of all, we see a society turned inward, openly antagonistic to a need to roll up our sleeves and get on with the hard work necessary to put our house in order.

We see the ugly spectre of racial, religious and ethnic bigotry and the rise of hate groups. We see a growing mentality that blames those most in need of our help for their condition in life, one that is hostile to their sorrow and despair. We see economic deprivation and racism so ingrained that it robs large seg ments of our people of their optimism. And we see such discrimination in the allocation and availability of educational and medical resources that those who must need our help are assuredly destined not to get it.

And yet we also are aware of the volunteer and public efforts to right our problems. And they are extraordinary in our area. Our accrediting body site visitor, a nationally known social worker, had never seen such a wealth of riches in terms of extraordinary social agencies. We have a corps of social agency executives as forward looking and creative as any in the country. And we have a small strained university completely out of its element in terms of necessary resources to establish an M.S.W. program which, nonetheless, has kept its promise to the poor, the disenfranchised, the beleaguered and the deeply troubled in our community by digging deep into its limited pocket so that we might establish a program. And because our program is here to train workers for understaffed social agencies in our area, it is an effort with tangible meaning for our daily lives.

Because, make no mistake about it...poverty, racial discrimination and economic depriva tion touch each of us through the despair of the growing mass of our neighbors and fellow citizens who turn to drugs, random violence and abuse to children when those with broken spirits aren't socialized to be productive, employed and independent. We hope that you will support our efforts and sense our concern. We are, after all, in the broadest sense a community tied together or split apart by our commitment to help those who are in no position to help them selves. It is therefore with pride and a deep desire to work with you that I share our excitement and enthusiasm for a less troubled and more caring society. I am encouraged by our commit ment to train the best social workers possible to help our communities, to bring back to the public arena.

And so it is that our new program looks at its surroundings in an attempt to gear our program to local needs and we are deeply troubled by what we see: an environment so polluted that much of our groundwater is contaminated, air pollution so severe that almost half the days of the year are below clean air standards, a growing number of poor people without hope who intern sify the already severe social ills of our society and strain our resources. Yet worst of all, we see a society turned inward, openly antagonistic to a need to roll up our sleeves and get on with the hard work necessary to put our house in order.

We see the ugly spectre of racial, religious and ethnic bigotry and the rise of hate groups. We see a growing mentality that blames those most in need of our help for their condition in life, one that is hostile to their sorrow and despair. We see economic deprivation and racism so ingrained that it robs large segments of our people of their optimism. And we see such discrimination in the allocation and availability of educational and medical resources that those who must need our help are assuredly destined not to get it.

And yet we also are aware of the volunteer and public efforts to right our problems. And they are extraordinary in our area. Our accrediting body site visitor, a nationally known social worker, had never seen such a wealth of riches in terms of extraordinary social agencies. We have a corps of social agency executives as forward looking and creative as any in the country. And we have a small strained university completely out of its element in terms of necessary resources to establish an M.S.W. program which, nonetheless, has kept its promise to the poor, the disenfranchised, the beleaguered and the deeply troubled in our community by digging deep into its limited pocket so that we might establish a program. And because our program is here to train workers for understaffed social agencies in our area, it is an effort with tangible meaning for our daily lives.

Because, make no mistake about it...poverty, racial discrimination and economic deprivation touch each of us through the despair of the growing mass of our neighbors and fellow citizens who turn to drugs, random violence and abuse to children when those with broken spirits aren't socialized to be productive, employed and independent. We hope that you will support our efforts and sense our concern. We are, after all, in the broadest sense a community tied together or split apart by our commitment to help those who are in no position to help them selves. It is therefore with pride and a deep desire to work with you that I share our excitement and enthusiasm for a less troubled and more caring society. I am encouraged by our commitment to train the best social workers possible to help our communities, to bring back to the public arena.
Cal State to Benefit from Stellar Affiliations of New Art Professor

by Cynthia Pringle
Director of Public Affairs

The Art Department at Cal State in San Bernardino is already enjoying the recognition that comes with the appointment of a new art professor, who is confident that the university will be the genesis of a project that will bring the San Bernardino campus national prominence. The new professor, Professor George McGinnis, has been selected to head the design program at Cal State, replacing the retiring Professor Rita Shalchi, who has served the university for the past five years and a half. McGinnis comes to Cal State from the University of Michigan in Ann Arbor, where he has taught courses in graphic design, photography, and art history for the past five years. He is currently working on a major project involving the design of a new campus for the university.

Professor McGinnis is well known for his work in the field of graphic design, and has been involved in numerous projects that have received critical acclaim. He has worked on projects for a variety of clients, including major corporations and universities, and has received numerous awards for his work. He is also a member of the American Institute of Graphic Arts, and has served on the board of directors for the organization.

The Art Department at Cal State has a long history of producing successful graduates who have gone on to become leaders in the field of graphic design. Many of these graduates have gone on to work for major corporations and universities, and have received numerous awards for their work. The department has a strong reputation for producing graduates who are well-versed in all aspects of graphic design, and are well-prepared for success in the field.

