EMERGENCY PROCEDURES ARE REVISED

When students must be located quickly due to an off-campus emergency, the Dean of Students' office is now responsible for locating them.

All offices which may receive emergency phone calls for students should be aware of this procedure. The Dean of Students' office, telephone extension 211, has a file of each student's class schedule. After 5 p.m. the College Police will contact students who must be informed of an emergency.

In case of accident or other emergency on campus, there is a revised procedure for telephoning for assistance. From 8 a.m. to 5 p.m. weekdays, if the relevant department (such as Campus Police or the Health Center) cannot be reached by telephone immediately, the College switchboard operator will transfer the emergency message. At other times the Physical Plant (TU7-6314) will take the call.