The appointment of Professor McGinnis is a significant step forward for the Art Department at Cal State, and is a testament to the university's commitment to providing its students with the highest quality education possible. The university is confident that the appointment of Professor McGinnis will help to chart a new course for the department, and that the students will benefit greatly from his expertise and experience.

Major Curriculum Changes Take Effect

The following changes in the academic program at Cal State University, San Bernardino, will take effect when the fall semester begins. These changes are the result of a comprehensive review of the curriculum, conducted by a team of faculty members, staff, and external experts.

1. The fall semester will be the first time that the four-year curriculum for all students will be implemented. This change is expected to improve the overall quality of the program and prepare students better for their future careers.

2. The college of Fine Arts will be renamed the College of the Arts. This change is intended to reflect the broader range of disciplines that are included in the college.

3. The college of Business Administration will be renamed the College of Business and Economics. This change is intended to reflect the broader range of disciplines that are included in the college.

4. The college of Education will be renamed the College of Education and Human Development. This change is intended to reflect the broader range of disciplines that are included in the college.

5. The college of Health Sciences and Human Services will be renamed the College of Health, Human Services, and Recreation. This change is intended to reflect the broader range of disciplines that are included in the college.

6. The college of Social Sciences will be renamed the College of Social Sciences and Humanities. This change is intended to reflect the broader range of disciplines that are included in the college.

7. The college of Arts and Letters will be renamed the College of Arts and Letters and Humanities. This change is intended to reflect the broader range of disciplines that are included in the college.

8. The college of Engineering and Technology will be renamed the College of Engineering, Technology, and Sustainability. This change is intended to reflect the broader range of disciplines that are included in the college.

9. The college of Agriculture, Natural Resources, and Human Services will be renamed the College of Agriculture, Natural Resources, and Human Services and Sustainability. This change is intended to reflect the broader range of disciplines that are included in the college.

10. The college of Liberal Arts will be renamed the College of Liberal Arts and Humanities. This change is intended to reflect the broader range of disciplines that are included in the college.

These changes are expected to improve the overall quality of the program and prepare students better for their future careers. The university is confident that these changes will be well-received by students and faculty, and that they will result in a more dynamic and innovative program.

The university is also committed to ensuring that all students have access to the resources they need to succeed. This includes providing financial aid, academic support, and other resources that are essential for success.

The university is committed to providing its students with the best possible education, and is confident that these changes will help to achieve that goal.

### Cal State Sports Earn National Recognition

#### Community Outreach Among Early Goals of New Athletic Director

David Suenram  
**by David Suenram**

David Suenram, director of athletics, at California State University, San Bernardino, said the university's young athletic program is on the threshold of a new era of growth and change during the 1989-90 season. "With the arrival of the university's first full-time athletic director, the athletic program has been infused with new vision and leadership." At the Coyotes' team signing symposium for the new year, Suenram said his goal was a "bright future."  

#### Intermar, marching band, basketball, softball, swimming, cross country, volleyball, soccer, tennis and baseball.

The growth and change that occurs in the near future will be driven by the need to prepare for competition at a higher level. Rather than adding sports, the next few years will see an emphasis on strengthening the existent sports, in terms of support, staff and facilities.

The development of off-campus support will receive significant emphasis during the next few years. The building of an active support group for CSUSB athletics, strong in quality and numbers, will be an essential part of constructing a strong athletic program that will be successful in competition with other Cal State institutions.

In addition to building an effective support group, the CSUSB Athletic Department will take advantage of other opportunities for growth. CSUSB athletics will be seeking opportunities to provide services.

Consistently strong sports programs require strong fiscal leadership. CSUSB is fortunate that a group of dedicated and well-prepared coaches are coaching the various Coyote athletic teams. As opportunities arise, the athletic department will continue to seek out coaches who can lead successful programs at the conference and national levels.

In addition to seeking out and hiring exceptional coaches, the CSUSB Athletic Department will be strengthened in other staff areas. In August, CSUSB hired Dave Beyer, formerly at Rancho Santiago College, to be the university's first full-time sports information director. Within the next year, the Athletic Department will need to add additional personnel to the department staff to take advantage of the many opportunities to develop support for the program.

At this point, the future for athletics at CSUSB looks very bright. The university's culture is growing and full of vitality. There is an aim of excitement around this growth and the Athletic Department staff believes there are important educational and community relations issues to develop. There is a unique opportunity to build a strong, well-conducted athletic program at CSUSB. This is the challenge for the next few years.

#### Cal State Sports Earn National Recognition

The fifth year of competition for most of Cal State's sports teams, CSUSB athletes and coaches continue to earn national recognition for the university's young athletic program. Although a championship eluded Cal State, many national rankings, regional playoffs and honors for individual athletes helped the university to realize a successful 1988-89 season.

Following the previous year's phenomenal success, the Coyotes' men's and women's sports enthusiastically anticipated the beginning of the 1988-89 season. The six fall sports generally can be relied upon to provide a good start to the Coyotes' athletic year and this season was no exception.

Women's volleyball qualified for their third straight NCAA Division III post-season bid. Both men's and women's soccer finished the fall season ranked fifth in the Western Region of NCAA Division III. In this their third debut season, the women's soccer team was under consideration for a playoff spot almost from the outset. Men's soccer teammates Kiko Mones and Jerry O'Hara were honored as First Team and Second Team All West Region selections, respectively. Water polo, with 16 wins and 6 losses, completed the Coyotes' season. Ever men's and women's basketball teams finished the season again proved to the Western Region that the Coyotes can run. Both squads finished sixth at the Western Regionals meet.

The Coyotes' men's and women's basketball teams have enjoyed ample media attention throughout their last two successful seasons, with the men's team deviating the opposition on route to their second straight 20-win season this past year.

In addition to playing before large crowds of the Coyote faithful at home games, Jim Dacey's squad hosted the first-ever post-season contest at home. The men's team packed almost 1,000 fans into the Cal State gym for the first round of the NCAA Division III West Regionals playoffs. Center Mark Warren again was selected All-American. All-time scoring leader Gerald Duncan landed an All-West Second Team berth.

Cal State's women's basketball team faced much stiffer competition this year after the previous season's rise to the playoffs. A final season ranking of fifth in the West capped the third season under Coach Jo Anne Bly. The other two winter sports, men's and women's swimming, in only their second year, ended up well over. 500 in the win/loss column in preparing for next year, two of their men's teams were narrowly missing qualifying for the national championship meet.

Coincidently, the women's tennis program on the All-West Regionals Team and those selections led to three Coyotes being named All-Americans. Shortstop Horacio Ramirez (First Team All-American), right fielder Yale Fowler (Second Team) and center fielder Rich Hartlin (Third Team) anchored a Coyote squad ranked in the top 10 of Division III for the entire season.

The CSUSB women's softball team was another spring sport that demanded national attention. A final season record of 25-16 kept the Coyotes contending for a regional playoff bid until the final week of the season. Despite not receiving a playoff spot, Coach Jo Anne Bly was successful in advancing three of her players to the All-West Regionals squad.

Men's and women's tennis en­countered a season of injuries and disappointing losses. The development of several key young players for both teams will precipitate the Spring season. The university's young athletic program will continue to seek out coaches who can lead successful programs in the future.

#### New Coaches Join Cal State Coyotes

Gary Schwartz of Montana State University brings seven years of NCAA Division I and II experience to the new season as Cal State's women's basketball coach this fall. He succeeds Jo Anne Bly, who resigned in June after three years with the team.

John Christie, a graduate of the College of William and Mary in Williamsburg, Va., will assume coaching responsibility for men's and women's swimming. He replaces Bruce Brown in Cal State's third year of competition in the sport.
Jordon Memorial Scholarship Benefits Future Law Student

Teaching with a major in mathematics has been the focus of a new Jordon Memorial Scholarship recently established by the San Bernardino law firm of Clayton, Savage, Nolan and Tilden. Jordan, who joined the law firm in 1947 and was one of its three original partners, had served on the Cal State Foundation Board for 18 years before his death this past February. The endowment fund in his name, a fund which will be supported by a $10,000 corpus donated by the firm, will provide scholarships for Cal State students who plan to practice law in the San Bernardino area.

"Eventually I want to practice corporate law," says Thomas, a 34-year-old Loma Linda resident. "Ever since high school I've been fascinated with law. I like the whole environment of the business sector and the workings of government financing." Thomas graduates in June 1990 and is considering several California universities as the next step in her pursuit of a law degree.

"We're glad she can benefit from the scholarship. She seems an outstanding young lady," says Phillip Savage, speaking on behalf of the law firm. "Because Don (Jordan) felt very strongly about the support of Cal State, we, as a firm, wanted to honor him by providing excellence in the practice of law in the San Bernardino area. We feel Don Jordan in our highest esteem and really felt he deserved to be memorialized."

Curriculum Blossoms with New Offerings this Fall

Three new graduate degree programs and an option for an existing degree are being introduced this fall as the university continues to expand its curriculum to meet the educational needs of the region. A master's in social work is also being introduced for school administrators to assist in their understanding on issues associated with staffing. A distinctive new offering in the commercial music and jazz studies department is the upper graduate degree program will help prepare musicians "to perform and write in the many styles that are found in the contemporary music scene. From folk to funk, concert to jazz, the challenges are endless and only those with well-rounded backgrounds will be ready to enter and successfully compete in this world of multimusical demands," he says.

Faculty on the Move

Social faculty will be teaching a producing research abroad during the upcoming academic year through the Fulbright Fellowship Program. Dr. Louise Burton (Education) will spend the fall in Japan surveying the special education needs of 40 students and their families. Dr. Howard Frederick (Communication) will travel to the University of Salzburg in Austria to teach as well as research regional broadcasting issues associated with Radio Free Europe in Munich, Germany.

Dr. Ger Negin (Education) will teach at the University of the West Indies during 1989-90 and help develop literacy programs for elementary and secondary schools. Dr. John Heerens (Sociology) will be lecturing at Tunghai University in Taichung, Taiwan.

Corporate Partnerships Courted

Training future teachers to assist school children in thinking creatively and critically by using computers was made easier earlier this year with a gift from Apple Computer. Apple helped introduce teaching credential students to technology assisted instruction with a donation of 10 Macintosh work stations valued at $22,000.

Nurturing this type of business-education partnerships is the aim of the university's new corporate relations program, reports Darrell Langford, director of development and coordinator of the program.

Corporate involvement at Cal State will help to enhance the university's state-assisted budget, broaden the academic program, and expand the world view of students, Langford says. Many university programs already are enriched by the contributions of several area businesses, including a growing number of companies whose gifts match employee donations to Cal State. The university seeks to increase that support to include contributions of services, equipment and other products, land, facilities, and executive expertise, she adds.

"Involvement in Cal State's projects will bring tangible rewards to companies, too," explains Langford. "Corporations benefit when they hire graduates who are well-trained and are interested in their company's welfare. The university will focus its initial efforts for corporate support among those businesses which currently employ Cal State graduates."

In return, Cal State can offer its corporate partners attractive benefits such as continuing educational opportunities for executives and employees, research facilities and other specialized training and consulting services.

Ethnic Minority Students Benefit — Eight underrepresented minority students will benefit this fall from the $5000 in scholarship funds contributed by long-time university supporter Nickolas Cosmides (BA '71). This is the second year in a row that the Redlands real estate developer has designated his donations for minority students.
Alumni Giving Reaches New Heights

"Yes, Cal State can count on my support this year." That's how over 1100 alumni responded when asked to help enrich the university's programs with a gift to the 1988-89 annual fund. Students calling from President Evans' conference room, talked with alumni across the country — some as far away as Black Mountain, North Carolina and Honolulu, Hawaii — to help bring in most of the $73,191 in alumni contributions.

Alumni gifts, along with cash and in-kind contributions from over 1300 faculty and staff, community friends, corporations and organizations, climbed to $460,694 during 1988-89.

Private contributions helped to meet many needs campuswide including student scholarships, instructional computer equipment, art exhibits, musical and theatrical performances and faculty research and development.

Highlights of the 1988-89 fund-raising effort appear in the university's Progress Report which also features the Honor Roll of Donors. University supporters, alumni association members and other friends will receive the Progress Report in the fall. Interested persons who are not among these groups may request a complimentary copy by contacting the Office of University Relations (714) 880-5004.

WAFC, Cal State Roots Go Far, Deep

Money still doesn't grow on trees, but it was indeed the simple planting of a few trees on a relatively bare Cal State, San Bernardino campus 20 years ago that has produced $80,000 in scholarship contributions from the Western Association of Food Chains (WAFC), making the organization the largest donor of scholarship funds to the university to date.

For the past six years contributions have been designated for the university by Jack Brown, a WAFC advisory board member, as well as chairman of the board, president and chief executive officer for Stater Bros. Markets based in Colton.

"My relationship with the university started (in part) from the planting of trees on the eastern portion of the campus in the late '60s," recalls Brown. He was one of the founding members of the Board of Councilors, a group of business leaders set up in 1969 to supply the college with expertise from the community. One of the board's tasks was to meet with students every month to discuss their academic needs.

"We're very proud of Cal State and where it's gone," says Brown. Cal State is one of 25 colleges receiving contributions from the 14-state WAFC, where 120 colleges compete for funds. At least four and as many as ten $1,000 scholarships are presented every year to Cal State students majoring in business.

The relationship with the WAFC has been "very consistent," says Dr. David Porter, dean of the School of Business and Public Administration.

"It's consistency that's one of the most important factors. We've been refining our selection process over the years" and choosing the most promising students, he adds.

Many of the recipients are minority students, says Porter. "But we're not just attracting award winners to the university. We're getting their peers, too. We have good numbers of students coming from areas such as the Coachella Valley. This is helping to establish a pattern of university attendance in these areas. And because these scholarships have been targeted toward minority students in business, it has helped them to see the opportunities."

Endowed Funds Make Lasting Contribution

Individuals and organizations thinking of making a contribution to the university may want to consider establishing a permanently endowed fund which will benefit a favorite cause at Cal State — forever.

Endowments are funds or property donated to the institution which serve as a source of long lasting income. Endowment funds are invested by the university in the Common Fund which is designed especially for institutions of higher education. The interest generated is used to fund a specific project or activity designated by the donor. Common uses of endowment funds include student scholarships, faculty positions, libraries and research facilities. Many donors prefer to establish endowments in their name or in honor of a friend or relative.

The minimum amount of an endowed gift at Cal State is an initial contribution of $2,000 to which funds may be added at any time. Endowments can be created through a number of ways including wills, gifts of property, cash or pledges.

For more information on establishing an endowed fund, please contact the Office of University Relations, (714) 880-5004.

Generous Alumni Increase Scholarship Awards

Spurred by the beneficence of two generous alumni who wish to remain anonymous, CSUSB's Alumni Association dispersed $800 more in scholarships this year for a total of $2000 in awards. Recipients for the 1989-90 academic year include incoming freshmen Donnyl Clifford from Beaumont, Amy To from Norco and Lien Tran of Redlands; continuing students Sheila Gray and Lori Keepers, and Robin Johnson, who is a graduate student.
From cultural and performing arts events to athletic contests, Cal State, San Bernardino offers a variety of family entertainment and activities for the community.

**FALL CALENDAR**

**OCTOBER**

4-27 Art Exhibit. Paper and sculptural constructions created by Professor Don Woodford during his recent sabbatical studies in the British Isles. University Art Gallery, Visual Arts Building. Gallery hours: 9 a.m. to 4 p.m., Monday through Friday. Opening reception at 7 p.m., October 4. Free. For more information on possible evening hours call (714) 880-5810.

11 Talk. Pulitzer-Prize winning author Alex Haley will address how to “Find the Good … and Praise It.” 7:30 p.m. Gymnasium. General admission $5. Parking included. Complimentary passes available at ASI Box Office, Student Union, for students, faculty, staff with identification and Alumni Association members. For more information (714) 880-5933 or (714) 880-5054.

12 Talk. The process of genetic counseling will be addressed by Olga Kalbertatter, newborn screening coordinator genetic counselor at Loma Linda Medical Center. 6 p.m., Eucalyptus Room, Commons. Free. For more information (714) 880-5054.

15 Men's Soccer. San Diego State University, 2 p.m. Occidental vs. Cal Lutheran, 4 p.m. Free. For information (714) 880-5054.

16 Talk. Dr. Muneeb Joshi, director general of the Archaeological Survey of India and a well-known scholar in his field, will speak on “Women as the Savior: Discourse on Tantra.” 7 p.m., Recital Hall, Creative Arts Building. Free. For more information (714) 880-5054.

17 Talk. A slide presentation and open forum on “High Technology and Human Performance” by Dr. Gordon Arel, an internationally known expert on computer applications to sport and a member of the 1960 and 1964 Israeli Olympic teams. 3 p.m., Multipurpose Room, Student Union. Free. For more information (714) 880-5054.

17 Talk. Dr. Mustafa Gahal, Department of Veterinary Microbiology and Preventive Medicine at Iowa State University, will speak on “Biological and Bioclimatic Effects of Aflatoxins on the Mammalian Host.” 6 p.m., Room 129, Biology Building. Free. For more information (714) 880-5024.

17 Volleyball. Cal Poly, Pomona. 7:30 p.m. For information (714) 880-5011.

17 Talk. A slide presentation and open forum on “Health Care, Environment, and Design” by Dr. Hana Ayala, a nationally known English artist and very active in the public art movement in the United States, will speak on public art and ways of securing these commissions. Noon, Room 110, Visual Arts Building. Free. For information (714) 880-5054.

19 Talk. A slide presentation and open forum on “The Enchanted Room” by Maurya Simon, a rising young Southern California poet and author of “The Enchanted Room.” 7 p.m., Sycamore Room, Commons. Free. For information (714) 880-5054.

19 Talk. Gastrointestinal tube feeding will be discussed by Julie Scouza, a pediatric discharge nurse at Loma Linda Medical Center. 6 p.m., Eucalyptus Room, Commons. For information (714) 880-5054.

19 Talk. "The Life and Work of W.E.B. DuBois" will be addressed by Dr. Herbert Aptheker, who is an internationally recognized expert on the "scholar-activist." 7:30 p.m., Sycamore Room, Commons. Free. For information (714) 880-5054.

21 Water Polo, CSU, Long Beach (JV). 10 a.m. For information (714) 880-5011.

24 Talk. Dr. James F. Miles, president of Coyo and the California Telephonic Association, will conduct a class on “Strategic Planning: A View from the Top.” 10 a.m., Sycamore Room, Commons. Free. For information (714) 880-5054.

24 Talk. "Environmental Design for International Tourism (Landscape Ecology and Design)” by Dr. Hans Ayala, a professor of social ecology affiliated with the International Union for the Conservation of Nature and Natural Resources. 6 p.m., Room 129, Biology Building. Free. For information (714) 880-5054.

25 Volleyball. Azusa Pacific, 7:30 p.m. For information (714) 880-5011.

We recommend that you call ahead to confirm a scheduled event in the event that changes occur that are beyond our control.

The Public Affairs Office
A proud farewell to the 1989 graduates not returning this fall... may your next steps lead you on to pathways of great service and success.
Hodde Clan Makes Cal State a Tradition
by Samuel Romero
Public Affairs Assistant

Two hours before commencement, outstanding undergraduate Rebecca Hodde (second from left), her youngest sister, Pamela, and their parents, John and Barbara Hodde, attend a reception held for CSI Chancellor W. Ann Reynolds.

The fact that Rebecca Hodde decided to attend the same university from which her two older sisters would graduate was more a natural coincidence than a product of her family's tradi­tion. Essentially, as Hodde con­sidered the academic program at California State University, not only did she walk along the campus looking for related internship positions, she remembers that "it just worked for her.

Her parents had predicted how well. In June, the soft-spoken, 22-year-old received her bachelor's in political science and economics, graduated with highest honors and was named the university's 1989 out­standing undergraduate.

The Hodde sisters' decision to attend Cal State are largely products of lessons from home. "My parents taught all of us to make sure if it was our deci­sion," says Hodde. "I think we all made this choice independent of the fact that other people in the family were going here. We're a close family, but we're not de­pendent on each other to make those kinds of decisions."

Born in Korea where her parents had served as mission ariees for several years, Hodde and her family have lived in Moreno Valley since 1979. Hodde's sister, Deborah, now married, graduated from the university in 1986, while her sister Beth graduated in 1987.

Her younger sister, Pam, will return to the university as a sophomore this fall, which is when Pam's twin brother Mark will begin attending classes.

It was in Korea, Hodde believes, that the seeds of her interest in international relations were planted and later cultivated by a trip to Moscow for Understanding, an international student exchange organization. In pursuing her dream of becoming an ambassador, Hodde participated in the university's Model United Nations Program and accepted a non-campus­related internship offered by the Washington, D.C. office of Congres­sman Al McCandless during the summer of 1987. The 10­week internship was a positive experience, says Hodde, and when she returned home she was

Let Your Fingers do the Walking
Finding an old Cal State colleague may soon be easier with some "directory assistance."

The Alumni Affairs Office is about to undertake the research necessary to publish its first directory of university alumni, who currently number nearly 170,000. Initially, directories of Harris Publishing Company, alumni will be queried in early fall at Cal State. Her desire to "help society in a positive way" through the work of her father, a Lutheran minister, the entire family has become aware of the people around us and the needs of society," says Hodde. While Hodde hopes to attend graduate school someday, she is "excited" about beginning work on her teaching credential this fall at Cal State. Her desire to "sed society in a positive way" without compromising what she believes in is her goal.

"I'll be happy at 60 or 70 years old for small steps toward that ideal," she says. "You need to have an ideal to guide you along. Otherwise," she adds, if you settle for less than your ideal, "you'd be shooting for less."

It's a Small World
Somewhere out there, there are 14 who also believe it: Denise Al­umni Association with whom we have lost contact because we do not have a forwarding address. If you know the whereabouts of any of the following folks, please call the Alumni Affairs Office at (714) 880-5008.

News of Note for Alumni

Consider a career change? We'll determine your "market value." Or are you new in the job market? If you've answered "yes" to any of the above, then the Alumni Career Event sponsored by The California State University Alumni Council may be just for you. Four free career fairs will be held throughout California between Oct. 25 and Nov. 6 to give CSU alumni the chance to meet repre­sentatives from more than 50 countries and to attend special workshops.

The Southern California career sessions will be held Oct. 31 at the Panamint Hilton and Nov. 6 at the Doubletree Hotel in the City of Orange. Both events will run from 1 to 5:30 p.m. More infor­mation is available through the Alumni Affairs Office, (714) 880-5008.

A reunion for all alumni who have attended women's in the California State University Intern­ational Programs will be held Oct. 14 from 6 to 8 p.m. at the Concordia Argonaut Club in San Francisco. Admission is $20 per person.

As the second annual function of its type, the reunion is de­signed to bring together alumni, former resident directors, former and present campus coordinators, former and present academic council members and staff from the CSU Office of International Programs. More information is available at (213) 590-5655 or through the Interm­national Programs coordinator at your alma mater.

One of the university's newest alumni, Susan Cloud of German­town, Tennessee, deserves a "well done." She was a member of the 1989 Newcom­ment program, and she graduated in June with a B.A. in liberal studies.
1967
Judy Jones, B.A. history, is an early childhood education specialist. She resides in Mission Viejo.

1970
Barbara A. Bolanos, B.A. sociology, is a division counselor at the College of the Desert in Palm Desert.

Richard Leeson, B.A. English, is a professor of English at California State University, Fullerton. He was Phi Beta Kappa at Yankaye State University in Kansas.

Lawrence J. Winking, B.A. sociology, runs his own law practice in San Bernardino.

1972
Jack A. Bowles, B.A. social sciences, is the civilian personnel director for the Marine Corps Bases western area. Working out of the Marine Corps Air Station in El Toro, he resides in San Juan Capistrano.

Harry L. Christian, B.A. English, enjoys playing bridge, working on his motorcycles as a hobby. Now retired, he also serves as a MENSA proctor and makes his home in Riverside.

Kent Paxton, B.A. English, a sociology 1978, has been appointed Children's Center Director for the Children's Network Policy Council, a nonprofit group which oversees the coordination of San Bernardino County services to children. Paxton also is included on the program of an annual report on children at risk of abuse and assisting the council in the development of a countywide plan for children's services.

Jeanne S. Thornton, B.A. sociology, a deputy probation officer for Riverside County. A graduate student in Cal State's criminal justice program, she makes her home in Bloomington.

Lynn Hirtz, B.A. political science, was honored by the Radio Exchange Club in April for her outstanding service in the community. In addition to chairing the city's planning commission, Hirtz is a member of many community groups and owner/operator of Dave's Lawnmower Shop and Radio Power Equipment.

Mark D. King, B.A. psychology, was awarded a $500 grant from his employer, The Prudential Insurance Company, to continue his work with Missoula Indian Alcohol and Drug Services. He resides in Rialto.

Richard W. Hynes, B.A. administration, 1974, is a certified management consultant and a member of the Institute of Management Consultants. He is also a venture capital business in North Carolina.

Theda McGee, B.A. sociology, B.A. education 1989, is the new principal for Grand Terrace Elementary School in the Colton Joint Unified School District. Previously, she was a resource teacher at Zimmerman Elementary School in Bloomington, where she also has taught at the fourth, fifth, and sixth grade levels. Mrs. McGee and her husband, Sam, live in Redlands and have two mated and two grandchildren.

Floyd Rasmussen, B.A. anthropology, is moving to Stuttgart, Ger­many, to be a management analyst for the Department of the Army. He expects to be stationed there for at least three years. He will receive his M.P.A. in December 1989 from Troy State University in Alabama.

Richard P. Morrall, B.A. education, is a media director and librarian in the Colton Joint Unified School District. He makes his home in Riverside.

Patrick J. Strohecker, B.A. social sciences, is a claims representative for the Social Security Administration office in Riverside. She lives in Rialto.

Laurette S. Zacharias, B.A. social sciences, is an expense report clerk for Paramount Pictures Corp. in Los Angeles.

1975
Juan Almanza, B.A. social sciences, is a social worker at the Irwindale Regional Center in Colton. He and his wife, Rebecca, reside in Colton.

Mary Burgess, B.A. English and history, is co-owner and publisher of The Report Press, which specializes in printing and distributing books to the library and academic market. Burgess also is a licensed California real estate broker. Her husband, Michael, is a librarian at Cal State.

Theodore Cary, B.A. administration, 1978, is a personnel supervisor for the City of San Bernardino. He retired from the U.S. Air Force with the rank of major in 1973. He lives in Rialto.

1976
Annie Laura Ashley, B.A. social sciences, is a teacher for the Rio Hondo Unified School District. She and her husband, Rebecca, reside in Colton. She retired in San Bernardino.

Lawrence Daniels, B.A. social sciences, M.A. education 1980, has been honored as the winner of the annual award for the third quarter of the fiscal year 1989 by Chapter 253 of the Federal Commissioner's Association. The award puts him in the running for possible distinction as the group's supervisor or manager of the year. Selected from the variety of winners, Daniels is employed at Norton Air Force Base in San Bernardino. In addition, Daniels was nominated for the J.C. Penney Golden Rule award which will be bestowed upon a volunteer in the community. As an alum in participant in the university's graduate program in public administration, Daniels was among the finalists for Penney's new award program in August.

Dave Maynard, B.A. chemistry, is in the doctoral program at UC Riverside after receiving his M.A. in chemistry from Cal State, Long Beach.

1977
Fernellyn Brown, B.S.N., is a senior public health nurse for the San Bernardino County Health Department, doing HIV education for county employees. She also is a student in the M.P.A. program at Cal State.

Frank Farsad, B.A. biology, is a teacher at Rancho Alamitos High School in Garden Grove.

Bonita Underwood Hubers, B.S.N., is employed in nurse anesthetia at Kaiser Permanent Medical Center in Fontana.

Pamela Newcomb, B.A. economics and geography, is the first vice president at the newly formed branch at Barstow, Elyger, Hild and Richards. She and her husband, Charles, cruised the Nile River and saw Cairo on a tour of Egypt in December. The Newcombs make their home in Oceanside.

Diane (Newton) Poarch, B.A. liberal studies, is a first grade teacher at the Colton Joint Unified School District. She and her husband, Gary, make their home in Rialto.

1978
Jose A. Duran, M.B.A., is chairman of the Business Department and an associate professor of marketing at Riverside Community College. He and his wife, Selena, reside in Moreno Valley.

Oliveve Lui, B.A. art, is a general sales manager for Culligan Water in Riverside. He and his wife, Janice, make their home in San Bernardino.

Mary Martin, B.A. English, is a teacher in the Heisera Unified School District and she resides in Apple Valley.

Jerome C. Ringhofer, B.A. criminal justice, is a deputy chief for the San Bernardino County Sheriff's Department, responsible for the special criminal command of sheriff's stations in Barstow, Morongo Basin, Needles and Twentynine Palms. He also is involved in many community operations in Trona, Parker Dam, Lake Havasu Landing, Baker and Twentynine Palms. A 20 year veteran with the Sheriff's Department, Ringhofer and his wife, Margie have three children and reside in the Valley of Enchantment.

1979
Rodney A. Bernat, B.A. public accounting, received his CPA certification in April 1990. He is a partner in the consulting firm, Accounting & Information Managers, located in San Bernardino, where he lives with his wife, Selena.

Mildred L. McKim, B.A. education, was selected to receive the San Bernardino League of Women Voters Citizens of Achievement Award this year. Nominated for the honor by the American Association of University Women, McKim was honored Sept. 16 during a chamber reception at the Ramada Inn.

Mark C. Peters, B.A. theatre arts, is a treasurer and box office manager for the Los Angeles Opera and National Theatre, San Francisco.

Cheryl Roberts, B.A. education, is a tutor and computer coordinator for Early Childhood Studies at Riverside Community College.

Rosalind "Liz" (Schmitz) Vaccarello, B.A. biology, is a member of the San Bernardino County Medical Society and the San Bernardino County Medical Society. She also is a board member of the San Bernardino County Medical Society's Foundation.

1980
Betsy Bidwell-Ilenfritz, B.A. English and Education, is a graduate of the University of California, San Diego. She is a sixth grade teacher in the Colton Joint Unified School District and her husband, Thomas, resides in Colton.

Ronald Hodson, B.A. management science, is a senior management researcher in the consumer products division of Burrage-Wellicome Co., which is a pharmaceutical manufacturing and development business in North Carolina. A resident of Raleigh, Hodson also has earned a graduate degree in applied statistics and marketing research from Louisiana State University.

David Kovitz, B.A. art, is an instructor at Chaffey College and a welder for Richards Metal Fabrication, Inc., in Redlands. He makes his home in Bryn Mawr.

Hona Barkley Matthews, B.A. psychology, currently is doing freelance public relations work while she works to finish a master's degree in speech communication and public relations management in December 1989. She and her husband, Paul, live in Houston, Texas.

Cathy Pierce, B.A. chemistry, lives in Riverside where she is employed as a laboratory technician with the Eastern Municipal Water District.

Steven Richers, B.S.N., is the ambulatory care quality assurance coordinator at Kaiser Permanent Medical Center in Fontana.
Joel W. Wake, B.A., is a management specialist at the Ballistics Systems Division at Norton Air Force Base.

Jeff Griffith, M.F.A., education, is a teacher in the Fontana Unified School District.

Stephanie Ann Hom, B.S.N., is a part-time faculty member and a coordinator for the Statewide Nursing Program. She earned her M.S.N. from Loma Linda University in 1986.

Ronneet Lev, B.A., chemistry, has earned an M.D. from the Texas Health Science Center at San Antonio this year. Lev will conduct a transitional internship at the San Bernardino Medical Center and complete a residency in San Diego Medical Center.

Angela (Lavin) Maden, B.A., political science, and her husband, Michael, are the parents of a newborn boy, Thomas Reno Alexander Mades, who came into the world Aug. 21.

Ken Middleton, B.A., history, is a communications technician for AT&T in San Bernardino. He and his wife, Loretta, an administrator in the San Bernardino City School District, reside in Fontana.

Tami Wilk, B.A., chemistry, is a research chemist with the Deutsch Company in Banning.

1984

Mary-Frances Breitstein, B.A., business administration, M.B.A., is a marketing business development officer for Riverside National Bank. She makes her home in Redlands.

Mark Floyd, B.S., computer science, is a systems analyst for General Telephone in Thousands Oaks.

Arleene Fort, B.A., liberal studies, married Michael Proto in a May 21 ceremony at the Ambassador Baptist Church in Fontana. She is a teacher in the Fontana Unified School District and her husband is a Norfolk Pipe Line Co. employee.

Leonard Houser, B.A., chemistry, is quality control supervisor at Center Brands, Inc., in Riverside. She also is working on a high school teaching credential.

Tamura Teague-Forget, B.A., liberal studies, married Mark Floyd. She and her husband, Paul, live in Highland.

1986

John Diebold, Jr., B.A., history, is a branch manager for Enterprise Rent A Car Leasing in Corona. He and his wife, Jan, live in Rancho Cucamonga.

John Ott, B.S., biology, is a seventh-grade teacher at Badger Springs School in the Moreno Valley District. He also is a graduate student in the environmental education program at Cal State.

Katherine (Gorian) Smith, M.B.A., is a vice president for Shearson, Lehman, Hutton Mortgage in Highland. She and her husband, David, live in San Bernardino.

Paul Scott Turnbull, M.B.A., is an owner/broker at So Easy Realty in San Bernardino.

1987

The "hustle and bustle" of the Cal State, San Bernardino campus is becoming increasingly evident each year. As the university enrolls nearly 10,500 students this fall, the burgeoning campus population is reflective of the university's San Bernardino-Riverside County service area, which is the fastest growing region in the nation.
